Description installation of a barricade device on an interior door in a school building					

Assumptions Used in Arriving at Fiscal Estimate

The bill also provides that, before installing a barricade device in a school building, a school must obtain approval in writing from the local fire department and local law enforcement agency with jurisdiction over the school building. At this time DSPS is not able to provide an estimate of what such an approval process may include, nor what fiscal impact it would have on any local fire department or local law enforcement agency.

The bill requires that a school safety plan also must include guidelines for the use of any barricade device installed in a school building or facility and that school safety plan training must include training on the use of any barricade device installed in a school building or facility. At this time DSPS is not able to provide an estimate of the fiscal impact of including guidelines and training on the use of such devices.

No state fiscal effect.
