Fiscal Estimate Narratives
DOR 1/27/2020

LRB Number 19-4702/2	Introduction Number AB-0753	Estimate Type Original
Description modifications to the tax treatment of tax-option corporations that elect to pay tax at the entity level		

Assumptions Used in Arriving at Fiscal Estimate

The bill makes several changes for tax option corporations. Under the bill, these corporations can exclude 30% of the gains realized from the sale of assets held for more than a year and the sale of all assets acquired from a decedent, and 60% of the gains realized from the sale of farm assets held for more than one year and the sale of all farm assets acquired from a decedent. The bill also limits the excess capital loss deduction from \$3,000 to \$500, requires tax payers with less than \$250,000 in net income to pay interest on the underpayment of taxes, and requires tax payers to make quarterly estimated payments according to the standards applicable to tax payers with net income of less than \$250,000.

Fiscal Estimate

After a review of tax year 2018 returns that made the election to pay at the entity level, the bill will decrease revenues by \$42,000 in FY2020, \$171,000 in FY2021, and \$185,000 in FY2022.

In addition to the fiscal effect, there will be a minimal decrease to the Economic Development Surcharge.

Additionally, the changes introduced in the bill will result in a one-time cost of \$10,500 due to programming.

Long-Range Fiscal Implications
