## Fiscal Estimate Narratives

DATCP 5/2/2019

LRB Number	<b>19-2812/1</b>	Introduction Number	<b>SB-179</b>	Estimate Type	<b>Original</b>
<b>Description</b> displaying gas taxes on gas pumps					

### Assumptions Used in Arriving at Fiscal Estimate

This bill requires a state or municipal weights and measures inspector or sealer, when inspecting a gas pump, to place a sticker on the pump that shows the federal and state gas tax rates per gallon of gas. The bill requires the Department of Agriculture, Trade and Consumer Protection to develop a sticker for this purpose and to distribute stickers to all state and municipal weights and measures inspectors and sealers who inspect gas pumps. DATCP is also required to update and redistribute the stickers when the federal or state gas tax rate changes.

The Department currently places inspection stickers on pumps that state the date of inspection and complaint contact information. The station owners and operators affix the stickers on pumps required by ATCP 93 and ATCP 94 of the Wisconsin Administrative Code (octane content, ethanol content, identity of fuel oxygenate, emergency stop location information, et al.). Placement of the stickers create unique circumstances that could add to the length of an inspection visit.

Gas pumps in cities and villages receive annual visits on average. Pumps outside cities and villages are checked about once every two years. There are no provisions in the bill that indicate how frequently stickers would need to be changed or what occurs if a sticker requires replacement between inspections. Since the Department does not collect or receive federal or state gas taxes, it will rely on the Department of Transportation to alert the Department when changes have been made to federal or state gas taxes, so that new stickers may be created.

For these reasons, the Department would likely develop and order 40,000 stickers initially at a cost of approximately \$1,000. The state would provide stickers to the city sealers. Therefore, they would absorb no costs for stickers, but they will require additional time on visits and training regarding the stickers. The Department and city sealers would begin to place the stickers on July 1, 2020, when the law would go into effect.

### Long-Range Fiscal Implications
