

Fiscal Estimate Narratives

DPI 6/11/2019

LRB Number	19-2176/1	Introduction Number	SB-258	Estimate Type	Original
Description creating a grant program to support after-school and out-of-school-time programs, granting rule-making authority, and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a grant program under which the Department of Public Instruction may award grants to school boards, operators of independent charter schools, governing bodies of private schools, or nonprofit organizations that meet certain criteria to support high-quality after-school programs and out-of-school-time programs.

Under this bill DPI must award grants in amounts of not less than \$50,000 and not more than \$100,000, and each grant recipient must provide matching funds in an amount equal to at least 25 percent of the amount of the grant awarded. Among other requirements, a grant recipient must provide consistent and reliable after-school programming for at least 2.5 hours each school day. In addition, the grant recipient may provide other out-of-school-time programs, including summer programs.

Local: Indeterminate (Potential for increased revenues)

State: This bill creates a new annual appropriation providing \$20,000,000 GPR in FY21 for the purpose of awarding grants to support high-quality after-school programs and out-of-school-time programs.

The Department would incur additional operating costs to develop the grant application and grant award processes; provide information to potential applicants and technical assistance to grant recipients; and to prepare and submit an annual report for the grant program. The bill does not provide additional funding for those administrative costs. The estimated costs associated with FTE are detailed in the worksheet (\$96,200 GPR annually for 1.0 FTE position, including projected costs of salary, fringe benefits, and associated fixed costs and supplies/services).

Long-Range Fiscal Implications

Assuming continued interest in the grant program by eligible entities, continued annual expenditures of \$20 million GPR.
