AN ACT to create 97.303 of the statutes; relating to: prohibiting food and beverages from being served in foam polystyrene packaging and providing a penalty.

Analysis by the Legislative Reference Bureau

This bill prohibits an operator of a retail food business from serving food and beverages in foam polystyrene packaging. The prohibition under the bill does not apply to either of the following: 1) containers enclosing food or beverage that have been filled and sealed outside the state; or 2) containers used for packaging raw meat, poultry, fish, or seafood to be consumed off the premises where sold. Under the bill, the Department of Agriculture, Trade and Consumer Protection may grant a waiver from the prohibition lasting up to one year after the bill takes effect to a retail food business operator. DATCP may grant a waiver under the bill if doing so is necessary to avoid an undue hardship or practical difficulty for a retail food business operator that is not common among similarly situated retail food business operators.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
