Analysis by the Legislative Reference Bureau

This bill makes the following changes to the registration and practice of interior
designers:

1. Requires a person to pass an interior design examination administered by
an organization approved by the Department of Safety and Professional Services in
order to be granted an initial certificate of registration as an interior designer by
DSPS. Under current law, a person must pass an interior design examination
administered by a national organization that establishes standards for the interior
design profession and that is recognized by DSPS or an examination conducted or
approved by DSPS that is substantially similar.

2. Eliminates several requirements for obtaining an initial registration as an
interior designer, including the requirement under current law to complete an
interior design education program of a certain length of time and have certain
amounts of practical experience in interior design.
3. Makes various changes to the scope of interior design.
4. Requires DSPS to promulgate rules establishing specifications for interior design seals and stamps and requires a registered interior designer to impress the seal or stamp on certain documents prepared by the interior designer.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
