AN ACT to amend 71.07 (9e) (aj) (intro.); and to create 71.07 (9e) (ak) of the statutes; relating to: changing the rate of the earned income tax credit.

Analysis by the Legislative Reference Bureau

Under this bill, for taxable years beginning after 2019, an individual who is eligible to claim the federal Earned Income Tax Credit may claim as a credit against Wisconsin taxes due 34 percent of the amount that the taxpayer may claim under the federal credit, regardless of the number of children the individual has. Currently, the percentage of the federal EITC that an individual may claim for Wisconsin purposes is 4 percent of the EITC if the claimant has one qualifying child with the same principal place of abode, 11 percent if the claimant has two such qualifying children, and 34 percent if the claimant has three or more such qualifying children. The credit is refundable, which means that, if the amount of credit due the claimant exceeds his or her tax liability, the difference is refunded to the claimant by check.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
