Analysis by the Legislative Reference Bureau

Engrossment information:
The text of Engrossed 2019 Assembly Bill 655, as passed by the assembly on February 20, 2020, consists of the following documents adopted in the assembly on February 20, 2020: Assembly Substitute Amendment 1 as affected by Assembly Amendments 1, 2, and 3. The text also includes the March 9, 2020, chief clerk’s correction to Assembly Amendment 2.

Content of Engrossed 2019 Assembly Bill 655:
Under current law, subject to certain exceptions, no individual may act as a home inspector, use the title “home inspector,” use any title or description that implies that he or she is a home inspector, or represent himself or herself to be a home inspector unless the individual is registered with the Department of Safety and Professional Services. Similarly, no business entity may provide home inspection
services, and no business entity may use the title “home inspectors” to describe the business entity’s services, unless each of the home inspectors employed by the business entity is so registered. In order to become a registered home inspector, an individual must not have a disqualifying criminal record and must pass an examination approved by DSPS. The practice of home inspectors is governed by statutes and by rules promulgated by DSPS. This bill does the following with respect to the law governing home inspectors:

1. Requires, in order to be granted a home inspector registration, that an individual complete 40 hours of instruction.
2. Exempts newly registered home inspectors from continuing education requirements for the first two renewals of a registration. Current DSPS rules exempt newly registered home inspectors from continuing education requirements for the first renewal of a registration.
3. Provides for reciprocal registration of home inspectors licensed in other states who have comparable or more stringent requirements.
4. Modifies the definition of what is considered to be a “defect,” for purposes of a report submitted by a home inspector to a client. The bill also makes modifications to what the report is required to contain, including by adding a number of required elements and statements for the report, such as a summary page with required statements, and requiring defects to be labeled as defects if they satisfy the legal definition of defect.
5. Repeals a provision allowing DSPS to use an alternative professional discipline procedure for home inspectors.

The contract of sale may define “defect” to also include a condition that would have a significant adverse effect on the value of the property, but such a condition may not be labeled a defect in the report unless it meets the definition in section 440.97 (2m), Wis.
