February 11, 2020 - Introduced by Representatives KULP, QUINN, PLUMER, PETRYK, VANDERMEER, SKOWRONSKI, SPIROS and TUSLER, cosponsored by Senators TESTIN, FEYEN, BERNIER and OLSEN. Referred to Committee on Ways and Means.

AN ACT to create 77.54 (69) and 234.47 of the statutes; relating to: creating a sales tax exemption for materials used to construct workforce housing developments.

Analysis by the Legislative Reference Bureau

This bill creates a sales and use tax exemption for the sale of building materials, supplies, and equipment and landscaping and lawn maintenance services if the property or service is acquired solely for, or used solely in, the construction or development of a workforce housing development. The bill defines “workforce housing development” to mean a housing development in Wisconsin that meets all of the following conditions:

1. It consists of land proposed for newly platted residential use.
2. The housing costs for households occupying the development’s residential units do not exceed, or are not expected to exceed, 30 percent of the median household income for the county in which the development is located.
3. The residential units are intended for initial occupancy by households whose income is at least 60 percent, but not more than 120 percent, of the county’s median household income.

Under the bill, the tax exemption may only be claimed by a person holding an exemption certificate issued by the Wisconsin Housing and Economic Development Authority. In order to receive an exemption certificate, a person must submit an application to WHEDA that includes a description of the housing development, certification that the development is a workforce housing development, and documentation of the housing costs for the development’s initial occupants.
The bill requires WHEDA to issue an exemption certificate to a person who submits a completed application if WHEDA determines that the person is constructing or developing a workforce housing development. WHEDA must notify the person of its determination no later than 15 days after receiving the person’s application. If WHEDA does not notify the applicant within the 15 days, the application is automatically approved and WHEDA must issue an exemption certificate to the person.

Under the bill, the sales and use tax exemption may not be claimed for property and services acquired for or used in the construction or development of property for public use within the development. The bill defines “property for public use” to include sidewalks, wastewater collection and treatment systems, drinking water systems, storm sewers, utility extensions, telecommunications infrastructure, streets, roads, bridges, and parking ramps.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
