2019 ASSEMBLY BILL 917

February 14, 2020 - Introduced by Representatives HEBL, POPE, SHANKLAND, ANDERSON, BILLINGS, BROSTOFF, EMERSON, FIELDS, NEUBAUER, SPREITZER, C. TAYLOR, ZAMARRIPA, CABRERA, CONSIDINE, DOYLE, GRUSZYNSKI, HESSELBEIN, MILROY, OHNSTAD, SARGENT, SINICKI, STUBBS, SUEBECK and VRUWINK, cosponsored by Senators MILLER, RISSER, SMITH, CARPENTER, ERPENBACH, LARSON, RINGHAND and L. TAYLOR. Referred to Committee on Environment.

AN ACT to repeal 15.347 (22), 20.370 (9) (gi), 23.099, 23.321 (1) (am), 23.321 (2) (d), 23.321 (2g), 23.321 (4) (a) 4., 23.321 (5) (b), 29.604 (7m), 30.025 (1e) (c), 31.23 (3) (e), 59.692 (1) (e), 59.692 (1d), 59.692 (1f), 59.692 (1k), 59.692 (5m), 66.1036, 77.105, 77.81 (1m), 77.81 (5m), 77.83 (2m), 77.84 (2) (bp), 77.88 (3) (d), 77.88 (9) (d) 2., 77.883, 87.30 (2) (b), 196.491 (3) (a) 3. c., 227.483 (3) (c), 281.12 (2), 281.36 (3r) (am), 281.36 (12m), 281.37, 293.01 (2m), 293.01 (12m), 293.15 (7m), 293.26, 293.31 (4m), 293.32 (4), 293.37 (5), 293.40, 293.43 (2m), 293.43 (3m), 293.43 (4m), 293.49 (1) (a) 2m., 293.495, 293.51 (1g), 293.51 (1m), 293.51 (1r), 293.51 (5), 293.66, subchapter III of chapter 295 [precedes 295.40] and 323.60 (1) (gm); to renumber 59.692 (1c); to renumber and amend 23.321 (5) (a), 77.88 (9) (d) 1. and 87.30 (2) (a); to consolidate, renumber and amend 23.321 (1) (intro.) and (b); to amend 20.370 (9) (bm), 20.370 (9) (gh), 20.455 (1) (gh), 20.566 (7) (e), 20.566 (7) (v), 23.0917 (4) (c) 3., 23.321 (4) (a) 3., 29.604 (4) (intro.), 29.604 (4) (c) (intro.), 30.025 (1e) (a), 30.133 (2), 32.02 (12), 59.692 (1)
ASSEMBLY BILL 917

299.95, 323.60 (5) (d) 3., 706.01 (9) and 710.02 (2) (d); to repeal and recreate

59.692 (2m), 281.31 (2m) and 293.95; to create 59.692 (1u), 61.353 (3) (c),

61.353 (3) (d), 62.233 (3) (c), 62.233 (3) (d), 107.001 (2), 227.42 (4), 293.01 (8),

293.43 (2), 293.43 (3), 293.43 (4), 293.43 (5) and 293.50 of the statutes; and to

affect 2013 Wisconsin Act 1, section 103 and 2017 Wisconsin Act 183, section
ASSEMBLY BILL 917

27; relating to: mining, wetlands, shoreland zoning, and scientist and educator positions and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill eliminates changes made to the regulation of sulfide ore mining, iron ore mining, wetlands, and shoreland zoning under various enactments since 2013 and restores Department of Natural Resources scientist and educator positions eliminated in 2015 Wisconsin Act 55.

Sulfide Ore Moratorium

This bill reinstates the prerequisite for issuing sulfide ore mining permits that existed prior to 2017 Wisconsin Act 134. Under the bill, DNR may not issue any permits for the purpose of mining a sulfide ore body until DNR determines that 1) there is a mining operation in a potentially acid-generating sulfide ore body in the United States or Canada that has been in operation for at least ten years without resulting in the pollution of groundwater or surface water from acid drainage or from the release of heavy metals; and 2) there is a mining operation that operated in a potentially acid-generating sulfide ore body in the United States or Canada that has been closed for at least ten years without resulting in the pollution of groundwater or surface water from acid drainage or from the release of heavy metals.

Iron Mining and Bulk Sampling

This bill changes the laws under which DNR currently regulates mining so that the laws are substantially the same as they existed before enactment of 2013 Wisconsin Act 1, 2013 Wisconsin Act 81, and 2017 Wisconsin Act 134.

Under current law, DNR regulates mining for metallic minerals. Prior to the enactment of 2013 Wisconsin Act 1, the laws under which DNR regulated metallic mining applied to mining for ferrous and nonferrous minerals. 2013 Wisconsin Act 1 modified the laws regulating metallic mining so that they applied to mining for nonferrous minerals only and created new laws for regulating mining for ferrous minerals.

Under current law, certain forested land may be designated as managed forest land (MFL) under a program administered by DNR. Under this program, the owner of land designated as MFL makes an annual acreage share payment in lieu of property taxes and must open the land to the public for certain recreational activities. The landowner may designate a portion of the land as closed to public access and make an additional payment per acre. 2013 Wisconsin Act 81 generally provided that requirements regarding public access to MFL do not apply to an area of land within a certain distance of a proposed iron mining site and required an MFL owner to make an additional payment per acre for land located in a proposed ferrous mining site if the land is not open to public access.

Prior to 2017 Wisconsin Act 134, activities relating to nonferrous metallic minerals were regulated differently depending on whether the activity involved exploration, prospecting, or mining. 2017 Act 134 added as a regulated activity bulk sampling, which is the excavation of fewer than 10,000 tons of material with a license
issued by DNR. 2017 Act 134 also repealed DNR administrative rules relating to mining and wetlands. This bill restores those provisions.

**Wetlands**

This bill eliminates the changes made by 2017 Wisconsin Act 183. That act exempted artificial wetlands and certain nonfederal wetlands from DNR wetland permitting requirements; changed some requirements relating to wetland boundary delineations; created wetland-related grant programs; and, if the Environmental Protection Agency delegates to the state the authority to administer its own permit program for the discharge of dredge or fill material into navigable waters, authorized DNR to assume that authority.

**Nonfederal wetlands.** Under current federal law, generally, a person must obtain a permit from the federal government for a discharge into a wetland that is under the jurisdiction of the federal government. Generally speaking, only wetlands that are adjacent to navigable waters are subject to federal jurisdiction. Federal law requires an applicant to submit with a permit application a certification from the state that the proposed discharge will comply with state water quality standards or that the state has waived such certification. In this state, DNR grants this certification by issuing a state wetland permit. Under current law, DNR must issue wetland general permits for discharges of dredged or fill material into certain wetlands and may require a person to apply for and obtain a wetland individual permit if DNR determines that conditions specific to the site require additional restrictions on the discharge in order to provide reasonable assurance that no significant adverse impacts to wetland functional values will occur. Under current law, before DNR may issue a wetland individual permit, it must require the restoration, enhancement, creation, or preservation of other wetlands to compensate for adverse impacts to a wetland resulting from the discharge, also known as mitigation.

This bill eliminates an exemption under current law from wetland permitting requirements for a discharge into a wetland that is not subject to federal jurisdiction (nonfederal wetland) that occurs in an urban area if it does not affect more than one acre of wetland per parcel, if it does not affect a rare and high quality wetland, and if the development related to the discharge is carried out in compliance with any applicable storm water management zoning ordinance or storm water discharge permit. Under current law, an urban area is an incorporated area, an area within one-half mile of an incorporated area, or an area that is served by a sewerage system. Current law defines a “rare and high quality wetland” as one that is directly adjacent or contiguous to a class I or class II trout stream or that consists of at least 75 percent of certain rare wetland types.

This bill eliminates an exemption under current law from wetland permitting requirements for a discharge into a nonfederal wetland that occurs outside an urban area if it does not affect more than three acres of wetland per parcel, if it does not affect a rare and high quality wetland, and if the development related to the discharge is a structure with an agricultural purpose.

Along with these exemptions, the bill eliminates a requirement that, for any discharge to one of these wetlands that is exempt from permitting requirements but
that requires mitigation, mitigation must be conducted in the same compensation search area as the discharge. Under current DNR administrative rules, a compensation search area is an area that includes the statewide management unit of the impacted wetland, the county of the impacted wetland, and a circle with a 20-mile radius from the impacted wetland. DNR has defined 22 statewide management units based on the major river basins of the state.

Under current law, upon request and for a fee, DNR may provide to a landowner or tenant either a wetland identification that consists of a written evaluation, based upon an on-site inspection of the land by DNR, of whether a parcel of land contains a wetland, or a wetland confirmation that consists of a written statement, based upon an on-site inspection of the land by DNR, of whether DNR concurs with the boundaries of a wetland as delineated by a third person. Under current law, DNR must provide either service within 60 days of receiving a request, and a wetland identification or confirmation remains effective for five years.

The bill eliminates another type of wetland confirmation under current law that consists of a written statement, based upon DNR’s review of the boundaries of a wetland as delineated by a qualified third person and not based upon an on-site inspection of the land by DNR, of whether DNR concurs with the delineation and requires DNR to provide this service within 15 days of receiving a request. Under current law, a “qualified third person” is an individual who has completed basic and advanced wetland training and has a minimum of one year of field experience in wetland delineation. The bill also eliminates an extension of the effectiveness of a wetland identification or confirmation to 15 years for a nonfederal wetland if the parcel of land is subject to a storm water management zoning ordinance or a storm water discharge permit, and eliminates a prohibition on DNR requiring a new delineation for such a parcel until the wetland identification or confirmation expires.

**Artificial wetlands.** This bill eliminates an exemption from wetland permitting requirements for a discharge to any artificial wetland, but leaves in place current rules promulgated by DNR, under which discharges to certain artificial wetlands are exempt from the wetland permitting requirements unless DNR determines that significant functional values are present. Current law defines an “artificial wetland” as a landscape feature where hydrophytic vegetation may be present as a result of human modification to the landscape or hydrology and for which DNR has no definitive evidence showing a prior wetland or stream history that existed before August 1, 1991, but excludes from the definition a wetland that serves as a fish spawning area or a passage to a fish spawning area or that was created as a result of a wetland mitigation requirement.

The bill eliminates a prohibition under current law on local governments regulating a discharge into nonfederal wetlands and artificial wetlands exempt from permitting requirements and on regulating mitigation requirements for such a discharge.

**State administration of wetland permit program.** Under current federal law, a state's governor may apply to the EPA requesting that the state be delegated the authority to administer its own individual and general permit program for the discharge of dredged or fill material into navigable waters, including federal
wetlands, in place of the federal regulatory program. This bill removes the authority granted to DNR under current law to submit such an application on behalf of and at the direction of the governor and the authority of DNR to assume that administration authority if the EPA delegates it to the state.

**Wetland mitigation grant program.** Under the authority of current law, with the approval of the U.S. Army Corps of Engineers (ACE), DNR has created the in lieu fee subprogram as one method by which wetland mitigation may be accomplished. Under this subprogram, payments are made to DNR or another entity for the purposes of improving or preserving wetlands or other water resource features.

This bill eliminates the wetland mitigation grant program (mitigation program), under which nonprofit organizations may apply to DNR on a rolling basis for grants to conduct projects to create, restore, or enhance wetlands on DNR land, using moneys received under the in lieu fee subprogram and from surcharge fees charged for each application to proceed under a wetland general permit. The bill also removes DNR’s authority under current law to submit a request to ACE that ACE move up all deadlines relating to its review and approval of wetland mitigation project proposals under the in lieu fee subprogram and that ACE approve a modification to the subprogram in order to implement the mitigation program.

**Property development grants.** The bill eliminates a separate grant program, funded from the property development and local assistance subprogram of the Warren Knowles-Gaylord Nelson stewardship 2000 program, under which DNR makes grants to nonprofit organizations for certain property development activities relating to wetlands affected by a project under a wetland mitigation grant.

**Wetland study council.** The bill eliminates the wetland study council, which under current law is established within DNR to research and provide recommendations on various issues relating to wetlands.

**SHORELAND ZONING**

This bill eliminates the changes to the laws regulating shoreland zoning that were made under the 2015 biennial budget act, 2015 Wisconsin Act 55.

Current law requires a county to enact shoreland zoning ordinances for all shorelands in its unincorporated area and requires those ordinances to meet shoreland zoning standards established by DNR by rule. Current law generally defines a shoreland to be an area within a specified distance from the edge of a navigable water.

Act 55 made various changes to the laws regulating shoreland zoning including the following:

1. Prohibiting a county shoreland zoning ordinance from regulating a matter more restrictively than the matter is regulated by a shoreland zoning standard promulgated by DNR.
2. Prohibiting a shoreland zoning ordinance from requiring a person to establish a vegetative buffer zone on previously developed land or expand an existing buffer zone.
3. Requiring a shoreland zoning ordinance to allow a vegetative buffer zone to contain a viewing corridor of at least 35 feet wide for every 100 feet of shoreline.
frontage and to allow the corridor to run contiguously for the entire maximum allowable width.

4. Prohibiting DNR from establishing shoreland zoning standards and prohibiting counties from enacting shoreland zoning ordinances that regulate certain outdoor lighting, that regulate certain construction activities with respect to nonconforming structures, and that impose certain standards for impervious surfaces.

5. Allowing certain maintenance and repair of nonconforming structures in shorelands that are accessory structures such as garages, sheds, sidewalks, and patios.

6. Generally requiring city and village shoreland zoning ordinances that apply to certain shorelands that were annexed or incorporated by the city or village to be consistent with the requirements and limitations applicable to county shoreland zoning ordinances.

7. Prohibiting DNR from appealing a decision of a county to grant or deny a variance to a law regulating county shoreland zoning.

This bill eliminates the changes to the law made by Act 55 so that the law is consistent with pre-Act 55 law.

DNR POSITIONS

This bill increases moneys appropriated to DNR by $1,672,900 in each fiscal year of the 2019–21 fiscal biennium for the purpose of increasing educator and science services positions by the equivalent of 29.4 full-time positions. This funding was decreased by this amount and these positions were eliminated under 2015 Wisconsin Act 55.

DOJ POSITIONS

The bill appropriates to the Department of Justice $390,800 to fund two assistant attorneys general and one paralegal for environmental protection purposes.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1. **Section 1.** 15.347 (22) of the statutes is repealed.

2. **Section 2.** 20.370 (9) (bm) of the statutes is amended to read:

3. 20.370 (9) (bm) *Wetland restoration — fees; payments.* From the general fund, all moneys received as surcharge fees under s. 281.36 (11), all moneys received as transfers to the in lieu fee subprogram as provided in s. 281.36 (3s) (h), 2015 stats.,
and all moneys received under the in lieu fee subprogram under s. 281.36 (3r) (e) for
the restoration or creation of wetlands, for the wetland mitigation grant program
under s. 281.37, and for any other activities authorized under the in lieu fee
subprogram.

SECTION 3. 20.370 (9) (gh) of the statutes, as affected by 2019 Wisconsin Act 9,
is amended to read:

20.370 (9) (gh) Nonferrous metallic mining Mining regulation and
administration. The amounts in the schedule for the administration, regulation, and
enforcement of nonferrous metallic mining exploration, bulk sampling, prospecting,
mining and mine reclamation activities under ch. 293. All moneys received under ch.
293 shall be credited to this appropriation.

SECTION 4. 20.370 (9) (gi) of the statutes, as affected by 2019 Wisconsin Act 9,
is repealed.

SECTION 5. 20.455 (1) (gh) of the statutes is amended to read:

20.455 (1) (gh) Investigation and prosecution. Moneys received under ss. 23.22
(9) (c), 49.49 (6), 100.263, 133.16, 281.98 (2), 283.91 (5), 289.96 (3) (b), 291.97 (3),
292.99 (2), 293.87 (4) (b), 295.19 (3) (b) 2., 295.79 (4) (b), and 299.97 (2), for the
expenses of investigation and prosecution of violations, including attorney fees.

SECTION 6. 20.566 (7) (e) of the statutes is amended to read:

20.566 (7) (e) Investment and local impact fund supplement. The amounts in
the schedule to supplement par. (v) for the purposes of ss. 70.395, 293.33 (4), and
293.65 (5) (a), 295.443, and 295.61 (9) (a) and (c).

SECTION 7. 20.566 (7) (v) of the statutes is amended to read:

20.566 (7) (v) Investment and local impact fund. From the investment and local
impact fund, all moneys received under s. 70.395 (1e) and (2) (dc) and (dg), less the
moneys appropriated under s. 20.370 (4) (gr), to be disbursed under ss. 70.395 (2) (d) to (g), 293.33 (4), and 293.65 (5) (a), 295.443, and 295.61 (9) (a) and (c).

SECTION 8. 23.0917 (4) (c) 3. of the statutes is amended to read:

23.0917 (4) (c) 3. Grants under ss. s. 23.098 and 23.099.

SECTION 9. 23.099 of the statutes is repealed.

SECTION 10. 23.321 (1) (intro.) and (b) of the statutes are consolidated, renumbered 23.321 (1) and amended to read:

23.321 (1) DEFINITION. In this section: (b) “Wetland”. “wetland” has the meaning given in s. 23.32 (1).

SECTION 11. 23.321 (1) (am) of the statutes is repealed.

SECTION 12. 23.321 (2) (d) of the statutes is repealed.

SECTION 13. 23.321 (2g) of the statutes is repealed.

SECTION 14. 23.321 (4) (a) 3. of the statutes is amended to read:

23.321 (4) (a) 3. Provide a wetland confirmation not later than 60 days after a person files a request, in the manner and form required by the department, for a wetland confirmation under sub. (2) (c).

SECTION 15. 23.321 (4) (a) 4. of the statutes is repealed.

SECTION 16. 23.321 (5) (a) of the statutes is renumbered 23.321 (5) and amended to read:

23.321 (5) Except as provided in par. (b), a wetland identification provided by the department under sub. (2) (b) and a wetland confirmation provided by the department under sub. (2) (c) remain effective for 5 years from the date provided by the department.

SECTION 17. 23.321 (5) (b) of the statutes is repealed.

SECTION 18. 29.604 (4) (intro.) of the statutes is amended to read:
29.604 (4) Prohibition. (intro.) Except as provided in sub. sub. (6r) and (7m) or as permitted by departmental rule or permit:

Section 19. 29.604 (4) (c) (intro.) of the statutes is amended to read:

29.604 (4) (c) (intro.) No person may do any of the following to any wild plant of an endangered or threatened species that is on public property or on property that he or she does not own or lease, except in the course of forestry or agricultural practices, or in the construction, operation, or maintenance of a utility facility, or as part of bulk sampling activities under s. 295.45:

Section 20. 29.604 (7m) of the statutes is repealed.

Section 21. 30.025 (1e) (a) of the statutes is amended to read:

30.025 (1e) (a) Except as provided in paras. (b) and (c), this section applies to a proposal to construct a utility facility if the utility facility is required to obtain, or give notification of the wish to proceed under, one or more permits.

Section 22. 30.025 (1e) (c) of the statutes is repealed.

Section 23. 30.133 (2) of the statutes is amended to read:

30.133 (2) This section does not apply to riparian land located within the boundary of any hydroelectric project licensed or exempted by the federal government, if the conveyance is authorized under any license, rule or order issued by the federal agency having jurisdiction over the project. This section does not apply to riparian land that is associated with an approval required for bulk sampling or mining that is required under subch. III of ch. 295.

Section 24. 31.23 (3) (e) of the statutes is repealed.

Section 25. 32.02 (12) of the statutes is amended to read:

32.02 (12) Any person operating a plant which creates waste material which, if released without treatment would cause stream pollution, for the location of
treatment facilities. This subsection does not apply to a person with a permit under ch. 293 or subch. III of ch. 295.

SECTION 26. 59.692 (1) (bn) of the statutes is amended to read:

59.692 (1) (bn) “Shoreland setback area” means an area in a shoreland that is within a certain distance of the ordinary high-water mark in which the construction or placement of buildings or structures has been limited or prohibited under an ordinance enacted under this section.

SECTION 27. 59.692 (1) (e) of the statutes is repealed.

SECTION 28. 59.692 (1c) of the statutes is renumbered 59.692 (1m).

SECTION 29. 59.692 (1d) of the statutes is repealed.

SECTION 30. 59.692 (1f) of the statutes is repealed.

SECTION 31. 59.692 (1k) of the statutes is repealed.

SECTION 32. 59.692 (1u) of the statutes is created to read:

59.692 (1u) (a) Restrictions that are applicable to damaged or destroyed nonconforming structures and that are contained in an ordinance enacted under this section may not prohibit the restoration of a nonconforming structure if the structure will be restored to the size, subject to par. (b), location, and use that it had immediately before the damage or destruction occurred or impose any limits on the costs of the repair, reconstruction, or improvement if all of the following apply:

1. The nonconforming structure was damaged or destroyed after October 14, 1997.

2. The damage or destruction was caused by violent wind, vandalism, fire, flood, ice, snow, mold, or infestation.

(b) An ordinance enacted under this section to which par. (a) applies shall allow for the size of a structure to be larger than the size it was immediately before the
damage or destruction if necessary for the structure to comply with applicable state or federal requirements.

SECTION 33. 59.692 (2m) of the statutes is repealed and recreated to read:

59.692 (2m) (a) In this subsection:

1. “Development regulations” means the part of a shoreland zoning ordinance enacted under this section that applies to elements including setback, height, lot coverage, and side yard.

2. “Nonconforming structure” means a dwelling or other building that existed lawfully before the current shoreland zoning ordinance was enacted or amended, but that does not conform with one or more of the development regulations in the current shoreland zoning ordinance.

(b) A county may not enact, and a county, city, or village may not enforce, a provision in a county shoreland zoning ordinance that does any of the following:

1. Regulates the location, maintenance, expansion, replacement, repair, or relocation of a nonconforming structure if that provision is more restrictive than the shoreland zoning standards for nonconforming structures promulgated by the department under this section.

2. Regulates the construction of a structure or building on a substandard lot if that provision is more restrictive than the shoreland zoning standards for substandard lots promulgated by the department under this section.

SECTION 34. 59.692 (4) (b) of the statutes is amended to read:

59.692 (4) (b) Variances and appeals regarding shorelands within a county are for the board of adjustment for that county under s. 59.694, and the procedures of that section apply. Notwithstanding s. 59.694 (4), the department may not appeal a decision of the county to grant or deny a variance under this section but may, upon
the request of a county board of adjustment, issue an opinion on whether a variance
should be granted or denied.

SECTION 35. 59.692 (5m) of the statutes is repealed.

SECTION 36. 61.353 (3) (intro.) of the statutes is amended to read:

61.353 (3) (intro.) A village ordinance enacted under this section shall accord
and be consistent with the requirements and limitations under s. 59.692 (1d), (1f),
and (1k) and shall include at least all of the following provisions:

SECTION 37. 61.353 (3) (c) of the statutes is created to read:

61.353 (3) (c) 1. A provision requiring a person who owns shoreland property
that contains vegetation to maintain that vegetation in a vegetative buffer zone
along the entire shoreline of the property and extending 35 feet inland from the
ordinary high-water mark of the navigable water, except as provided in subd. 2.

2. If the vegetation in a vegetative buffer zone contains invasive species or dead
or diseased vegetation, the owner of the shoreland property may remove the
vegetation, except that if the owner removes all of the vegetation in the vegetative
buffer zone, the owner shall establish a vegetative buffer zone with new vegetation.

SECTION 38. 61.353 (3) (d) of the statutes is created to read:

61.353 (3) (d) A provision allowing a person who is required to maintain or
establish a vegetative buffer zone under par. (c) to remove all of the vegetation in a
part of that zone in order to establish a viewing or access corridor that is no greater
than 30 feet wide for every 100 feet of shoreline frontage and that extends no more
than 35 feet inland from the ordinary high-water mark.

SECTION 39. 62.233 (3) (intro.) of the statutes is amended to read:
62.233 (3) (intro.) A city ordinance enacted under this section shall accord and be consistent with the requirements and limitations under s. 59.692 (1d), (1f), and (1k) and shall include at least all of the following provisions:

SECTION 40. 62.233 (3) (c) of the statutes is created to read:

62.233 (3) (c) 1. A provision requiring a person who owns shoreland property that contains vegetation to maintain that vegetation in a vegetative buffer zone along the entire shoreline of the property and extending 35 feet inland from the ordinary high-water mark of the navigable water, except as provided in subd. 2.

2. If the vegetation in a vegetative buffer zone contains invasive species or dead or diseased vegetation, the owner of the shoreland property may remove the vegetation, except that if the owner removes all of the vegetation in the vegetative buffer zone, the owner shall establish a vegetative buffer zone with new vegetation.

SECTION 41. 62.233 (3) (d) of the statutes is created to read:

62.233 (3) (d) A provision allowing a person who is required to maintain or establish a vegetative buffer zone under par. (c) to remove all of the vegetation in a part of that zone in order to establish a viewing or access corridor that is no greater than 30 feet wide for every 100 feet of shoreline frontage and that extends no more than 35 feet inland from the ordinary high-water mark.

SECTION 42. 66.1036 of the statutes is repealed.

SECTION 43. 70.375 (1) (as) of the statutes is amended to read:

70.375 (1) (as) “Mine” means an excavation in or at the earth’s surface made to extract metalliferous minerals for which a permit has been issued under s. 293.49 or 295.58.

SECTION 44. 70.375 (1) (bm) of the statutes is amended to read:
70.375 (1) (bm) “Mining-related purposes” means activities which are directly in response to the application for a mining permit under s. 293.37 or 295.47; directly in response to construction, operation, curtailment of operation or cessation of operation of a metalliferous mine site; or directly in response to conditions at a metalliferous mine site which is not in operation. “Mining-related purposes” also includes activities which anticipate the economic and social consequences of the cessation of mining. “Mining-related purposes” also includes the purposes under s. 70.395 (2) (g).

SECTION 45. 70.375 (2) (b) of the statutes is amended to read:

70.375 (2) (b) The secretary may promulgate any rules necessary to implement the tax under ss. 70.37 to 70.39 and 70.395 (1e). In respect to mines not in operation on November 28, 1981, ss. 71.10 (1), 71.30 (1) and (2), 71.74 (2), (3), (9), (11) and (15), 71.77, 71.78, 71.80 (6), 71.83 (1) (a) 1. and 2. and (b) 2. and (2) (a) 3. and (b) 1. and 71.85 (2) apply to the administration of this section.

SECTION 46. 70.375 (4) (h) of the statutes is amended to read:

70.375 (4) (h) The cost of premiums for bonds required under s. 293.26 (9), 293.51, 295.45 (5), or 295.59.

SECTION 47. 70.38 (2) of the statutes is amended to read:

70.38 (2) COMBINED REPORTING. If the same person extracts metalliferous minerals from different sites in this state, the net proceeds for each site for which a permit has been issued under s. 293.49 or 295.58 shall be reported separately for the purposes of computing the amount of the tax under s. 70.375 (5).

SECTION 48. 70.395 (1e) of the statutes is amended to read:

70.395 (1e) DISTRIBUTION. Fifteen days after the collection of the tax under ss. 70.38 to 70.39, the department of administration, upon certification of the
department of revenue, shall transfer the amount collected in respect to mines not
in operation on November 28, 1981, to the investment and local impact fund, except
that, after the payments are made under sub. (2) (d) 1., 2., and 2m., the department
of administration shall transfer 60 percent of the amount collected from each person
extracting ferrous metallic minerals to the investment and local impact fund and 40
percent of the amount collected from any such person to the general fund.

SECTION 49. 70.395 (2) (dc) 1. of the statutes is amended to read:

70.395 (2) (dc) 1. Each person intending to submit an application for a mining
permit under s. 293.37 or 295.47 shall pay $75,000 to the department of revenue for
deposit in the investment and local impact fund at the time that the person notifies
the department of natural resources under s. 293.31 (1) or 295.465 of that intent.

SECTION 50. 70.395 (2) (dc) 4. of the statutes is amended to read:

70.395 (2) (dc) 4. Six months after the signing of a local agreement under s.
293.41 or 295.443 for the proposed mine for which the payment is made, the board
shall refund any funds paid under this paragraph but not distributed under par. (fm)
from the investment and local impact fund to the person making the payment under
this paragraph.

SECTION 51. 70.395 (2) (fm) of the statutes is amended to read:

70.395 (2) (fm) The board may distribute a payment received under par. (dc)
to a county, town, village, city, tribal government or local impact committee
authorized under s. 293.41 (3) or 295.443 only for legal counsel, qualified technical
experts in the areas of transportation, utilities, economic and social impacts,
environmental impacts and municipal services and other reasonable and necessary
expenses incurred by the recipient that directly relate to the good faith negotiation
of a local agreement under s. 293.41 or 295.443 for the proposed mine for which the payment is made.

**SECTION 52.** 70.395 (2) (g) (intro.) of the statutes is amended to read:

70.395 (2) (g) (intro.) The board may distribute the revenues received under sub. (1e) or proceeds thereof in accordance with par. (h) for the following purposes, with a preference to private sector economic development projects under subd. 3., as the board determines necessary:

**SECTION 53.** 70.395 (2) (g) 3. of the statutes is amended to read:

70.395 (2) (g) 3. Studies and projects for local private sector economic development.

**SECTION 54.** 70.395 (2) (h) 1. of the statutes is amended to read:

70.395 (2) (h) 1. Distribution shall first be made to those municipalities in which metalliferous minerals are extracted or were extracted within 3 years previous to December 31 of the current year, or in which a permit has been issued under s. 293.49 or 295.58 to commence mining;

**SECTION 55.** 70.395 (2) (hg) of the statutes is amended to read:

70.395 (2) (hg) The board shall, by rule, establish fiscal guidelines and accounting procedures for the use of payments under pars. (d), (f), (fm) and (g), sub. (3) and ss. s. 293.65 (5) and 295.61 (9).

**SECTION 56.** 70.395 (2) (hr) of the statutes is amended to read:

70.395 (2) (hr) The board shall, by rule, establish procedures to recoup payments made, and to withhold payments to be made, under pars. (d), (f), (fm) and (g), sub. (3) and ss. s. 293.65 (5) and 295.61 (9) for noncompliance with this section or rules adopted under this section.

**SECTION 57.** 70.395 (2) (hw) of the statutes is amended to read:
70.395 (2) (hw) A recipient of a discretionary payment under par. (f) or (g), sub. (3) or ss. 293.65 (5) and 295.61 (9) or any payment under par. (d) that is restricted to mining-related purposes who uses the payment for attorney fees may do so only for the purposes under par. (g) 6. and for processing mining-related permits or other approvals required by the municipality. The board shall recoup or withhold payments that are used or proposed to be used by the recipient for attorney fees except as authorized under this paragraph. The board may not limit the hourly rate of attorney fees for which the recipient uses the payment to a level below the hourly rate that is commonly charged for similar services.

SECTION 58. 74.25 (1) (a) 6. of the statutes is amended to read:

74.25 (1) (a) 6. Pay to the county treasurer 20 percent of collections of occupational taxes on coal docks, 20 percent of collections of the taxes imposed under ss. 77.04 and 77.84 (2) (a), and (am), and (bp), and 20 percent of collections of payments for closed lands under s. 77.84 (2) (b) and (bm).

SECTION 59. 74.30 (1) (f) of the statutes is amended to read:

74.30 (1) (f) Pay to the county treasurer 20 percent of collections of occupational taxes on coal docks, 20 percent of collections of the taxes imposed under ss. 77.04 and 77.84 (2) (a), and (am), and (bp), and 20 percent of collections of payments for closed lands under s. 77.84 (2) (b) and (bm).

SECTION 60. 77.105 of the statutes is repealed.

SECTION 61. 77.81 (1m) of the statutes is repealed.

SECTION 62. 77.81 (5m) of the statutes is repealed.

SECTION 63. 77.83 (2) (a) of the statutes is amended to read:
77.83 (2) (a) Except as provided in sub. (1) and pars. (b) and (c) and subs. (1) and (2m), each owner of managed forest land shall permit public access to the land for the purposes of hunting, fishing, hiking, sight-seeing, and cross-country skiing.

Section 64. 77.83 (2m) of the statutes is repealed.

Section 65. 77.84 (2) (b) of the statutes is amended to read:

77.84 (2) (b) For managed forest land orders that take effect before April 28, 2004, in addition to the payment under par. (a), each owner shall pay $1 for each acre that is designated as closed under s. 77.83 and for each acre that is located in a proposed ferrous mining site and that is not open to all of the outdoor activities specified in s. 77.83 (2) (a) for any part of the previous calendar year. The payment shall be made to each municipal treasurer on or before January 31.

Section 66. 77.84 (2) (bm) of the statutes is amended to read:

77.84 (2) (bm) For managed forest land orders that take effect on or after April 28, 2004, in addition to the payment under par. (am), each owner of managed forest land shall pay to each municipal treasurer, on or before January 31, an amount that is equal to 20 percent of the average statewide property tax per acre of property classified under s. 70.32 (2) (a) 6., as determined under par. (cm), for each acre that is designated as closed under s. 77.83 and for each acre that is located in a proposed ferrous mining site and that is not open to all of the outdoor activities specified in s. 77.83 (2) (a) for any part of the previous calendar year.

Section 67. 77.84 (2) (bp) of the statutes is repealed.

Section 68. 77.88 (3) (d) of the statutes is repealed.

Section 69. 77.88 (5) (af) 1. of the statutes is amended to read:
77.88 (5) (af) 1. An amount equal to the past tax liability multiplied by the
number of years the land was designated as managed forest land, less any amounts
paid by the owner under s. 77.84 (2) (a), and (am), and (bp).

**SECTION 70.** 77.88 (5) (af) 2. of the statutes is amended to read:

77.88 (5) (af) 2. Five percent of the stumpage value of the merchantable timber
on the land, less any amounts paid by the owner under s. 77.84 (2) (a), and (am), and
(bp).

**SECTION 71.** 77.88 (9) (d) 1. of the statutes is renumbered 77.88 (9) (d) and
amended to read:

77.88 (9) (d) Except as provided in subd. 2., a withdrawal order issued before
December 15 of any year takes effect on the January 1 after the date of issuance, and
a withdrawal order issued on or after December 15 of any year takes effect on the 2nd
January 1 after the date of issuance.

**SECTION 72.** 77.88 (9) (d) 2. of the statutes is repealed.

**SECTION 73.** 77.883 of the statutes is repealed.

**SECTION 74.** 77.89 (2) (a) of the statutes is amended to read:

77.89 (2) (a) Each municipal treasurer shall pay 20 percent of each payment
received under sub. (1) (a) and (b) and under ss. 77.84 (2) (a), and (am), and (bp),
77.85, and 77.876 to the county treasurer and shall deposit the remainder in the
municipal treasury. The payment to the county treasurer for money received before
November 1 of any year shall be made on or before the November 15 after its receipt.
For money received on or after November 1 of any year, the payment to the county
treasurer shall be made on or before November 15 of the following year.

**SECTION 75.** 87.30 (2) (a) of the statutes is renumbered 87.30 (2) and amended
to read:
87.30 (2) Enforcement and penalties. Except as provided in par. (b), every structure, building, fill, or development placed or maintained within any floodplain in violation of a zoning ordinance adopted under this section, or s. 59.69, 61.35 or 62.23 is a public nuisance and the creation thereof may be enjoined and maintenance thereof may be abated by action at suit of any municipality, the state or any citizen thereof. Any person who places or maintains any structure, building, fill or development within any floodplain in violation of a zoning ordinance adopted under this section, or s. 59.69, 61.35 or 62.23 may be fined not more than $50 for each offense. Each day during which such violation exists is a separate offense.

Section 76. 87.30 (2) (b) of the statutes is repealed.

Section 77. 107.001 (1) of the statutes is amended to read:

107.001 (1) “Exploration mining lease” means any lease, option to lease, option to purchase or similar conveyance entered into for the purpose of determining the presence, location, quality or quantity of nonferrous metallic metalliferous minerals or for the purpose of mining, developing or extracting nonferrous metallic metalliferous minerals, or both under ch. 293. Any lease, option to lease, option to purchase or similar conveyance entered into by a mining company is rebuttably presumed to be an exploration mining lease.

Section 78. 107.001 (2) of the statutes is created to read:

107.001 (2) “Metalliferous minerals” means naturally occurring minerals that contain metal.

Section 79. 107.01 (intro.) of the statutes is amended to read:

107.01 Rules governing mining rights. (intro.) Where there is no contract between the parties or terms established by the landlord to the contrary the following
rules and regulations shall be applied to mining contracts and leases for the digging of nonferrous metallic ores and minerals:

**SECTION 79.**

107.01 of the statutes is amended to read:

107.01 (2) The discovery of a crevice or range containing nonferrous metallic ores or minerals shall entitle the discoverer to the nonferrous metallic ores or minerals pertaining thereto, subject to the rent due the discoverer’s landlord, before as well as after the nonferrous metallic ores or minerals are separated from the freehold; but such miner shall not be entitled to recover any nonferrous metallic ores or minerals or the value thereof from the person digging on the miner’s range in good faith and known to be mining thereon until the miner shall have given notice of the miner’s claim; and the miner shall be entitled to the nonferrous metallic ores or minerals dug after such notice.

**SECTION 80.**

107.02 of the statutes is amended to read:

**107.02 Mining statement; penalty.** When there is no agreement between the parties to any mining lease, license or permit, to mine or remove nonferrous metallic minerals ore from any lands in this state, regulating the method of reporting the amount of nonferrous metallic minerals ore taken, the person mining and removing the nonferrous metallic minerals ore or ores shall keep proper and correct books, and therefrom to make and deliver by or before the fifteenth day of each month to the lessor, owner or person entitled thereto, a detailed statement covering the operations of the preceding month. The statement shall show the total amount of tons or pounds of each kind of nonferrous metallic minerals ore produced; if sold, then to whom sold, giving the date of sale, date of delivery to any railroad company, naming the company, and the station where delivered or billed for shipment; the name and address of the purchaser; the price per ton at which sold and the total value of each kind of
nonferrous metallic minerals ore so sold. The books shall be always open to any owner, lessee, licensor or stockholder, if the owner, lessee or licensor is a corporation, and to any person or stockholder interested in any such mining operations, for the purpose of inspection and taking copies thereof or abstracts therefrom. Any person and every officer, agent or employee of any thereof, who violates this section, or who makes any false or incomplete entries on any such books or statements, shall be fined not less than $100 or imprisoned in the county jail for not more than 3 months or both.

SECTION 82. 107.03 of the statutes is amended to read:

107.03 Conflicting claims. In case of conflicting claims to a crevice or range bearing nonferrous metallic ores or minerals the court may continue any action to enforce a claim or grant any necessary time for the purpose of allowing parties to prove up their mines or diggings if it satisfactorily appears necessary to the ends of justice. In such case the court or judge may appoint a receiver and provide that the mines or diggings be worked under the receiver’s direction, subject to the order of the court, in such manner as best ascertains the respective rights of the parties. The nonferrous metallic ores or minerals raised by either party pending the dispute shall be delivered to the receiver, who may, by order of the court or judge, pay any rent or other necessary expenses therefrom.

SECTION 83. 107.04 of the statutes is amended to read:

107.04 Lessee’s fraud; failure to work mine. Any miner who conceals or disposes of any nonferrous metallic ores or minerals or mines or diggings for the purpose of defrauding the lessor of rent or who neglects to pay any rent on nonferrous metallic ores or minerals raised by the miner for 3 days after the notice thereof and claim of the rent, shall forfeit all right to his or her mines, diggings or range; and the landlord after the concealment or after 3 days have expired from the time of
demanding rent, may proceed against the miner to recover possession of the mines or diggings in circuit court as in the case of a tenant holding over after the termination of the lease. If a miner neglects to work his or her mines or diggings according to the usages of miners, without reasonable excuse, he or she shall likewise forfeit the mines or diggings and the landlord may proceed against the miner in like manner to recover possession of the mines or diggings.

SECTION 84. 107.11 of the statutes is amended to read:

107.11 Account of nonferrous metallic minerals oref received. Every person operating a metal recovery system and every purchaser of nonferrous metallic ores and minerals shall keep a substantially bound book, ruled into suitable columns, in which shall be entered from day to day, as nonferrous metallic ores or minerals are received, the following items: the day, month and year when received; the name of the person from whom purchased; the name of the person by whom hauled and delivered; name of the owner of the land from which the nonferrous metallic ores or minerals were obtained, or if not known, the name of the diggings or some distinct description of the land. The bound book shall be kept at the furnace or at the usual place of business of such person or purchaser or his or her agent in this state, and shall be open to authorized representatives of the department of revenue at reasonable times for inspection and taking extracts.

SECTION 85. 107.12 of the statutes is amended to read:

107.12 Penalty. If any person operating a metal recovery system or purchaser of nonferrous metallic ores and minerals or the agent of any such person or purchaser doing business fails to keep such a book or to make such entries as required under s. 107.11 or unreasonably refuses to show the book for inspection or taking extracts or makes false entries in the book he or she shall forfeit $10 for each offense, one-half
to the use of the prosecutor; and each day such failure or refusal continues shall be
deemed a distinct and separate offense.

SECTION 86. 107.20 (1) of the statutes is amended to read:

107.20 (1) Any provision of an exploration mining lease entered into after April
25, 1978, granting an option or right to determine the presence, location, quality or
quantity of nonferrous metallic metalliferous minerals shall be limited to a term not
exceeding 10 years from the date on which the exploration mining lease is recorded
in the office of the register of deeds of the county where the property is located, except
that any provision of an exploration mining lease entered into after April 25, 1978,
granting an option or right to determine the quality and quantity of nonferrous
metallic metalliferous minerals under a prospecting permit shall be limited to a term
not exceeding 10 years from the date that the lessee applies for a prospecting permit
under s. 293.35, if the lessee applies for the prospecting permit within 10 years from
the date on which the exploration mining lease is recorded in the office of the register
of deeds of the county where the property is located.

SECTION 87. 107.20 (2) of the statutes is amended to read:

107.20 (2) Any provision of an exploration mining lease entered into after April
25, 1978, granting an option or right to develop or extract nonferrous metallic
metalliferous minerals shall be limited to a term not exceeding 50 years from the date
on which the exploration mining lease is recorded in the office of the register of deeds
of the county where the property is located.

SECTION 88. 107.30 (8) of the statutes is amended to read:

107.30 (8) “Mining” or “mining operation” means all or part of the process
involved in the mining of metallic minerals, other than for exploration or
prospecting, including commercial extraction, agglomeration, beneficiation,
construction of roads, removal of overburden, and the production of refuse has the
meaning given in s. 293.01 (9).

**SECTION 89.** 107.30 (15) of the statutes is amended to read:

107.30 (15) “Prospecting” means engaging in the examination of an area for the
purpose of determining the quality and quantity of minerals, other than for
exploration but including the obtaining of an ore sample, by such physical means as
excavating, trenching, construction of shafts, ramps, and tunnels and other means,
other than for exploration, which the department of natural resources, by rule,
identifies, and the production of prospecting refuse and other associated activities.
“Prospecting” does not include such activities when the activities are, by themselves,
intended for and capable of commercial exploitation of the underlying ore body. The
fact that prospecting activities and construction may have use ultimately in mining,
if approved, does not mean that prospecting activities and construction constitute
mining within the meaning of sub. (8), provided such activities and construction are
reasonably related to prospecting requirements has the meaning given in s. 293.01
(18).

**SECTION 90.** 107.30 (16) of the statutes is amended to read:

107.30 (16) “Prospecting site” means the lands on which prospecting is actually
conducted as well as those lands on which physical disturbance will occur as a result
of such activity has the meaning given in s. 293.01 (21).

**SECTION 91.** 160.19 (12) of the statutes is amended to read:

160.19 (12) The requirements in this section shall not apply to rules governing
an activity regulated under ch. 293 or subch. III of ch. 295, or to a solid waste facility
regulated under subch. III of ch. 289 which is part of an activity regulated under ch.
293 or subch. III of ch. 295, except that the department may promulgate new rules
or amend rules governing this type of activity, practice or facility if the department
determines that the amendment or promulgation of rules is necessary to protect
public health, safety or welfare.

SECTION 92. 196.491 (3) (a) 3. b. of the statutes is amended to read:

196.491 (3) (a) 3. b. Except as provided under subd. 3. c., within 20 days
after the department provides a listing specified in subd. 3. a. to a person, the person
shall apply for the permits and approvals identified in the listing. The department
shall determine whether an application under this subd. 3. b. is complete and, no
later than 30 days after the application is filed, notify the applicant about the
determination. If the department determines that the application is incomplete, the
notice shall state the reason for the determination. An applicant may supplement
and refile an application that the department has determined to be incomplete.
There is no limit on the number of times that an applicant may refile an application
under this subd. 3. b. If the department fails to determine whether an application
is complete within 30 days after the application is filed, the application shall be
considered to be complete. Except as provided in s. 30.025 (4), the department shall
complete action on an application under this subd. 3. b. for any permit or approval
that is required prior to construction of a facility within 120 days after the date on
which the application is determined or considered to be complete.

SECTION 93. 196.491 (3) (a) 3. c. of the statutes is repealed.

SECTION 94. 196.491 (4) (b) 2. of the statutes is amended to read:

196.491 (4) (b) 2. The person shows to the satisfaction of the commission that
the person reasonably anticipates, at the time that construction of the equipment or
facilities commences, that on each day that the equipment and facilities are in
operation the person will consume no less than 70 percent of the aggregate kilowatt
hours output from the equipment and facilities in manufacturing processes at the site where the equipment and facilities are located or in ferrous mineral mining and processing activities governed by subch. III of ch. 295 at the site where the equipment and facilities are located.

**SECTION 95.** 227.42 (4) of the statutes is created to read:

227.42 (4) This section does not apply if a hearing on the matter was conducted as a part of a hearing under s. 293.43.

**SECTION 96.** 227.483 (3) (c) of the statutes is repealed.

**SECTION 97.** 281.12 (2) of the statutes is repealed.

**SECTION 98.** 281.31 (2m) of the statutes is repealed and recreated to read:

281.31 (2m) Notwithstanding any other provision of law or administrative rule, a shoreland zoning ordinance required under s. 59.692, a construction site erosion control and storm water management zoning ordinance authorized under s. 59.693, 60.627, 61.354 or 62.234 or a wetland zoning ordinance required under s. 61.351 or 62.231 does not apply to lands adjacent to farm drainage ditches if all of the following apply:

(a) The lands are not adjacent to a natural navigable stream or river.

(b) Those parts of the drainage ditches adjacent to these lands were nonnavigable streams before ditching.

(c) The lands are maintained in nonstructural agricultural use.

**SECTION 99.** 281.35 (5) (e) of the statutes is amended to read:

281.35 (5) (e) **Right to hearing.** Any **Except as provided in s. 227.42 (4), any** person who receives notice of a denial or modification requirement under par. (c) is entitled to a contested case hearing under ch. 227 if the person requests the hearing within 30 days after receiving the notice.
ASSEMBLY BILL 917

SECTION 100. 281.36 (3b) (b) of the statutes is amended to read:

281.36 (3b) (b) No person may discharge dredged material or fill material into a wetland unless the discharge is authorized by a wetland general permit or individual permit issued by the department under this section or the discharge is exempt under sub. (4), (4m) (a), (4n), or (4r). No person may violate any condition contained in a wetland general or individual permit issued by the department under this section. The department may not issue a wetland general or individual permit under this section unless it determines that the discharge authorized pursuant to the wetland general or individual permit will comply with all applicable water quality standards.

SECTION 101. 281.36 (3g) (h) 2. of the statutes is amended to read:

281.36 (3g) (h) 2. If, within 30 days after an application under subd. 1. is received by the department, the department does not either request additional information or inform the applicant that a wetland individual permit will be required as provided in par. (i), the discharge shall be considered to be authorized under the wetland general permit and the applicant may proceed without further notice, hearing, permit, or approval if the discharge is carried out in compliance with all of the conditions of the general permit, except as provided in s. 295.60 (3) (b).

SECTION 102. 281.36 (3m) (a) of the statutes is amended to read:

281.36 (3m) (a) When permit required. Any person wishing to proceed with a discharge into any wetland shall submit an application for a wetland individual permit under this subsection unless the discharge has been authorized under a wetland general permit as provided in sub. (3g) or is exempt under sub. (4), (4m) (a), (4n), or (4r). Before submitting the application, the department shall hold a meeting with the applicant to discuss the details of the proposed discharge and the
requirements for submitting the application and for delineating the wetland. An
applicant may include in the application a request for a public informational hearing.
The application shall be accompanied by the applicable fee specified in sub. (11) or
(12) (a).

SECTION 103. 281.36 (3n) (d) 1. of the statutes is amended to read:
281.36 (3n) (d) 1. Except as provided in subd. 2., the department shall require
mitigation under the program established under sub. (3r) for wetland individual
permits it issues under this subsection and for a discharge that is exempt from
permitting requirements under sub. (4n) (b) that affects more than 10,000 square
feet of wetland or under sub. (4n) (c) that affects more than 1.5 acres of wetland. This
subsection does not entitle an applicant to a wetland individual permit or any other
approval in exchange for conducting mitigation.

SECTION 104. 281.36 (3r) (a) (intro.) of the statutes is amended to read:
281.36 (3r) (a) (intro.) The department shall establish a mitigation program
that applies only to the issuance of wetland individual permits and, with respect to
a discharge that is exempt from permitting requirements under sub. (4n) (b) that
affects more than 10,000 square feet of wetland or under sub. (4n) (c) that affects
more than 1.5 acres of wetland, the portion of the affected wetland that exceeds
10,000 square feet or 1.5 acres, respectively. Under the mitigation program, subject
to par. (am), the department shall allow and that allows mitigation to be
accomplished by any of the following methods:

SECTION 105. 281.36 (3r) (am) of the statutes is repealed.

SECTION 106. 281.36 (4) (title) of the statutes is amended to read:
281.36 (4) (title) Exemptions; certain activities.

SECTION 107. 281.36 (4n) of the statutes is repealed.
**SECTION 108.** 281.36 (6) (a) (intro.) of the statutes is amended to read:

281.36 (6) (a) (intro.) The department shall promulgate rules to interpret and implement the provisions under subs. (4), (4n), (4r), and (5). In promulgating these rules, the department shall do all of the following:

**SECTION 109.** 281.36 (9) (a) (intro.) of the statutes is amended to read:

281.36 (9) (a) (intro.) For purposes of determining whether to issue a wetland individual permit, whether authorization to proceed as authorized under a wetland general permit is appropriate, or whether an exemption under sub. (4), (4n), or (4r) is appropriate, and for purposes of enforcing this section, any employee or other representative of the department, upon presenting his or her credentials, may do any of the following:

**SECTION 110.** 281.36 (12m) of the statutes is repealed.

**SECTION 111.** 281.36 (13m) of the statutes is amended to read:

281.36 (13m) **REPORT TO LEGISLATURE.** No later than January 31, 2003, and no later than January 31 of each subsequent odd-numbered year, the department shall submit to the legislature under s. 13.172 (2) a report that provides an analysis of the impact of the implementation of mitigation on wetland resources and on the issuance of permits or other approvals under ss. 59.692, 61.351, 61.353, 62.231, 62.233, 87.30, 281.11 to 281.47 or 281.49 to 281.85 or ch. 30, 31, 283, 289, 291, 292, 293, 295, or 299. The department shall include in its report a discussion of proposals and projects under the property development grant program under s. 23.099.

**SECTION 112.** 281.37 of the statutes is repealed.

**SECTION 113.** 281.65 (2) (a) of the statutes is amended to read:

281.65 (2) (a) “Best management practices” means practices, techniques or measures, except for dredging, identified in areawide water quality management
plans, which are determined to be effective means of preventing or reducing
pollutants generated from nonpoint sources, or from the sediments of inland lakes
polluted by nonpoint sources, to a level compatible with water quality objectives
established under this section and which do not have an adverse impact on fish and
wildlife habitat. The practices, techniques or measures include land acquisition,
storm sewer rerouting and the removal of structures necessary to install structural
urban best management practices, facilities for the handling and treatment of
milkhouse wastewater, repair of fences built using grants under this section and
measures to prevent or reduce pollutants generated from mine tailings disposal sites
for which the department has not approved a plan of operation under s. 289.30 or s.
295.51.

SECTION 114. 281.75 (17) (b) of the statutes is amended to read:
281.75 (17) (b) This section does not apply to contamination which is
compensable under subch. II of ch. 107 or s. 293.65 (4) or 295.61 (8).

SECTION 115. 283.84 (3m) of the statutes is amended to read:
283.84 (3m) A person engaged in mining, as defined in s. 293.01 (9) or 295.41
(26), prospecting, as defined in s. 293.01 (18), bulk sampling, as defined in s. 293.01
(2m) or 295.41 (7), or nonmetallic mining, as defined in s. 295.11 (3), may not enter
into an agreement under sub. (1).

SECTION 116. 287.13 (5) (e) of the statutes is amended to read:
287.13 (5) (e) Solid waste produced by a commercial business or industry which
is disposed of or held for disposal in an approved facility, as defined under s. 289.01
(3), or a mining waste site, as defined in s. 295.41 (31), covered by a mining permit
under s. 295.58, owned or leased by the generator or on which the generator holds
an easement, and designed and constructed for the purpose of accepting that type of solid waste.

**SECTION 117.** 289.62 (2) (g) 2. of the statutes is amended to read:

289.62 (2) (g) 2. For nonhazardous tailing solids or for nonacid producing taconite tailing solids, 0.2 cent per ton.

**SECTION 118.** 289.62 (2) (g) 6. of the statutes is amended to read:

289.62 (2) (g) 6. For nonhazardous waste rock or for nonacid producing taconite waste rock, 0.1 cent per ton.

**SECTION 119.** 292.01 (1m) of the statutes is amended to read:

292.01 (1m) “Approved mining facility” has the meaning given in s. 289.01 (4) and includes a mining waste site, as defined in s. 295.41 (31).

**SECTION 120.** Chapter 293 (title) of the statutes is amended to read:

**CHAPTER 293**

**NONFERROUS METALLIC MINING**

**SECTION 121.** 293.01 (2m) of the statutes is repealed.

**SECTION 122.** 293.01 (5) of the statutes is amended to read:

293.01 (5) “Mineral exploration” or “exploration”, unless the context requires otherwise, means the on-site geologic examination from the surface of an area by core, rotary, percussion or other drilling, where the diameter of the hole does not exceed 18 inches, for the purpose of searching for nonferrous metallic minerals or establishing the nature of a known nonferrous metallic mineral deposit, and includes associated activities such as clearing and preparing sites or constructing roads for drilling.

**SECTION 123.** 293.01 (7) of the statutes is amended to read:
293.01 (7) “Merchantable by-product” means all waste soil, rock, mineral, liquid, vegetation and other material directly resulting from or displaced by the mining, cleaning or preparation of nonferrous metallic minerals during mining operations which are determined by the department to be marketable upon a showing of marketability made by the operator, accompanied by a verified statement by the operator of his or her intent to sell such material within 3 years from the time it results from or is displaced by mining. If after 3 years from the time merchantable by-product results from or is displaced by mining such material has not been transported off the mining site, it shall be considered and regulated as refuse unless removal is continuing at a rate of more than 12,000 cubic yards per year.

SECTION 124. 293.01 (8) of the statutes is created to read:

293.01 (8) “Minerals” mean unbeneficiated metallic ore but does not include mineral aggregates such as stone, sand, and gravel.

SECTION 125. 293.01 (9) of the statutes is amended to read:

293.01 (9) “Mining” or “mining operation” means all or part of the process involved in the mining of nonferrous metallic minerals, other than for exploration, bulk sampling, or prospecting, including commercial extraction, agglomeration, beneficiation, construction of roads, removal of overburden and the production of refuse.

SECTION 126. 293.01 (12) of the statutes is amended to read:

293.01 (12) “Mining site” means the surface area disturbed by a mining operation, including the surface area from which the nonferrous metallic minerals or refuse or both have been removed, the surface area covered by refuse, all lands disturbed by the construction or improvement of haulageways, and any surface areas
in which structures, equipment, materials and any other things used in the mining operation are situated.

SECTION 127. 293.01 (12m) of the statutes is repealed.

SECTION 128. 293.01 (18) of the statutes is amended to read:

293.01 (18) “Prospecting” means engaging in the examination of an area for the purpose of determining the quality and quantity of nonferrous metallic minerals, other than for exploration or bulk sampling but including the obtaining of a nonferrous metallic mineral ore sample, by such physical means as excavating, trenching, construction of shafts, ramps and tunnels and other means, other than for exploration or bulk sampling, which the department, by rule, identifies, and the production of prospecting refuse and other associated activities. “Prospecting” shall not include such activities when the activities are, by themselves, intended for and capable of commercial exploitation of the underlying nonferrous ore body. However, the fact that prospecting activities and construction may have use ultimately in mining, if approved, shall not mean that prospecting activities and construction constitute mining within the meaning of sub. (9), provided such activities and construction are reasonably related to prospecting requirements.

SECTION 129. 293.01 (25) of the statutes is amended to read:

293.01 (25) “Refuse” means all waste soil, rock, mineral, liquid, vegetation and other material, except merchantable by-products, directly resulting from or displaced by the prospecting or mining and from the cleaning or preparation of nonferrous metallic minerals during prospecting or mining operations, and shall include all waste materials deposited on or in the prospecting or mining site from other sources.

SECTION 130. 293.13 (2) (b) (intro.) of the statutes is amended to read:
293.13 (2) (b) (intro.) Minimum standards for exploration, bulk sampling, prospecting, and mining shall include the following:

**SECTION 131.** 293.13 (2) (b) 4. of the statutes is amended to read:

293.13 (2) (b) 4. Adequate diversion and drainage of water from the exploration, bulk sampling, prospecting, or mining site.

**SECTION 132.** 293.13 (2) (b) 7. of the statutes is amended to read:

293.13 (2) (b) 7. Removal and stockpiling, or other measures to protect topsoils prior to exploration, bulk sampling, prospecting, or mining.

**SECTION 133.** 293.13 (2) (c) (intro.) of the statutes is amended to read:

293.13 (2) (c) (intro.) Minimum standards for reclamation of exploration and bulk sampling sites, where appropriate, and for prospecting and mining sites shall conform to s. 293.01 (23) and include provision for the following:

**SECTION 134.** 293.13 (2) (c) 7. of the statutes is amended to read:

293.13 (2) (c) 7. Revegetation to stabilize disturbed soils and prevent air and water pollution, with the objective of reestablishing a variety of populations of plants and animals indigenous to the area immediately prior to exploration, bulk sampling, prospecting, or mining.

**SECTION 135.** 293.15 (7m) of the statutes is repealed.

**SECTION 136.** 293.15 (8) of the statutes is amended to read:

293.15 (8) Promulgate rules regulating the production, storage and disposal of radioactive waste from exploration, bulk sampling, prospecting, or mining after seeking comments from the department of health services. At a minimum, rules promulgated under this subsection shall achieve the margin of safety provided in applicable federal statutes and regulations. If the department promulgates rules
under this subsection, the department shall investigate the need for standards more
restrictive than the applicable federal statutes and regulations.

**SECTION 137.** 293.21 (1) (a) of the statutes is amended to read:

293.21 (1) (a) “Driller” means a person who performs core, rotary, percussion
or other drilling involved in exploration for nonferrous metallic minerals.

**SECTION 138.** 293.25 (2) (a) of the statutes is amended to read:

293.25 (2) (a) *Applicability.* Except as provided under par. (b), ss. 293.21 and
293.81 and rules promulgated under those sections apply to radioactive waste site
exploration, to activities related to radioactive waste site exploration and to persons
engaging in or intending to engage in radioactive waste site exploration or related
activities in the same manner as those sections and rules are applicable to
nonferrous metallic mineral exploration, to activities related to nonferrous metallic
mineral exploration and to persons engaging in or intending to engage in nonferrous
metallic mineral exploration or related activities.

**SECTION 139.** 293.25 (4) of the statutes is amended to read:

293.25 (4) *Regulation of exploration and related provisions.* Sections
293.13, 293.15 (1) to (12), 293.85, 293.87 and 293.89 and rules promulgated under
those sections apply to radioactive waste site exploration, to activities related to
radioactive waste site exploration and to persons engaging in or intending to engage
in radioactive waste site exploration or related activities in the same manner as
those sections and rules are applicable to nonferrous metallic mineral exploration,
to activities related to nonferrous metallic mineral exploration and to persons
engaging in or intending to engage in nonferrous metallic mineral exploration or
related activities.

**SECTION 140.** 293.26 of the statutes is repealed.
SECTION 141. 293.31 (title) of the statutes is amended to read:

293.31 (title) **Preapplication notification; data collection.**

SECTION 142. 293.31 (1) of the statutes is amended to read:

293.31 (1) At least 12 months before filing an application for a prospecting permit under s. 293.35 or a mining permit under s. 293.37, a person proposing to engage in a prospecting or mining project shall notify the department in writing of the intention to apply for a prospecting or mining permit. A person who intends to give notice of intent to apply for a prospecting or mining permit may, prior to obtaining, collecting, or generating environmental data intended to be used to support the permit application, submit to the department the methodology that the person intends to use in obtaining, collecting, or generating the data. The department shall review the proposed methodology and shall either inform the person that the proposed methodology will be accepted by the department or provide the person with the methodology that the department requires to be used. The department may assess the person submitting the proposed methodology a fee equal to the department's costs for reviewing the proposed methodology. If a person obtains, collects, or generates intending to submit an application for a prospecting or mining permit shall notify the department prior to the collection of data or information intended to be used to support a prospecting or mining permit application without obtaining department approval of the person's methodology under sub. (4), the department may not exclude any of the data or information that consists of application. Specific environmental data which would be pertinent to a specific prospecting or mining application, but which was obtained or collected or generated prior to the notice of intent to apply for a prospecting or mining permit, shall be submitted in writing to the department together with any substantiating
background information which would assist the department in establishing the validity of the data. The department shall review the data and, if it concludes that the benefits of permitting the admission of the data outweigh the policy reasons for excluding it, and if the data is otherwise admissible, inform the person giving the notice of intent to prospect or mine that the data will be accepted by the department. Such exclusion shall not relate to general environmental information such as soil characteristics, hydrologic conditions, and air and water data contained in publications, maps, documents, studies, reports, and similar sources, whether public or private, not prepared by or for the applicant. Such exclusion shall likewise not relate to data that is otherwise admissible and collected prior to notification under this subsection for purposes of evaluating another site or sites and that is not collected with intent to evade the provisions of this section.

SECTION 143. 293.31 (2) of the statutes is amended to read:

293.31 (2) Upon receipt of notification under sub. (1), the department shall give public notice of the notification in the same manner as provided under s. 293.43 (2m) (3) (b).

SECTION 144. 293.31 (3) of the statutes is amended to read:

293.31 (3) The department shall also receive and consider any comments from interested persons received within 45 days after public notice is given under sub. (2) as to the information which they believe should be requested from the person giving notice of intent to apply for a prospecting or mining permit and the information which they believe the department should seek through independent studies. If the department holds a public informational hearing to receive comments from interested persons under this section, the hearing shall be completed within 45 days after public notice is given under sub. (2).
SECTION 145. 293.31 (4) of the statutes is amended to read:

293.31 (4) No later than 90 days after the period for receiving and considering

After the receipt and consideration of comments from interested persons under sub.

(3), the department shall inform the person giving notice of intent to apply for a

prospecting or mining permit of the type and quantity of information that it then

believes to be needed to support an application and, where applicable, the

methodology to be used in gathering information. The department shall specifically

inform the person giving notice of intent to apply for a prospecting or mining permit

of the type and quantity of information on the characteristics of groundwater

resources in the area in which prospecting or mining is anticipated to occur which

the department believes is needed to support an application, including the

information that the department believes should be included in the applicant’s

environmental impact report and the information that the department will need to

prepare an environmental impact statement. The department shall also inform

begin informing the person giving notice of intent to apply for a prospecting or mining

permit of as to the timely application date and other filing requirements for all other

approvals, licenses, and permits relating to the proposed prospecting or mining

project so as to facilitate the consideration of all other matters at the hearing on the

prospecting or mining permit.

SECTION 146. 293.31 (4m) of the statutes is repealed.

SECTION 147. 293.32 (4) of the statutes is repealed.

SECTION 148. 293.37 (4) (b) of the statutes is amended to read:

293.37 (4) (b) If the department finds that the anticipated life and total area

of a nonferrous metallic mineral deposit are of sufficient magnitude that reclamation

of the mining site consistent with this chapter requires a comprehensive plan for the
entire affected area, it shall require an operator to submit with the application for
a mining permit, amended mining site or change in mining or reclamation plan, a
comprehensive long-term plan showing, in detail satisfactory to the department, the
manner, location and time for reclamation of the entire area of contiguous land which
will be affected by mining and which is owned, leased or under option for purchase
or lease by the operator at the time of application. Where a nonferrous metallic
mineral deposit lies on or under the lands of more than one operator, the department
shall require the operators to submit mutually consistent comprehensive plans.

SECTION 149. 293.37 (5) of the statutes is repealed.

SECTION 150. 293.40 of the statutes is repealed.

SECTION 151. 293.43 (1) of the statutes is amended to read:

293.43 (1) APPLICABILITY. This section, and ch. 227 where it is consistent, shall
govern all hearings on applications for prospecting or mining permits.

SECTION 152. 293.43 (1m) (b) of the statutes is amended to read:

293.43 (1m) (b) Except as provided in this section paragraph, for all
department issued approvals, licenses, and permits relating to prospecting or
mining, including solid waste feasibility report approvals and permits related to air
and water, to be issued after April 30, 1980, the notice, hearing, and comment
process provisions, if any, and the time for issuance of decisions shall be controlled
by this section and ss. 293.45 and 293.49. If an applicant fails to make application
for an approval, license, or permit for an activity incidental to prospecting or mining
in time for notice under this section to be provided, the notice and comment
requirements, if any, shall be controlled by the specific statutory provisions with
respect to that application. If notice under those specific statutory notice
requirements can be given for consideration of the approval, license, or permit at the
hearing under this section, the application shall be considered at that hearing; otherwise, the specific statutory hearing provisions, if any, with respect to that application shall control. The substantive requirements for the issuance of any approval, permit, or license incidental to prospecting or mining are not affected by the fact that a hearing on the approval, permit, or license is conducted as part of a hearing under this section.

SECTION 153. 293.43 (2) of the statutes is created to read:

293.43 (2) LOCATION. The hearing shall be held in the county where the prospecting or mining site, or the largest portion of the prospecting or mining site, is located, but may subsequently be adjourned to other locations.

SECTION 154. 293.43 (2m) of the statutes is repealed.

SECTION 155. 293.43 (3) of the statutes is created to read:

293.43 (3) TIMING OF NOTICE AND OF HEARING; GIVING OF NOTICE. (a) If it is determined that a statement under s. 1.11 is not required, the hearing shall be scheduled for a date not less than 60 days nor more than 90 days after the announcement of that determination, and the scheduling and providing of notice shall be completed not later than 10 days following the announcement. Notice of the hearing shall be given by mailing a copy of the notice to any known state agency required to issue a permit for the proposed operation, to the regional planning commission for the affected area, to the county, city, village, and town within which any part of the affected area lies, to all persons who have requested this notification and, if applicable, to all persons specified under par. (b) 3. and s. 281.35 (5) (b) and (6) (f). Written comments may be submitted to the department within 30 days of the date of notice.
(b) If it is determined that a statement under s. 1.11 is required, or if an environmental impact statement is required under s. 293.39, the department shall hold at least one informational meeting regarding the preliminary environmental report within 60 days of its issuance. The meeting shall be held not sooner than 30 days nor later than 60 days after the issuance of the report. The scheduling and providing of notice of the meeting shall be completed not later than 10 days following the issuance of the preliminary environmental report. A hearing referred to under sub. (1m) shall be scheduled for a date not less than 120 days nor more than 180 days after the issuance of the environmental impact statement. The scheduling and providing of notice of the hearing shall be completed within 30 days from the date of issuance of the environmental impact statement. The providing of notice shall be accomplished by doing all of the following:

1. Mailing a copy of the notice to all known departments and agencies required to grant any permit necessary for the proposed operation, to any regional planning commission within which the affected area lies, to the governing bodies of all towns, villages, cities and counties within which any part of the proposed prospecting or mining site lies, to the governing bodies of any towns, villages, or cities contiguous to any town, village, or city within which any part of the proposed prospecting or mining site lies and to any interested persons who have requested such notification.

2. Publication of a class 2 notice, under ch. 985, utilizing a display advertising format, in the weekly newspaper published in the closest geographic proximity to the proposed prospecting or mining site, in the newspaper having the largest circulation in the county within which the proposed site lies, and in those newspapers published in counties contiguous to the county within which the proposed site lies that have a
substantial circulation in the area of, or adjacent to, the proposed prospecting or
mining site.
3. Mailing a copy of the notice to the U.S. environmental protection agency, U.S.
army corps of engineers, and other states potentially affected by the proposed
discharge if a water discharge permit under ch. 283 is to be considered at the hearing
under this section and to the U.S. environmental protection agency and appropriate
agencies in other states that may be affected if an air pollution control permit under
ch. 285 is to be considered at the hearing under this section.
(c) Written comments may be submitted by any governmental agency within
80 days of the date of issuance of the statement under par. (b). Individual persons
may submit written comments within 120 days of the date of issuance of the
statement. The last day for receipt of comments shall be specified by the department
in all notices.

SECTION 156. 293.43 (3m) of the statutes is repealed.

SECTION 157. 293.43 (4) of the statutes is created to read:

293.43 (4) PARTICIPATION BY LOCAL GOVERNMENTS. Any county, town, village, or
city receiving notice of the filing of an application in the manner provided under sub.
(3) (a) or (b) shall refer the application and reclamation plan to a committee
established under s. 293.33 (1) or (2), if any, for review and comment. Such counties,
towns, villages, or cities may participate as a party in the hearing on the application
and may make recommendations on the reclamation plan and future use of the
project site.

SECTION 158. 293.43 (4m) of the statutes is repealed.

SECTION 159. 293.43 (5) of the statutes is created to read:
293.43 (5) Hearing Procedure. (a) At the opening of the hearing, the hearing examiner shall advise all persons present of their right to express their views either orally or in writing, under oath or otherwise, and of the legal effect of each form of testimony. All interested persons, at the hearing or at a time set prior to the hearing, shall be given an opportunity, subject to reasonable limitations on the presentation of repetitious or irrelevant material, to express their views on any aspect of the matters under consideration. The presentation of these views need not be under oath nor subject to cross-examination. A written record of unsworn testimony shall be made.

(b) Persons who wish to participate as parties shall file a written notice with the hearing examiner setting forth their interest at least 30 days prior to the scheduled time of the hearing or prior to the scheduled time of any prehearing conference, whichever is earlier, unless good cause is shown.

(c) The record shall consist of the contested case portion of the proceeding. Views given under par. (a) and all written comments submitted from any source shall be placed in the file of the proceeding and shall be given appropriate probative value by the hearing examiner or decisionmaker.

(d) Hearings conducted under this section may be continued for just cause.

(e) If evidence of conformance with applicable zoning ordinances as required by s. 293.49 (1) (a) 6. is not presented by the time testimony is completed, the department shall close the record and continue the hearing. The duration of the continuance of the hearing shall be specified by the department at the time the continuance begins, after first requesting the applicant to state the anticipated time at which the evidence will be provided. The continuance may be extended by the department prior to its expiration upon notice to all parties if good cause is shown.
(f) Each approval or denial of a license or permit considered at the hearing under this section shall be made in findings of fact, conclusions of law, and an order setting forth reasons with clarity and in detail.

SECTION 160. 293.47 (1) (b) of the statutes is amended to read:

293.47 (1) (b) “Geologic information” means information concerning descriptions of a nonferrous ore body, descriptions of reserves, tonnages, and grades of nonferrous ore, descriptions of a drill core or bulk sample including analysis, and descriptions of drill hole depths, distances, and similar information related to the nonferrous ore body.

SECTION 161. 293.49 (1) (a) (intro.) of the statutes is amended to read:

293.49 (1) (a) (intro.) Except as provided in sub. (2) and s. 293.50 and except with respect to property specified in s. 41.41 (11), within 90 days of the completion of the public hearing record, the department shall issue the mining permit if it finds:

SECTION 162. 293.49 (1) (a) 2m. of the statutes is repealed.

SECTION 163. 293.495 of the statutes is repealed.

SECTION 164. 293.50 of the statutes is created to read:

293.50 Moratorium on issuance of permits for mining of sulfide ore bodies. (1) In this section:

(a) “Pollution” means degradation that results in any violation of any environmental law as determined by an administrative proceeding, civil action, criminal action, or other legal proceeding. For the purpose of this paragraph, issuance of an order or acceptance of an agreement requiring corrective action or a stipulated fine, forfeiture, or other penalty is considered a determination of a violation, regardless of whether there is a finding or admission of liability.
(b) “Sulfide ore body” means a mineral deposit in which nonferrous metals are mixed with sulfide minerals.

(2) The department may not issue a permit under s. 293.49 for the purpose of the mining of a sulfide ore body until all of the following conditions are satisfied:

(a) The department determines, based on information provided by an applicant for a permit under s. 293.49 and verified by the department, that a mining operation has operated in a sulfide ore body which, together with the host nonferrous rock, has a net acid generating potential in the United States or Canada for at least 10 years without the pollution of groundwater or surface water from acid drainage at the tailings site or at the mine site or from the release of heavy metals.

(b) The department determines, based on information provided by an applicant for a permit under s. 293.49 and verified by the department, that a mining operation that operated in a sulfide ore body which, together with the host nonferrous rock, has a net acid generating potential in the United States or Canada has been closed for at least 10 years without the pollution of groundwater or surface water from acid drainage at the tailings site or at the mine site or from the release of heavy metals.

(2m) (a) The department may not base its determination under sub. (2) (a) or (b) on any mining operation that has been listed on the national priorities list under 42 USC 9605 (a) (8) (B) or any mining operation for which the operator is no longer in business and has no successor that may be liable for any contamination from the mining operation and for which there are no other persons that may be liable for any contamination from the mining operation.

(b) The department may not base its determination under sub. (2) (a) or (b) on a mining operation unless the department determines, based on relevant data from groundwater or surface water monitoring, that the mining operation has not caused
significant environmental pollution from acid drainage at the tailings site or at the
mine site or from the release of heavy metals.

(3) This section applies without regard to the date of submission of the permit
application.

SECTION 165. 293.51 (title) of the statutes is amended to read:

293.51 (title) Bonds and other security.

SECTION 166. 293.51 (1) of the statutes is amended to read:

293.51 (1) Upon notification that an application for a prospecting or mining
permit has been approved by the department but prior to commencing prospecting
or mining, the operator shall file with the department a bond conditioned on faithful
performance of all of the requirements of this chapter and all rules adopted by the
department under this chapter. The bond shall be furnished by a surety company
licensed to do business in this state. In lieu of a bond, the operator may deposit cash,
certificates of deposit, or government securities with the department. Interest
received on certificates of deposit and government securities shall be paid to the
operator. The amount of the bond or other security required shall be equal to the
estimated cost to the state of fulfilling the reclamation plan, in relation to that
portion of the site that will be disturbed by the end of the following year. The
estimated cost of reclamation of each prospecting or mining site shall be determined
by the department on the basis of relevant factors including, but not limited to,
expected changes in the price index, topography of the site, methods being employed,
dePTH and composition of overburden and depth of nonferrous metallic mineral
deposit being mined.

SECTION 167. 293.51 (1g) of the statutes is repealed.

SECTION 168. 293.51 (1m) of the statutes is repealed.
SECTION 169. 293.51 (1r) of the statutes is repealed.

SECTION 170. 293.51 (3) of the statutes is amended to read:

293.51 (3) Upon approval of the operator’s bond or other security under subs. (1), (1g), (1m), and (1r), mining application, and certificate of insurance, the department shall issue written authorization to commence mining at the permitted mining site in accordance with the approved mining and reclamation plans.

SECTION 171. 293.51 (5) of the statutes is repealed.

SECTION 172. 293.55 (1) (c) of the statutes is amended to read:

293.55 (1) (c) Substantial changes. The department shall determine if any change in the mining or reclamation plans is substantial and provide notice of its determination in the same manner as specified under s. 293.43 (2m) (b) (3) (b) 1. to 3.

SECTION 173. 293.55 (1) (d) of the statutes is amended to read:

293.55 (1) (d) Notice. The department shall provide notice of any modification which involves an increase or decrease in the area of a mining site or a substantial change in the mining or reclamation plan in the same manner as an original application for a mining permit under s. 293.43 (2m) (3). If 5 or more interested persons do not request a hearing in writing within 30 days of notice, no hearing is required on the modification. The notice shall include a statement to this effect.

SECTION 174. 293.65 (3) (a) of the statutes is amended to read:

293.65 (3) (a) An approval under s. 281.34 is required to withdraw groundwater for prospecting or mining or to dewater mines if the capacity and rate of withdrawal of all wells involved in the withdrawal of groundwater or the dewatering of mines exceeds 100,000 gallons each day. A permit under s. 283.31 is required to discharge pollutants resulting from the dewatering of mines.
SECTION 175. 293.65 (3) (b) of the statutes is amended to read:

293.65 (3) (b) The department may not issue an approval under s. 281.34 if the withdrawal of groundwater for prospecting or mining purposes or the dewatering of mines will result in the unreasonable detriment of public or private water supplies or the unreasonable detriment of public rights in the waters of the state. No withdrawal of groundwater for prospecting or mining purposes or the dewatering of mines may be made to the unreasonable detriment of public or private water supplies or the unreasonable detriment of public rights in the waters of the state. Notwithstanding any limitation on approval conditions in s. 281.34, if the department determines that a proposed withdrawal of groundwater or dewatering of mines will result in the unreasonable detriment of public or private water supplies or the unreasonable detriment of public rights in the waters of the state the department shall include conditions in the mining or prospecting permit or in an approval issued under s. 281.34 to ensure that the withdrawal or dewatering will not result in the unreasonable detriment of public or private water supplies or the unreasonable detriment of public rights in the waters of the state. These conditions may include a requirement that the applicant for the mining or prospecting permit or approval under s. 281.34 provide a replacement water supply of similar quality, provide an increased amount of water to the water supply, or temporarily augment the quantity of water in, or flowing into or from, the affected waters of the state that is of substantially similar quality and that has substantially similar characteristics to the water that was in the affected waters of the state before any proposed mining or prospecting activity began.

SECTION 176. 293.66 of the statutes is repealed.

SECTION 177. 293.81 of the statutes is amended to read:
293.81 Exploring, bulk-sampling, prospecting, and mining without authorization. Any person who engages in exploration without a license or bulk sampling without the necessary license or approvals shall forfeit not less than $100 nor more than $1,000 for each parcel as defined under s. 293.21 (1) (b) on which unlicensed exploration or bulk sampling without the necessary license or approvals took place. Any person who authorizes or engages in prospecting without a prospecting permit or any operator who authorizes or engages in mining without a mining permit and written authorization to mine under s. 293.51 (3) shall forfeit all profits obtained from such illegal activities and not more than $10,000 for each day during which the mine was in operation. The operator shall be liable to the department for the full cost of reclaiming the affected area of land and any damages caused by the mining operation. Each day’s violation of this section shall be deemed a separate offense. If the violator is a corporation, limited liability company, partnership or association, any officer, director, member, manager or partner who knowingly authorizes, supervises or contracts for exploration, bulk-sampling, prospecting, or mining shall also be subject to the penalties of this section.

SECTION 178. 293.86 of the statutes is amended to read:

293.86 Visitorial powers of department. Any duly authorized officer, employee or representative of the department may enter and inspect any property, premises or place on or at which any prospecting or metallic mining operation or facility is located or is being constructed or installed at any reasonable time for the purpose of ascertaining the state of compliance with this chapter and chs. 281, 285, 289 to 292, 295, and 299, subchs. I and II of ch. 295, and rules adopted pursuant thereto. No person may refuse entry or access to any such authorized representative of the department who requests entry for purposes of inspection, and who presents
appropriate credentials, nor may any person obstruct, hamper or interfere with any
such inspection. The department shall furnish to the prospector or operator, as
indicated in the prospecting or mining permit, a written report setting forth all
observations, relevant information and data which relate to compliance status.

SECTION 179. 293.95 of the statutes is repealed and recreated to read:

293.95 Review. Any person aggrieved by any decision of the department
under this chapter may obtain its review under ch. 227.

SECTION 180. Chapter 295 (title) of the statutes is amended to read:

CHAPTER 295

NONMETALLIC MINING RECLAMATION;
OIL AND GAS; FERROUS METALLIC MINING

SECTION 181. 295.16 (4) (f) of the statutes is amended to read:

295.16 (4) (f) Any mining operation, the reclamation of which is required in a
permit obtained under ch. 293 or subch. III of ch. 295.

SECTION 182. Subchapter III of chapter 295 [precedes 295.40] of the statutes
is repealed.

SECTION 183. 299.85 (7) (a) 2. and 4. of the statutes are amended to read:

299.85 (7) (a) 2. Notwithstanding minimum or maximum forfeitures specified
in ss. 29.314 (7), 29.334 (2), 29.604 (5) (a), 29.611 (11), 29.889 (10) (c) 2., 29.969,
29.971 (1) (a), (1m) (a), (3), (3m), (11g) (b), (11m) (b), and (11r) (b), 30.298 (1), (2), and
(3), 30.49 (1) (a) and (c), 31.23 (2), 281.75 (19), 281.98 (1), 281.99 (2) (a) 1., 283.91 (2),
285.41 (7), 285.57 (5), 285.59 (8), 285.87 (1), 287.95 (1), (2) (b), and (3) (b), 287.97,
289.96 (2) and (3) (a), 291.97 (1), 292.99 (1) and (1m), 293.81, 293.87 (3) and (4) (a),
295.19 (3) (a) and (b) 1., 295.37 (2), 295.79 (2) and (4), 299.15 (4), 299.51 (5), 299.53
(4) (c) 1., 299.62 (3) (a) and (c), and 299.97 (1), if a regulated entity that qualifies
under sub. (2) for participation in the Environmental Compliance Audit Program
corrects violations that it discloses in a report that meets the requirements of sub.
(3) within 90 days after the department receives the report that meets the
requirements of sub. (3), the regulated entity may not be required to forfeit more than
$500 for each violation, regardless of the number of days during which the violation
continues.

4. Notwithstanding minimum or maximum forfeitures specified in ss. 29.314
(7), 29.334 (2), 29.604 (5) (a), 29.611 (11), 29.889 (10) (c) 2., 29.969, 29.971 (1) (a), (1m)
(a), (3), (3m), (11g) (b), (11m) (b), and (11r) (b), 30.298 (1), (2), and (3), 30.49 (1) (a) and
(c), 31.23 (2), 281.75 (19), 281.98 (1), 281.99 (2) (a) 1., 283.91 (2), 285.41 (7), 285.57
(5), 285.59 (8), 285.87 (1), 287.95 (1), (2) (b), and (3) (b), 287.97, 289.96 (2) and (3) (a),
291.97 (1), 292.99 (1) and (1m), 293.81, 293.87 (3) and (4) (a), 295.19 (3) (a) and (b)
1., 295.37 (2), 295.79 (2) and (4), 299.15 (4), 299.51 (5), 299.53 (4) (c) 1., 299.62 (3) (a)
and (c), and 299.97 (1), if the department approves a compliance schedule under sub.
(6) and the regulated entity corrects the violations according to the compliance
schedule, the regulated entity may not be required to forfeit more than $500 for each
violation, regardless of the number of days during which the violation continues.

SECTION 184. 299.95 of the statutes is amended to read:

299.95 Enforcement; duty of department of justice; expenses. The
attorney general shall enforce chs. 281 to 285 and 289 to 295 and this chapter, except
ss. 285.57, 285.59, and 299.64, and all rules, special orders, licenses, plan approvals,
permits, and water quality certifications of the department, except those
promulgated or issued under ss. 285.57, 285.59, and 299.64 and except as provided
in ss. 281.36 (14) (f), 285.86 and 299.85 (7) (am). Except as provided in s. 295.79 (1),
the The circuit court for Dane county or for any other county where a violation
occurred in whole or in part has jurisdiction to enforce chs. 281 to 285 and 289 to 295 or this chapter or the rule, special order, license, plan approval, permit, or certification by injunctional and other relief appropriate for enforcement. For purposes of this proceeding where chs. 281 to 285 and 289 to 295 or this chapter or the rule, special order, license, plan approval, permit or certification prohibits in whole or in part any pollution, a violation is considered a public nuisance. The department of natural resources may enter into agreements with the department of justice to assist with the administration of chs. 281 to 285 and 289 to 295 and this chapter. Any funds paid to the department of justice under these agreements shall be credited to the appropriation account under s. 20.455 (1) (k).

SECTION 185. 323.60 (1) (gm) of the statutes is repealed.

SECTION 186. 323.60 (5) (d) 3. of the statutes is amended to read:

323.60 (5) (d) 3. All facilities with 10 or more employees in major group classifications 10 to 13 in the standard industrial classification manual, 1987 edition, published by the U.S. office of management and budget, at which a toxic chemical is used at or above an applicable threshold quantity, except that compliance with the toxic chemical release form requirements under this subdivision is not required for the placement of a toxic chemical in a storage or disposal site or facility that is located at a facility with a permit under ch. 293 or a mining permit under subch. III of ch. 295 if the toxic chemical consists of or is contained in merchantable by-products, as defined in s. 293.01 (7) or 295.41 (25), minerals, as defined in s. 293.01 (8), or refuse, as defined in s. 293.01 (25) or 295.41 (41).

SECTION 187. 706.01 (9) of the statutes is amended to read:

706.01 (9) “Mining company” means any person or agent of a person who has a prospecting permit under s. 293.45 or a mining permit under s. 293.49 or 295.58.
SECTION 188. 710.02 (2) (d) of the statutes is amended to read:

710.02 (2) (d) An exploration mining lease as defined in s. 107.001 (1) and land used for mining and associated activities under chs. 293 and 295.

SECTION 189. 2013 Wisconsin Act 1, section 103 is repealed.

SECTION 190. 2017 Wisconsin Act 183, section 27 is repealed.

SECTION 191. NR 132.06 (4) of the administrative code is created to read:

NR 132.06 (4) The department has been directed, pursuant to ch. 421, laws of 1977, to assure that mining activities conducted in this state result in a minimization of disturbance to wetlands. The legislature has also directed, in ch. 377, laws of 1977, that department rules relating to metallic mining wastes take into consideration the special requirements of metallic mining operations in the location, design, construction, operation and maintenance of sites and facilities for the disposal of such wastes as well as any special environmental concerns that will arise as a result of the disposal of the same. The department has established, in s. NR 1.95 an overall framework for its decisions affecting wetlands. It is, therefore, the intent of this subsection to implement these directives recognizing that, depending on the location and site conditions involved in a particular case, it may be relatively easy to avoid entirely the use of wetlands in some cases while being virtually impossible to avoid their limited and carefully contemplated use in others and that the goal of the siting process shall be the selection of sites that are most favorable taking into account all pertinent factors. For purposes, therefore, of administering these directives and rules and acting on permits, licenses and approvals, the following standards shall be applied:

(a) The objective of the applicant's site selection process for mining facilities, and for the disposal or storage of wastes or materials produced by such activities,
shall be the selection of a viable site that would result in the least overall adverse
environmental impact.

(b) The applicant’s site selection process shall include the identification and
analysis of various alternatives so that a legitimate comparison between the most
viable sites can be made by the department, realizing that a comparison will be made
between several sites, all of which may have some imperfections with regard to
environmental acceptability and none of which, in some cases, may be found to be
environmentally acceptable as a result of compliance with s. 1.11, Stats., and other
applicable Wisconsin laws.

(c) To ensure compliance with the requirement to minimize the disturbance of
wetlands, the applicant shall identify and the department shall analyze viable sites
which would result in the least overall adverse environmental impact and which
would also avoid the use of any wetlands. If such sites avoiding the use of wetlands
cannot be identified pursuant to the standards in this subsection, then the applicant
shall identify and the department shall analyze those viable sites which would result
in the least overall adverse environmental impact and which would also utilize,
consistent with minimizing total environmental impacts, the least acreage and the
least valuable wetlands directly and which would cause the least adverse impact on
the wetlands and waters of the state outside the proposed area of use.

(d) The use of wetlands for mining activities, including the disposal or storage
of mining wastes or materials, or the use of other lands for such uses which would
have a significant adverse effect on wetlands, are presumed to be unnecessary unless
the applicant demonstrates, taking into account economic, environmental, technical,
recreational and aesthetic factors, that the site proposed for use:

1. Constitutes a viable site;
2. Is the alternative which causes the least overall adverse environmental impact;

3. Will be used in a manner so as to minimize the loss of wetlands functions which those wetlands may serve with respect to related wetlands or other waters of the state, or both, outside the proposed area of use. As used in this paragraph, a presumption shall not be construed to be a prohibition, but rather the creating of a burden of proof on the applicant to demonstrate by the preponderance of evidence that it has complied with all the siting principles and standards of this subsection. As used in this section, viable means technically and economically feasible.

(e) With respect to mining activities sited, in whole or in part, in wetlands and predating these rules as well as ch. 377, laws of 1977, the use of such wetlands for such activities shall be deemed necessary hereunder and the site of such use shall be deemed a viable site. The standards of minimization herein established to the extent applicable to such preexisting activities by reason of s. 293.13 (2) (c) 8., Stats., shall be so applicable only to the extent specified in s. 293.91 (2), Stats. Furthermore, any additional activities undertaken in wetlands by an applicant subsequent to the effective date of these rules, which additional activities are undertaken to bring activities of the applicant, which were sited in wetlands prior to these rules, into prompt compliance with chs. 30, 281 and 283, Stats., as well as regulations, orders and decisions thereunder, shall be deemed to be necessary so long as the applicant demonstrates that, taking into account economic, environmental, technical, recreational and aesthetic factors, the site proposed for use by such additional activities will be used in a manner so as to minimize the loss of wetlands and the net loss of functions which those wetlands may serve with respect to related wetlands or other waters of the state, or both, outside the proposed area of use.
(f) The department shall give special consideration to a site where it finds that
the degree of necessary improvement is of such extent and expense that compliance
cannot be accomplished without affecting wetlands.

(g) The applicant shall assist in the evaluation of environmental impacts as
mandated herein. All of the applicable following wetlands functions and values shall
be considered except as provided in par. (h):

1. ‘Biological functions.’ Wetlands are environments in which a variety of
biological functions occur. In many cases, wetlands are very productive ecosystems
which support a wide diversity of aquatic and terrestrial organisms. Many wetland
areas are vital spawning, breeding, nursery or feeding grounds for a variety of
indigenous species. Wetlands are sometimes the habitats for state or federally
designated rare, threatened or endangered species. Evaluation of the biological
functions should include consideration of the kinds, numbers and relative
abundance and distribution of plant and animal species supported by the area, net
primary productivity of plant communities, wildlife production and use, and the
kinds and amount of organic material transported to other aquatic systems as a
potential energy source for consumer organisms in those systems. Habitat
evaluation should consider the short- and long-term importance of the wetlands to
both aquatic and terrestrial species. In addition, the evaluation should include any
specialized wetland functions essential for an organism to complete its life cycle
requirements such as cover, spawning, feeding and the like. Each wetland under
consideration should be evaluated on a site specific basis.

2. ‘Watershed functions.’ In addition to their biological functions, wetlands
may serve important physical and chemical functions with respect to other wetlands
and waters of the state. A specific wetland, or set of wetlands, may play a critical role
in maintaining the stability of the entire system to which it is physically and
functionally related. This functional role may include the maintenance of both the
hydrologic patterns and the physical and chemical processes of related wetlands and
other related waters of the state. Evaluation of wetland functions requires a
thorough analysis of the manner and extent to which the wetland serves to maintain
the hydrologic, physical and chemical processes of the larger ecosystem to which it
belongs. Factors to be considered in the evaluation process are discussed below. The
use of non-wetland areas may alter the hydrologic, chemical and physical processes
of wetlands outside the proposed area of use. The possibility of such impacts from
the use area into wetlands and other waters of the state outside the proposed area
of use should be carefully considered.

2c. ‘Hydrologic support functions.’ A particular wetland may function to
maintain the hydrologic characteristics, and thereby the physical and chemical
integrity of an entire aquatic ecosystem. Assessment of the hydrologic support
function shall consider the effects that modifications of a particular area could have
on the hydrologic relations to the whole wetland or aquatic ecosystem, and on the
cumulative effects of piecemeal alterations. Evaluation of wetlands hydrologic
functions shall include consideration of the wetland’s location and topographic
position, the areal extent of the wetland within the associated system, the degree of
connection with other wetlands and waters of the state, and the hydrologic regime.
Hydrologic regime refers to the hydrologic characteristics of a wetland such as the
source of the water, its velocity, depth and fluctuation, renewal rate and temporal
patterns on timing. The water source determines ionic composition, oxygen
saturation, and potential pollutant load. Velocity affects turbulence and the ability
of the water to carry suspended particulate matter. Water depth and fluctuation
patterns have a critical influence on the vegetation, wildlife, and physical-chemical properties of the sediments and overlying waters. Renewal rate describes the frequency of replacement of the water which depends on water depth and volume, frequency of inundation and velocity. The temporal pattern refers to the frequency of inundation and its regularity or predictability. The hydrologic regime of a wetland influences the biological availability and transport of nutrients, detritus and other organic and inorganic constituents between the particular wetland and other water bodies. Other facets of the hydrologic regime may be considered in specific cases. The location and topographic position of any particular wetland in relation to other water systems determine in part the degree to which they are hydrologically connected. The strongest hydrologic connections are likely to occur between wetlands and other water systems which exchange water frequently and/or are nearest to each other. The areal extent of any particular wetland in relation to the total area of the surrounding watershed is an important criterion in evaluating the hydrologic support function. This includes the relative spatial relationships between specific areas under study and the total area of the adjacent wetland and any open water areas in the watershed.

2f. ‘Groundwater function.’ Groundwater may discharge to a wetland, recharge from a wetland to another area, evaporate from, and/or flow through a wetland. The direction and rate of groundwater flow in a given wetland may change. The criteria that should be considered for their influence on the recharge potential include the total areal extent of wetlands and other waters in the particular drainage basin, and the hydrologic characteristics of the associated aquifer or aquifers including porosity, permeability and transmissivity.
2i. ‘Storm and flood water storage.’ Some wetlands may be important for storing water and retarding flow during periods of flood or storm discharge. Even wetlands without surface water connections to other water bodies may serve this function. Such wetlands can reduce or at least modify the potentially damaging effects of floods by intercepting and retaining water which might otherwise be channelled through open flow systems. The importance of a given wetland for storm and flood water storage may be modified by the cumulative effects of the proposed activities and previous activities within the watershed. The flood storage capacity of a particular wetland is primarily a function of its area, basin shape, substrate texture and previous degree of saturation. In general, the greater the area of the wetland and the coarser the texture of the substrate, the greater the potential for flood water storage, given unsaturated field conditions. Similarly, wetland vegetation is an important factor in reducing the energy of flood or storm water.

2m. ‘Shoreline protection.’ Wetlands also function to dissipate the energy of wave motion and runoff surges from storms and snowmelt, and thus lessen the effects of shoreline erosion. Wave action shielding by wetlands is not only important in preserving shorelines and channels, but also in protecting valuable residential, commercial and industrial acreage located adjacent to the aquatic ecosystems. The capacity of a particular wetland to act as an erosional buffer for a shoreline depends on such factors as the vegetation characteristics, the shape and size of the wetland and the adjacent shoreline morphology. The protection of shorelines by wetlands depends primarily on the floristic composition, structure and density of the plant community. Shoreline morphology along with fetch, adjacent bottom topography and wetland vegetation are important considerations in evaluating a wetland for its shoreline protection functions. Wetlands along shorelines with long fetches are
likely to be associated with major waters of the state and shall not be considered for use.

2p. ‘Other watershed functions.’ A wetland may perform a variety of other important functions within a watershed. Wetlands may degrade, inactivate, or store materials such as heavy metals, sediments, nutrients, and organic compounds that would otherwise drain into waterways. However, wetlands may subsequently release potentially harmful materials if the wetland soil is disturbed or its oxidation-reduction conditions altered. Potential alterations of these processes must be considered in the analysis, especially with regard to impacts on wetlands outside the proposed area of use. In assessing the importance of a particular wetland to the performance of watershed functions which influence the physical, chemical and biological properties of related waters, the following shall be considered:

   a. Density and distribution of plants;
   b. Area, depth and basin shape;
   c. Hydrologic regime;
   d. Physical, chemical and biological properties of the water and soil;
   e. Relationship of wetland size to watershed size;
   f. The number and size of other wetlands remaining in that watershed;
   g. Topography of the watershed;
   h. Position of the wetland within the watershed relative to springs, lakes, rivers and other waters;
   i. Land use practices and trends within the watershed, or the likelihood of nutrient, sediment or toxin loads increasing.

3. ‘Recreational, cultural and economic value.’ Some wetlands are particularly valuable in meeting the demand for recreational areas, directly or indirectly, by
helping to maintain water quality and providing wildlife habitat. Examples of
recreational uses include: hunting, canoeing, hiking, snowshoeing, and nature
study. To some people and cultures certain wetlands provide an important part of
their economic base and/or contribute to their cultural heritage. In assessing the
recreational, cultural and economic potential of a particular wetland, the following
should be considered:

a. Wetland type;

b. Size;

c. Suitability and compatibility for the different types of recreational uses;

d. Legal access.

e. Accessibility without damage to other wetland values or functions;

f. Proximity to users;

g. Position in relation to lakes, rivers and other waters;

h. Whether it provides habitat for or produces species of recreational, cultural
or economic interest; and

i. Whether the products of some wetlands species (e.g., wild rice, furbearers,
fish) have special cultural value and/or provide a significant portion of the economic
base for the people of a region.

4. ‘Scarcity of wetland type.’ Certain wetland types (e.g., fens, wild rice lakes)
which are statewide or regionally scarce possess special resource significance.
Scarcity or rareness depends on the frequency of occurrence of the type, the area of
the type in existence prior to settlement, the historical conversion of the type and its
resultant degree of destruction, and the amount of similar habitat in the present
landscape of the region. In assessing the scarcity of a particular wetland, a
comparative measure of the commonness among all wetland types and the degree to
which wetlands of all types occur in the surrounding landscape should be considered.

5. ‘Aquatic study areas, sanctuaries and refuges.’ Through various local, state
and federal actions, large areas of the nation’s wetlands have been designated and
preserved by public agencies for scientific study, and the protection of aquatic and
terrestrial habitats. Many public and private groups have also established
sanctuaries and refuges in wetlands. Wetland areas that are legally and/or
administratively controlled as such, or that are included or nominated for inclusion
in the national register of natural landmarks, could be comparatively important.
Wetland areas of significant social, cultural, or historic value, such as known
landmarks, are considered important.

6. ‘The ecosystem concept in a regional context.’ The previous subsections
suggest that wetlands may not only have important functions within their
boundaries, but may also interact with ecosystems of the surrounding region. The
potential impact of wetland modification may influence distant wetlands if they are
structurally and functionally related in the region. Similarly, the functions and
values of any wetland may be affected by other existing and potential water resource
activities in the region. Therefore, consideration should be given to those impacts
which are shown to be of regional concern.

(h) All wetlands which are to be used by the proposed activity shall be
inventoried and analyzed pursuant to this chapter. The use of such wetlands shall
be de minimis and, therefore, exempt from further application of this section, if the
applicant demonstrates the following by a preponderance of evidence:
1. The wetlands to be used are or can be made to be sufficiently hydrologically isolated from the surface and underground waters of the state so that no violations of applicable laws and regulations would result;

2. The wetlands are not special or unique utilizing the result of the analysis made pursuant to this chapter; and

3. The area of wetlands to be used shall not exceed 5 acres.

**SECTION 192.** NR 132.17 (13) of the administrative code is amended to read:

NR 132.17 (13) Tailings transport systems, if not buried, should be designed to provide for emergency tailings conveyance or storage should a pipeline break, plug, freeze or require repairs and be made accessible for inspection, emergency repair and maintenance. Location of emergency spill areas must be consistent with the prevention of environmental pollution of surface waters and with the standards of ss. NR 132.06 (4), 132.19, and 182.07 (2). In the event of a power failure, tailing pipelines should be self draining to the tailings area or to an emergency spill area or standby pumps and pipelines or standby power should be provided. In some cases (e.g., a long pipeline over rough country), several spill areas may have to be provided.

**SECTION 193.** NR 132.18 (1) (f) of the administrative code is amended to read:

NR 132.18 (1) (f) Within wetlands, except pursuant to the provisions under s. 281.36 criteria established in s. NR 132.06 (4).

**SECTION 194.** NR 182.07 of the administrative code is renumbered NR 182.07 (1).

**SECTION 195.** NR 182.07 (2) of the administrative code is created to read:

NR 182.07 (2) Any proposal to establish a site or facility shall comply with the standards and procedures in s. NR 132.06 (4), relating to the minimization of disturbance to wetlands.
SECTION 196. NR 182.08 (2) (d) 8. e. of the administrative code is amended to read:

NR 182.08 (2) (d) 8. e. A table shall be provided showing existing water quality of all potentially affected surface waters. The table shall include those surface waters identified under s. NR 182.07 (1). Important aquatic habitat, such as class II trout stream or state scenic river, shall be indicated.

SECTION 197. Nonstatutory provisions.

(1) RULES. If the department of natural resources has promulgated rules under 2013 Wisconsin Act 1, section 103, on or before the effective date of this subsection, the department of natural resources shall promulgate rules that do all of the following:

(a) Revise the rules promulgated under 2013 Wisconsin Act 1, section 103 (1) (a) so that those rules apply to ferrous metallic mining.

(b) Revise the rules promulgated under 2013 Wisconsin Act 1, section 103 (1) (b) so that those rules are consistent with the repeal by this act of subch. III of ch. 295.

(c) Revise the rules promulgated under 2013 Wisconsin Act 1, section 103 (1) (c) so that the exemptions specified in those rules do not apply to ferrous mining and associated activities.

(2) STATEMENT OF SCOPE. The department of natural resources shall present the statement of scope of the rules required under sub. (1) to the governor for approval under s. 227.135 (2) no later than the 30th day after the effective date of this subsection. The department of natural resources shall submit in proposed form the rules required under sub. (1) to the legislative council staff under s. 227.15 (1) no
later than the first day of the 5th month beginning after the governor approves the statement of scope of the rules.

(3) GENERAL PROGRAM OPERATIONS — FEDERAL FUNDS. The authorized FTE positions for the department of natural resources are increased by 0.75 FED educator positions, to be funded from the appropriation under s. 20.370 (1) (my).

(4) GENERAL PROGRAM OPERATIONS — FEDERAL FUNDS. The authorized FTE positions for the department of natural resources are increased by 9.25 FED science services positions, to be funded from the appropriation under s. 20.370 (3) (my).

(5) INDIRECT COST REIMBURSEMENTS. The authorized FTE positions for the department of natural resources are increased by 1.0 FED educator position, to be funded from the appropriation under s. 20.370 (9) (mz).

SECTION 198. Fiscal changes.

(1) GENERAL PROGRAM OPERATIONS — STATE FUNDS; FISH, WILDLIFE, AND PARKS.

(a) In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (1) (mu), the dollar amount for fiscal year 2019–20 is increased by $495,400 to increase the authorized FTE positions for the department by 4.6 SEG science services positions. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (1) (mu), the dollar amount for fiscal year 2020–21 is increased by $495,400 to increase the authorized FTE positions for the department by 4.6 SEG science services positions.

(b) In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (1) (mu), the dollar amount for fiscal year 2019–20 is increased by $344,600 to increase the authorized FTE positions for the department by 4.25 SEG educator positions. In the schedule under s. 20.005 (3) for
the appropriation to the department of natural resources under s. 20.370 (1) (mu), the dollar amount for fiscal year 2020–21 is increased by $344,600 to increase the authorized FTE positions for the department by 4.25 SEG educator positions.

(2) General Program Operations — State Funds; Forestry. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (2) (mv), the dollar amount for fiscal year 2019–20 is increased by $268,700 to increase the authorized FTE positions for the department by 2.5 SEG science services positions. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (2) (mv), the dollar amount for fiscal year 2020–21 is increased by $268,700 to increase the authorized FTE positions for the department by 2.5 SEG science services positions.

(3) Water Resources Management — Lake, River, and Invasive Species Management. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (4) (aq), the dollar amount for fiscal year 2019–20 is increased by $28,900 to increase the authorized FTE positions for the department by 0.3 SEG science services position. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (4) (aq), the dollar amount for fiscal year 2020–21 is increased by $28,900 to increase the authorized FTE positions for the department by 0.3 SEG science services position.

(4) Recycling; Administration. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (4) (hq), the dollar amount for fiscal year 2019–20 is increased by $79,400 to increase the authorized FTE positions for the department by 1.0 SEG educator position. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (4) (hq), the dollar amount for fiscal year 2020–21 is
increased by $79,400 to increase the authorized FTE positions for the department by 1.0 SEG educator position.

(5) Natural Resources Magazine. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (iq), the dollar amount for fiscal year 2019–20 is increased by $81,700 to increase the authorized FTE positions for the department by 1.0 SEG educator position. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (iq), the dollar amount for fiscal year 2020–21 is increased by $81,700 to increase the authorized FTE positions for the department by 1.0 SEG educator position.

(6) Environmental Quality — Laboratory Certification. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (fj), the dollar amount for fiscal year 2019–20 is increased by $103,800 to increase the authorized FTE positions for the department by 1.25 PR science services positions. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (fj), the dollar amount for fiscal year 2020–21 is increased by $103,800 to increase the authorized FTE positions for the department by 1.25 PR science services positions.

(7) General Program Operations, Nonpoint Source — Environmental Fund. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (mr), the dollar amount for fiscal year 2019–20 is increased by $50,400 to increase the authorized FTE positions for the department by 0.5 SEG science services position. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (mr), the
dollar amount for fiscal year 2020-21 is increased by $50,400 to increase the authorized FTE positions for the department by 0.5 SEG science services position.

(8) **General Program Operations — State Funds; External Services.** In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (mu), the dollar amount for fiscal year 2019-20 is increased by $220,000 to increase the authorized FTE positions for the department by 3.0 SEG educator positions. In the schedule under s. 20.005 (3) for the appropriation to the department of natural resources under s. 20.370 (9) (mu), the dollar amount for fiscal year 2020-21 is increased by $220,000 to increase the authorized FTE positions for the department by 3.0 SEG educator positions.

(9) **Assistant Attorney General and Paralegal Positions.** In the schedule under s. 20.005 (3) for the appropriation to the department of justice under s. 20.455 (1) (a), the dollar amount for fiscal year 2019-20 is increased by $195,400 to increase the authorized FTE positions for the department by 2.0 GPR assistant attorney general positions and 1.0 GPR paralegal position for environmental protection purposes. In the schedule under s. 20.005 (3) for the appropriation to the department of justice under s. 20.455 (1) (a), the dollar amount for fiscal year 2020-21 is increased by $195,400 to provide funding for the positions authorized under this subsection.

(END)
