Analysis by the Legislative Reference Bureau

Under current law, the Department of Public Instruction pays equalization aid to school districts for each school year in the following four installments: 15 percent in September, 25 percent in December, 25 percent in March, and 35 percent in June. This bill increases the percentage of equalization aid distributed in September by 2 points each school year, and decreases the percentage of equalization aid distributed in June by 2 points each school year, until the 2023–24 school year, at which time the amount of equalization aid distributed in both September and June will be 25 percent. The result is that equalization aid will be paid to school districts in four equal installments beginning in the 2023–24 school year.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
