AN ACT to create 20.235 (1) (fr), 20.235 (1) (fs) and 39.412 of the statutes;
relating to: establishing a career advancement scholarship program and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Higher Educational Aids Board to establish a career advancement scholarship program for individuals who are at least 25 years old, do not have a postsecondary credential, and are not enrolled, but intend to enroll, in an eligible institution. The bill defines “eligible institution” as a technical college, a University of Wisconsin System institution, an in-state tribal college, or a private nonprofit institution of higher education that is headquartered in this state. To be eligible for the program, an individual must have been a state resident for at least one year before enrolling at an eligible institution. Also, an individual must complete the federal Free Application for Federal Student Aid and be considered an independent student for purposes of federal financial aid. In addition, the individual must have an expected family contribution (EFC) that does not exceed the maximum specified by the U.S. Department of Education for eligibility under the federal Pell Grant Program. For federal financial aid, including Pell grants, an individual's EFC is calculated under formulas specified under federal law for determining how much an individual and his or her family is expected to contribute to educational costs.

The amount of a scholarship awarded under the program to an individual for an academic year must equal the lesser of the following: 1) 50 percent of the total tuition and fees that an eligible institution charges the individual for the academic
year; or 2) the individual’s unmet need for the academic year. Unmet need is determined by subtracting the total amount of nonloan financial aid provided to an individual, including grants and other scholarships, from the total amount of tuition and fees charged to the individual, except for room and board fees. An individual who is awarded a scholarship may renew the scholarship in a subsequent academic year if he or she is enrolled in a program leading to a postsecondary credential and has made satisfactory academic progress in that program. In addition, he or she must maintain a cumulative grade point average of at least 2.0 and participate in an eligible institution’s academic and career advising program as certified by HEAB.

The bill requires HEAB to begin making the scholarships in fiscal year 2020–21 and appropriates $1,250,000 annually for the scholarships. The bill also requires HEAB to contract with 60 Forward for a marketing campaign to encourage adults without postsecondary credentials to earn postsecondary credentials. 60 Forward is a collaboration among the Technical College System, the UW System, and the Wisconsin Association of Independent Colleges and Universities to increase the number of adults in Wisconsin with a postsecondary credential. The marketing campaign must include other information, including information on the scholarship program required under the bill. HEAB must submit a plan for the marketing campaign to the Joint Committee on Finance for passive review no later than September 15, 2020.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
