AN ACT to create 20.115 (7) (cs) and 93.56 of the statutes; relating to: expanding the clean sweep program to include collection of certain fire fighting foams and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Agriculture, Trade and Consumer Protection, in collaboration with the Department of Natural Resources, to collect and store or dispose of fire fighting foams that contain perfluoroalkyl or polyfluoroalkyl substances (PFAS) and that are voluntarily surrendered. The bill allows DATCP, with the advice of DNR, to contract with a third party to conduct the collection and storage or disposal. The bill requires DATCP or the third party administering the collection program to prioritize collecting from the state and from cities, villages, towns, and counties. Under the bill, any PFAS foams that are collected under the program must be stored in an environmentally safe manner until properly disposed of or treated.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
