The bill provides $250,000 as a onetime appropriation from the environmental fund for the University of Wisconsin Board of Regents to provide a grant to a campus to research technologies for destroying PFAS.

The bill also provides $1,000,000 as a onetime appropriation from the environmental fund for the Department of Natural Resources to test for PFAS in noncommunity water systems that may be in proximity to PFAS contamination and in municipal public water supply systems.

In addition, the bill provides $150,000 biennially from the environmental fund for DNR to sample and test the environment, wildlife, facilities, and other sites for PFAS.

The bill provides, as a onetime appropriation, $120,000 from the environmental fund for DNR to investigate emerging PFAS and to provide temporary potable water or treatment systems when no responsible party for contamination is available.
The bill also provides $5,000,000 biennially from the environmental fund for the PFAS municipal grant program created under 2019 Senate Bill .... (LRB-5545).
