Fiscal Estimate Narratives

DOR 3/22/2022

LRB Number	21-6222/1	Introduction Number	AB-1114	Estimate Type	Original
Description supplemental municipal aid and making an appropriation.					

Assumptions Used in Arriving at Fiscal Estimate

The bill provides annual supplemental municipal aid payments to certain municipalities. A municipality is eligible to receive a payment under the bill if the three-year average of the municipality's per capita equalized property value due to new construction, less improvements removed from the property tax base, is less than the median average three-year per capita equalized value due to new construction less improvements removed for all municipalities. The total amount of all such annual payments is \$100,000,000. Each eligible municipality receives a payment on the basis of its three-year average equalized value and its three-year average population. No municipality may receive an annual payment that is greater than an amount equal to the following: 10 percent of the city's property tax levy, 20 percent of the village's property tax levy, and 30 percent of the town's property tax levy.

Under the bill, payments would begin in 2023 with estimated payments provided in October 2022. Based on property tax data for 2021-22, 2020-21, and 2019-20, the department estimates the state fiscal effect at \$96,136,800 for FY 2024. 254 municipalities would have payments reduced since their calculated payment exceeded the bills limitations, with reductions estimated at \$3,863,200. The municipal breakdown for the estimate is as follows: 557 towns would receive payments totaling \$20,533,200, 261 villages would receive payments totaling \$12,386,700, and 107 cities would receive payments totaling \$63,136,800. The average payments were \$36,900 for towns, \$47,500 for villages, and \$590,900 for cities.

The department cannot absorb one-time administrative costs of \$452,400 and ongoing costs of \$19,400 for computer programming and payment administration.

Long-Range Fiscal Implications
