

Fiscal Estimate Narratives

DOR 1/19/2021

LRB Number	21-1144/1	Introduction Number	AB-0003	Estimate Type	Original
Description modifications to the tax treatment of tax-option corporations that elect to pay tax at the entity level					

Assumptions Used in Arriving at Fiscal Estimate

The bill makes several changes for tax option corporations. Under the bill, these corporations can exclude 30% of the gains realized from the sale of assets held for more than a year and the sale of all assets acquired from a decedent, and 60% of the gains realized from the sale of farm assets held for more than one year and the sale of all farm assets acquired from a decedent. The bill also limits the excess capital loss deduction from \$3,000 to \$500, requires tax payers with less than \$250,000 in net income to pay interest on the underpayment of taxes, and requires tax payers to make quarterly estimated payments according to the standards applicable to tax payers with net income of less than \$250,000.

Fiscal Estimate

After a review of tax year 2019 returns that made the election to pay at the entity level, the bill will decrease income and franchise tax revenues by an estimated \$580,000 in FY2021, \$810,000 in FY2022, and \$860,000 in FY2023.

In addition to the above fiscal effect, there will be a minimal decrease to Economic Development Surcharge revenue.

Additionally, the bill will result in a one-time cost of \$44,900 due to programming and forms changes.

Long-Range Fiscal Implications
