Description regulating scrap dealer purchases of catalytic converters		

Assumptions Used in Arriving at Fiscal Estimate

This bill designates a catalytic converter as a type of proprietary article for which scrap dealers must follow certain requirements. Under current law, "proprietary articles" include copper and aluminum conductors and wires, metal beer kegs, manhole covers, metal grave markers, railroad track components, and plastic bulk merchandise containers.

DATCP does not have enforcement authority in Wis. Stat. 134.405 over scrap material, and this bill would not grant that authority. Therefore, there would be no fiscal impact.
