## Fiscal Estimate Narratives

DNR 7/6/2021

LRB Number	21-2398/1	Introduction Number	AB-0434	Estimate Type	Original
<b>Description</b> hunting and fishing approvals for persons with disabilities					

### Assumptions Used in Arriving at Fiscal Estimate

The department is authorized by statute to offer qualified disabled residents a discounted annual fishing license and to permit the use of specific hunting and fishing methods that would otherwise not be available to hunters and anglers (i.e. shoot from vehicle, electric motor trolling permit). Certain classes of disabled hunting permits allow for participation in the Gun Deer Hunt for Hunters with Disabilities, which is held on sponsored properties for 10 days in October. In addition, certain classes of disabled permits allow for the more flexible use of deer harvest authorizations (allowing buck harvest during antlerless-only seasons and statewide use of antlerless harvest authorizations).

The bill proposes to expand the list of medical professionals that may certify an applicant is disabled when applying for a disabled resident annual fishing license and hunting and fishing method accommodations authorized by statute. In particular, the following are impacted by the provisions of this bill:

1. Trolling permit – adds that a physical or occupational therapist is authorized to:
  - a. conduct and certify test results for upper body loss of function
  - b. sign a certificate stating the applicant's sight is impaired to the degree that he or she cannot read ordinary newspaper print with or without corrective glasses.
2. Disabled hunting permit – adds that a physical or occupational therapist is authorized to provide and sign a written statement or report on an application for a disabled hunting permit verifying that the applicant is physically disabled.
3. Discretionary Class B disabled hunting permit appeal process – adds that a physical or occupational therapist to the list of medical professionals that are authorized to provide a recommendation for the department to consider regarding the issuance of a Class B disabled hunting permit.
4. Class D disabled hunting permit - adds that a physical or occupational therapist is authorized to conduct and certify test results for arm and shoulder loss of function.
5. Annual fishing license for disabled residents - adds that a physical or occupational therapist is authorized to certify the sight of an applicant is impaired to the degree that he or she cannot read ordinary newspaper print with or without corrective glasses.

### State Fiscal Effect

#### I. Costs

The department estimates that one-time implementation costs of \$6,000 would be incurred to update the statewide automated licensing system, the Disabled Permit Application, disabled licenses and permits web page, Disabled Permit Manual, and agent resources to include information on the newly-authorized physical and occupational therapists. In addition, the department would develop and provide training to approximately 100 Customer Service Representatives on the expanded authorizers.

The \$6,000 estimate is itemized as follows:

1. Statewide automated licensing system updates  
20 hours \* \$50/hour (average business analyst rate plus applicable fringe) = \$1,000
2. Web page, disabled permit manual, disabled permit application and agent resource updates  
32 hours \* \$50/hour (average policy advisor rate plus fringe) = \$1,600
3. Training development and delivery
  - a. Development: 20 hours \* \$50/hour (average policy advisor rate plus fringe) = \$1,000
  - b. Delivery: 100 Customer Service Representatives \* 1 hour \* \$24/hour (average CSR rate plus fringe) =

\$2,400

## II. Revenue

The department does not anticipate the provisions of this bill will impact revenue.

### **Long-Range Fiscal Implications**
