Description Department of Natural Resources report on partnering with the private aquaculture industry					

Assumptions Used in Arriving at Fiscal Estimate

The bill requires the Department to prepare a report that identifies opportunities for partnering with the private aquaculture industry for increased stocking of desirable sport fish in lakes and streams. The report must be submitted to the legislature no later than January 31, 2022.

Fiscal Effect

The bill will have little or no fiscal effect. The Department already has ongoing conversations with the the private aquaculture industry as a part of its work, and minimal staff time would be required to prepare the report.
