Description comprehensive firearm education for high school pupils		

Assumptions Used in Arriving at Fiscal Estimate

State: Indeterminate The bill will likely result in increased costs to the department to develop the required curriculum. Since the bill does not provide additional resources to develop this curriculum the department would have to reallocate existing resources.

Local: Indeterminate It is unknown how many districts or independent charter schools would elect to provide this instruction. It is also unknown what potential costs districts may have to incur to offer this instruction as costs and available resources would likely vary among districts.

Long-Range Fiscal Implications
