### Assumptions Used in Arriving at Fiscal Estimate

This bill directs the Office of the Commissioner of Insurance (OCI) to establish and operate a state-based health insurance exchange, which must also include access to the ability to enroll in the purchase option for BadgerCare. Under current law, the Affordable Care Act (ACA) requires that an exchange be established in each state to facilitate the purchase of qualified health insurance coverage by individuals and small employers. Under the ACA, a state must operate its own state-based exchange, use the federally facilitated exchange operated by the U.S. Department of Health and Human Services, or adopt a hybrid approach under which the state operates a state-based exchange but uses the federal platform, known as HealthCare.gov, to handle eligibility and enrollment functions. The State of Wisconsin currently uses the federally facilitated exchange.

This bill authorizes OCI to enter into any agreement with the federal government necessary to implement the state-based exchange provisions.

Governor Tony Evers recommended in his proposed 2021-2023 state budget that OCI transition to a state-based exchange using the federal Healthcare.gov platform before ultimately developing our own state-based platform. In Governor Evers' budget, OCI estimated that 10 additional FTE employees were necessary to initiate that first phase toward a state-based health exchange. The cost of the program as proposed was \$4,052,300 per year.
