## Fiscal Estimate Narratives

CTS 2/1/2022

LRB Number	21-3093/1	Introduction Number	SB-628	Estimate Type	Corrected
<b>Description</b> Deoxyribonucleic acid analysis surcharges					

### Assumptions Used in Arriving at Fiscal Estimate

This bill modifies the collection of DNA surcharge of \$250 to only be required the first time a person is sentenced or placed on probation for a misdemeanor or for a felony, rather than on each occurrence.

In FY20, the state received \$6.9 million in DNA surcharge revenue. This revenue is collected by the counties and ultimately sent to the Department of Justice to support a DNA analysis data bank, training prosecutors in the use of DNA analysis, and related costs. The courts do not directly receive any DNA surcharge revenue.

The bill impacts the court in that when a sentence or probation is imposed, the DNA biological specimen must only be produced if it is the first sentence or probation. It may result in additional staff resources to educate the judges on the modifications to the DNA surcharge and collection.

### Long-Range Fiscal Implications

Indeterminate.
