Description Prohibiting certain property tax assessment practices					

Assumptions Used in Arriving at Fiscal Estimate

Under the bill assessors may not do any of the following: use mortgages or bank appraisals, or any portion thereof, to determine the assessed value, use projected rents and other future or anticipated benefits to determine fair market value, use list and asking prices or rents to determine fair market value, use price trends to determine fair market value in order to increase the value of multiple properties by a general amount or percentage, and consider the value of a club house, swimming pool, or other amenity that is part of a multifamily property when assessing the multifamily property if the club house receives minimal or no rental income, regardless of whether the club house is located on a separate lot. The bill also provides that when there is an inconsistency or ambiguity between the Wisconsin Property Assessment Manual and a statute, the statute controls the practices of the assessor.

Current law and the Wisconsin Property Assessment Manual provide that property valuation be based national and international appraisal standards and practices. The bill may result in non-uniform Wisconsin property assessments thereby creating an indeterminate property tax shift between taxable properties. The department cannot absorb one-time administrative costs of \$44,900 for training and publication updates.

The bill could result in value and revenue reductions for tax incremental districts.

Long-Range Fiscal Implications

Fiscal Estimate Worksheet - 2021 Session

Detailed Estimate of Annual Fiscal Effect
