Fiscal Estimate Narratives

DPI 11/23/2021

LRB Number	21-5262/1	Introduction Number	SB-706	Estimate Type	Original
Description epinephrine for ambulances; therapeutic interchange for drug products prescribed to counteract anaphylaxis; funding for special education, the University of Wisconsin System, and the technical college system; and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

This bill requires that the Department of Health Services reimburse ambulance service providers for a set of two epinephrine auto-injectors or a set of two draw-up epinephrine kits for each ambulance operating in the state. This provides additional standards and requirements for the drugs as well as reimbursement and specifications under the Department of Health Services.

The bill provides additional funding for special education.

This bill transfers a total of \$125,000 to s. 20.255 (2) (b) to increase the annual GPR appropriation aids for special education under s. 115.88 in fiscal year 2022-23. This would increase the appropriation from \$468,091,800 to \$468,216,800 in FY23.

This would increase the payments paid under the appropriation by the Department of Public Instruction to school districts, independent charter schools, cooperative educational service agencies, and county children with disabilities education boards distributed by the funding formulas.

State: Direct impact

Increase to appropriation s. 20.255 (2) (b) Aids for special education and school age parents program by \$125,000 in FY2022-23.

Local: Indeterminate

Increase to appropriate will increase distributed aids to LEAs based on formulas.

Long-Range Fiscal Implications

This would have long-range fiscal implications as the increase of \$125,000 in FY2022-23 would raise the base appropriation for the following fiscal years.
