Fiscal Estimate Narratives

DPI 12/6/2021

LRB Number	21-5291/1	Introduction Number	SB-748	Estimate Type	Original
Description funding for chronic wasting disease research and management, technical colleges, and special education aid and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

Under this bill, the Department of Natural Resources may research chronic wasting disease (CWD) in cervids, in addition to managing and providing funding to conduct testing for CWD, which DNR is authorized to do under law. The bill also appropriates funding to support the research and management of CWD.

The bill provides additional funding for special education.

This bill transfers a total of \$630,000 to s. 20.255 (2) (b) to increase the annual GPR appropriation aids for special education under s. 115.88 in fiscal year 2022-23. This would increase the appropriation from \$468,091,800 to \$468,721,800 in FY23.

This would increase the payments paid under the appropriation by the Department of Public Instruction to school districts, independent charter schools, cooperative educational service agencies, and county children with disabilities education boards distributed by the funding formulas.

State: Direct impact

Increase to appropriation s. 20.255 (2) (b) Aids for special education and school age parents program by \$630,000 in FY2022-23.

This would have long-range fiscal implications as the increase of \$630,000 in FY2022-23 would raise the base appropriation for the following fiscal years.

Long-Range Fiscal Implications
