Description restricting a person's operating privilege to vehicles equipped with an ignition interlock device		

Assumptions Used in Arriving at Fiscal Estimate

Under current law, if a person is convicted of a second or subsequent offense related to operating a motor vehicle while under the influence of an intoxicant or other drug, with a prohibited alcohol concentration, or with a measurable amount of a controlled substance in his or her blood (OWI offense) or a first OWI offense for which his or her alcohol concentration is 0.15 or greater, a court must order the person's operating privilege restricted to operating vehicles that are equipped with an ignition interlock device. This bill expands the ignition interlock requirement to all OWI offenses that involve the use of alcohol.

The court system already has procedures in place to address ignition interlock devices. The bill may require additional training to judges in order to apply the requirements of the bill to OWI offense. It can be absorbed in the current workload.

The local fiscal effect is indeterminate.

Long-Range Fiscal Implications

None.
