LRB Number 21-5498/1	Introduction Number SB-813
-----------------------------	-----------------------------------

Description
 providing grants to municipalities to compensate for loss of revenues resulting from flood destruction and making an appropriation

Fiscal Effect

State:

- No State Fiscal Effect
- Indeterminate
 - Increase Existing Appropriations
 - Decrease Existing Appropriations
 - Create New Appropriations
- Increase Existing Revenues
- Decrease Existing Revenues
- Increase Costs - May be possible to absorb within agency's budget
 - Yes
 - No
- Decrease Costs

Local:

- No Local Government Costs
- Indeterminate
 - 1. Increase Costs
 - 2. Decrease Costs
 - 3. Increase Revenue
 - 4. Decrease Revenue
 - 5. Types of Local Government Units Affected
 - Towns
 - Counties
 - School Districts
 - Village
 - Others
 - WTCS Districts
 - Cities
- Permissive Mandatory
- Permissive Mandatory
- Permissive Mandatory
- Permissive Mandatory

Fiscal Estimate Narratives

DOR 1/18/2022

LRB Number	21-5498/1	Introduction Number	SB-813	Estimate Type	Original
Description providing grants to municipalities to compensate for loss of revenues resulting from flood destruction and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

The bill requires the Department of Revenue to establish a program to provide grants to cities and villages with a population of less than 700 to compensate for the loss of property tax revenue and revenue from water or sewerage fees, as a result of flooding and the actions of the Federal Emergency Management Agency (FEMA) for flooding that occurred after December 31, 2017. Owners of the destroyed property must have accepted a buyout from FEMA, and FEMA must have prohibited improvements on the land on which the property destroyed by flooding was located.

An eligible municipality receives a grant in an amount equal to a percentage of the three-year average of property taxes and water or sewerage fees assessed to flood destroyed property in the three-years preceding the flood. The municipality receives a payment for five years that decreases each year from 100 percent payment in the first year to a 20 percent payment in the fifth year. The department may not provide a grant based on property included in any hazard mitigation conducted by FEMA. No city or village that receives a grant may increase water, sewerage, or special charges to compensate for the revenue from destroyed property.

The bill appropriates \$100,000 in FY 2023 to provide grants to eligible municipalities. Beginning in FY 2024, the total amount of the grants provided shall not exceed \$50,000. The department is required to prorate payments if funding is insufficient to pay all the amounts. Based FEMA recovery data and counties involved in the 2018 floods, there are 43 cities or villages with populations less than 700, but the department does not have data on how many of those municipalities were impacted by the flooding or what property would qualify under the bill.

The department cannot absorb one-time administrative costs of \$37,400 for computer system development, and ongoing costs of \$1,500 for administering the grant program.

Long-Range Fiscal Implications
