## Fiscal Estimate Narratives

DWD 2/24/2022

LRB Number	<b>21-6043/1</b>	Introduction Number	<b>SB-981</b>	Estimate Type	<b>Original</b>
<b>Description</b> apprenticeship and youth apprenticeship completion awards, career and technical education incentive grants and completion awards, technical preparation programs in school districts and technical colleges, creating an individual income tax subtraction for expenses paid for apprenticeship programs, and making an appropriation					

### Assumptions Used in Arriving at Fiscal Estimate

This bill expands apprenticeship and technical education programs, creates an individual income tax subtraction for expenses paid for apprenticeship programs, adds construction work together with first responders as work areas that are not required to be identified as having a workforce shortage to be eligible for Career and Technical Education incentive grants, and increases funding for the Apprenticeship Completion Award Program and for Career and Technical Education incentive grants in state fiscal year (SFY) 23.

The bill provisions to expand the Apprenticeship Completion Award Program (ACAP) and add an award program for Youth Apprenticeships (YACAP) are estimated to have a fiscal impact to department operations of \$327,000 for one-time IT systems modifications and \$65,400 in ongoing annual maintenance costs. Systems modifications include functionality to allow documents that support the eligibility of claims to be uploaded and verified. Additionally, DWD estimates \$149,100 in ongoing staff support costs equal to 1.5 positions to administer the expansions to ACAP and the addition of YACAP. Ongoing staff work is needed to process reimbursements and ensure that paid expenses are eligible and accurate, which will include developing and maintaining rules, processes and procedures for submission and reimbursement of claims, and performing and supporting audit activities. It is projected that the estimated operations costs can be absorbed within existing appropriations.

DWD anticipates having one-time indeterminate implementation costs related to outreach, communication, and revisions to administrative rules relating to apprenticeships. The bill's definition of employers within YACAP, a reference to s. 106.13 (3m) (b) 1, may need clarification as to which employers are eligible to receive reimbursements for expenses.

The fiscal effect for local governments concerns school districts and the Wisconsin Technical College System. The bill adds apprenticeship as a technical preparation program under s. 38.04 and requires the technical college board to facilitate dual enrollment programs between school boards and technical college district boards for apprenticeship courses. The implementation costs for these changes are indeterminate. In addition, school districts may currently bear some of the costs of the programs proposed to be expanded under this bill, but the amount of costs and whether the bill's provisions will increase or decrease costs is indeterminate at this time.

### Long-Range Fiscal Implications

## Fiscal Estimate Worksheet - 2021 Session

Detailed Estimate of Annual Fiscal Effect
