(4) (e), 84.063 (4) (f) and 84.063 (4) (g) of the statutes; relating to: relocation
of utilities in a highway right-of-way, modifying administrative rules
promulgated by the Department of Transportation, and providing an
exemption from emergency rule procedures.

Analysis by the Legislative Reference Bureau
This bill makes numerous changes to requirements relating to the relocation
of utility facilities located in a highway right-of-way. “Utility facility” means any
pipe, pipeline, duct, wire line, conduit, pole, tower, equipment, or other structure
used for transmission, distribution, or delivery of electrical power, light, heat, water,
gas, sewer, telegraph, or telecommunication services.
ASSEMBLY BILL 1111

Under current law, if a utility facility is within the right-of-way of a proposed highway project, the Department of Transportation must notify the owner, who must then provide DOT with a description and general location of each utility facility. DOT must then provide the owner with a set of plans for the proposed project. The owner must submit a work plan to DOT proposing any relocations or adjustments to utility facilities required by the proposed project. DOT must review work plans for compliance with permit requirements and, once approved, notify the owner when utility facility relocation work may begin. The bill creates deadlines by which the various steps of this process must occur.

The bill provides that an owner must complete the work described in the work plan according to the specified schedule. An owner must notify DOT immediately if the owner cannot meet a scheduling deadline or must otherwise deviate from an approved work plan.

The bill provides that, subject to conditions, DOT must compensate the highway project contractor for delay costs that are the result of 1) DOT advertising or letting a project prior to certification of completion of utility facility work; 2) DOT advertising or letting a project that allows utility facility work after advertising or during construction; 3) DOT allowing or requiring utility facility work after letting and during construction that is different from the approved work plan or schedule; or 4) any utility conflict not identified in the schedule, bid materials, or any bid addendum within construction limits. Under the bill, an owner is liable to DOT for any damage amounts.

The bill repeals administrative rules promulgated by DOT relating to utility facilities relocation and requires DOT to promulgate rules to administer the utility facilities relocation process, as modified by this bill.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

_The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:_

3. If an owner fails to make payment of amounts owed under this paragraph, the department may seek remedy by filing a civil suit against the owner. If an owner is found liable or partially liable, the owner shall owe the department treble the amount of damages for which the owner is liable.

SECTION 29. 84.063 (4) (g) of the statutes is created to read:

84.063 (4) (g) Paragraphs (d), (e), and (f) do not apply to projects under s. 84.062.

SECTION 30. Chapter Trans 220 of the administrative code is repealed.

(1) (a) No later than the first day of the 6th month following the effective date of this subsection, the department of transportation shall use the procedure under s. 227.24 to promulgate rules authorized under s. 84.063, as affected by this act, for the period before the effective date of permanent rules under s. 84.063, as affected by this act. The emergency rules shall remain in effect until February 28, 2024, subject to any extension under par. (c), or the effective date of the repeal of the emergency rule, whichever is earlier.

(b) Notwithstanding s. 227.24 (1) (a) and (3), the department of transportation is not required to provide evidence that promulgating a rule under this subsection as an emergency rule is necessary for the preservation of public peace, health, safety, or welfare and is not required to provide a finding of emergency for a rule promulgated under this subsection.

(c) Notwithstanding s. 227.24 (2) (a), the joint committee for review of administrative rules may, at any time prior to the expiration date of the emergency rule promulgated under this subsection, extend the effective period of the emergency rule at the request of the department of transportation for a period specified by the
committee not to exceed 60 days. The committee may grant no more than 10
extensions under this paragraph. Notwithstanding s. 227.24 (2) (b) 1., the
department of transportation is not required to provide evidence that there is a
threat to the public peace, health, safety, or welfare that can be avoided only by
extension of the emergency rule when making a request for an extension under this
paragraph, but s. 227.24 (2) (am) to (c) shall otherwise apply to extensions under this
paragraph.

SECTION 32. Effective dates. This act takes effect on the first day of the 6th
month beginning after publication, except as follows:

(1) SECTION 31 (1) of this act takes effect on the day after publication.

(END)
