Analysis by the Legislative Reference Bureau

This bill requires the Department of Justice, in cooperation with the Department of Health Services and the Center for Suicide Awareness, to establish a training curriculum designed to prevent suicide committed by law enforcement officers. The training must include the causes, behaviors, warning signs, and risk factors associated with law enforcement officer suicide, identify appropriate intervention strategies to be used by law enforcement agencies to effectively prevent law enforcement officer suicide, and provide information concerning programs that offer crisis intervention and counseling services to law enforcement officers. The bill requires that the training curriculum be made available to law enforcement agencies to be used as part of ongoing officer training. The bill also provides that DOJ must provide a $250,000 annual grant to the Center for Suicide Awareness to provide training to law enforcement officers based on the curriculum that is established.

In addition, this bill requires DOJ to collect information about law enforcement officer suicide and publish an annual report on officer suicide on the department’s Internet site.
