Analysis by the Legislative Reference Bureau

This bill requires the Department of Health Services to establish a program to award grants to persons in this state for research into spinal cord injuries. The grants must support research into new and innovative treatments and rehabilitative efforts for the functional improvement of people with spinal cord injuries. Research topics may include pharmaceutical, medical device, brain stimulus, and rehabilitative approaches and techniques. DHS must make annual reports to the legislature about the grants. The bill also allows DHS to hold symposia every two years for grant recipients to present their research findings. The bill appropriates general purpose revenues not exceeding $3,000,000 every fiscal biennium for the grants and symposia.

The bill also requires DHS to appoint a Spinal Cord Injury Council with one member representing the University of Wisconsin School of Medicine and Public Health, one member representing the Medical College of Wisconsin, and the following members: 1) a person with a spinal cord injury; 2) a family member of a person with a spinal cord injury; 3) a veteran with a spinal cord injury; 4) a physician specializing in the treatment of spinal cord injuries; 5) a neurosurgery researcher; and 6) a researcher employed by the federal Veterans Health Administration of the U.S. Department of Veterans Affairs. If DHS is unable to appoint any of the foregoing
