AN ACT to amend 66.0104 (2) (e) 1m., 66.0104 (2) (e) 2. a., 66.0104 (2) (e) 2. am.
and 704.05 (2); and to create 66.0602 (2m) (c) of the statutes; relating to:

rental property inspection requirements.

Analysis by the Legislative Reference Bureau

This bill makes various changes to the requirements relating to inspections of rental properties. The bill eliminates an existing cap on inspection fees that municipalities and counties may charge for rental property inspections, instead allowing municipalities and counties to charge the actual cost of an inspection or reinspection. The bill eliminates a prohibition on charging an inspection fee to a landlord whose property is found to have a habitability violation, but who corrects the violation within 30 days. Under the bill, regardless of the cause for the inspection of a rental property—whether initiated by complaint or otherwise—the municipality or county may charge an inspection fee if a code violation is found during an inspection. The bill does not change current law that provides that if no violation is found, the municipality or county may not charge a fee.

Under the bill, a landlord is required to allow a municipal or county inspector access to the non-common areas of a rental property for any inspection initiated by a complaint or under a rental inspection program permitted under state law. The bill also eliminates a current law requirement that a tenant grant permission to enter the non-common areas of a property in order for an inspection to be performed. Under the bill, a landlord must provide notice to a tenant of an impending inspection in the same manner the landlord would provide notice under current law to enter for repairs or to show the property to prospective tenants.
Finally, the bill provides that rental property inspection fees charged by a municipality or county are not subject to deduction from the municipality or county's tax levy. For further information see the local fiscal estimate, which will be printed as an appendix to this bill.
