AN ACT relating to: state finances and appropriations, constituting the executive budget act of the 2021 legislature.

Analysis by the Legislative Reference Bureau

INTRODUCTION

This bill is the executive budget bill under section 16.47 (1) of the statutes. It contains the governor’s recommendations for appropriations for the 2021–23 fiscal biennium.

The bill sets the appropriation levels in chapter 20 of the statutes for the 2021–23 fiscal biennium. The descriptions that follow in this analysis relate to the most significant changes in the law that are proposed in the bill.

For additional information concerning the bill, see the Department of Administration’s publication Budget in Brief and the executive budget books, the Legislative Fiscal Bureau’s summary document, and the Legislative Reference Bureau’s drafting files, which contain separate drafts on each policy item.

GUIDE TO THE BILL

The budget bill is organized like other bills. First, treatments of statutes appear in ascending numerical order of the statute affected. Next, any treatments of prior session laws appear ordered by the year of original enactment and then by act number (for instance, a treatment of 2017 Wisconsin Act 15 would precede a treatment of 2019 Wisconsin Act 6).

The remaining sections of the budget bill are organized by type of provision and, within each type, alphabetically by state agency. The first two digits of the four-digit

AGRICULTURE

Wisconsin Initiative for Agricultural Exports

The bill provides funding for DATCP to establish and administer the Wisconsin Initiative for Agricultural Exports to promote the export of the state’s agricultural and agribusiness products.

Food security and Wisconsin products grant program

The bill allows DATCP to provide grants to food banks, food pantries, and other nonprofit organizations to purchase Wisconsin food products.

Small farm diversity grant program

The bill authorizes DATCP to provide grants to farmers that have been in operation for at least a year and that made less than $350,000 in gross cash farm income in the year before applying for a grant. Grants may be used to develop a new agricultural product or increase production of an agricultural product; to pay for start-up costs for new agricultural production operations; to research and develop new uses for food, feed, and fiber products; to develop on-farm processing of agricultural commodities; or to develop an agritourism venue. Grants must be for at least $5,000 but no more than $50,000.

In awarding grants, DATCP must give priority to applications that develop a business plan with market research and income projections; demonstrate a high probability of increased revenue, job creation, or enhanced viability; feature research that is innovative and commercially plausible; demonstrate a high probability of rapid commercialization; or demonstrate a commitment for funding from other private or public sources or from the applicant.

A grant recipient must provide matching funds of 30 percent of the amount of the grant and must submit annual reports to DATCP documenting grant money expenses and results.

Value-added agricultural practices; technical assistance and grants

The bill allows DATCP to provide education and technical assistance related to producing value-added agricultural products. Under the bill, DATCP may provide education and assistance related to organic farming practices; collaborate with organic producers, industry participants, and local organizations that coordinate organic farming; and stimulate interest and investment in organic production.

The bill also allows DATCP to provide grants to organic producers, industry participants, and local organizations, which may be used to provide education and technical assistance related to organic farming, to help create organic farming plans, and to assist farmers in transitioning to organic farming.
SENATE BILL 111

The bill authorizes DATCP to provide grants to entities to provide education and training to farmers about best practices related to grazing. DATCP is also authorized under the bill to help farmers market value-added agricultural products.

Conservation grants

The bill requires DATCP to award grants to develop and provide education and training to farmers about best practices related to grazing and pasture maintenance and to provide cost-sharing incentive payments to farmers to develop and adopt regenerative agricultural practices. DATCP may not allocate more than $320,000 for these grants in any single fiscal year.

Nitrogen optimization pilot program

The bill requires DATCP to create a nitrogen optimization pilot program, under which DATCP awards grants to farmers to implement a project that has the potential to reduce nitrate loading to groundwater in the area. The farmer must collaborate with the College of Agricultural and Life Sciences at the University of Wisconsin–Madison, the Center for Watershed Science and Education at the University of Wisconsin–Stevens Point, or the University of Wisconsin–Extension.

The bill requires the collaborating university to monitor a grant project on-site and to use information gathered from grant projects to research nitrate loading reduction methods, with a goal of making recommendations to agricultural producers on optimizing nitrogen usage while improving water quality in this state.

The bill limits the total amount of a grant to both a farmer and the collaborating university to $125,000. No more than 50 percent of this total amount may be awarded to the collaborating university.

Regenerative agriculture practices grant program

The bill requires DATCP to award grants to provide cost-sharing for conducting soil tests and other carbon sequestration analyses; updating nutrient management software; studying the feasibility of a statewide carbon market; assessing the market value of carbon sequestration; and, for agricultural producers, implementing regenerative agricultural practices. DATCP may not allocate more than $370,000 for these grants in any single fiscal year.

In conjunction with providing these grants, DATCP must also evaluate the accuracy and efficiency of existing tools that calculate carbon credits generated by producer-led watershed protection grant recipients; identify opportunities and facilitate groups of agricultural producers to work together to generate carbon credits; provide technical assistance to farmers and agricultural agencies and professionals regarding carbon credit generation to help them choose whether to collaborate with carbon credit project developers in the future; study the feasibility of a statewide carbon market; and assess the market value of carbon sequestration.

Technical assistance for resource conservation

The bill creates a resource conservation technical assistance program in DATCP for providing technical assistance to farmers related to increasing or maintaining agricultural yields while promoting soil health, water quality, and regenerative agricultural practices and for providing grants to local governments,
nongovernmental organizations, federally recognized American Indian tribes or bands, businesses, and individuals.

**Grants for hiring farm business consultants**

The bill authorizes DATCP to provide grants to county agriculture agents of the UW–Extension to help farm operators hire business consultants and attorneys to examine their farm business plans and help them create farm succession plans.

**Farm to School program: preference to districts with high free or reduced-price meal eligibility**

Current law requires DATCP to promote farm to school programs, which connect schools with nearby farms to provide children with locally produced foods in school meals. The bill requires that in awarding grants under the farm to school program DATCP must give preference to school districts that have a high percentage of students who are eligible for free or reduced-price meals under federal law.

**Farm to Fork grant program**

The bill creates a farm to fork program, similar to the existing farm to school program. Under the program, DATCP may provide grants to entities (other than school districts) that have cafeterias to connect them to nearby farms to provide locally produced foods in meals and snacks, to help the public develop healthy eating habits, to provide nutritional and agricultural education, and to improve farmers’ incomes and direct access to markets.

**Grants for meat processing facilities**

The bill allows DATCP to award grants to meat processing facilities for the purpose of promoting the growth of the meat industry in this state.

**Meat processing tuition grants**

The bill requires DATCP to provide grants to universities, colleges, and technical colleges to reimburse tuition costs of students enrolled in a meat processing program. Each tuition reimbursement covers up to 80 percent of the tuition cost for enrolling in a meat processing program, limited to a maximum reimbursement of $7,500.

**Farmland preservation implementation grants**

The bill authorizes DATCP to award grants to counties to implement a certified county farmland preservation plan.

**Grants for rural business and economic development**

Current law allows DATCP to use certain funds to make loans for the development of rural businesses or rural economic development. The bill allows DATCP to also use these funds to provide grants for this purpose.

**Grants for food waste reduction pilot projects**

The bill requires DATCP to provide grants for food waste reduction pilot projects that have an objective of preventing food waste, redirecting surplus food to hunger relief organizations, and composting food waste. Under the bill, DATCP must give preference to grant proposals that serve census tracts for which the median household income is below the statewide median household income and in which no grocery store is located.
SENATE BILL 111

County land conservation staff for climate change activities

Under current law, as part of the soil and water resource management program, DATCP provides funding to counties for county conservation staffing. Current law specifies the activities in which county conservation staff may engage with funding provided under this program. The bill provides that this program may be used to fund county conservation staff who focus on climate change and climate change resiliency. The bill also creates an appropriation specifically for this purpose. A county that seeks funding for this purpose must specifically indicate as such in its annual grant request.

Concentrated animal feeding operations

Under current law, a person who operates a concentrated animal feeding operation (CAFO) must have a Wisconsin Pollutant Discharge Elimination System (WPDES) permit from DNR. A CAFO is a livestock operation that contains at least 1,000 animal units, that discharges pollutants into a navigable water, or that contaminates a well. Current law requires a CAFO operator with a WPDES permit to pay an annual fee of $345 to DNR. The bill increases the amount of this annual fee to $545. The bill also requires a CAFO operator applying for a new WPDES permit to pay a $3,270 application fee.

Water stewardship certification

The bill creates a grant program for DATCP to provide grants to reimburse the costs for agricultural producers to apply for a certification of water stewardship from the Alliance for Water Stewardship. The grants must be made directly to the producer, and may not be used to pay the costs of operational changes needed to achieve certification.

Planning grants for establishing regional biodigesters

Under the bill, DATCP must provide planning grants for establishing regional biodigesters in the state. Biodigesters are used to break down organic material into gas, liquids, and solids.

Reauthorizing State Fair Park Board rulemaking authority

The bill authorizes the State Fair Park Board to promulgate rules governing the use of State Fair Park. Under current law, the board may not promulgate rules unless a law specifically authorizes the board to do so.

Bonding for soil and water resource management

The bill increases the general obligation bonding authority for the soil and water resource management program by $7,000,000. The program, which is administered by DATCP, awards grants to counties to help fund their land and water conservation activities.

Appropriation limit for the producer-led watershed protection grant program

DATCP administers the producer-led watershed protection grant program, which provides grants to groups of farmers in the same watershed to implement nonpoint source pollution abatement activities. Under current law, DATCP may not allocate more than $750,000 per fiscal year for this program. The bill increases that maximum amount to $1,000,000.
SENATE BILL 111

Transfer of funds

The bill transfers $466,500 in fiscal year 2021-22 from the general fund to the DATCP appropriation used for dog licensing, rabies control programs, and other related services.

COMMERCE AND ECONOMIC DEVELOPMENT

BUSINESS ORGANIZATION AND FINANCIAL INSTITUTIONS

Implementation by DFI of section 529A ABLE savings account program

The bill requires DFI to implement a qualified ABLE program under section 529A of the Internal Revenue Code allowing tax-exempt accounts for qualified expenses incurred by individuals with disabilities.

Under current federal law, states may create a qualified Achieving a Better Life Experience program under which an individual may establish a tax-exempt savings account to pay for qualified expenses, such as education, housing, and transportation costs, for a beneficiary who is an individual with disabilities, as defined under federal law. Although these accounts, commonly referred to as “ABLE accounts” or “section 529A accounts,” cannot be established under this state’s law, they can be established under another state’s law, and if so established, withdrawals from these accounts for payment of qualified disability expenses for the account beneficiary are exempt from taxation in this state.

The bill requires DFI to implement and administer a qualified ABLE program, either directly or by entering into an agreement with another state or alliance of states to establish an ABLE program or otherwise administer ABLE program services for the residents of this state. DFI must, within approximately nine months, determine whether implementing the ABLE program directly or by entering into an agreement is the best option for this state’s residents. If DFI enters into an agreement, the agreement may require the party contracting with DFI to do any of the following: 1) develop and implement an ABLE program in accordance with all requirements under federal law and modify the ABLE program as necessary for participants to qualify for federal income tax benefits; 2) contract for professional and technical assistance and advice in developing marketing plans and promotional materials to publicize the ABLE program; 3) work with organizations with expertise in supporting people with disabilities and their families in administering the agreement and ensuring accessibility of the ABLE program for people with disabilities; or 4) take any other action necessary to implement and administer the ABLE program. The bill also requires DFI to provide on its website information concerning ABLE accounts.

Children’s savings and investment program

The bill requires DFI to collaborate with one or more philanthropic organizations to develop a statewide children’s savings and investment program, funded and administered by the philanthropic organization or organizations. The program must allow the balance of an account established under the program to be transferred to a College Savings Program (commonly known as Edvest) account.

Fees for licensed securities industry participants

The bill increases certain securities-related fees paid to DFI.
Current law generally requires a securities broker-dealer and a person who represents a broker-dealer or issuer in securities transactions (securities agent) to be licensed, and generally requires an investment adviser and an investment adviser representative to be licensed, before transacting business in this state. Broker-dealers and investment advisers must pay to DFI initial and renewal license fees of $200. Securities agents and investment adviser representatives must pay to DFI initial and renewal license fees of $80. Although an investment adviser registered with the federal Securities and Exchange Commission (federal covered adviser) is not required to be licensed by DFI, it must pay to DFI an initial and renewal notice filing fee of $200. In addition, broker-dealers and investment advisers, including federal covered advisers, that maintain a branch office in this state must pay a filing fee of $80 for each branch office.

The bill increases each of these fees, from $200 to $300 and from $80 to $100.

**Notary public application fees**

Under current law, any U.S. resident who is licensed to practice law in this state is entitled to a permanent commission as a notary public upon application to DFI and payment of a $50 fee. In addition, any U.S. resident who is at least 18 years of age and who is not an attorney may file an application with DFI for a four-year appointment as a notary public and must pay a $20 application fee. The bill increases the application fee for attorneys from $50 to $100 and increases the application fee for nonattorneys from $20 to $40.

**Information related to public service loan forgiveness programs**

The bill requires DFI to collect, maintain, and make available information regarding student loan forgiveness programs available to employees of the state or a local unit of government.

**Worker misclassification information**

The bill requires DFI to provide informational materials and resources on worker misclassification to each person who files with DFI documents forming a business corporation, nonstock corporation, limited liability company, limited liability partnership, or limited partnership.

**New DFI appropriations**

The bill creates the following DFI appropriations: 1) a program revenue appropriation that allows DFI to expend federal moneys received by DFI for the purposes for which the federal moneys were received; and 2) a program revenue appropriation that allows DFI to expend moneys received by DFI from other state agencies or from within DFI for the purpose of administering programs or projects for which the moneys were received.

**COMMERCE**

**Changing the minimum age for cigarettes, tobacco products, and nicotine products; imposing a minimum age for vapor products**

The bill changes the age for purchasing cigarettes, tobacco products, or nicotine products from 18 to 21, and imposes the same minimum age for purchasing vapor products. Nicotine products are products that contain nicotine and that are not tobacco products, cigarettes, or products that have been approved by the federal Food
and Drug Administration for sale as a smoking cessation product. Tobacco products include products such as cigars, chewing tobacco, and smoking tobacco. Vapor products are noncombustible products that produce a vapor or aerosol for inhalation from the application of a heating element, regardless of whether the liquid or other substance contains nicotine.

Currently, no person under the age of 18 may purchase, attempt to purchase, possess, or falsely represent his or her age for the purpose of receiving any cigarette, nicotine product, or tobacco product with certain limited exceptions. Current law also prohibits any person from purchasing cigarettes, tobacco products, or nicotine products on behalf of a person who is under the age of 18 and subjects that purchaser to a penalty. Current law also prohibits a person from delivering a package of cigarettes unless the person making the delivery verifies that the person receiving the package is at least 18 years of age. The bill changes these ages from 18 to 21. The bill similarly prohibits the purchase of vapor products by or on behalf of a person who is under the age of 21.

Current law prohibits a retailer, manufacturer, distributor, jobber, subjobber, or independent contractor or an employee or agent of any of these persons from selling or providing cigarettes or tobacco or nicotine products to an individual who is under the age of 18 and from providing cigarettes or tobacco or nicotine products to any person for free unless the cigarettes or products are provided in a place where persons under 18 years of age are generally not permitted to enter. Current law also prohibits a retailer or vending machine operator from selling cigarettes or tobacco or nicotine products from a vending machine unless the retailer or vending machine operator ensures that no person under 18 years of age is present on or permitted to enter the premises in which the machine is located. The bill changes these ages from 18 to 21. The bill similarly prohibits the sale or provision of vapor products to a person who is the age of 21.

**Retailer license requirement for vapor product sellers**

The bill requires a person who sells vapor products to obtain an annual cigarette and tobacco products retailer license from the clerk of the city, village, or town in which the retailer is located.

**Restrictions on placement of cigarettes, nicotine products, or tobacco products**

The bill allows a retailer to place cigarettes, nicotine products, or tobacco products only in locations that are inaccessible to customers without the assistance of the retailer or the retailer's employee or agent, such as behind the counter or in a locked case. The bill's restriction does not apply to 1) cigarettes, nicotine products, or tobacco products sold in a vending machine; 2) a retail location that generates 75 percent or more of its revenue from sales of cigarettes, nicotine products, or tobacco products, as long as the retail location prohibits anyone under the age of 21 from entering without a parent, guardian, or spouse who has reached that age; or 3) cigars that are placed in a separate, humidity-controlled room in a retail location if the entrance to the room is visible, either directly or by video surveillance, from the check-out area and no person under the age of 21 is permitted to enter the room.
SENATE BILL 111

without a parent, guardian, or spouse who has reached that age. Current law imposes restrictions on sales from a vending machine that the bill does not affect.

A retailer who violates the bill’s restriction is subject to the same penalties that apply to violations of other restrictions that apply to retailers of cigarettes or tobacco products, including 1) a forfeiture of not more than $500, if the retailer has not committed a previous violation within 12 months; 2) a forfeiture of not less than $200 nor more than $500, if the retailer has committed a previous violation within 12 months; and 3) suspension of the retailer’s license for a period of time that depends on the number of previous violations committed by the retailer.

The bill also allows a first class city, which currently includes only Milwaukee, to suspend, revoke, or refuse to renew a cigarette and tobacco products retailer license if the retailer violates the bill’s restriction, by following the complaint and hearing procedure that exists under current law for certain other violations and activities.

Unfair drug pricing practices and fraudulent drug advertising

The bill prohibits unfair drug pricing practices, which are defined as drug pricing practices that cause substantial injury to consumers that is not outweighed by countervailing benefits to consumers or to competition. Under the bill, DATCP and district attorneys may seek injunctions in circuit court to restrain violations of the prohibition, and DATCP may investigate alleged violations and promulgate rules related to the prohibition.

The bill also authorizes DATCP to promulgate rules to enforce prohibitions against fraudulent drug advertising. Current law generally prohibits a person from making untrue, deceptive, or misleading representations about the effects of a drug or making representations about the effects of a drug unless it is lawfully marketed under federal law.

Prohibiting discrimination in broadband and broadband subscriber rights

The bill prohibits a broadband service provider from denying access to a group of potential residential customers because of their race or income. Under the bill, DATCP has authority to enforce the prohibition and to promulgate related rules. The bill also authorizes any person affected by a broadband service provider who violates the prohibition to bring a private action.

The bill also establishes various requirements for broadband service providers, including requiring them to 1) provide service satisfying minimum standards established by PSC and allow subscribers to terminate contracts if broadband service fails to satisfy those standards; 2) provide service as described in advertisements or representations made to subscribers; 3) repair broadband service within 72 hours after a subscriber reports an interruption that is not the result of a major system-wide or large area emergency; 4) give subscribers credit for interruptions of broadband service that last more than 4 hours in a day; and 5) give subscribers at least 30 days’ advance written notice before instituting a rate increase.

The bill also requires each internet service provider in this state to register with PSC.
Extended closing hours during special events

Under current law, with limited exceptions, no person may sell alcohol beverages to a consumer unless the seller possesses a license or permit authorizing the sale. A Class “B” license authorizes the retail sale of fermented malt beverages (beer) for consumption on or off the premises. A “Class B” license authorizes the retail sale of intoxicating liquor, which includes wine and distilled spirits, for consumption on the licensed premises and, subject to restrictions, the retail sale of intoxicating liquor in original packages for consumption off the licensed premises. A “Class C” license, which may be issued only for a restaurant, authorizes the retail sale of wine for consumption on the premises. A retailer operating under a Class “B,” “Class B,” or “Class C” license may not remain open between the hours of 2 a.m. and 6 a.m. on weekdays or between 2:30 a.m. and 6 a.m. on Saturday and Sunday.

The bill allows a municipality to designate by ordinance a special event lasting fewer than eight consecutive days during which closing hours for premises that obtain a special event permit from the municipality and that are operating under a Class “B,” “Class B,” or “Class C” license in the municipality are extended. Under the bill, the municipality may extend the closing hour for such premises to no later than 4 a.m. during the special event. A municipality may not designate more than four special events in a calendar year.

Sales of alcohol beverages at State Fair Park

The bill allows a person approved by the State Fair Park Board to sell, without a license or permit, alcohol beverages for consumption at the state fair park. The bill specifies that the State Fair Park Board may not grant such approval unless the person meets certain eligibility requirements applicable to retail licensees and that such approval is also required for retail sales by brewers and brewpubs at State Fair Park.

DOR publication of list of alcohol beverage retail licensees

The bill requires DOR to publish a list of retail licensees on DOR’s website. Under current law, DOR issues alcohol beverage permits and municipalities issue alcohol beverage licenses. Each municipality must annually provide DOR with a list of the municipality’s retail licensees, including name, address, and type of license. The bill requires DOR to publish this list on DOR’s website.

ECONOMIC DEVELOPMENT

WEDC venture capital fund of funds program

The bill directs WEDC to establish and administer a fund of funds program to invest in venture capital funds that invest in Wisconsin businesses. The bill requires WEDC to create a fund of funds that will continuously reinvest its assets and to create an oversight board whose duties include contracting with an investment manager.

The bill directs the oversight board to establish investment policies for the program. Under the bill, the program’s moneys must be committed for investment to venture capital funds no later than 60 months after the fund of funds is created and no more than $25,000,000 may be invested in any single venture capital fund. The bill requires that at least 20 percent of the investments made through the
SENATE BILL 111

The program be directed to businesses located in parts of the state that typically do not receive significant venture capital fund investment, minority-owned businesses, and women-owned businesses. The bill prohibits any investment in lobbying and law firms.

Under the bill, the investment manager must contract with each venture capital fund that receives moneys through the program. The contract must require the venture capital fund to do all of the following:

1. Make new investments in an amount equal to the moneys it receives through the program in businesses who are headquartered, and whose operations are primarily, in Wisconsin.

2. At least match the amount it receives through the program and invests in a business with an investment in that same business of moneys from sources other than the program. The investment manager must ensure that, on average, for every $1 a venture capital fund receives through the program and invests in a business, the venture capital fund invests $2 in that business from sources other than the program.

3. Provide the investment manager with the information necessary to complete the reports described below.

The bill requires the investment manager to annually submit to WEDC an audit of the investment manager's financial statements, the rate of return from investments made through the program, and information on each venture capital fund participating in the program and business in which investment were made. WEDC must submit this information to the legislature. The bill also requires the investment manager to submit quarterly reports to the oversight board.

Changes to the state main street program

Under current law, WEDC is required to establish and administer a state main street program to coordinate state and local participation in programs offered by the national main street center to assist municipalities in planning, managing, and implementing programs for the revitalization of commercial areas having historical significance. Under the current state main street program, WEDC is required to do all of the following:

1. Contract with the national main street center for services related to revitalizing commercial areas having historical significance.

2. Develop a plan describing the objectives of the state main street program and the methods by which WEDC will carry out certain responsibilities specified by law.

3. Coordinate with other state and local public and private entities in relation to the state main street program.

4. Annually select, upon application, up to five municipalities to participate in the state main street program. The program for each municipality concludes after five years. The corporation is required to select program participants representing various geographical regions and populations.

5. Develop objective criteria for use in selecting participants in the state main street program.
SENATE BILL 111

6. Provide training, technical assistance, and information on the revitalization of commercial areas that have historical significance to municipalities not participating in the state main street program.

7. Annually expend at least $250,000 annually on the state main street program.

The bill substantially replaces WEDC's duties under the state main street program and instead requires WEDC, in accordance with guidelines of the national main street center, to assist municipalities in planning, managing, and implementing programs for the revitalization of downtown areas and historic commercial districts, including by doing all of the following:

1. Assisting communities in restoring and retaining the historic character of their downtown areas and historic commercial districts.
2. Promoting business investment, assisting in retaining existing small businesses, and promoting new businesses in downtown areas and historic commercial districts.
3. Assisting in strengthening the local tax base.
4. Assisting in the creation of employment opportunities in downtown areas and historic commercial districts.
5. Enhancing the economic viability of downtown areas and historic commercial districts.

The bill also requires WEDC to annually select, upon application, up to five new municipalities to participate in the state main street program, but a municipality's participation in the program is not limited to five years. The bill continues to require the corporation to provide related training, technical assistance, and information to municipalities not participating in the state main street program.

Finally, under the bill, WEDC is no longer required to expend up to $250,000 annually on the state main street program.

Wage thresholds for business development and enterprise zone tax credits

The bill raises the minimum wage thresholds for the business development and enterprise zone tax credits for businesses that enter into contracts with WEDC after December 31, 2021. Under current law, WEDC may certify businesses that engage in qualifying activities, including full-time job creation and retention, to claim the credits. One requirement for claiming either credit is that the business enter into a contract with WEDC. In its contracts, WEDC uses a definition of “full-time employee” that means an individual who, among other things, is paid at least 150 percent of the federal minimum wage. The bill changes this minimum wage threshold to $27,900 for the business development tax credit and to $27,900 in a tier I county or municipality and $37,000 in a tier II county or municipality for the enterprise zone tax credit, with all these amounts adjusted annually for inflation. Additionally, under current law, the enterprise zone tax credit is partially based on the wages paid to zone employees that are at least 150 percent of the federal minimum wage in a tier I county or municipality or $30,000 in a tier II county or municipality. The bill changes these thresholds to $27,900 and $37,000, with both amounts adjusted annually for inflation.
SENATE BILL 111

The bill also modifies the maximum wage earnings limit for businesses that enter into contracts with WEDC after December 31, 2021. Under current law, the maximum wage earnings that may be considered per employee for the enterprise zone tax credit is $100,000. The bill increases this amount to $123,000, which is adjusted annually for inflation, and establishes the same dollar amount limit for the business development tax credit.

Designation of enterprise zones

Current law allows WEDC to designate an unlimited number of enterprise zones, with each designation subject to approval by JCF under passive review. Current law also provides that an enterprise zone expires after 12 years and, upon such expiration, WEDC may designate a new zone subject to JCF approval.

The bill authorizes WEDC to designate up to 30 enterprise zones and repeals the requirement that WEDC receive approval from JCF. Under the bill, WEDC may cancel the designation of an enterprise zone if WEDC revokes the certifications for all tax benefits within the zone and may designate a new zone after the cancellation. The bill also provides that if an enterprise zone expires under the contract with the business certified to claim tax benefits, WEDC may designate a new zone, and WEDC is provided this authority on a retroactive basis.

Financial assistance for underserved communities

The bill requires WEDC to expend $5,000,000 annually to provide grants, loans, and other assistance to underserved communities in Wisconsin, including members of minority groups, woman-owned businesses, and individuals and businesses in rural areas.

Funding for regional economic development organizations to assist with pandemic recovery

The bill appropriates $8,000,000 to WEDC in the 2021-22 fiscal year to provide funding to organizations focused on local or regional economic development in this state for the purpose of assisting Wisconsin businesses and nonprofits in their recovery from the COVID-19 global pandemic.

Small business pandemic recovery

The bill requires WEDC to aid in Wisconsin’s economic recovery from the COVID-19 global pandemic by providing financial assistance to small businesses adversely affected by the pandemic, including for the retention of current employees and the rehiring of former employees. The bill requires WEDC to coordinate with DOR as necessary to administer the aid.

Creative economy development initiative grants

The bill authorizes the Arts Board to award grants on a competitive basis in the 2021-23 fiscal biennium to businesses, whether operated for profit or not for profit, local governmental agencies, and business development organizations or associations that work to promote any of the following in Wisconsin:

1. Individuals or organizations whose products or services have an origin in artistic, cultural, creative, or aesthetic content.

2. Job creation.

3. Economic development.
SENATE BILL 111

4. Arts education.
5. Workforce training and development.

Under the bill, such a grant may not exceed $40,000, and the bill prohibits the Arts Board from awarding a grant unless the proposed grant recipient has secured from nonstate sources an amount equal to at least twice the amount of the proposed grant. Under the bill, the Arts Board may award up to a total of $500,000 in such grants during the 2021-23 fiscal biennium.

Finally, the bill requires the Arts Board to submit a report to JCF by May 1, 2023, regarding the effectiveness of the grants.

WHEDA investment in small businesses

The bill authorizes WHEDA to annually invest up to $1,000,000 of its general funds in businesses and startup companies that, among other conditions, have fewer than 50 full-time employees or gross annual sales of less than $5,000,000. Under current law, WHEDA may not invest more than $1,000,000 in total in these entities, and the entities must, among other conditions, have fewer than 25 full-time employees or gross annual sales of less than $2,500,000.

Cooperative feasibility grants

The bill directs WEDC, for each year of the 2021-23 fiscal biennium, to award up to $200,000 in grants for cooperative feasibility studies. The bill requires WEDC to make the awards in consultation with the Cooperative Network.

Tribal economic development

The bill requires WEDC to establish and administer programs that promote small business economic development benefitting American Indian tribes or bands in the state.

Energy efficiency and renewable energy project expenditures for the business development tax credit

The bill adds a new category of expenditures that qualify for the business development tax credit. Under current law, WEDC may award the tax credit to a certified business based on its qualifying expenses related to job creation and retention, employee training, capital investment, and corporate headquarters location or retention in Wisconsin. Under the bill, WEDC may also award the tax credit on the basis of a certified business's energy efficiency or renewable energy project expenditures. The credit is up to 25 percent of the expenditures, with WEDC directed under the bill to ensure that the percentage of expenditures taken into account positively correlates to the scale of the project. The bill applies to credits awarded after December 31, 2021.

Modifications to brownfield grant program

Under current law, WEDC administers a brownfields grant program and a brownfield site assessment grant program to provide grants for developing property adversely impacted by environmental contamination and conducting related activities. One condition for awarding a grant is that the person who caused the environmental contamination and, for the brownfields grant program, any person who possessed or controlled the contaminant prior to its release must be unknown, unable to be located, or financially unable to pay remediation or other specified costs.
SENATE BILL 111

Under the bill, this condition does not apply if WEDC determines that the case has received sufficient closure from DNR. The bill specifies that a brownfields grant recipient may not be the party who caused the environmental contamination, which is a condition that already applies to brownfield site assessment grant recipients under current law. The bill also provides that, when making a grant under the brownfields grant program, WEDC must consult with DNR, rather than consider DNR's recommendations as required under current law.

Financing working capital costs of certain nonprofit institutions

Under current law, WHEFA may issue bonds to finance certain projects of health, educational, research, and other nonprofit institutions. The bill authorizes WHEFA to issue bonds for the purpose of financing such institutions’ working capital costs.

Business development tax credit changes

Under current law, the tax benefits WEDC may award to a person certified under the business development tax credit program include an amount equal to up to 50 percent of the person’s training costs incurred to undertake activities to enhance an eligible employee’s general knowledge, employability, and flexibility in the workplace; to develop skills unique to the person’s workplace or equipment; or to develop skills that will increase the quality of the person’s product. Under the bill, that criterion for awarding business development tax credits is changed to an amount equal to up to 50 percent of the person’s training costs incurred to undertake activities to upgrade or improve the job-related skills of an eligible employee, train an eligible employee on the use of job-related new technologies, or provide job-related training to an eligible employee whose employment with the person represents the employee’s first full-time job.

Also, under current law, the tax benefits WEDC may award to a person certified under the business development tax credit program include an amount determined by WEDC that is equal to a percentage of the amount of wages that the person paid to an eligible employee in the taxable year, if the position in which the eligible employee was employed was created or retained in connection with the person’s location or retention of the person’s corporate headquarters in Wisconsin and the job duties associated with the eligible employee’s position involve the performance of corporate headquarters functions. Under the bill, WEDC may award business development tax credits under that criterion regardless of whether the job duties associated with the eligible employee’s position involve the performance of corporate headquarters functions.

Base year for the enterprise zone tax credit

The bill modifies the definition of “base year” for purposes of the enterprise zone tax credit. The amount of the credit for job creation or retention depends, in part, on the number of the business's employees in the taxable year as compared to the number of employees in the base year. Current law defines “base year” to mean the taxable year beginning during the calendar year prior to the calendar year in which the enterprise zone was created. For businesses that enter into contracts with WEDC after December 31, 2021, the bill defines “base year” as the 12-month period prior to the date on which the claimant was certified to claim the tax credit.
SENATE BILL 111

Information sharing between WEDC and DOR

The bill allows WEDC and DOR to enter into an agreement under which WEDC may obtain copies of tax returns and related documents from DOR. The bill also authorizes WEDC to examine tax returns and related documents held by DOR to the extent necessary to administer WEDC’s economic development programs. Under current law, WEDC’s examination authority is limited to the development zone program.

Modifications to WEDC reporting requirements

The bill modifies WEDC’s reporting requirements to the legislature. First, the bill alters the requirement that WEDC, prior to the beginning of each calendar year, report to the legislature on the economic development projects it intends to develop and implement during the year. Under the bill, the reporting period is the fiscal year, not the calendar year. Second, the bill repeals the requirement that WEDC report to the legislature on the economic development tax credit program. This program ended in 2015, and tax year 2019 is the final year for which taxpayers may claim the credit under contracts with WEDC.

Increase to WEDC GPR appropriation

The bill increases from $16,512,500 per fiscal year under current law to $25,012,500 in the 2021–22 fiscal year and $20,012,500 in the 2022–23 fiscal year the amount WEDC may expend from its GPR appropriation for its economic development programs.

Changes to WEDC’s appropriation from the economic development fund

Current law appropriates moneys to WEDC from the economic development fund for WEDC’s operations and to fund its economic development programs. An economic development surcharge administered by DOR funds the economic development fund. Currently, the total amount WEDC may expend from the economic development fund is limited to surcharge amounts deposited into the fund by DOR and is limited by the amount of moneys appropriated from the fund to DOR for purposes of administering the economic development surcharge.

Under the bill, WEDC may expend all moneys from the economic development fund not expended by DOR for purposes of administering the economic development surcharge. Those moneys include interest and earnings of the fund and unencumbered amounts lapsed to the fund at the end of each fiscal year from DOR’s annual appropriation for administration of the economic development surcharge.

TOURISM

American Indian tourism marketing

The bill requires DOA to award an annual grant to the Great Lakes Inter–Tribal Council to provide funding for a program to promote tourism featuring American Indian heritage and culture. The bill also transfers from the Department of Tourism to DOA a contract between the Great Lakes Inter–Tribal Council and the Department of Tourism that relates to the promotion of tourism featuring American Indian heritage and culture.
SENATE BILL 111

Mass burial monument at UW–Stevens Point

The bill appropriates $100,000 to the Arts Board to provide a grant to a Native American artist through the Wisconsin Woodland Indian Art Initiative for the design, production, and installation on the UW–Stevens Point campus of a permanent marker in recognition of the Native Americans who died due to a scarlet fever epidemic.

New PR-S appropriation

The bill creates a new appropriation for the Department of Tourism to expend moneys the department receives from other state agencies for the purposes for which those moneys are received.

CORRECTIONAL SYSTEM

Adult correctional system

Extended supervision

Under current law, when a person is sentenced to prison, the person is given a bifurcated sentence, with the first portion of the sentence served in confinement in prison and the second portion of the sentence served in the community on extended supervision. DOC may not discharge a person from extended supervision until the entire term of the bifurcated sentence is completed. Under certain circumstances, the sentencing court may reduce the confinement portion of the bifurcated sentence, but current law does not allow the sentencing court to reduce the period of extended supervision. The bill allows the sentencing court to reduce the term of a person’s extended supervision if all of the following apply:

1. The person has served the lesser of three years or 50 percent of the term of extended supervision without violating the conditions and rules of supervision.
2. The person has met all of his or her financial obligations to the victim of the crime.
3. The person is not required to register as a sex offender and is serving a sentence for a crime that is not a crime against life or bodily security or a specified crime against a child.

Earned compliance credit

The bill creates an earned compliance credit for time spent on extended supervision or parole. Under current law, a person’s extended supervision or parole may be revoked if he or she violates a condition of the extended supervision or parole. If extended supervision or parole is revoked, the person is returned to prison for an amount of time up to the length of the original sentence, less any time actually served in confinement and less any credit for good behavior. Under current law, when extended supervision or parole is revoked, the time spent on extended supervision or parole is not credited as time served under the sentence.

Under the bill, an eligible inmate receives an earned compliance credit for time served on extended supervision or parole. The earned compliance credit equals the amount of time served on extended supervision or parole without violating any conditions or rules of extended supervision or parole. Under the bill, a person is eligible to receive the earned compliance credit only if the person is not required to register as a sex offender and is serving a sentence for a crime that is not a specified
violent crime or a specified crime against a child. Under the bill, if a person’s extended supervision or parole is revoked, he or she may be incarcerated for up to the length of the original sentence, less any credit for time served in confinement, any credit for good behavior, and any earned compliance credit.

**Revocation of probation, parole, or extended supervision**

Under current law, if a person violates a condition or rule of probation, parole, or extended supervision, the Division of Hearings and Appeals (DHA) in DOA, or DOC if a hearing is waived, may revoke that person’s probation, parole, or extended supervision and return the person to confinement. Under the bill, a person’s probation, parole, or extended supervision may not be revoked for a rule violation unless one of the following conditions is met:

1. The person committed three or more independent rule violations during his or her term of probation, parole, or extended supervision.
2. The person violated a condition prohibiting contact with a specified individual.
3. The person is a registered sex offender.
4. When the person committed the rule violation, the person also allegedly committed a crime.
5. The person failed to report for supervision for more than 60 consecutive days.

**Sanctions for violating a condition or rule of probation, parole, or extended supervision**

Under current law, if a person admits to violating a rule or condition of probation, parole, or extended supervision, DOC may sanction the person with imprisonment for up to 90 days instead of revoking probation, parole, or extended supervision. The bill changes the sanction procedure. Under the bill, if the person does not admit to committing the rule violation, DHA holds a hearing on the violation. If DHA determines that the person committed the violation, DHA may sanction the person with imprisonment for up to 30 days, or up to 90 days if the rule violation meets the grounds for revocation. Under the bill, if the person admits to the alleged rule violation, DOC may impose the 30-day or 90-day sanction without a hearing.

**Earned release**

Under current law, an eligible inmate may earn early release to parole or extended supervision by successfully completing a substance abuse program. An inmate is eligible for earned release only if the inmate is serving time for a crime that is not a violent crime and, for an inmate who is serving a bifurcated sentence, the sentencing court determines that the inmate is eligible.

The bill expands the earned release program to include educational, vocational, treatment, or other qualifying training programs that are evidence-based to reduce recidivism. The bill also provides that DOC, not the sentencing court, determines eligibility for all inmates.

**Reports**

The bill requires DOC to submit the following annual reports to the governor, the legislature, and the director of state courts:
SENATE BILL 111

1. A report on early discharges from extended supervision and the reduction in incarceration due to the earned compliance credit.
2. A report on the expanded earned release program.
3. A report on revocation of parole, extended supervision, and probation.

Each of these annual reports is required to include an accounting of the cost savings resulting from the relevant programs under the bill. The bill requires DOC use the amount of the cost savings reported to pay for the extended supervision, earned release, and revocation programs under the bill.

The bill also requires DOC to conduct a onetime review and report to the governor, the legislature, and the director of state courts on all of the following:
1. The efficacy of DOC’s standard conditions and rules of supervision.
2. DOC’s evidence-based risk assessment tool.
3. DOC’s training of community supervision officers.
4. The aging and elderly population in Wisconsin’s prisons and possible options for alternatives to prison for that population.

**Reduction of mandatory minimum sentences**

Under current law, a sentencing court may reduce the confinement portion of a bifurcated sentence if the inmate qualifies for a sentence adjustment, earned release, or compassionate release.

In *State v. Grazma*, 2020 WI App 100, the Wisconsin Court of Appeals limited the sentencing court’s ability to reduce the confinement portion of a bifurcated sentence if the person was serving a sentence for a crime that carried a mandatory minimum term of confinement. The court held that under the earned release program, an inmate’s term of confinement may not be reduced below an applicable mandatory minimum sentence. The bill specifies that an inmate’s term of confinement may be reduced below a mandatory minimum if the inmate qualifies for a reduction based on a sentence adjustment, earned release, or compassionate release.

**Sentencing for youthful offenders**

Under current law, a person who is under the age of 17 and is alleged to have violated a criminal law is generally under the jurisdiction of the juvenile court and, upon being adjudged delinquent of such an act, is subject to one of the dispositions under the Juvenile Justice Code. However, a person who is age 10 or older who is alleged to have committed certain crimes may be under the jurisdiction of the criminal court and, upon conviction, subject to sentencing under the criminal code.

The bill creates a sentence adjustment procedure for a “youthful offender,” defined under the bill as a person who committed a crime before he or she turned 18 years old and is subject to sentencing by the criminal court. The bill prohibits a court from sentencing a youthful offender to life imprisonment without the possibility of parole or release to extended supervision, and creates new mitigating factors in the sentencing criteria when sentencing a youthful offender. Finally, the bill eliminates statutory mandatory life sentences without parole for youthful offenders in order to align with federal constitutional law.

Under current law, an inmate can petition to reduce the confinement portion of his or her bifurcated sentence after serving a certain proportion of the sentence.
SENATE BILL 111

An inmate who is serving a life sentence can petition to be released to extended supervision or parole after serving at least 20 years of his or her sentence or after another date set by the sentencing court. The bill creates a new procedure for a youthful offender, including a youthful offender who is serving a life sentence, to receive a sentence adjustment after serving 15 years of his or her sentence. Under the bill, one year before the inmate is eligible to petition for the sentence adjustment, DOC is required to notify the youthful offender of his or her eligibility. The court may reduce the term of imprisonment for the youthful offender and may modify the conditions of parole or extended supervision if the court determines that the interests of justice warrant a reduction, taking into account the factors enumerated in the bill. If the court denies the petition under the bill, the youthful offender may petition again every five years, up to five times. Under the bill, DOC is required to send a notice to all youthful offenders who have served at least 14 years of their sentences within six months after the bill takes effect.

Under current law, when a court makes a sentencing decision, it must consider certain guidelines, including whether there were any aggravating factors present. Under the bill, when a court is sentencing a youthful offender, it must also consider mitigating factors related to the age and maturity of the youthful offender. These sentencing guidelines for youthful offenders take effect retroactively under the bill, meaning that they apply to any conviction for which sentencing has already occurred.

Under current law, if a person is convicted of a serious felony on three separate occasions or a serious child sex offense on two separate occasions, the person is subject to a mandatory life sentence without the possibility of parole or extended supervision. However, in *Miller v. Alabama*, 567 U.S. 460 (2012), the U.S. Supreme Court held that imposing a mandatory life sentence without parole for a minor constitutes cruel and unusual punishment and therefore violates the eighth amendment of the Constitution. The bill clarifies that the statutory mandatory sentence of life imprisonment without the possibility of parole or extended supervision for repeat offenders does not apply to youthful offenders. The bill also prohibits a court from imposing a life sentence without the possibility of parole or extended supervision for a youthful offender. These changes to sentencing also apply retroactively under the bill.

*Treatment of pregnant and postpartum person in prison and jail*

The bill limits the use of physical restraints on pregnant and postpartum people who are in the custody of a correctional facility. Under the bill, a pregnant person may not be restrained unless the restraints are reasonably necessary for the legitimate safety and security needs of the person, correctional staff, other inmates, or the public, and any restraints used must be the least restrictive possible under the circumstances. In addition, the bill requires that every woman in the custody of a correctional facility be offered testing for pregnancy, and, if pregnant, be offered testing for sexually transmitted infections. The bill also requires the correctional facility where the pregnant or postpartum person is being confined to provide information related to pregnancy, labor, and the postpartum period, and to provide
access to certain health services related to pregnancy, labor, and the postpartum period.

**Huber release for individuals on probation, parole, or extended supervision**

Under current law, a probationer who is detained in a county jail or other county facility for a probation violation may participate in Huber release for employment-related or medical purposes only if his or her probation is due to a misdemeanor conviction and the probation violation for which he or she is detained is not a crime.

The bill allows all probationers, parolees, and individuals on extended supervision who are detained pending disposition of revocation proceedings, investigation of a rule violation, or for a short-term sanction to participate in Huber release for any Huber purpose.

**Baccalaureate degree program for prisoners**

The bill requires the UW System and DOC to provide a baccalaureate degree program for prisoners. Prior to expending any funds appropriated for such a program, the UW System and DOC must submit a plan for implementing the program to DOA for approval.

**Reimbursement for law enforcement investigative services**

Under current law, DOC must reimburse counties for certain expenses related to an action or proceeding involving a prisoner in a state prison or a juvenile in a juvenile correctional facility in the county. The bill adds that DOC must also reimburse any county, city, village, or town that provides law enforcement investigative services for an incident involving a prisoner in a state prison or a juvenile in a juvenile correctional facility.

**Juvenile correctional system**

**Age of adult court jurisdiction**

Under current law, a person who is alleged to have violated a criminal law is generally subject to the jurisdiction of the criminal court if the person is at least 17 years old, and is subject to the jurisdiction of the juvenile court if the person is under the age of 17. A person who is under the jurisdiction of the criminal court is subject to the procedures specified in the Criminal Procedure Code and, on conviction, is subject to sentencing under the Criminal Code. A person who is under the jurisdiction of the juvenile court is subject to the procedures specified in the Juvenile Justice Code and, on being adjudicated delinquent, is subject to an array of dispositions under that code. The bill raises from 17 to 18 the age at which a person who is alleged to have violated a criminal law is subject to the jurisdiction of the criminal court and, on conviction, to sentencing under the Criminal Code.

Similarly, under current law, a person who is alleged to have violated a civil law or municipal ordinance is subject to the jurisdiction and procedures of the circuit court or the municipal court, if the person is at least 17 years old, and, with certain exceptions, is subject to the jurisdiction of the juvenile court if the person is under the age of 17. The bill raises from 17 to 18 the age at which a person who is alleged to have violated a civil law or municipal ordinance is subject to the jurisdiction and procedures of the circuit court or, if applicable, the municipal court.
The bill creates a sum sufficient appropriation under DCF for youth aids-related purposes, but only to reimburse counties, beginning on January 1, 2022, for costs associated with juveniles who were alleged to have violated a state or federal criminal law or any civil law or municipal ordinance at age 17.

**Age of delinquency**

Under current law, a child age 10 or over may be adjudged delinquent by the juvenile court for an act that would be a crime if committed by an adult. Under the bill, only a child age 12 or over may be adjudged delinquent by the juvenile court for an act that would be a crime if committed by an adult.

**Adult court jurisdiction over a juvenile**

Under current law, the juvenile court generally has exclusive jurisdiction over a juvenile, who is a person under the age of 17 who is alleged to have violated a criminal law. However, under certain circumstances, a juvenile may automatically be under the jurisdiction of the adult court or may be waived into adult court jurisdiction through a petition to the court. The bill changes the circumstances for adult court jurisdiction over a juvenile.

**Original jurisdiction of the adult court over a juvenile**

The bill eliminates original adult court jurisdiction over a juvenile. Under current law, the adult court has original jurisdiction over a juvenile who meets any of the following criteria:

1. A juvenile who is over the age of 10 and is alleged to have committed or attempted to commit first-degree intentional homicide or committed first-degree reckless homicide or second-degree homicide.
2. A juvenile who is alleged to have committed assault or battery while placed in a secured juvenile facility or to have committed battery against a probation, aftercare, community supervision, parole, or extended supervision officer.
3. A juvenile who is alleged to have attempted or committed a violation of any state criminal law in addition to an offense listed under item 1 or item 2, if the violations may be joined into a single criminal case.
4. A juvenile who has previously come under the jurisdiction of the adult court.

**Waiver petition for adult court jurisdiction over a juvenile**

Under current law, a juvenile may be waived into adult court jurisdiction by a petition filed by the district attorney or the court itself. A petition may be filed if the juvenile is at least 15 years old and is alleged to have violated any state criminal law, or if the juvenile is at least 14 years old and is alleged to have committed certain felonies involving the use of force, is alleged to have manufactured, distributed, or delivered a controlled substance, or is alleged to have committed certain felonies at the request of or for the benefit of a criminal gang.

Under the bill, a waiver petition may be filed for a juvenile who is at least 16 years old and is alleged to have violated any state law that would be a felony if committed by an adult. Under the bill, a 14-year-old or 15-year-old may be waived into adult court if he or she is alleged to have committed a violation that would grant original adult court jurisdiction over a juvenile under current law, or that would...
allow for a 14-year-old to be waived by petition into adult court under current law, except for the manufacture, distribution, or delivery of a controlled substance.

**Elimination of Serious Juvenile Offender Program**

Under current law, a dispositional order entered under the Juvenile Justice Code imposing a correctional placement for a juvenile who has been adjudged delinquent generally terminates no later than the juvenile’s 18th birthday and may not be extended. Under the bill, such an order generally terminates no later than the juvenile’s 19th birthday. However, if the juvenile is placed in the Serious Juvenile Offender Program (SJOP), the dispositional order extends for up to three years, regardless of the age of the juvenile at the time the order is entered, or, if the juvenile has committed an act that would be punishable by life imprisonment if committed by an adult, until the juvenile reaches 25 years of age. Under current law, DOC is required to administer the SJOP and may provide sanctions for a juvenile under SJOP other than confinement in a juvenile correctional facility, including intensive supervision, electronic monitoring, alcohol or other drug abuse treatment and services, mental health treatment and services, community service, restitution, and education and employment services.

The bill eliminates SJOP as an available disposition for a juvenile adjudicated delinquent under the Juvenile Justice Code.

**Extended juvenile jurisdiction**

The bill creates extended juvenile jurisdiction (EJJ) for juveniles who are alleged delinquent for the commission of certain acts, which allows the disposition under the Juvenile Justice Code to extend beyond a juvenile’s 19th birthday. Under the bill, if a juvenile meets the requirements for waiver of juvenile court jurisdiction, the district attorney or the juvenile may instead petition the juvenile court to place the juvenile under EJJ or the court may initiate such a proceeding on its own motion. In order to grant EJJ, the court must find that the juvenile qualifies for waiver, that the juvenile qualifies for a correctional placement, if adjudged delinquent for the alleged acts, and that a correctional placement is insufficient to protect public safety or for rehabilitation of the juvenile. These findings must be made on clear and convincing evidence at a hearing to the court. If the court grants EJJ, the juvenile is entitled to a jury trial and the court may, after trial, impose any juvenile disposition that it deems appropriate.

The bill creates a new juvenile disposition that may be used only for juveniles subject to EJJ. The extended juvenile disposition is available only to juveniles who are given a juvenile correctional placement and for whom the court finds that the correctional placement alone is insufficient to protect public safety or for rehabilitation of the juvenile. In this case, the court may impose an extended juvenile disposition, which has the same force and effect as a criminal sentence, after a juvenile correctional placement terminates on the juvenile’s 19th birthday. The extended juvenile disposition may not extend beyond the juvenile’s 23rd birthday unless the juvenile is adjudicated delinquent for first-degree intentional homicide, in which case the extended juvenile disposition may extend to the juvenile’s 25th birthday. The extended juvenile disposition is stayed in the original juvenile dispositional order until a hearing is held between the juvenile’s 18th and 19th
birthdays. The court must dismiss the extended juvenile disposition unless it finds, by clear and convincing evidence presented at the hearing, that the juvenile continues to pose a risk to the public, considering the juvenile's risk and treatment needs at the time of the hearing.

If the court upholds the extended juvenile disposition after the hearing, the court determines whether to impose probation or confinement in jail or prison and imposes the sentence. If the juvenile is on aftercare supervision, the court may only impose probation. Under the bill, DOC is charged with promulgating rules for release to extended juvenile supervision or discharge of individuals on an extended juvenile disposition. An extended juvenile disposition is not subject to the requirements of bifurcated sentencing, but a juvenile who violates a condition of probation or extended supervision under an extended juvenile disposition may have his or her probation or extended supervision revoked after a hearing held by the Division of Hearings and Appeals in DOA. If probation is revoked, the juvenile may be sent back to the court to determine the term of confinement in jail or prison.

Closure of Lincoln Hills and Copper Lakes schools

2017 Wisconsin Act 185 required DOC to close the current Type 1 juvenile correctional facilities known as Lincoln Hills and Copper Lake schools no later than January 1, 2021. 2019 Wisconsin Act 8 extended this date to July 1, 2021. The bill removes the deadline for these facilities to be closed and provides instead that DOC must close the facilities as soon as all the juveniles who are placed there are transferred out to a substitute placement, which must happen as soon as a substitute placement that meets the needs of each juvenile is ready.

2019 Wisconsin Act 8 provided that DOC may, within its discretion, transfer juveniles out of Lincoln Hills or Copper Lake to a juvenile detention facility that is approved to receive placements of juveniles for more than 30 days. Under Act 8, all juveniles who are transferred to a juvenile detention facility using this procedure are required to be transferred into a secured residential care center for children and youth (SRCCCY) or a new Type 1 juvenile correctional facility no later than July 1, 2021. The bill specifies that juveniles who are transferred to a juvenile detention facility using this procedure are required to be transferred into an SRCCCY or a new Type 1 juvenile correctional facility as soon as a substitute placement that meets the needs of each juvenile is ready.

Juvenile correctional facilities

Under current law, the juvenile court may place a juvenile in a Type 1 juvenile correctional facility under the supervision of DOC or an SRCCCY under the supervision of a county department of human or social services if the juvenile is adjudged delinquent for an act that would be punishable by a sentence of six months or more if committed by an adult or is found to be a danger to the public.

Under current law, upon the closure of the Lincoln Hills and Copper Lakes Schools, each county must provide an SRCCCY to hold juveniles who are placed under county supervision in secured custody. Under current law, an SRCCCY may have less restrictive physical security barriers than a Type 1 juvenile correctional facility and must provide trauma-informed, evidence-based programming and
services. Under current law, DOC must open one or more new Type 1 juvenile correctional facilities to replace the Lincoln Hills and Copper Lakes Schools.

The bill removes the requirement for DOC to establish one or more Type 1 juvenile correctional facilities and instead authorizes DOC to establish and operate an SRCCCY. The bill also eliminates the term “Type 1 juvenile correctional facility.”

Under current law, after the closure of the Lincoln Hills and Copper Lakes Schools, a juvenile who is adjudged delinquent for an act that would be punishable by a sentence of six months or more if committed by an adult and who is found to be a danger to the public may be placed in an SRCCCY under the supervision of a county department but not under the supervision of DOC. The bill allows such a juvenile to be placed under the supervision of DOC in an SRCCCY run by DOC after the closure of the Lincoln Hills and Copper Lakes Schools.

**Type 2 status**

Under current law, any secured or nonsecured facility that holds a juvenile with a Type 2 status is referred to as a Type 2 juvenile correctional facility or a Type 2 residential care center for children and youth (collectively, Type 2 facility). A Type 2 facility is operated in a manner that is less restrictive than a Type 1 juvenile correctional facility or an SRCCCY. Under current law, DOC may place a juvenile under its supervision under Type 2 status, and the juvenile court may place a juvenile under the supervision of a county department in a Type 2 residential care center for children and youth. A juvenile subject to Type 2 status may be placed in a Type 2 facility or under aftercare or community supervision. The juvenile is subject to certain conditions for maintaining Type 2 status. If the juvenile violates the conditions of Type 2 status, the juvenile may be moved to a Type 1 juvenile correctional facility or an SRCCCY without a change in placement hearing.

The bill eliminates Type 2 status and Type 2 facilities from the Juvenile Justice Code.

**Placement of juveniles in a juvenile detention facility**

The bill eliminates as an available disposition under the Juvenile Justice Code the placement of a juvenile in a juvenile detention facility or juvenile portion of a county jail for more than 30 days. Under current law, the juvenile court may place a juvenile that has been adjudicated delinquent in a juvenile detention facility or juvenile portion of a county jail for up to 30 days or, if the facility is eligible, up to 365 days. A juvenile detention facility is eligible to accept a juvenile for more than 30 days if 1) prior to January 1, 2018, the county board of supervisors of the county operating the facility has adopted a resolution authorizing such a placement and 2) the county has not been awarded a grant under the juvenile corrections grant program, which provides funding for the establishment of an SRCCCY.

**Status violations**

Under current law, a juvenile adjudged delinquent or to have committed a civil law or municipal ordinance violation, including a habitual truancy violation, who violates a condition of his or her dispositional order is subject to various sanctions, including placement in a juvenile detention facility or a place of nonsecure custody for not more than 10 days. Also under current law, a juvenile adjudged delinquent who violates a condition of his or her delinquency order or aftercare supervision may,
without a hearing, be placed in a juvenile detention facility or a place of nonsecure custody for not more than 72 hours (short-term detention) during an investigation of the violation and potential sanctions or as a consequence of that violation. The bill eliminates placement in a juvenile detention facility as a sanction or for short-term detention unless the juvenile court finds that the juvenile poses a threat to public safety and the underlying offense for which the juvenile court order was imposed is not a status offense. The bill defines a status offense as an offense committed by a juvenile that would not be an offense if committed by an adult (for example, truancy).

**Community supervision and aftercare supervision**

Under current law, when a juvenile who is placed under the supervision of DOC under the Juvenile Justice Code is released from a juvenile correctional facility, DOC provides community supervision for the juvenile until DOC discharges the juvenile from supervision. When a juvenile who is placed under the supervision of a county department is released from a juvenile correctional facility or an SRCCCY, the county department provides aftercare supervision for the juvenile until the county department discharges the juvenile from supervision. The bill eliminates community supervision for a juvenile and requires a county department to provide aftercare supervision for any juvenile who is released from a juvenile correctional facility or an SRCCCY.

**Use of restraints on a child**

The bill generally prohibits the use of restraints on anyone under the age of 18 when appearing before the juvenile court or criminal court. The bill provides that, upon a request of the district attorney, corporation counsel, or other appropriate county official, a court may order the use of restraints on a child if, after a hearing, it issues written findings of fact showing that the use of restraints is necessary under certain conditions. The bill also requires that any restraints used on a child must allow limited movement of the hands and prohibits the use of fixed restraints that are attached to a wall, floor, or furniture.

**Daily rates for juvenile correctional services**

Current law establishes at $615 the per person daily rate paid by counties to DOC for services provided to juveniles in a Type 1 juvenile correctional facility (daily rate). The bill eliminates the daily rate set in statute and requires DOC to specify the daily rate. Under current law and the bill, these payments are credited to a DOC appropriation for juvenile correctional services. Under current law, if there is a deficit in that appropriation account at the close of the fiscal biennium, the governor must increase the daily rate by $6 in the executive budget bill for each fiscal biennium until the deficit is eliminated. Under the bill, in the case of such a deficit, the secretary of corrections may increase the daily rate and the daily cost assessment for counties for care in a foster home, group home, or residential care center for children and youth and for community supervision services by $6 until the deficit is eliminated.

**Payments to DHS for services at Mendota Juvenile Treatment Center**

Under current law, DOC must transfer certain amounts to DHS for services for juveniles placed at the Mendota Juvenile Treatment Center (MJTC). The bill
SENATE BILL 111

replaces those specific amounts with a requirement that DOC reimburse DHS for the cost of providing those services at a per person daily rate specified by DHS. The bill maintains a requirement that DHS charge DOC not more than the actual cost of providing those services. The bill also authorizes DOC to charge counties the same daily rate for care in a Type 1 juvenile correctional facility as DHS charges DOC for MJTC services.

Juvenile correctional services deficit relief

The bill creates an appropriation from the general fund to DOC for juvenile correctional services if the amount in the juvenile correctional services appropriation under current law is insufficient. The current law juvenile correctional services appropriation is funded by various program receipts.

COURTS AND PROCEDURE

PUBLIC DEFENDER

Public defender private attorney rate increases for inflation

Under current law, for any case assigned on or after January 1, 2020, the rate at which the public defender must pay a private local attorney to whom a case is assigned is $70 per hour for time spent related to the case, excluding travel, and $25 per hour for time spent in travel related to the case.

The bill provides that the rate at which the public defender must pay a private local attorney to whom a case is assigned on or after January 1, 2020, must be adjusted biennially by a percentage that correlates with the federal Department of Labor’s consumer price index. Under the bill, the first of these adjustments will be made on July 1, 2023.

CIRCUIT COURTS

Statutory addition of circuit court branches designated to begin operation in 2021

The bill adds four new circuit court branches to the statutory list of judicial circuit branches, as authorized by the Director of State Courts and designated to begin operation in 2021.

Current law contains a list that sets forth the number of branches each judicial circuit has. 2019 Wisconsin Act 184 authorized the Director of State Courts to add four circuit court branches, by November 14, 2020, to begin operation on August 1, 2021. Act 184 further authorized the Director of State Courts to allocate one of the newly authorized branches to any county the Director of State Courts determined to be in need of an additional circuit court branch, but only if the county passed a resolution requesting an additional circuit court branch and established, or will have established by May 31, 2021, the appropriate infrastructure to support an additional circuit court branch. Act 184 also authorized the Director of State Courts to require any county, as a condition for receiving a circuit court branch allocation, to have established or to apply for a grant to establish a drug court. In March 2020, the Director of State Courts allocated new circuit court branches to Calumet, Dunn, Jackson, and Marathon Counties. The bill updates the list of circuit court branches to reflect the additional four circuit court branches allocated by the Director of State Courts and authorized to begin operation on August 1, 2021.
SENATE BILL 111

DISTRICT ATTORNEYS

Increase in deputy district attorney allocation

The bill increases the number of deputy district attorneys that may be appointed in a prosecutorial unit with a population of more than 200,000 but less than 750,000 from three deputy district attorneys to four deputy district attorneys.

GENERAL COURTS AND PROCEDURE

Extreme risk protection injunctions

Under current law, a person is prohibited from possessing a firearm and must surrender all firearms if the person is subject to a domestic abuse injunction, a child abuse injunction, or, in certain cases, a harassment or an individuals-at-risk injunction. If a person surrenders a firearm because he or she is subject to one of those injunctions, the firearm may not be returned until a court determines that the injunction has been vacated or has expired and that the person is not otherwise prohibited from possessing a firearm. A person who possesses a firearm in violation of the injunction is guilty of a Class G felony.

The bill creates an extreme risk protection temporary restraining order and an extreme risk protection injunction. Such an order or injunction prohibits a person from possessing a firearm because he or she is a danger to himself or herself or another. Under the bill, only a law enforcement officer or a family or household member of the person may file a petition for an extreme risk protection injunction. If a court receives such a petition, the court must schedule an injunction hearing. The court also must issue a temporary restraining order prohibiting the person from possessing a firearm and ordering the person to surrender all firearms if the court finds reasonable grounds that the person is substantially likely to injure himself or herself or another person if he or she possesses a firearm. If a temporary restraining order is issued, it remains in effect until the injunction hearing. At the injunction hearing, the court may grant an extreme risk protection injunction ordering the person to refrain from possessing a firearm and to surrender all firearms if the court finds by clear and convincing evidence that the person is substantially likely to injure himself or herself or another person if the person possesses a firearm. Under the bill, an extreme risk protection injunction is effective for up to one year and may be renewed. A person who is subject to an extreme risk protection injunction may petition to vacate the injunction. A person who possesses a firearm in violation of an extreme risk protection temporary restraining order or injunction is guilty of a Class G felony.

Qui tam actions for false claims

The bill restores a private individual’s authority to bring a qui tam claim against a person who makes a false or fraudulent claim for medical assistance, which was eliminated in 2015 Wisconsin Act 55, and further expands qui tam actions to include any false or fraudulent claims to a state agency. A qui tam claim is a claim initiated by a private individual on his or her own behalf and on behalf of the state.
SENATE BILL 111

against a person who makes a false claim relating to medical assistance or other moneys from a state agency. The bill provides that, of moneys recovered as a result of a qui tam claim, a private individual may be awarded up to 30 percent of the amount recovered, depending upon the extent of the individual's contribution to the prosecution of the action. The individual may also be entitled to reasonable expenses incurred in bringing the action, as well as attorney fees. The bill also includes additional changes not included in the prior law to incorporate provisions enacted in the federal Deficit Reduction Act of 2005 and conform state law to the federal False Claims Act, including expanding provisions to facilitate qui tam actions and modifying the bases for liability to parallel the liability provisions under the federal False Claims Act. DOJ also has independent authority to bring a claim against a person for making a false claim for medical assistance. The bill modifies provisions relating to DOJ's authority to parallel the liability and penalty standards relating to qui tam claims and to parallel the forfeiture amounts provided under the federal False Claims Act.

CRIMES

Expungement of criminal records

Under current law, a court may order a person’s criminal record expunged of a crime if all of the following apply: 1) the maximum term of imprisonment for the crime is not more than six years, which is a Class H felony and below; 2) the person committed the crime before the age of 25; 3) the person had not been previously convicted of a felony; and 4) the crime was not a violent felony. Current law specifies that the expungement order must be made only at sentencing and then the record is expunged when the person completes his or her sentence. If the court does not order expungement at sentencing, the record may not be expunged.

The bill removes the condition that the person committed the crime before the age of 25 (the bill retains the other requirements that the crime be no greater than a Class H felony, the person had no previous felony convictions, and the crime was not a violent felony) and makes certain traffic crimes ineligible for expungement. The bill also provides that, if the sentencing court did not order the record expunged, the person may file a petition with the sentencing court after he or she completes his or her sentence. Upon receipt of the petition, the court must review the petition and then may order the record expunged or may deny the petition. If the court denies the petition, the person may not file another petition for two years, and no person may file more than two petitions per crime. The changes described in this paragraph retroactively apply to persons who were convicted of a crime before the bill takes effect.

The bill also allows the sentencing court to order that a person’s record not be eligible for expungement.

The bill provides that, if a record is expunged of a crime, that crime is not considered a conviction for employment purposes and specifies that employment discrimination because of a conviction record includes requesting a person to supply information regarding a crime if the record has been expunged of the crime.
SENATE BILL 111

Drug paraphernalia

Under current law, it is a crime to use, possess, manufacture, or deliver drug paraphernalia. Drug paraphernalia is anything that is used in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, or introducing into the human body a controlled substance. Drug paraphernalia excludes hypodermic syringes, needles and other objects used in parenterally injecting substances into the human body, and any items that are designed for use with tobacco products. Under the bill, drug paraphernalia also excludes any materials used to test for the presence of fentanyl in a substance.

Maximum penalty for a Class D felony

The bill reduces the maximum sentence for a Class D felony. Under current law, the sentencing court has discretion in setting the length of confinement and the length of extended supervision, but both the total length of the sentence and the length of extended supervision are capped on the basis of the classification of the crime committed, and generally the length of confinement may not be more than 75 percent of the total sentence. The bill reduces the length of the total possible sentence for a Class D felony from 25 years to 20 years and the length of possible extended supervision from 10 years to 5 years.

Penalty for bail jumping

Under current law, bail jumping means failure to comply with the terms of a bond after being released from custody in a pending criminal matter. Bail jumping for a defendant who has been released on bond after being charged with a crime is a Class A misdemeanor if the offense with which the defendant is charged is a misdemeanor and a Class H felony if the offense with which the defendant is charged is a felony, and bail jumping for a witness for whom bail has been required is a Class I felony. Under the bill, any bail jumping violation is a Class A misdemeanor, regardless of the underlying offense or whether the individual is a defendant or witness.

Alternatives to prosecution for disorderly conduct

The bill creates a requirement that a prosecutor offer to certain disorderly conduct defendants a deferred prosecution agreement or an agreement in which the defendant stipulates to his or her guilt of a noncriminal ordinance violation. Under the bill, a prosecutor must offer such options to a person who has committed a disorderly conduct violation if it is the person’s first disorderly conduct violation, the person has not committed a similar violation previously, and the person has not committed a felony in the previous three years. Under the bill, if the person is offered a deferred prosecution agreement, he or she must be required to pay restitution, if applicable.

Immunity for certain controlled substances offenses

Current law grants immunity from prosecution for possessing a controlled substance to a person, called an aider, who summons or provides emergency medical assistance to another person because the aider believes the other person is suffering
from an overdose or other adverse reaction to a controlled substance. Under 2017 Wisconsin Act 33, an aider was also immune from having probation, parole, or extended supervision revoked for possessing a controlled substance under the same circumstances. Act 33 also granted the aided person immunity from having probation, parole, or extended supervision revoked for possessing a controlled substance when an aider seeks assistance for the aided person. The immunity applied only if the aided person completes a treatment program as part of his or her probation, parole, or extended supervision. Act 33 also provided that a prosecutor must offer an aided person who is subject to prosecution for possessing a controlled substance a deferred prosecution agreement if the aided person completes a treatment program.

The expanded immunities under 2017 Wisconsin Act 33 were temporary, and expired on August 1, 2020. The bill permanently restores these expanded immunities from 2017 Wisconsin Act 33.

EDUCATION

PRIMARY AND SECONDARY EDUCATION: GENERAL SCHOOL AIDS AND REVENUE LIMITS

Two-thirds funding for school districts; appropriation for general school aid

Currently, the amount appropriated each fiscal year for general school aid is a sum set by law. Beginning in the 2021-22 school year, the bill directs DPI, DOA, and the Legislative Fiscal Bureau annually to jointly certify to JCF an estimate of the amount necessary to appropriate in the following school year to ensure that general school aids equal two-thirds of partial school revenues (in general, the sum of state school aids and school property taxes). Under the bill, JCF determines the amount appropriated as general school aids in each odd-numbered fiscal year and the amount is set by law in each even-numbered fiscal year.

School district revenue limits; per pupil increase

Current law generally limits the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue allowed per pupil in the previous school year plus a per pupil adjustment, if any, as provided by law. In the 2020-21 school year, the per pupil adjustment was a $179 increase. Under current law, there is no per pupil adjustment in the 2021-22 school year and thereafter.

For purposes of calculating school district revenue limits, the bill provides a per pupil increase of $200 for the 2021-22 school year and $204 for the 2022-23 school year. Under the bill, in the 2023-24 school year and thereafter, the per pupil adjustment is the per pupil increase for the previous school year as adjusted for any increase in the consumer price index.

School district revenue limits; number of pupils enrolled in the 2020-21 school year

One factor used to calculate a school district's revenue limit is a three-year rolling average of the school district’s pupil enrollment. For example, both the average of a school district's 2018-19, 2019-20, and 2020-21 pupil enrollments and the average of the school district’s 2019-20, 2020-21, and 2021-22 pupil enrollments
will be used to calculate the school district’s 2021-22 school year revenue limit. In each applicable school year, a school district’s pupil enrollment is based on a pupil count that occurs on the third Friday in September and 40 percent of the school district’s summer school enrollment.

Under the bill, for purposes of determining a school district’s revenue limit in the 2021-22, 2022-23, and 2023-24 school years, a school district’s pupil enrollment for the 2020-21 school year is the sum of the pupil count that occurred on the third Friday of the 2019-20 school year or the 2020-21 school year, whichever is greater and 40 percent of the school district’s summer enrollment in the 2019-20 school year or 2020-21 school year, whichever is greater.

**Low revenue ceiling; per pupil amount**

Current law provides a minimum per pupil revenue limit for school districts, known as the revenue ceiling. Under current law, the per pupil revenue ceiling is $10,000 in the 2020-21 school year and each school year thereafter. The bill increases the per pupil revenue ceiling to $10,250 for the 2021-22 school year and to $10,500 for the 2022-23 school year and each school year thereafter.

**Low revenue ceiling; restrictions**

Current law provides that during the three school years following a school year in which an operating referendum fails in a school district, the school district’s revenue ceiling is the revenue ceiling that applied in the school year during which the referendum was held. The bill eliminates the provision under which a school district’s revenue ceiling is the revenue ceiling from a previous school year because an operating referendum failed in the school district.

**Special adjustment aid; 2021-22 and 2022-23 school years**

Under current law, a school district is guaranteed an amount of general equalization aid equal to at least 85 percent of the amount it received in the previous school year. Under the bill, in the 2021-22 and 2022-23 school years, a school district is guaranteed an amount of general equalization aid that is equal to at least 90 percent of the amount the school district received in the 2020-21 school year. The guaranteed percentage returns to 85 percent in the 2023-24 school year.

**Counting pupils enrolled in four-year-old kindergarten**

The bill changes how a pupil enrolled in a four-year-old kindergarten is counted by a school district for purposes of state aid and revenue limits. Under current law, a pupil enrolled in a four-year-old kindergarten program is counted as 0.5 pupil unless the program provides at least 87.5 additional hours of outreach activities, in which case the pupil is counted as 0.6 pupil. Under the bill, if the four-year-old kindergarten program requires full-day attendance by pupils for five days a week, a pupil enrolled in the program is counted as one pupil.

**Eliminate delay of general aid payment**

Under current law, DPI generally distributes state aid to school districts quarterly according to the following schedule: 1) 15 percent of a school district’s total aid entitlement on the third Monday of September; 2) 25 percent on the first Monday of December; 3) 25 percent on the fourth Monday of March; and 4) 35 percent on the third Monday of June. However, under current law, the state delays paying
SENATE BILL 111

$75,000,000 of all state aid for a school year until the fourth Monday of July after the end of the school year and reduces the amounts of all quarterly payments proportionally to reflect the delayed payment amount. The bill eliminates the delayed payment so that all state aid is paid on the regular quarterly schedule.

PRIMARY AND SECONDARY EDUCATION: CATEGORICAL AIDS

Funding for special education and school age parents programs

The bill changes the rate at which the state reimburses school boards, operators of independent charter schools, cooperative educational service agencies (CESA), and county children with disabilities education boards for costs incurred to provide special education and related services to children with disabilities and for school age parents programs (eligible costs). Under current law, the full cost of special education for children in hospitals and convalescent homes for orthopedically disabled children is reimbursed. After those costs are paid, the remaining eligible costs are reimbursed from the amount remaining in the appropriation account at a rate that distributes the full amount appropriated. DPI estimates that, in the 2020-21 school year, the reimbursement rate is about 28 percent.

The bill changes the appropriation to a sum sufficient and provides that, after full payment of hospital and convalescent home costs, the remaining eligible costs are reimbursed at the following rates:

1. In the 2021-22 school year, 45 percent of eligible costs.
2. In the 2022-23 school year and in each school year thereafter, 50 percent of eligible costs.

Currently, DPI provides 1) special education aid to school districts, independent charter schools, CESAs, and CCDEBs; 2) aid to school districts, CESAs, and CCDEBs for providing physical or mental health treatment services to private school and tribal school pupils; and 3) aid for school age parent programs to school districts only.

Per pupil aid

Under current law, per pupil aid is a categorical aid paid to school districts. Per pupil aid is funded from a sum sufficient appropriation and is not considered for purposes of revenue limits. Under current law, the amount of per pupil aid paid to a school district is calculated using a three-year average of the number of pupils enrolled in the school district and a per pupil amount set by law. In the 2020-21 school year, the per pupil amount is $742. Under the bill, the per pupil amount is increased to $750 in the 2021-22 school year and each year thereafter.

In addition, beginning in the 2021-22 school year, the bill requires DPI to pay a second amount of per pupil aid to school districts that is based on the number of economically disadvantaged pupils enrolled in a school district. Under the bill, beginning in the 2021-22 school year, in addition to the base amount of per pupil aid, DPI must also pay a school district $75 for each economically disadvantaged pupil enrolled in the school district in the previous year. However, in calculating this amount for the 2021-22 and 2022-23 school years, DPI must use the number of economically disadvantaged pupils enrolled in a school district in the 2019-20 school year instead of in the previous school year. Under the bill, an economically disadvantaged pupil is a pupil who satisfies either the income eligibility criteria for
SENATE BILL 111

a free or reduced-price lunch under federal law or other measures of poverty, as determined by DPI.

**Supplemental per pupil aid**

The bill eliminates supplemental per pupil aid, which was created under 2019 Wisconsin Act 9, the 2019 biennial budget.

**Sparsity aid**

The bill extends sparsity aid to school districts with a membership of more than 745 pupils.

Under current law, a school district is eligible for sparsity aid in the amount of $400 per pupil if the school district’s membership in the previous school year did not exceed 745 pupils and the number of pupils per square mile in the school district is less than 10. Current law also provides that a school district that was eligible to receive sparsity aid in the previous school year but is not eligible to receive sparsity aid in the current school year because the school district’s membership exceeds 745 pupils in the current school year is eligible to receive up to 50 percent of the amount of sparsity aid the school district received in the previous school year.

Under the bill, beginning in the 2021-22 school year, a school district with the same density of pupils per square mile, i.e., less than 10, and a membership that exceeds 745 pupils is eligible for sparsity aid in the amount of $100 per pupil. The bill also provides that, beginning in the 2021-22 school year, a school district that is ineligible for sparsity aid because it no longer satisfies the pupils-per-square-mile requirement may receive 50 percent of the amount of sparsity aid the school district received in the previous school year.

**Limited-English proficient pupils; categorical aid**

The bill changes the way that state categorical aid for educating limited-English proficient pupils (LEP) is allocated.

Under current law, a school board is required to provide a bilingual-bicultural education program to LEP pupils who attend a school in the school district if the school meets any of the following thresholds:

1. Within a language group, 10 or more LEP pupils are enrolled in kindergarten to grade three.
2. Within a language group, 20 or more LEP pupils are enrolled in grades four to eight.
3. Within a language group, 20 or more LEP pupils are enrolled in grades nine to 12.

All school boards are required to educate all LEP pupils, but only school boards that are required to provide bilingual-bicultural education programs are eligible under current law for categorical aid targeted toward educating LEP pupils.

Under current law, in each school year, DPI distributes $250,000 among eligible school districts whose enrollments in the previous school year were at least 15 percent LEP pupils, and DPI distributes the amount remaining in the appropriation account to eligible school districts on the basis of the school districts’ expenditures on the required bilingual-bicultural education programs during the prior school year.
SENATE BILL 111

The bill expands eligibility for categorical aid to independent charter schools and eliminates the limitation that only school boards that are required to provide bilingual-bicultural education programs are eligible for categorical aid. Under the bill, beginning in the 2022–23 school year, a school board that had at least one LEP pupil enrolled in the school district in the prior school year, and the operator of an independent charter school that had at least one LEP pupil attending the charter school in the prior school year, receives $10,000. In addition, if the school board or operator had more than 20 LEP pupils, the school board or operator receives an additional $500 per LEP pupil above 20.

The bill also provides a temporary hold harmless provision for a school board that would receive less categorical aid under the new funding scheme:

1. In the 2022–23 school year, a school board receives the greater of a) the amount to which the school board is entitled under the new funding scheme, or b) an amount equal to the amount of categorical aid the school board received in the 2020–21 school year.

2. In the 2023–24 school year, a school board receives the amount to which the school board is entitled under the new funding scheme. In addition, if that amount is less than the amount the school board received in the 2020–21 school year, the school board also receives an amount equal to 50 percent of the difference between the amount to which the school board is entitled under the new funding scheme and the amount the school board received in the 2020–21 school year.

If, in any fiscal year, there are insufficient funds to provide the total categorical aid amount, DPI must prorate the payments.

**Capacity-building grants to increase licensure of bilingual teachers and English as a second language teachers**

The bill creates a grant program under which DPI may award grants, in amounts determined by DPI, to school districts and independent charter schools to provide support and financial assistance to their staff and teachers in obtaining licensure or certification as bilingual teachers and teachers of English as a second language.

**Aid for pupil transportation**

The bill increases the reimbursement rate to school districts and independent charter school operators, beginning in the 2021–22 school year, for transporting a pupil who lives more than 12 miles from the school the pupil attends from $365 per school year to $375 per school year. Under current law, a school district that provides transportation to pupils to and from summer classes may be reimbursed for certain transportation costs, but, if a pupil is transported fewer than 30 days, that aid is proportionately reduced. The bill eliminates the requirement that DPI reduce the amount of state aid a school district receives for transporting a pupil if the pupil is transported fewer than 30 days.

**High cost transportation aid**

Under current law, a school district that qualified for high cost transportation aid in the previous school year but did not qualify in the current school year is eligible to receive aid equal to 50 percent of the high cost transportation aid the school district received in the previous school year, commonly called a “stop-gap” payment.
However, current law provides that, if the total amount of stop-gap payments to all school districts in a school year exceeds $200,000, DPI must prorate the payments. The bill eliminates that cap and instead provides that, if the total amount of high cost transportation aid, including stop-gap payments, for a school year exceeds the amount appropriated for high cost transportation aid for the school year, all high cost transportation aid must be prorated.

**School mental health and pupil wellness; categorical aid**

The bill changes the types of expenditures that are eligible for reimbursement under the state categorical aid program related to pupil mental health.

Under current law, DPI must make payments to school districts, independent charter schools, and private schools participating in parental choice programs (local education agency) that increased the amount they spent to employ, hire, or retain social workers. Under current law, DPI first pays each eligible local education agency 50 percent of the amount by which the eligible local education agency increased its expenditures for social workers in the preceding school year over the amount it expended in the school year immediately preceding the preceding school year. If, after making those payments, there is money remaining in the appropriation account for that aid program, DPI makes additional payments to eligible local education agencies. The amount of those additional payments is determined on the basis of the amount remaining in the appropriation account and the amount spent by eligible local education agencies to employ, hire, and retain social workers during the previous school year.

The bill expands eligibility for the payments under the aid program to include spending on school counselors, school social workers, school psychologists, and school nurses (pupil services professionals). The bill also eliminates the two tier reimbursement structure of the aid program and eliminates the requirement that a local education agency is eligible for the aid only if the local education agency increased its spending. Under the bill, any local education agency that made expenditures to employ, hire, or retain pupil services professionals during the previous school year is eligible for reimbursement under the aid program.

**School-based mental health services grants**

Under current law, DPI must administer a competitive grant program under which it awards grants to school boards and independent charter schools for the purpose of collaborating with community mental health agencies to provide mental health services to pupils. Under the bill, the purpose of these grants is to collaborate with mental health providers, as opposed to community mental health agencies, to provide mental health services to pupils.

**Supplemental nutrition aid**

The bill creates a categorical aid to reimburse educational agencies for the difference between the federal reimbursement rate for a free school meal and a reduced-price school meal provided that the educational agency does not charge pupils for a reduced-price meal. The bill defines a “school meal” as a school lunch or snack under the federal school lunch program and a breakfast under the federal school breakfast program and an “educational agency” as a school board, an operator of independent charter school, the director of the Wisconsin Educational Services
SENATE BILL 111

Program for the Deaf and Hard of Hearing, the director of the Wisconsin Center for the Blind and Visually Impaired, an operator of residential care centers for children and youth, a tribal school, or a private school.

School breakfast program

The bill expands eligibility for reimbursement under the school breakfast program to include operators of independent charter schools, the director of the Wisconsin Educational Services Program for the Deaf and Hard of Hearing, the director of the Wisconsin Center for the Blind and Visually Impaired, and operators of residential care centers for children and youth. The bill also prohibits DPI from making reimbursements under the school breakfast program for breakfasts served in the prior school year if the school ceased operations during the prior school year. This prohibition does not apply to reimbursements to a school district.

Driver education; state aid

The bill creates a new aid program for driver schools and for school boards, independent charter schools, and CESAs that offer a driver education program to pupils who meet the income eligibility standard for a free or reduced-price lunch in the federal school lunch program. To be eligible for this aid, a driver school, school board, independent charter school, or CESA must demonstrate to DPI that it waived at least one-half of its program participation fees for eligible pupils. Under the bill, DPI pays the driver school, school board, operator of the independent charter school, or CESA an amount equal to one-half of its program participation fee multiplied by the number of eligible pupils who completed the driver education program in the previous school year.

Out-of-school time program grants

The bill creates a grant program under which DPI must award grants to school boards and organizations to support high-quality after-school programs and other out-of-school time programs that provide services to school-age children. DPI must award grants in amounts of not less than $80,000 and not more than $145,000 per school year, and each grant may continue up to five school years. In each school year, DPI must award not less than 30 percent of all grant moneys to out-of-school time programs that serve pupils in the elementary grades.

Computer science licensure grant program

Beginning in the 2022–23 school year, the bill requires DPI to award grants to school districts to assist licensed school district employees in obtaining additional licensure that authorizes the employee to teach computer science in public schools. For purposes of awarding these grants, the bill requires DPI to prioritize school districts if 50 percent of the school district’s membership is low income or 40 percent of the school district’s membership identify as a minority.

Energy efficiency grant program

The bill creates a grant program under which DPI must award grants to school districts for energy efficiency projects in school buildings. For the first two school years of the grant program, DPI must give preference in awarding grants to projects that relate to heating, ventilation, and air conditioning systems. DPI, in
consultation with the Office of Environmental Justice, may promulgate rules to implement the grant program.

**PRIMARY AND SECONDARY EDUCATION: CHOICE, CHARTER, AND OPEN ENROLLMENT**

*Parental choice program caps*

The bill caps the total number of pupils who may participate in the Milwaukee Parental Choice Program, the Racine Parental Choice Program, or the statewide parental choice program (parental choice program) at the number of pupils who attended a private school under the parental choice program in the 2021–22 school year. Under the bill, beginning in the 2022–23 school year, if the number of applications to participate in a parental choice program exceeds the program cap, DPI must determine which applications to accept on a random basis, subject to certain admission preferences that exist under current law.

Under current law, pupils may submit applications to attend a private school under the statewide parental choice program for the following school year from the first weekday in February to the third Thursday in April, and a private school that receives applications must, no later than the first weekday in May immediately following the application period, report the number of applicants to DPI so that DPI may determine whether a pupil participation limitation has been exceeded. The bill provides that, beginning with applications for the 2022–23 school year, DPI must establish one or more application periods during which pupils may submit applications to attend a private school under the MPCP or RPCP. The bill provides that a private school that receives applications during an application period must, no later than 10 days after the application period ends, report the number of applicants to DPI so that DPI may determine whether a program cap has been exceeded. The bill does not change the application period for the statewide parental choice program and requires DPI to use the information required to be reported under current law to determine whether the program cap for the statewide parental choice program has been exceeded.

The bill also requires DPI to establish a waiting list for a parental choice program if the program cap for the parental choice program has been exceeded.

Current law specifies that a pupil who moves to Racine or Milwaukee from somewhere else in the state after being accepted into the statewide parental choice program is not counted for purposes of determining whether a school district exceeded its pupil participation limit. The bill provides that such a pupil also is not counted for purposes of determining whether a program cap for a parental choice program has been exceeded. The bill also requires DPI to promulgate rules consistent with those current law pupil counting provisions to ensure that, if a pupil who is accepted to attend a private school under a parental choice program changes the pupil’s residence, the pupil will not be counted for purposes of determining whether the pupil participation limit or program cap that applies to the pupil’s new residence has been exceeded. In other words, the rules would address situations in which a pupil moves 1) from Racine to Milwaukee or somewhere else in the state; or 2) from Milwaukee to Racine or somewhere else in the state.
SENATE BILL 111

Special Needs Scholarship Program cap

Under current law, a child with a disability who meets certain eligibility criteria may receive a scholarship to attend a private school participating in the Special Needs Scholarship Program (SNSP). The bill caps the total number of children who may receive an SNSP scholarship at the number of children who received an SNSP scholarship in the 2021–22 school year. Under the bill, beginning in the 2022–23 school year, if the number of applications for SNSP scholarships exceeds the program cap, DPI must determine which applications to accept on a random basis, subject to certain admission preferences set forth in the bill.

Under current law, a child may apply for an SNSP scholarship at any time during a school year and may begin attending the private school at any time during the school year. The bill provides that, beginning with applications for the 2022–23 school year, children may submit applications for SNSP scholarships for the school year from the first weekday in April to the first Thursday in June of the prior school year, and a private school that receives applications for SNSP scholarships must, no later than the third Thursday in June immediately following the application period, report the names of applicants to DPI so that DPI may determine whether the program cap has been exceeded. No later than 60 days after the end of the application period, DPI must notify each applicant and each private school whether the applicant has been awarded an SNSP scholarship.

The bill requires DPI to establish a waiting list if the program cap for the SNSP has been exceeded. The bill allows a child receiving an SNSP scholarship to apply during a school year to transfer from one participating private school to another.

Eliminating the Office of Educational Opportunity

The bill eliminates the Office of Educational Opportunity (OEO) as a charter school authorizer. Under current law, a charter school may be authorized by a school board, the director of the OEO, the common council of the City of Milwaukee, the chancellor of any institution in the UW System, any technical college district board, the College of Menominee Nation, the Lac Courte Oreilles Ojibwa Community College, or the county executive of Waukesha County. The bill provides that, beginning on the effective date of the bill, the OEO may not authorize any additional charter schools. Under the bill, a charter school authorized by the OEO before the effective date of the bill may continue to operate under its contract but may not renew or extend the contract. The bill provides that, upon expiration of the contract, the charter school may enter into a contract with any other authorizer to continue operating as a charter school.

Payment indexing; parental choice programs, the Special Needs Scholarship Program, independent charter schools, full-time open enrollment program, and whole grade sharing agreements

Under current law, the per pupil payment amounts under the MPCP, the RPCP, the statewide parental choice program, and the SNSP, the per pupil payment amount to independent charter schools, the transfer amounts under the full-time open enrollment program, and the required transfer amount for a child with a disability in a whole grade sharing agreement (collectively “per pupil payments”) are adjusted annually. The annual adjustment for per pupil payments is an amount equal to the
SENATE BILL 111

sum of any per member revenue limit increase that applies to school districts in that school year and any per member increase in categorical aids between the current school year and the previous school year. Under the bill, beginning in the 2021-22 school year, the annual adjustment for per pupil payments is the sum of the per member revenue limit increase that applies to school districts in that school year, if any, and the increase in the per member amount of per pupil aid paid to school districts between the previous school year and the current school year, if any.

Per pupil payment and transfer amount based on actual costs; Special Needs Scholarship Program and full-time Open Enrollment

2017 Wisconsin Act 59, the 2017 biennial budget, created a process that allows the per pupil payment under the SNSP and the transfer amount for a child with a disability in the full-time open enrollment program to be determined based on the actual costs to educate the pupil in the previous school year, as reported by the private school or the nonresident school district. The first SNSP payments and full-time open enrollment transfer amounts based on the actual costs were paid in the 2019-2020 school year.

The bill repeals the process for determining SNSP per pupil payments and full-time open enrollment transfer amounts based on actual costs and reinstates the per pupil payment amount under the SNSP and the full-time open enrollment transfer amount for a child with a disability that existed prior to the 2017 biennial budget. Under the bill, the SNSP per pupil amount and the full-time open enrollment transfer amount for children with disabilities is the same for all pupils and is determined by law. In the 2020-21 school year, the amount is $12,977.

Statewide and Racine parental choice programs; previous school year attendance requirement

Under current law, a pupil must satisfy at least one of the following to be eligible to participate in the statewide parental choice program or the RPCP: 1) the pupil was enrolled in a public school in the previous school year; 2) the pupil was not enrolled in school in the previous school year; 3) the pupil attended a private school in the statewide parental choice program, RPCP, or MPCP in the previous school year; 4) the pupil was on a waiting list to attend a private school in the statewide parental choice program, RPCP, or MPCP in the previous school year; 5) the pupil attended school in another state in the previous school year; or 6) the pupil is enrolling in kindergarten, first grade, or ninth grade in the current school year.

For purposes of this requirement, the bill specifies that a pupil is “enrolled in a public school in the previous school year” if 1) the pupil was counted in a school district’s membership count, which means the pupil was counted as being enrolled in a school district on at least one of the count dates during the previous year, or attended an independent charter school in the previous school year; and 2) the pupil did not attend a private school during the previous school year.

Milwaukee Parental Choice Program; first class city school levy aid

Under current law, the estimated cost of the payments made to private schools participating in the MPCP is partially offset by two reductions in the general school aid otherwise paid to the Milwaukee Public Schools. For the 2010-11 school year and in each school year thereafter, one of the reductions to MPS is an amount equal to
SENATE BILL 111

6.6 percent of the cost of payments made to private schools participating in the MPCP. Current law requires DPI to pay an amount equal to that reduction amount to the City of Milwaukee and requires the City of Milwaukee to pay that amount to the board of school directors of MPS. The bill eliminates the 6.6 percent aid reduction and the requirements that the reduction amount be paid by DPI to the city and by the city to the board. The bill does not make any changes to the other state aid reduction.

**Teacher licensure in parental choice programs and in the Special Needs Scholarship Program**

With certain exceptions, the bill requires that, beginning on July 1, 2024, teachers at private schools participating in a parental choice program or in the SNSP must hold a license or permit issued by DPI. Under current law, teachers at choice schools must have at least a bachelor’s degree from a nationally or regionally accredited institution of higher education, but they are not required to be licensed by DPI. There are no current law requirements regarding who may teach at SNSP schools.

The bill provides an exception for a teacher who teaches only courses in rabbinical studies. In addition, the bill provides a grace period for a teacher who has been teaching for at least the five consecutive years immediately preceding July 1, 2024, which allows the teacher to apply for a temporary, nonrenewable waiver of the licensure requirement. An applicant for a waiver must submit a plan for becoming licensed as required under the bill.

**Special Needs Scholarship Program; religious activity opt-out**

The bill provides that a private school participating in the SNSP must allow a child attending the private school under the SNSP to refrain from participating in any religious activity if the child’s parent submits to the child’s teacher or the private school’s principal a written request that the child be exempt from such activities.

**Special Needs Scholarship Program; requirement for schools to participate in parental choice program**

The bill provides that a private school that begins participating in the SNSP in the 2022–23 school year or any school year thereafter may participate only if the private school also participates in a parental choice program.

**Transportation aid; full-time open enrollment and early college credit programs**

Under current law, a parent or guardian of a pupil attending a public school in a nonresident school district under the full-time open enrollment program or of a public or private high school pupil attending an institution of higher education under the early college credit program may apply to DPI for reimbursement for the costs of transporting the pupil to the nonresident school district or the institution of higher education. Under current law, the reimbursements for transportation costs for both the full-time open enrollment program and the early college credit program are funded from a single sum certain, annual appropriation. Under the bill, reimbursements for transportation costs related to each program are funded from separate sum certain appropriations.
SENATE BILL 111

Annual charter school authorizer report

Under current law, a school board, the OEO, the City of Milwaukee, the chancellor of an institution in the UW System, a technical college district board, the county executive of Waukesha County, the college of Menominee Nation, and the Lac Courte Oreilles Ojibwa community college may contract with a person to operate a charter school. These entities are commonly referred to as charter school authorizers.

Current law requires each charter school authorizer to annually submit to DPI and the chief clerk of each house of the legislature a report that includes specific information about each charter school authorized by the charter school authorizer, services provided by the charter school authorizer, and the charter school authorizer’s operating costs. The bill eliminates this requirement.

Per pupil payment to independent charter schools authorized by a tribal college

A charter school authorized by a charter school authorizer other than a school board is commonly known as an independent charter school. Under current law, DPI pays a different per pupil amount to an independent charter school authorized by a tribal college than it pays to other independent charter schools.

Under current law, the per pupil payment to an independent charter school authorized by a tribal college is based on the per pupil academic base funding the federal Bureau of Indian Education provides to tribal schools under federal law. In the 2020–21 school year, the per pupil amount paid to an independent charter school authorized by a tribal college is $8,719. The per pupil amount paid to an independent charter school authorized by an authorizer other than a tribal college is set by law. In the 2020–21 school year, the per pupil payment amount to an independent charter school authorized by an authorizer other than a tribal college is $9,165.

The bill eliminates the different per pupil amount paid to independent charter schools authorized by a tribal college. Under the bill, beginning in the 2021–22 school year, DPI pays the same per pupil amount to all independent charter schools.

Early College Credit Program; pupils attending an independent charter school

Under current law, public and private high school pupils may enroll in an institution of higher education for the purpose of taking one or more courses to earn high school credit or postsecondary credit or both. This program is known as the Early College Credit Program. The bill makes various technical changes to the ECCP to ensure that the program is accessible to public high school pupils who attend independent charter schools. Under current law, the only secondary educational entity referenced in the ECCP for a public high school pupil is the school board of the school district in which the pupil is enrolled. A public high school pupil who attends an independent charter school is not enrolled in a school district. The bill adds throughout the ECCP the governing board of the independent charter school the pupil attends as the relevant secondary educational entity for a public high school pupil who attends an independent charter school.
SENATE BILL 111

County children with disabilities education boards; pupils attending a school district under the full-time open enrollment program

Under current law, a county children with disabilities education board may provide a special education program to pupils enrolled in or attending a school district if the school board has agreed to be included in the CCDEB’s special education program. If a CCDEB is fiscally independent from the school districts that participate in its program, the state provides state aid to the CCDEB. In the 2019-20 school year, there were three fiscally independent CCDEBs.

Under current law, one of the factors used to calculate state aid paid to a CCDEB is determined by recalculating a participating school district’s equalization aid by adding resident pupils solely enrolled in the CCDEB program to the district’s membership and by adding the costs of the services provided by the CCDEB to all resident pupils to the school district’s shared costs. Under the bill, nonresident pupils attending the school district under the full-time open enrollment program are included in this calculation.

Current law provides a minimum per pupil revenue limit for school districts, known as the revenue ceiling. Under current law, a school district qualifies for the revenue ceiling if its base revenue per pupil is less than the revenue ceiling. Under current law, the per pupil revenue ceiling is $10,000 in the 2020-21 school year and each school year thereafter.

Under current law, the costs of services provided to resident pupils who were solely enrolled in a CCDEB program in the previous school year are included in a school district’s base revenue per pupil amount. Under the bill, the costs of services provided to nonresident pupils attending a school district under the full-time open enrollment program who are solely enrolled in a CCDEB program are also included in the school district’s base revenue per pupil.

Opportunity Schools and Partnership Programs

The bill repeals the Opportunity Schools and Partnership Programs. Under current law, there are three OSPPs: a first class city OSPP applicable only to Milwaukee Public Schools; the MPS superintendent of schools OSPP; and the OSPP for certain eligible school districts. Current law provides that the first class city OSPP and each eligible school district OSPP are under the supervision of a commissioner appointed by the county executive of the county in which the school district is located. Currently, under each OSPP, the commissioner, or MPS superintendent of schools, grants supervision over the operation and general management of each eligible school in the school district to an entity other than the school board. Those entities include a person that operates a charter school and the governing body of a nonsectarian private school participating in a parental choice program. Under current law, an eligible school is a school that was assigned to the lowest performance category on the most recent accountability report published for the school.
GED test fee payments

The bill requires DPI to pay the $30 testing service fee for an individual who takes a content area test given under the general educational development test (commonly called the GED test). The GED test consists of four separate content area tests that cover mathematical reasoning, reasoning through language arts, social studies, and science. Under the bill, an individual who takes a GED content area test to earn a High School Equivalency Diploma (commonly called an HSED) is also eligible for the payment. Under the bill, DPI will pay for an individual to take all four content area tests in each calendar year.

In order to be eligible for the payment, an individual must satisfy DPI's requirements for the individual to receive a Certificate of General Educational Development or an HSED from DPI. Among other things, DPI requires that the individual meet certain residency and minimum age requirements and attend a counseling session. The individual also must obtain a passing score on a GED practice test for the content area (commonly called a GED Ready practice test).

Grants to replace race-based nicknames, logos, mascots, or team names associated with American Indians

The bill authorizes DPI to award a grant to a school board that terminates the use of a race-based nickname, logo, mascot, or team name that is associated with a federally recognized American Indian tribe or American Indians, in general. Under the bill, a school board is eligible for a grant whether or not the school board decides to terminate the use of a race-based nickname, logo, mascot, or team name voluntarily or in response to an objection to its use or in compliance with an order issued by the Division of Hearings and Appeals to terminate the use of the race-based nickname, logo, mascot, or team name. The bill specifies that the amount of the grant may not exceed the greater of $50,000 or the actual cost incurred by the school board to replace the race-based nickname, logo, mascot, or team name. Under the bill, these grants are funded from Indian gaming receipts.

American Indian studies; curriculum and instruction

Current law provides a list of standards, including standards relating to curriculum and instruction, by which school boards must abide. The list of standards includes a requirement that each school board provide, as part of its social studies curriculum, instruction in the history, culture, and tribal sovereignty of the federally recognized American Indian tribes and bands in Wisconsin at least twice in the elementary grades and at least once in the high school grades.

Under the bill, beginning on September 1, 2022, each school board must provide, as part of its social studies curriculum, instruction in the culture, tribal sovereignty, and contemporary and historical significant events of the federally recognized American Indian tribes and bands in Wisconsin at least four times in the elementary grades. The bill specifically requires that the instruction be provided at least once in grades kindergarten to two, at least once in grades three to five, and at least twice in grades six to eight. The bill also requires that the instruction be
SENATE BILL 111

provided as part of the high school curriculum at least once in each of the high school grades, including at least once as part of the high school social studies curriculum.

Beginning in the 2022–23 school year, the bill also requires that each private school participating in a parental choice program and each independent charter school include instruction in the culture, tribal sovereignty, and contemporary and historical significant events of the federally recognized American Indian tribes and bands in Wisconsin in its curriculum at least twice in the elementary grades and at least once in the high school grades.

American Indian studies; teaching license requirement

Current law generally prohibits DPI from issuing a teaching license to an individual unless the individual has received instruction in minority group relations, including instruction in the history, culture, and tribal sovereignty of the federally recognized American Indian tribes and bands in Wisconsin. Under the bill, the minority group relationship instruction required for a teaching license must include instruction in the culture, tribal sovereignty, and contemporary and historical significant events of the federally recognized American Indian tribes and bands in Wisconsin.

Climate change in model academic standards

The bill requires DPI to incorporate an understanding of climate, the interconnected nature of climate change, the potential local and global impacts of climate change, and individual and societal actions that may mitigate the harmful effects of climate change into DPI’s model academic standards for science; agriculture, food and natural resources; english language arts; environmental literacy and sustainability; social studies; nutrition education; and mathematics. While not required by current law, DPI has adopted model academic standards in each of these subjects. Under current law, DPI must incorporate the history of organized labor and the collective bargaining process into its model academic standards for social studies.

Prohibiting vaping on school property

The bill prohibits individuals from vaping on school premises. Under the bill, “school premises” is defined as any real property owned by, rented by, or under the control of a school board, operator or governing board of an independent charter school, or governing body of a private school. “School premises” includes outdoor spaces such as playgrounds and athletic fields. The bill defines vaping as inhaling or exhaling vapor from a vapor product, regardless of whether the liquid or other substance being heated to produce the vapor contains nicotine. Under current law, a school board, operator or governing board of an independent charter school, and governing body of a private school may prohibit vaping on school premises under its respective control.

Grants to support City Year Milwaukee

The bill requires DPI to annually distribute to City Year, Inc., to support City Year Milwaukee all amounts appropriated to DPI for that purpose. City Year, Inc., is a nonprofit organization that partners with systemically under-resourced public
schools in communities across the United States and abroad to help pupils graduate from high school with the skills necessary for success in college, career, and life.

**Bullying prevention grants**

Under current law, DPI must award grants to a nonprofit organization to provide training and an online bullying prevention curriculum for pupils in grades kindergarten to eight. Beginning in the 2021-22 fiscal year, the bill requires DPI to award a bullying prevention grant to the nonprofit organization that received a bullying prevention grant in the 2019-20 and 2020-21 school years. In the 2019-20 and 2020-21 fiscal years, DPI awarded a bullying prevention grant to the Children's Hospital of Wisconsin.

**Mental health training program for school districts and independent charter schools**

Under current law, DPI must provide trainings to school districts and independent charter schools on three specific evidence-based strategies to address student mental health: Screening, Brief Interventions, and Referral to Treatment; Trauma Sensitive Schools; and Youth Mental Health First Aid. The bill adds social and emotional learning to the list of evidence-based strategies on which DPI must provide trainings to school districts and independent charter schools.

**Recollection Wisconsin**

The bill creates a sum certain appropriation to provide GPR funding to Wisconsin Library Services, Inc., commonly known as WiLS, to support the digitization of historic materials in public libraries throughout the state. The bill also requires DPI to distribute annually the amount appropriated for this purpose to WiLS. The collaborative administered by WiLS to digitize and make available historic materials throughout the state is known as Recollection Wisconsin.

**Truancy abatement and burglary suppression; Milwaukee public schools**

Under current law, all school boards are authorized to establish one or more youth service centers for the counseling of children who are taken into custody for truancy. Current law also provides specific requirements that apply only to the school board of MPS related to these youth service centers and truancy abatement. Under current law, the MPS school board is required to establish two youth service centers to provide counseling to children who are taken into custody for truancy and must contract with the Boys and Girls Clubs of Greater Milwaukee to operate these youth service centers. Additionally, current law requires the MPS school board to pay to the City of Milwaukee the amount of funding necessary to employ four law enforcement officers to work on truancy abatement and burglary suppression on a full-time basis. The bill eliminates these requirements.

**Fees for licensing school and public library personnel; appropriation changes**

Under current law, 90 percent of the fees collected by DPI for licensing school and public library personnel and for school districts to participate in DPI's teacher improvement program are credited to an annual sum certain appropriation. The remaining 10 percent of these fees are deposited into the general fund under current law. The bill changes this annual sum certain appropriation to a continuing
appropria tion and requires that 100 percent of the total fees collected by DPI be credited to the appropriation. Under current law and the bill, the purposes of the appropriation are for 1) DPI's administrative costs related to licensing school and public library personnel; 2) if DPI exercises its authority to provide information and analysis of the professional school personnel supply in this state, the costs of providing that information and analysis; and 3) DPI's teacher improvement program.

**Report on homeless children and youths**

The bill requires DPI to annually submit a report to the legislature on the number of homeless children and youths in the public schools of this state. Under the bill, “homeless children and youths” is defined by reference to federal law providing homeless assistance.

**Higher Education**

**Resident undergraduate tuition freeze**

The bill prohibits the Board of Regents of the UW System from charging resident undergraduate academic fees in the 2021-22 and 2022-23 academic years that are more than the fees charged in the 2020-21 academic year.

**Tuition promise grant program**

The bill creates a new grant program administered by the Board of Regents. This program provides grants in the form of “last-dollar awards” to supplement the gap between any scholarships or grants that an eligible student receives outside of this program and the full cost of tuition and segregated fees during either eight consecutive semesters for incoming freshmen or four consecutive semesters for incoming transfer students. Summer terms are not counted in the consecutive semester count, and students may not receive the grants for summer terms. Students eligible for the grants must be new incoming students enrolled in their first bachelor’s degree whose household federal adjusted gross income is equal to or less than $60,000 a year, and must be enrolled in an on-campus program at a UW System institution other than UW-Madison. The bill requires the Board of Regents to promulgate rules to implement and administer the grant program.

**Student loan servicers; Office of the Student Loan Ombudsman**

The bill creates an Office of the Student Loan Ombudsman (office) in DFI and requires student loan servicers to be licensed by this office. The bill contains a variety of provisions governing student education loans, student loan borrowers, and student loan servicers. Under the bill, a “student education loan” means a loan that is extended to a student loan borrower expressly for postsecondary education expenses or related expenses. A “student loan borrower” means a resident of this state who has received or agreed to pay a student education loan or a person who shares legal responsibility for repaying the loan. A “student loan servicer” means a person responsible for the servicing of a student education loan, but excludes certain state-regulated financial service providers. “Servicing” means receiving scheduled periodic payments from a student loan borrower; applying payments received from a student loan borrower; and performing other administrative services with respect to a student education loan.
SENATE BILL 111

The bill requires a student loan servicer, wherever located, to be licensed by the office before directly or indirectly engaging in servicing student education loans in this state. A student loan servicer must hold a separate license for each of its places of business and the student loan servicer may not act under any name or at any place of business that is not identified in the license.

The bill imposes numerous requirements on student loan servicers, including requirements relating to all of the following:

1. Responding to written inquiries from student loan borrowers.
2. Handling and applying “nonconforming payments,” defined as payments on student education loans that are different from the required payments.
3. Responsibilities if there is a sale, assignment, or other transfer of the servicing of a student education loan.
4. Maintaining and making available to the office records related to student education loan transactions.

The bill also prohibits a student loan servicer from engaging in certain conduct or activity, including the following:

1. Defrauding or misleading a student loan borrower.
2. Engaging in an unfair or deceptive practice or misrepresenting or omitting material information in connection with the servicing of a student education loan.
4. Providing inaccurate information to a credit bureau related to a student loan borrower’s creditworthiness.
5. Refusing to communicate with an authorized representative of a student loan borrower.
6. Failing to evaluate a student loan borrower for an income-based repayment program prior to placing the student loan borrower in default.

The bill also specifies the authority of the office to conduct investigations and examinations and take administrative action and also provides a private right of action for violations of the requirements or prohibitions under the bill.

The bill requires the office to perform certain functions, including 1) assisting student loan borrowers; 2) receiving and attempting to resolve complaints from student loan borrowers and others; 3) compiling and analyzing data about these complaints; 4) assisting student loan borrowers in various ways; 5) providing information to the public and others regarding the problems and concerns of student loan borrowers; and 6) analyzing and monitoring the development and implementation of laws and policies relating to student loan borrowers.

Although the bill exempts certain state-regulated financial service providers, primarily state-chartered financial institutions, from licensing and most other requirements applicable to student loan servicers, the bill requires these exempt organizations to cooperate with the office and provide information requested by the office necessary to investigate and resolve student loan borrower complaints.

Technical college district revenue limits

The bill increases the limit on certain revenue, primarily derived from the property tax levy, that technical college districts may generate.
SENATE BILL 111

Under current law, with certain exceptions, a technical college district board may not increase its revenue each school year by more than the greater of 1) 0 percent, or 2) the percentage change in the district’s equalized value due to new construction, less improvements removed, between the previous year and the current year. The amount of this limit is called the “valuation factor.” A district board’s revenue is the sum of its tax levy for operations and the amount of aid it receives for property tax relief and tax–exempt personal property.

The bill increases part 1) of the valuation factor from 0 percent to 2 percent, allowing an increase of a district board’s revenue by 2 percent over the previous year regardless of any change in the district’s equalized value due to net new construction.

Changes to Minnesota-Wisconsin Reciprocity Agreement

Under current law, the Higher Educational Aids Board (HEAB) administers and has authority to renegotiate the Minnesota–Wisconsin tuition reciprocity agreement. The agreement provides for the waiver of nonresident tuition for residents of either state who are enrolled in public vocational schools and for a reciprocal fee structure for residents of either state who are enrolled in public institutions of higher education located in the other state.

The bill requires the UW System to enter into, administer, and renegotiate with Minnesota a tuition reciprocity agreement that provides for the waiver of nonresident tuition and for a reciprocal fee structure for residents of either state who are enrolled in public institutions of higher education located in the other state. The bill requires that all the tuition paid by Minnesota students attending UW institutions under the agreement, including tuition commonly referred to as differential reciprocity tuition, be credited to a UW System appropriation account from which UW System expenditures are authorized.

The bill also requires HEAB to enter into, administer, and renegotiate with Minnesota a fee reciprocity agreement that provides for the waiver of nonresident fees for residents of either state who are enrolled in public vocational schools in the other state.

Extensions of credit to the UW System

The bill allows the Board of Regents to obtain extensions of credit to provide short-term funding for expenses associated with athletics or educational programs and related programs. The board may pledge as collateral for an extension of credit revenues generated as a result of the operation of UW athletic programs, as well as collateral furnished by a third party. Proceeds from an extension of credit may not be used to pay for certain expenses, including those associated with the construction, improvement, or maintenance of buildings, structures, or facilities.

UniverCity Alliance program

The bill creates an appropriation funding the “UniverCity Alliance” program within the UW–Madison. The UniverCity Alliance program connects in partnership communities, towns, cities, and counties with UW–Madison education, service, and research activities in order to address the communities’ biggest local challenges.
Baccalaureate degree program for prisoners

The bill requires the UW System and DOC to provide a baccalaureate degree program for prisoners. Prior to expending any funds appropriated, the UW System and DOC shall jointly submit a plan for implementing the program to DOA for approval.

Nurse educators loan forgiveness and fellowship program

The bill requires the Board of Regents to establish a program that provides 1) fellowships to students who enroll in certain doctoral nursing degree programs; 2) postdoctoral fellowships to recruit faculty for UW System nursing programs; and 3) educational loan repayment assistance to recruit and retain faculty for UW System nursing programs. In addition, the program must require individuals who receive a fellowship or educational loan repayment assistance under the program to make a three-year commitment to teaching in a UW System nursing program.

Dentist loan assistance program

The bill permits dentists who agree to practice in rural areas under an educational loan repayment assistance program to receive the same amount of assistance as physicians. The Board of Regents administers the program. Under current law, a dentist or physician who agrees to practice at least 32 clinic hours per week for three years in either a free or charitable clinic, or in an area with a shortage of dental or primary care professionals may receive up to $50,000 in assistance under the program. A physician who agrees to practice for the same duration in a rural area may receive up to $100,000 in assistance under the program. A dentist who agrees to practice for the same duration in a rural area may receive up to $50,000 in assistance under the program. The bill permits dentists who agree to practice for the same duration in rural areas to receive up to $100,000 in assistance under the program.

Nonresident tuition exemption for undocumented individuals

The bill creates a nonresident tuition exemption for certain technical college and UW System students. Current law allows the Board of Regents to charge different tuition rates to resident and nonresident students. Current law also includes nonresident tuition exemptions, under which certain nonresident students pay resident tuition rates. The bill creates an additional exemption for an individual who is not a citizen of the United States and who 1) graduated from a Wisconsin high school or received a declaration of equivalency of high school graduation from Wisconsin; 2) was continuously present in Wisconsin for at least three years following the first day of attending a Wisconsin high school or immediately preceding receipt of a declaration of equivalency of high school graduation; and 3) enrolls in a UW System institution and provides the institution with proof stating that he or she has filed or will file an application for lawful permanent resident status with U.S. Citizenship and Immigration Services as soon as the individual is eligible to do so.

The bill also provides that an individual described above is considered a resident of this state for purposes of admission to and payment of fees at a technical college.
SENATE BILL 111

State residency of relocated active duty service members and their families

The bill establishes guidance for determining state residency of relocated active duty service members and their spouses and dependents for purposes of resident tuition eligibility at UW System institutions and technical colleges.

Under current law, UW System institutions must charge a student nonresident tuition unless the student has been a bona fide resident of this state for at least 12 months prior to registering at the UW institution or the student otherwise qualifies under another exemption to nonresident tuition. In determining bona fide residence, the intent of a person to establish and maintain a permanent home in Wisconsin is determinative, and this intent may be represented by such factors as tax return filings, voter or vehicle registration, employment, and physical presence. However, a student who enters and remains in Wisconsin principally to obtain an education is presumed to continue to reside outside Wisconsin. Under one nonresident tuition exemption, a student is eligible for resident tuition if the student is a member of the armed forces who resides in this state and is stationed at a federal military installation located within 90 miles of the borders of this state or the student is the child or spouse of such a service member.

Also under current law, the TCS Board must establish procedures to determine the residence of students attending technical colleges for purposes of fees and admission, although certain persons are by statute considered Wisconsin residents for these purposes.

Under the bill, for purposes of determining Wisconsin residency at UW System institutions and technical colleges, an active duty member of the armed forces who has been relocated from Wisconsin and stationed on active duty in another state (relocated service member), and the service member’s spouse and dependents, are considered residents of this state during this period of relocation if they demonstrate, under the factors described above, that they are bona fide residents during this relocation period. In addition, if such a demonstration is made, the relocated service member’s dependents continue to be considered residents of this state after the relocation period has ended.

Nonresident tuition exemption for certain tribal members

The bill allows certain students who are members of, or whose parents or grandparents are members of, a federally recognized American Indian tribe and who are otherwise ineligible for resident tuition at UW System institutions and technical colleges to qualify for resident tuition.

Under current law, a person generally must be a resident of this state for at least 12 months prior to registering at a UW System institution in order to be exempt from paying nonresident tuition. Current law also includes nonresident tuition exemptions, under which certain nonresident students pay resident tuition rates.

Also under current law, the TCS Board establishes program fees that the technical college districts must charge students. With exceptions, the fees for nonresidents are 150 percent of the fees for residents. The TCS Board must establish procedures to determine the residence of students attending technical colleges, but statutes specify that certain students must be considered residents of this state.
SENATE BILL 111

The bill creates a nonresident tuition exemption for certain tribal members or children or grandchildren of tribal members. Under the bill, a student enrolled in a UW System institution or technical college qualifies for resident tuition or fee rates if all of the following apply:

1. The student, or the student’s parent or grandparent, is a member of a federally recognized American Indian tribe or band in Wisconsin or is a member of a federally recognized tribe in a state contiguous with Wisconsin.
2. The student has resided in Wisconsin, Minnesota, Illinois, Iowa, or Michigan, or in any combination of these states, for at least 12 months prior to enrolling in a UW System institution or technical college.

Office of Educational Opportunity

The bill eliminates the OEO in the UW System. Under current law, the OEO authorizes and monitors charter schools, and the OEO is managed by a director appointed by the president of the UW System. After the effective date of the bill, the former OEO’s monitoring duties related to existing charter schools are transferred to the chancellor of UW-Madison, but the chancellor may not authorize new charter schools.

Investment of certain UW System moneys by the Investment Board

The bill allows the Board of Regents to designate UW System revenues and to manage those designated revenues by directing the State of Wisconsin Investment Board (SWIB) to invest these moneys according to investment policies established by the Board of Regents.

Current law specifies that SWIB has control of the investment of certain state moneys, including those in the general fund. SWIB manages the State Investment Fund (SIF), which operates as an investment trust for managing certain state moneys. Current law prescribes the types of permissible investments that SWIB can make with SIF assets. The SIF functions as a cash management fund under which idle cash balances are pooled and invested in liquid, low-risk investments until these moneys are needed.

Also under current law, the Board of Regents may invest revenues from gifts, grants, and donations by doing any of the following: 1) directly employing a financial manager; 2) selecting a private investment firm using a competitive proposal process; or 3) contracting with SWIB to manage the investment of these moneys. If the Board of Regents invests these moneys in this manner, the moneys are not required to be deposited in the SIF. If the Board of Regents contracts with SWIB to invest these moneys under item 3 above instead of managing these moneys in the SIF, SWIB must invest the moneys in accordance with the terms of its contract with the Board of Regents and SWIB’s general standard of investment prudence.

Under the bill, if the Board of Regents has designated moneys to be managed by SWIB under investment policies established by the Board of Regents, SWIB must invest and manage these moneys in accordance with the investment directives and policies of the Board of Regents. However, SWIB remains subject to its general standard of investment prudence and SWIB may decline to follow any investment directive or policy that SWIB considers to involve unreasonable risk or to be in
violation of this standard of investment prudence. SWIB invests these moneys outside the SIF.

**UW foster youth support programs**

The bill provides funding to establish or maintain support programs at UW institutions for students who formerly resided in a foster home or group home. Support programs may offer these students scholarships, jobs, emergency funds, basic supplies, mentorships, career planning, and other forms of support.

**UW System student health services**

The bill provides funding to the UW System for additional or improved student health services related to mental and behavioral health.

**UW freshwater collaborative**

The bill provides funding for a UW freshwater collaborative involving each UW institution. Freshwater collaborative funding shall be used to devise new watercentric training programs focused on undergraduates; provide scholarships and student support to retain and attract new talent; amplify marketing and recruiting relating to Wisconsin's role in freshwater science; enhance workforce development programming; and recruit new faculty and staff to advance training programs, research, and innovation.

**Partnership program for the Lake Superior Research Institute**

The bill requires the Board of Regents to establish a partnership program between UW–Superior's Lake Superior Research Institute and northern Wisconsin communities. The program must be designed to accomplish specified objectives. The bill creates an appropriation to provide funding for the program.

**Extension services provided by UW state specialists**

The bill requires the Board of Regents to recognize as teaching hours time spent by state specialists providing certain extension services.

Under current law, the Board of Regents must develop and implement a plan that includes 1) policies for monitoring teaching workloads of faculty and instructional academic staff, including requirements for reporting the number of hours each spends teaching; and 2) policies for rewarding faculty and instructional academic staff who teach more than a standard academic load. These teaching hours reported are included, as aggregate data, in an accountability report submitted to the governor and legislature and are included, as aggregate data or individually reported data, directly or by link on the accountability dashboard portion of the UW System's website.

The bill requires the Board of Regents' plan to recognize as teaching hours, for state specialists who provide extension services in the field of applied agricultural research at UW institutions, the time spent by these state specialists teaching graduate students and teaching Wisconsin farmers.

**Agriculture-focused positions at UW-Madison**

The bill specifies that the Board of Regents must provide funding for 20 agriculture-focused positions at UW-Madison, comprised of 15 county-based agriculture agent positions, three applied agricultural research positions, and two agriculture and climate change research positions. The positions must be filled
SENATE BILL 111

using existing, currently vacant positions but must also reflect an increase in the total number of agricultural agent positions and agriculture-related research positions at UW-Madison. The bill also requires UW-Madison to submit a report to the governor and to JCF containing specified information related to these positions.

**UW Missing-in-Action Recovery and Identification Project**

Under the bill, the Board of Regents must provide funding to the UW Missing-in-Action Recovery and Identification Project (MIA Recovery Project) for missions to recover and identify Wisconsin veterans who are missing in action. At the conclusion of the mission for which funding is provided, the MIA Recovery Project must submit to the Board of Regents, JCF, each legislative standing committee dealing with veterans matters, the governor, DVA, and DMA a report on the mission's findings and an accounting of expenditures for the mission. The Board of Regents must provide the funding through a new UW System appropriation.

**HEAB service funds appropriation**

The bill creates a program revenue-service appropriation for HEAB. The appropriation authorizes HEAB to expend money that HEAB receives from other state agencies to carry out the purpose for which the money is received.

**ELECTIONS**

**Automatic voter registration**

The bill requires the Elections Commission to use all feasible means to facilitate the registration of all individuals eligible to vote in this state and to maintain the registration of all eligible electors for so long as they remain eligible. Under the bill, the commission must attempt to facilitate the initial registration of all eligible electors as soon as practicable. To facilitate that initial registration, the bill directs the commission and DOT to enter into an agreement so that DOT may transfer specified personally identifying information in DOT's records to the commission. The bill requires the commission to maintain the confidentiality of any information it obtains under the agreement and allows a driver’s license or identification card applicant to opt out of DOT’s transfer of this information to the commission.

Once the commission obtains the information required under current law to complete an eligible elector’s registration, the commission adds the elector’s name to the statewide registration list. The bill also permits an individual whose name is added to the registration list or who wishes to permanently exclude his or her name from the list to file a request to have his or her name deleted or excluded from the list or to revoke a deletion or exclusion request previously made. In addition, the bill directs the commission to notify an individual by first class postcard whenever the commission removes his or her name from the registration list or changes his or her status on the list from eligible to ineligible.

The bill also directs the commission to report to the legislature and the governor, no later than July 1, 2023, its progress in initially registering eligible electors under the bill. The report must contain an assessment of the feasibility and desirability of integration of registration information with information maintained by DHS, DCF, DWD, DOR, DSPS, and DNR; the UW System; and the Technical
SENATE BILL 111

College System Board, as well as with the technical colleges in each technical college district.

Under current law, a qualified elector with a current and valid driver’s license or identification card issued by DOT may register to vote electronically on a secure website maintained by the commission. To register electronically under current law, a qualified elector must also authorize DOT to forward a copy of his or her electronic signature to the commission. The authorization affirms that all information provided by the elector is correct and has the same effect as a written signature on a paper copy of the registration form. Finally, current law requires the commission and DOT to enter into an agreement that permits the commission to verify the necessary registration information instantly by accessing DOT’s electronic files.

Residency requirement for voting

Under current law, with limited exceptions, an otherwise eligible voter must be a resident of Wisconsin and of the municipality and ward, if any, where the voter is voting for 28 days before an election in order to vote in the election in that municipality and ward. The bill shortens that residency requirement from 28 days to 10 days.

Proof of identification for voting

Current law allows an individual to use as voter identification an unexpired identification card issued by a technical college, college, or university in this state if the card meets certain criteria. The card must have an expiration date that is no later than two years after the date it was issued, and the individual must establish proof of enrollment. The U.S. Court of Appeals for the Seventh Circuit held that the requirement to present both an unexpired identification card and proof of enrollment had no rational basis and was therefore unconstitutional. See, *Luft v. Evers*, 963 F.3d 665 (2020). The bill allows a student to use an expired student identification card under certain circumstances. Under the bill, a student does not need to present proof of enrollment if using an unexpired identification card but must provide proof of enrollment if using an expired identification card. In addition, the bill requires each technical college in this state and each UW System institution to issue student identification cards that meet the criteria to be used as voter identification no later than August 1, 2021.

Current law also allows an individual to use as voter identification an identification card issued by DOT. DOT may issue a receipt as a temporary identification card to use for voting and other purposes to an individual who is waiting for the permanent card. The receipt expires in 60 days. The bill extends the expiration date to 180 days.

Voting absentee in person

Current law allows an individual to complete an absentee ballot in person no earlier than 14 days preceding the election and no later than the Sunday preceding the election. The bill eliminates the restriction on how soon a person may complete an absentee ballot in person and provides that a person must complete such a ballot no later than 7 p.m. on the Friday preceding the election.
Early canvassing of absentee ballots

Under current law, absentee ballots may not be canvassed until election day. The bill authorizes a municipal clerk or municipal board of election commissioners to begin the canvassing of absentee ballots on the day before an election, subject to the following requirements:

1. The municipality must use automatic tabulating equipment to process absentee ballots.
2. Prior to the early canvassing of absentee ballots, the municipal clerk or municipal board of election commissioners must notify the Elections Commission in writing and must consult with the Elections Commission concerning administration of early canvassing of absentee ballots.
3. Early canvassing of absentee ballots under the bill may be conducted only between 7 a.m. and 8 p.m. on the day before the election, and ballots may not be tallied until after polls close on election day.
4. Members of the public must have the same right of access to a place where absentee ballots are being canvassed early as is provided under current law for canvassing absentee ballots on election day.
5. When not in use, automatic tabulating equipment used for canvassing absentee ballots and the areas where the programmed media and the absentee ballots are housed must be secured with tamper-evident security seals in a double-lock location such as a locked cabinet inside a locked office.
6. Subject to criminal penalty, no person may act in any manner that would give him or her the ability to know or to provide information on the accumulating or final results from the ballots canvassed early under the bill before the close of the polls on election day.
7. Certain notices must be provided before each election at which the municipality intends to canvass absentee ballots on the day before the election.

Special elections to fill vacancies in the office of U.S. senator and representative in Congress

Under current law, a vacancy in the office of U.S. senator or representative in Congress occurring prior to the second Tuesday in April in the year of the general election must be filled at a special primary and special election. A vacancy occurring in one of these offices between the second Tuesday in April and the second Tuesday in May in the year of the general election is filled at the partisan primary and general election.

Current law provides that a special primary be held four weeks before the day of the special election. However, if the election is held on the same day as the spring election, the special primary is held concurrently with the spring primary. Under current law, with regard to an election for a national office, the period between a special primary and special election or between the spring primary or spring election does not provide sufficient time to canvass and certify the primary results and prepare ballots to send to overseas voters as required by federal law.

Under the bill, a vacancy in the office of U.S. senator or representative in Congress is filled in the following manner:
SENATE BILL 111

1. At a special election to be held on the third Tuesday in May following the first day of the vacancy with a special primary to be held concurrently with the spring primary on the third Tuesday in February.

2. At a special election to be held on the second Tuesday in August following the first day of the vacancy with a special primary to be held on the third Tuesday in May.

3. At a special election to be held on the Tuesday after the first Monday in November following the first day of the vacancy with a special primary to be held on the second Tuesday in August.

However, under the bill, a November special election is not held in any year in which the general election is held for that office; instead, the vacancy is filled at the partisan primary and general election.

Reimbursement of counties and municipalities for certain election costs

The bill requires the Elections Commission to reimburse counties and municipalities for certain costs incurred in the administration of special primaries and special elections for state or national office. A cost is eligible for reimbursement only if certain conditions are met, including that the commission determines the cost is reasonable and the rate paid by the county or municipality for the cost does not exceed the rate customarily paid for similar costs at a primary or election that is not a special primary or election. Under the bill, only the following costs may be reimbursed:

1. Rental payments for polling places.
2. Election day wages paid to election officials working at the polls.
3. Costs for the publication of required election notices.
4. Printing and postage costs for absentee ballots and envelopes.
5. Costs for the design and printing of ballots and poll books.
6. Purchase of ballot bags or containers, including ties or seals for chain of custody purposes.
7. Costs to program electronic voting machines.
9. Wages paid to conduct a county canvass.
10. Data entry costs for the statewide voter registration system.

Voter bill of rights

The bill creates a voter bill of rights that municipal clerks and boards of election commissioners must post at each polling place. The bill of rights informs voters that they have the right to do all of the following:

1. Vote if registered and eligible to vote.
2. Inspect a sample ballot before voting.
3. Cast a ballot if in line when the polling place closes or, if voting by in-person absentee ballot on the last day for which such voting is allowed, when the municipal clerk’s office closes.
4. Cast a secret ballot.
5. Get help casting a ballot if disabled.
6. Get help voting in a language other than English as provided by law.
SENATE BILL 111

7. Get a new ballot, up to three ballots in all, if the voter makes a mistake on the ballot.
8. Cast a provisional ballot as provided by law.
9. Have the voter’s ballot counted accurately.
10. Vote free from coercion or intimidation.
11. Report any illegal or fraudulent election activity.

Recount fees

Current law requires the Elections Commission to reimburse the counties for the actual costs of conducting a recount. The reimbursement comes from the fees that the commission collects from the person that filed the recount petition. The bill changes the appropriation for reimbursing the counties from an annual appropriation to a continuing appropriation.

Voter registration list

Under current law, all moneys received from the federal government under the Help America Vote Act and from the sale of copies of the official statewide voter registration list are deposited into the election administration trust fund. Copies of the list are typically used for political purposes such as voter or constituent outreach. The Elections Commission spent all HAVA moneys from the fund as of April 2019. However, the moneys received from sales of the registration list have not been appropriated and, therefore, cannot be spent. The bill creates an appropriation for the moneys received from selling the registration list and authorizes the commission to spend the moneys for election security and maintenance of the statewide voter registration system.

Lobbying fees

Under current law, a person who employs a lobbyist (a principal) and who spends more than $500 in a calendar year on lobbying activities must file a principal registration form with the Ethics Commission and pay a fee. In addition, in order for a lobbyist to represent a principal, either the lobbyist or the principal must file an authorization statement with the commission and pay a fee.

The bill increases the principal registration fee from $375 to $430 and the authorization statement fee from $125 to $180. The increase first applies to lobbying that occurs during the 2023-24 legislative session.

The bill also imposes a $55 surcharge applicable to lobbying during the 2021-22 legislative session that is in addition to the fees collected for filing the principal registration form and the authorization statement.

EMINENT DOMAIN

Condemnation authority for recreational trails, bicycle lanes and ways, and pedestrian ways

The bill allows certain entities, such as a county board, village board, or DOT, to use the power of condemnation to acquire land or interests in land for the purpose of establishing or extending recreational trails, bicycle ways or lanes, or pedestrian ways. Current law prohibits the exercise of condemnation power to acquire land or interests for those purposes.
Minimum wage

The bill raises the minimum wages to be paid to most employees annually, from the effective date of the bill through January 1, 2025. After that date, the bill requires DWD to determine the percentage difference between the consumer price index for the preceding 12-month period and the consumer price index for the 12 months before the preceding 12-month period, to adjust the minimum wages then in effect by that percentage difference, and to publish those amounts in the Wisconsin Administrative Register and on the DWD website.

The bill requires the secretary of workforce development to establish a committee to study options to achieve a $15 per hour minimum wage and other options to increase compensation for workers in this state. Under the bill, the committee consists of nine members, with five appointed by the governor, and one each appointed by the speaker of the assembly, the assembly minority leader, the senate majority leader, and the senate minority leader. The committee is required to submit a report containing its recommendations for options to achieve a $15 per hour minimum wage and other options to increase compensation to the governor and the appropriate standing committees of the legislature no later than October 1, 2022.

Collective bargaining for state and local employees; employee rights

Under current law, state and local governments are prohibited from collectively bargaining with employees except as expressly provided in the statutes. Current law allows certain protective occupation participants under the Wisconsin Retirement System, known as public safety employees, and certain municipal transit employees to collectively bargain over wages, hours, and conditions of employment. Under current law, other state and municipal employees may collectively bargain only over a percentage increase in base wages that does not exceed the percentage increase in the consumer price index. In addition, under current law, the Employment Relations Commission assigns employees to collective bargaining units, but current law requires that public safety employees and municipal transit employees be placed in separate collective bargaining units.

The bill adds frontline workers to the groups that may collectively bargain over wages, hours, and conditions of employment. In the bill, “frontline workers” are state or municipal employees with regular job duties that include interacting with members of the public or with large populations of people or that directly involve the maintenance of public works. Under the bill, ERC determines which state and municipal employees meet the criteria. Also, the bill allows ERC to place in the same collective bargaining unit both frontline workers and employees that are not frontline workers. If ERC places employees of both types in a collective bargaining unit, the entire collective bargaining unit is treated as if all members are frontline workers and all members may collectively bargain over wages, hours, and conditions of employment.

Under current law, state or municipal employees in a collective bargaining unit elect their representative. The representative for a unit containing public safety
employees or transit employees requires the support of the majority of the employees who are voting in the election, and the representative for a unit containing other employees requires the support of the majority of all of the employees who are in the collective bargaining unit. Under the bill, the representative for any collective bargaining unit containing any state or municipal employees requires the support of the majority of the employees who are voting in the election regardless of the number of employees who are in the collective bargaining unit.

Under current law, ERC must conduct an annual election to certify each representative of a collective bargaining unit representing state or municipal employees who are not public safety employees or transit employees. At the election, if a representative fails to receive at least 51 percent of the votes of all of the members of the collective bargaining unit, the representative is decertified and the employees are unrepresented. The bill eliminates this annual recertification process.

The bill requires state and municipal employers to consult about wages, hours, and conditions of employment with their employees who are not public safety employees, transit employees, or frontline workers. The employers must consult when policy changes that affect wages, hours, or conditions are proposed or implemented or, in the absence of policy changes, at least quarterly.

The bill adds that employees of authorities, such as the University of Wisconsin Hospitals and Clinics Authority, WHEDA, and WEDC, may collectively bargain as state employees.

**Right-to-work law**

The current right-to-work law prohibits a person from requiring, as a condition of obtaining or continuing employment, an individual to refrain or resign from membership in a labor organization, to become or remain a member of a labor organization, to pay dues or other charges to a labor organization, or to pay any other person an amount that is in place of dues or charges required of members of a labor organization. The bill repeals these prohibitions and the associated misdemeanor offense for violating the right-to-work law.

The bill explicitly provides that, when an all-union agreement is in effect, it is not an unfair labor practice to encourage or discourage membership in a labor organization or to deduct labor organization dues or assessment from an employee’s earnings. The bill sets conditions under which an employer may enter in an all-union agreement. The bill also sets conditions for the continuation or termination of all-union agreements, including that, if ERC determines there is reasonable ground to believe employees in an all-union agreement have changed their attitude about the agreement, ERC is required to conduct a referendum to determine whether the employees wish to continue the agreement. ERC is required to terminate an all-union agreement if it finds the union unreasonably refused to admit an employee into the union.

**Prevailing wage**

The bill requires that laborers, workers, mechanics, and truck drivers employed on the site of certain projects of public works be paid the prevailing wage and not be required or allowed to work a greater number of hours per day and per week than the prevailing hours of labor unless they are paid overtime for all hours
worked in excess of the prevailing hours of labor. Projects subject to the bill include state and local projects of public works, including state highway projects, with exceptions including projects below certain cost thresholds, minor service or maintenance work, and certain residential projects. Under the bill, “prevailing wage rate” is defined as the hourly basic rate of pay, plus the hourly contribution for bona fide economic benefits, paid for a majority of the hours worked in a trade or occupation in the area in which the project is located, except that, if there is no rate at which a majority of those hours is paid, “prevailing wage rate” means the average hourly basic rate of pay, plus the average hourly contribution for bona fide economic benefits, paid for the highest-paid 51 percent of hours worked in a trade or occupation in the area. “Prevailing hours of labor” is defined as 10 hours per day and 40 hours per week, excluding weekends and holidays. The bill requires DWD to conduct investigations and hold public hearings as necessary to define the trades or occupations that are commonly employed on projects that are subject to the prevailing wage law and to inform itself of the prevailing wage rates in all areas of the state for those trades or occupations, in order to determine the prevailing wage rate for each trade or occupation. The bill contains certain other provisions regarding the calculation of prevailing wage rates by DWD, including provisions allowing persons to request recalculations or reviews of the prevailing wage rates determined by DWD.

The bill requires contracts and notices for bids for projects subject to the bill to include and incorporate provisions ensuring compliance with the requirements. The bill also establishes a requirement that state agencies and local governments post prevailing wage rates and hours of labor in areas readily accessible to persons employed on the project or in sites regularly used for posting notices.

The bill makes a contractor that fails to pay the prevailing wage rate or overtime pay to an employee, as required under the prevailing wage law, liable to the affected employee for not only the amount of unpaid wages and overtime pay, but also for liquidated damages in an amount equal to 100 percent of the unpaid wages and overtime pay.

The bill includes, for both state and local projects of public works, provisions regarding coverage, compliance, enforcement, and penalties, including 1) requirements for affidavits to be filed by contractors affirming compliance with the prevailing wage law; 2) record retention requirements for contractors regarding wages paid to workers and provisions allowing for the inspection of those records by DWD; 3) liability and penalty provisions for certain violations, including criminal penalties; and 4) provisions prohibiting contracts from being awarded to persons who have failed to comply with the prevailing wage law.

**Family and medical leave**

Under the current family and medical leave law, an employer that employs at least 50 individuals on a permanent basis must permit an employee who has been employed by the employer for more than 52 consecutive weeks and who has worked for the employer for at least 1,000 hours during the preceding 52 weeks to take family leave to care for a child, spouse, domestic partner, or parent of the employee who has a serious health condition. An employer covered by the law must also permit an
Senate Bill 111

Employee to take up to two weeks of medical leave in a 12-month period when the employee has a serious health condition. An employee may file a complaint with DWD regarding an alleged violation of the family and medical leave law within 30 days after either the violation occurs or the employee should reasonably have known that the violation occurred, whichever is later.

The bill makes the following changes to the family and medical leave law:

1. Requires employers that employ 25 or more employees on a permanent basis to comply with the family and medical leave law.

2. Decreases the number of hours an employee is required to work before qualifying for family and medical leave to 680 hours during the preceding 52 weeks.

3. Extends the time period in which an employee may file a complaint with DWD to 300 days after either the violation occurs or the employee should reasonably have known that the violation occurred, whichever is later.

4. Requires employers covered under the law to permit employees to take family leave to provide care for a grandparent, grandchild, or sibling who has a serious health condition.

5. Removes the age restriction from the definition of “child” for various purposes under the family and medical leave law.

6. Requires employers to permit employees to take family leave to care for the employee’s child, spouse, domestic partner, parent, grandparent, grandchild, or sibling who is in medical isolation and requires employers to permit employees to take medical leave when the employee is in medical isolation. The bill defines “medical isolation” to include when a local health officer or DHS advises that an individual isolate or quarantine; when a health care professional, a local health officer, or DHS advises that the individual seclude herself or himself when awaiting the result of a diagnostic test for a communicable disease or when the individual is infected with a communicable disease; and when an individual’s employer advises that an individual not come to the workplace due to a concern that the individual may have been exposed to or infected with a communicable disease.

7. Requires employers to permit employees to take family leave in the instance of the unexpected closure of the child care provider or school that the employee’s child, grandchild, or sibling attends or because of a qualifying exigency as to be determined by DWD related to covered active duty, as defined in the bill, or notification of an impending call or order to covered active duty of a child, spouse, domestic partner, parent, grandparent, grandchild, or sibling who is a member of the U.S. armed forces.

8. Requires employers to permit employees to take family leave to provide caregiving services to a child, spouse, domestic partner, sibling, parent, grandparent, or grandchild of the employee if the child, spouse, domestic partner, sibling, parent, grandparent, or grandchild suffers from a chronic condition. The bill defines “chronic condition” as a health condition, illness, impairment, or physical or mental condition that involves any of the following: 1) a condition or disease that is persistent or otherwise long-lasting in its effects; 2) a condition or disease that lasts for at least three months; 3) a condition or disease that requires the individual to have assistance with one or more essential daily activities; or 4) outpatient care that
requires continuing treatment or supervision by a health care provider. The bill also includes adult children who suffer from a chronic condition in the definition of "child" for the purposes of taking family leave for caregiving.

**Small Business Retirement Savings Board; retirement savings program**

The bill creates a Small Business Retirement Savings Board attached to DFI and requires the board to establish and oversee a small business retirement savings program for certain privately employed individuals who are not eligible for an employer-sponsored retirement plan. The board must contract with a vendor (investment administrator) to provide specified services in administering the program, including investment services and record-keeping services.

Under the bill, the board consists of the following nine members: the state treasurer or his or her designee; the secretary of financial institutions or his or her designee; two members appointed by the governor; two members appointed, respectively, by the speaker of the assembly and president of the senate; one member appointed by the state treasurer; one member appointed by the State of Wisconsin Investment Board; and one member appointed by the other members. The bill requires certain members to possess specified attributes or experience, and all members except the state treasurer and secretary of financial institutions, or their designees, serve four-year terms.

Under the bill, the board must design the program to meet certain requirements. Among these, the program must allow eligible employees to contribute to their accounts through payroll deductions and require participating employers to withhold from employees' wages, through payroll deductions, employees' account contributions and remit those contributions directly to the investment administrator. A "participating employer" is a private employer that does not offer a retirement savings plan to all employees; has at least one employee who is a resident of this state; provides notice to the board of its election to participate in the program; and certifies that, on the date of this notice, it had 50 or fewer employees. An "eligible employee" is an individual who resides in this state and who is employed by a private employer that does not offer a retirement savings plan in which the individual may participate. The bill defines "account" as a retirement savings account established for an eligible employee under the program. Other requirements of the program are that the administrative costs must be low and the fee that the investment administrator may charge an eligible employee is limited to a fixed monthly fee in an amount approved by the board. The program must also allow an eligible employee who has established an account to continue the account after separating from employment with a participating employer if the account is maintained with a positive balance.

Under the bill, after electing to participate in the program, a participating employer must provide notice to each of its eligible employees of the eligible employee's right to opt out of the program. Unless the eligible employee opts out, the participating employer must enroll the eligible employee in the program and begin making payroll deductions, the amounts of which are remitted to the investment administrator as account contributions of the employee. Unless a different account type is offered and the employee selects another option, these contributions are made
SENATE BILL 111

to a Roth IRA for the employee. Unless the employee directs otherwise, during the
directive otherwise, during the first year of enrollment in the program, the participating employer must
make a payroll deduction each pay period at a rate of 5 percent of the employee’s gross
wages, with this rate increasing by 1 percent per year until a maximum rate of 10
percent is reached. Under the program, the eligible employee must have certain
investment options within each account type, including a stable value or capital
preservation fund and a target date index fund or age-based fund. An eligible
employee’s first $1,000 of contributions must be deposited in a stable value or capital
preservation fund, and thereafter, unless the employee selects a different
investment option, the employee’s contributions must be deposited in a target date
index fund or age-based fund.

The bill specifies that, in establishing the program, the board may create or
impose any requirement or condition not inconsistent with the bill’s requirements
that the board considers necessary for the effective functioning and widespread
utilization of the program. The bill also authorizes the board to enter into contracts
for services necessary for establishing and overseeing the program, including
services of financial institutions, attorneys, investment advisers, accountants,
consultants, and other professionals. The board may promulgate rules related to the
program. DFI must provide the board with assistance necessary for the program,
including staff, equipment, and office space. The board may delegate to DFI
responsibility for carrying out any day-to-day board function related to the
program.

Employment discrimination based on conviction record

The bill provides that it is employment discrimination because of conviction
record for a prospective employer to request conviction information from a job
applicant before the applicant has been selected for an interview. The bill, however,
does not prohibit an employer from notifying job applicants that an individual with
a particular conviction record may be disqualified by law or under the employer’s
policies from employment in particular positions.

Employment discrimination based on gender expression and gender identity

Current law prohibits discrimination in employment on the basis of a person’s
sex or sexual orientation. The bill prohibits employers from discriminating against
an employee on the basis of the employee’s gender identity or gender expression.
“Gender expression” is defined in the bill as an individual’s actual or perceived
gender-related appearance, behavior, or expression, regardless of whether these
traits are stereotypically associated with the individual’s assigned sex at birth.
“Gender identity” is defined in the bill as an individual’s internal understanding of the
individual’s gender, or the individual’s perceived gender identity.

Civil actions regarding employment discrimination

Under current fair employment law, an individual who alleges that an
employer has violated employment discrimination, unfair honesty testing, or unfair
genetic testing laws may file a complaint with DWD seeking action that will
effectuate the purpose of the fair employment law, including reinstating the
individual, providing back pay, and paying costs and attorney fees.
SENATE BILL 111

The bill permits DWD or an individual who is alleged or was found to have been discriminated against or subjected to unfair honesty or genetic testing to bring an action in circuit court to recover compensatory and punitive damages caused by the act of discrimination, unfair honesty testing, or unfair genetic testing, in addition to or in lieu of filing an administrative complaint. The action in circuit court must be commenced within 300 days after the alleged discrimination, unfair honesty testing, or unfair genetic testing occurred. The bill does not allow such an action for damages to be brought against a local governmental unit or against an employer that employs fewer than 15 individuals.

Under the bill, if the circuit court finds that a defendant has committed employment discrimination, unfair honesty testing, or unfair genetic testing, the circuit court may award back pay and any other relief that could have been awarded in an administrative proceeding. In addition, the circuit court must order the defendant to pay to the individual found to have been discriminated against or found to have received unfair genetic testing or unfair honesty testing compensatory and punitive damages in the amount that the circuit court finds appropriate, except that the total amount of damages awarded for future economic losses and for pain and suffering, emotional distress, mental anguish, loss of enjoyment of life, and other noneconomic losses and punitive damages is subject to the following limitations:

1. If the defendant employs 100 or fewer employees, no more than $50,000.
2. If the defendant employs more than 100 but fewer than 201 employees, no more than $100,000.
3. If the defendant employs more than 200 but fewer than 501 employees, no more than $200,000.
4. If the defendant employs more than 500 employees, no more than $300,000.

The bill requires DWD to annually revise these amounts on the basis of the change in the consumer price index in the previous year, if any positive change has occurred.

Worker classification notices and information

The bill requires DWD to design and make available to employers a notice regarding worker classification laws, requirements for employers and employees, and penalties for noncompliance. Under the bill, all employers in this state must post the notice in a conspicuous place where notices to employees are customarily posted. The bill provides a penalty of not more than $100 for an employer that does not post the notice as required. DWD must also establish and maintain on DWD's website information regarding worker classification laws, requirements for employers and employees, penalties for noncompliance, and contact information at each state agency that administers worker classification laws.

Substance abuse prevention; employer registration

With certain exceptions, current law prohibits employees from using, possessing, attempting to possess, distributing, delivering, or being under the influence of a drug, or from using or being under the influence of alcohol, while performing certain work on a project of public works or public utility project, and requires that, before an employer may commence work on a project of public works
or a public utility project, the employer have in place a written employee substance abuse program.

The bill specifically allows DWD to enforce these provisions and requires employers subject to these provisions to register with DWD. The bill allocates registration fees to DWD’s substance abuse prevention administration and enforcement activities.

**UNEMPLOYMENT INSURANCE**

**Drug testing**

Current state law requires DWD to establish a program to test certain claimants who apply for unemployment insurance (UI) benefits for the presence of controlled substances that is consistent with federal law. A claimant who tests positive for a controlled substance for which the claimant does not have a prescription is ineligible for UI benefits until certain requalification criteria are satisfied or unless he or she enrolls in a substance abuse treatment program and undergoes a job skills assessment, and a claimant who declines to submit to a test is simply ineligible for benefits until he or she requalifies. The bill repeals the requirement to establish the drug testing program.

Also under current law, an employer may voluntarily submit to DWD the results of a preemployment test for the presence of controlled substances that was conducted on an individual as a condition of an offer of employment or notify DWD that an individual declined to submit to such a test. If DWD then verifies that submission, the employee may be ineligible for benefits until he or she requalifies. However, a claimant who tested positive may maintain eligibility by enrolling in a substance abuse treatment program and undergoing a job skills assessment. The bill repeals these preemployment drug testing provisions.

**Benefit rates**

Under current law, a person who qualifies for UI receives a weekly benefit equal to a percentage of that person's past earnings, but the weekly benefit is capped at $370. The bill changes the maximum weekly benefit in the following ways:

1. For benefits paid for weeks of unemployment beginning on or after January 2, 2022, but before January 1, 2023, the maximum weekly benefit is capped at $409.
2. For benefits paid for weeks of unemployment beginning on or after January 1, 2023, but before December 31, 2023, the maximum weekly benefit is capped at 50 percent of the state’s annual average weekly wages.
3. For benefits paid for weeks of unemployment beginning on or after December 31, 2023, the maximum weekly benefit is capped at 75 percent of the state’s annual average weekly wages, or the maximum weekly benefit amount from the previous year, whichever is greater.

Under the bill, DWD is required to calculate the state’s annual average weekly wage for each year based on quarterly wage reports that are submitted to DWD. The state’s annual average weekly wage is calculated by June 30 of each year and is used to calculate the following year’s maximum weekly benefit amount.
SENATE BILL 111

Waiting period

Currently, a claimant must wait one week after becoming eligible to receive UI benefits before the claimant may receive benefits for a week of unemployment, except for periods during which the waiting period is suspended. The waiting period does not affect the maximum number of weeks of a claimant’s benefit eligibility. The bill deletes the one-week waiting period, thus permitting a claimant to receive UI benefits beginning with his or her first week of eligibility.

Social security disability insurance payments

Under current law, in any week in any month that a claimant is issued a benefit under the federal social security disability insurance program (SSDI benefits), that claimant is ineligible for UI benefits. The bill repeals that prohibition and instead requires DWD to reduce a claimant’s UI benefit payments by the amount of SSDI payments. The bill requires DWD to allocate a monthly SSDI payment by allocating to each week the fraction of the payment attributable to that week.

Work search and registration

Under current law, a claimant for UI benefits is generally required to register for work and to conduct a work search for each week in order to remain eligible. Current law requires DWD to waive these requirements under certain circumstances, for example, if a claimant who is laid off from work reasonably expects to be recalled to work within 12 weeks, will start a new job within four weeks, routinely obtains work through a labor union referral, or is participating in a training or work-share program. Under current law, DWD may modify the statutory waivers or establish additional waivers by rule only if doing so is required or specifically allowed by federal law.

The bill removes the waiver requirements from statute and instead allows DWD to establish waivers for the registration for work and work search requirements by rule. The bill also specifies that the work search requirement does not apply to a claimant who has been laid off but DWD determines that the claimant has a reasonable expectation to be recalled to work.

Acceptance of suitable work

Under current law, if a claimant for UI benefits fails, without good cause, to accept suitable work when offered, the claimant is ineligible to receive benefits until he or she earns wages after the week in which the failure occurs equal to at least six times the claimant’s weekly UI benefit rate in covered employment. Current law specifies what is considered “suitable work” for purposes of these provisions, with different standards applying depending on whether six weeks have elapsed since the claimant became unemployed. Once six weeks have elapsed since the claimant became unemployed, the claimant is required to accept work that pays lower and involves a lower grade of skill.

The bill modifies these provisions described above so that the claimant is not required to accept less favorable work until 10 weeks have elapsed since the claimant became unemployed.
**SENATE BILL 111**

**Termination due to substantial fault**

Under current law, a claimant for UI benefits whose work is terminated by his or her employer for substantial fault by the claimant connected with the claimant’s work is ineligible to receive UI benefits until the claimant qualifies through subsequent employment. With certain exceptions, current law defines “substantial fault” to include those acts or omissions of a claimant over which the claimant exercised reasonable control and that violate reasonable requirements of the claimant’s employer. The bill repeals this provision on substantial fault.

**Quits due to nonsuitable work**

Under current law, unless an exception applies, if a claimant for UI benefits quits his or her job, the claimant is generally ineligible to receive unemployment insurance benefits until he or she qualifies through subsequent employment. Under one such exception, if a claimant quits his or her job and 1) the claimant accepted work that was not suitable work under the UI law or work that the claimant could have refused; and 2) the claimant terminated the work within 30 calendar days after starting the work, the claimant remains eligible to collect UI benefits. Under the bill, this exemption applies if the claimant terminated that work within 10 weeks after starting the work.

**Quits due to relocations**

Under current law, if an employee’s spouse is a member of the U.S. armed forces on active duty and is relocated, and the employee quits his or her job in order to relocate with his or her spouse, the employee remains eligible to collect UI benefits. The bill expands this exception so that it applies to an employee who quits employment in order to relocate with a spouse who is required by any employer, not just the U.S. armed forces, to relocate.

**Worker misclassification penalties**

Current law requires DWD to assess an administrative penalty against an employer engaged in construction projects or in the painting or drywall finishing of buildings or other structures who knowingly and intentionally provides false information to DWD for the purpose of misclassifying or attempting to misclassify an individual who is an employee of the employer as a nonemployee under the UI law. The penalty under current law is $500 for each employee who is misclassified, not to exceed $7,500 per incident. Current law additionally requires DWD to assess an administrative penalty against such an employer who, through coercion, requires an individual to adopt the status of a nonemployee in the amount of $1,000 for each individual so coerced, but not to exceed $10,000 per calendar year. Penalties are deposited in the unemployment program integrity fund.

The bill removes the $7,500 and $10,000 limitations on these penalties and provides that the penalties double for each act occurring after the date of the first determination of a violation. The bill also removes the limitations on the types of employers to which the penalties apply, allowing them to be assessed against any type of employer that violates the above prohibitions.
Wage threshold for receipt of benefits

Under current law, a claimant for UI benefits is generally ineligible to receive any benefits for a week if the claimant receives or is considered to have received wages or other amounts from employment totaling more than $500. The bill repeals this ineligibility provision. However, the bill does not affect the partial benefits formula, which reduces a claimant’s weekly UI benefit payment by a certain percentage of wages earned in a week by the claimant.

Electronic transactions with DWD

Currently, with certain exceptions, each employer that has employees who are engaged in employment covered by the UI law must file quarterly contribution (tax) and employment and wage reports and make quarterly payment of its contributions to DWD. An employer of 25 or more employees or an employer agent that files reports on behalf of any employer must file its reports electronically. Current law also requires each employer that makes contributions for any 12-month period ending on June 30 equal to a total of at least $10,000 to make all contribution payments electronically in the following year. Finally, current law allows DWD to provide a secure means of electronic interchange between itself and employing units, claimants, and other persons that, upon request to and with prior approval by DWD, may be used for transmission or receipt of any document specified by DWD that is related to the administration of the UI law in lieu of any other means of submission or receipt.

The bill makes use of these electronic methods mandatory in all cases, unless the employer or other person demonstrates good cause for being unable to use the electronic method, as determined by DWD by rule. The bill also provides that DWD may permit the use of electronic records and electronic signatures for any document specified by DWD that is related to the administration of the UI law.

STATE EMPLOYMENT

Paid sick leave for limited term employees

Under current law, permanent and project state employees receive the following paid leave: vacation; personal holidays; sick leave; and legal holidays. The bill requires the state to provide paid sick leave to limited term employees of the state at the same rate as to permanent and project state employees.

Paid parental leave

The bill requires the administrator of the Division of Personnel Management in DOA to develop a program for paid parental leave for most state employees. The bill requires the administrator to submit the plan for approval as a change to the state compensation plan to the Joint Committee on Employment Relations. If JCOER approves the plan, the plan becomes effective immediately.

The bill also requires the Board of Regents of the UW System to develop a plan for a program for paid parental leave for employees of the system and requires the board to submit the plan to the administrator of the Division of Personnel Management in DOA with its compensation plan changes for the 2021–23 biennium.
Vacation hours for state employees

The bill provides additional annual leave hours to state employees during their third, fourth, and fifth years of service.

Under current law, state employees who are in nonexempt status under the federal Fair Labor Standards Act earn annual leave at the rate of 104 hours per year of continuous service during the first five years of service and, on an employee's fifth anniversary of continuous service, the rate increases to 144 hours of annual leave per year of continuous service. Under the bill, beginning on the employee's second anniversary, a state employee in nonexempt status begins earning vacation hours at the rate of 120 hours per year of service.

Under current law, state employees who are in exempt status under the federal Fair Labor Standards Act earn annual vacation at the rate of 120 hours per year of continuous service during the first five years of service and, on the fifth anniversary of continuous service, the rate increases to 160 hours of annual leave per year of continuous service. Under the bill, beginning on the employee's second anniversary, a state employee in exempt status begins earning vacation hours at the rate of 136 hours per year of service.

Merit pay raises for state public defenders

Under current law, there is an assistant state public defender pay progression plan, which consists of 17 hourly salary steps, with each step equal to one-seventeenth of the difference between the lowest hourly salary and the highest hourly salary. The plan provides that no salary adjustment under the plan may increase an assistant state public defender's salary by more than 10 percent of his or her base pay during a fiscal year.

The bill allows the state public defender board to provide merit-based pay raises under the assistant state public defender pay progression plan in fiscal year 2022 that may exceed 10 percent of an assistant state public defender’s base pay for assistant state public defenders who were employed by the state public defender board before July 1, 2021.

Director of the Legislative Technology Services Bureau

The director of the Legislative Technology Services Bureau is currently assigned to executive salary group five, which, effective January 3, 2021, has an annual pay range of $89,045 to $146,931. The bill reassigns the director to executive salary group six, which, effective January 3, 2021, has an annual pay range of $96,179 to $158,704. Within this range, the Joint Committee on Legislative Organization determines the director's annual salary.

JOBS AND JOB TRAINING

Worker connection program

The bill requires DWD to establish a worker connection program to be administered by DWD to help prospective employee participants prepare for and enter quality jobs in targeted employment sectors identified by DWD as having high opportunities for career growth.
SENATE BILL 111

Pandemic recovery grants

The bill requires DWD to establish and operate a program to provide grants to local workforce development boards to fund pandemic recovery efforts to emphasize training, skill development, and economic recovery for individuals and businesses. The grants may be used for virtual and in-person job training, employment navigators or coaches, skill assessment, transportation, soft skill development, career or talent search services, and other programs to return employees to the labor market.

Pandemic workforce training program grants

The bill creates a pandemic workforce training program to be administered by DWD. Under the program, DWD is required to award grants to public and private organizations for the development and implementation of pandemic workforce training programs. The grants may be used for virtual and in-person job training, employment navigators or coaches, skill assessment, transportation, soft skill development, career or talent search services, and other programs to return employees to the labor market. The bill also permits DWD to require a public or private organization, as a condition of receiving a grant, to provide matching funds at a percentage to be determined by DWD.

Green jobs training program grants

The bill creates a green jobs training program to be administered by DWD. Under the program, DWD is required to award grants to public and private organizations for the development and implementation of green jobs training programs. The bill defines green jobs as jobs that produce goods or provide services that benefit the environment or conserve natural resources. The bill also permits DWD to require a public or private organization, as a condition of receiving a grant, to provide matching funds at a percentage to be determined by DWD.

Health care recruitment initiative

The bill requires DWD, in coordination with local workforce development boards, to 1) undertake a statewide recruitment initiative to promote and connect individuals with nurse aide instructional programs and employment opportunities and to promote other health care provider employment opportunities and 2) create a free, four-hour course that individuals may take to explore career opportunities within the field of human services or health care delivery.

Project SEARCH program

Under current law, DWD is authorized to enter into contracts to provide employment skills services to individuals with developmental disabilities under the Project SEARCH program. The program is currently operated by the Cincinnati Children’s Hospital, and DWD administers the program for residents of this state. The bill changes the source of funding for the program to a dedicated appropriation in DWD. The bill also specifically authorizes DWD to engage in a number of activities related to the Project SEARCH program.

Hire Heroes program

Under current law, DWD administers the Hire Heroes program, which provides transitional jobs to veterans and reimburses employers of veterans for wages and
other related costs. In order for a veteran to be eligible to participate in the program, he or she must be a DVA-certified veteran, be at least 18 years old, be ineligible to participate in the Wisconsin Works program, be unemployed for at least four weeks, and satisfy any applicable substance abuse screening, testing, and treatment. Prospective program participants must also submit an application to the program no later than seven years after the date of discharge from military service. The bill removes the seven-year limit on when veterans may submit an application to the program.

**Modification to employment transit assistance program**

Under current law, DWD is required to administer an employment transit assistance program to address the deficiency in access to employment locations for workers and persons seeking employment. Current law limits funding under the program to projects in outlying suburban and sparsely populated and developed areas that are not adequately served by a mass transit system. The bill removes those geographic restrictions.

**Penalties for uninsured employers**

Under current law, DWD is required to assess an administrative penalty against an employer who requires an employee to pay for any part of worker’s compensation insurance or who fails to provide mandatory worker’s compensation insurance coverage. If the employer violates those requirements, for the first 10 days, the penalty under current law is not less than $100 and not more than $1,000 for such a violation. If the employer violates those requirements for more than 10 days, the penalty under current law is not less than $10 and not more than $100 for each day of such a violation.

The bill provides that the penalty for violations occurring after the second such violation is $3,000 per violation, or three times the amount of the insurance premium that would have been payable, whichever is greater. The bill also provides that the penalty for violations occurring after the third such violation is $4,000 per violation, or four times the amount of the insurance premium that would have been payable, whichever is greater.

Also under current law, if an employer who is required to provide worker’s compensation insurance coverage provides false information about the coverage to his or her employees or contractors who request information about the coverage, or who fails to notify a person who contracts with the employer that the coverage has been canceled in relation to the contract, DWD is required to assess a penalty of not less than $100 and not more than $1,000 for each such violation.

The bill provides that the penalty for violations occurring after the third such violation is $3,000 per violation, and $4,000 for violations occurring after the fourth such violation.

**Substantial fault**

Currently, under the worker’s compensation law, an employer is not liable for temporary disability benefits during an employee’s healing period if the employee is suspended or terminated from employment due to substantial fault by the employee connected with the employee’s work. With certain exceptions, current law defines “substantial fault” to include those acts or omissions of an employee over which the
SENATE BILL 111

claimant exercised reasonable control and that violate reasonable requirements of the claimant’s employer. The bill repeals this provision on substantial fault.

**Electronic transmission of records and payments**

Under current law, in actions regarding worker’s compensation claims, most information, forms, and documents must be mailed using the U.S. mail or provided in-person. The bill allows DWD, the Division of Hearings and Appeals in DOA, and the Labor and Industry Review Commission to send certain information, forms, notices, and documents regarding worker’s compensation actions electronically, rather than exclusively by U.S. mail, including information regarding all of the following: hearings, findings and awards, preference for claims under bankruptcy, employer penalties, hazardous exposure, levies for delinquent payments, and citations. Under the bill, DWD, DHA, and LIRC must get consent to provide the information, forms, notices, and documents electronically.

Also, the bill requires payments for worker’s compensation awards to be made by direct deposit or electronic funds transfer unless the claimant cannot receive payments electronically, does not want to receive the payment electronically, or if the insurer, self-insured employer, or third-party payer is not able to issue payments electronically.

**Administration and Finance**

**Equal rights hearings**

Under current law, when DWD holds a complaint hearing regarding an alleged open housing violation, alleged discrimination in a public place of accommodation or amusement, or alleged discrimination, unfair honesty testing, or unfair genetic testing, DWD is required to hold the hearing in the county in which the violation is alleged to have occurred. The bill removes the requirement that such hearings be held in the county in which the violation is alleged to have occurred, and requires DWD to designate the place of hearing, which may include a remote, web-based, or in-person hearing in a location accessible and in proximity to the parties.

**Fees for work permits for minors**

Under current law, a portion of fees collected by local permit officers for work permits for minors is forwarded to DWD. A portion of the fees collected by or forwarded to DWD for these permits is appropriated to DWD, and a portion of those fees is deposited into the general fund and is available for general purpose revenue. The bill credits the entire amount of fees collected by or forwarded to DWD to the appropriation account for the permit system for employment of minors.

**Youth apprenticeship funding**

Under current law, DWD is authorized to provide a youth apprenticeship program and may award grants to local partnerships for the implementation and coordination of local youth apprenticeship programs. Current law requires DWD to fund the development of youth apprenticeship program curricula from its general program operations appropriation. The bill permits the funding of youth apprenticeship program curricula development from any allowable source.
SENATE BILL 111

**Worker’s compensation uninsured employers fund**

DWD administers the worker’s compensation program in this state. Employers are required to have worker’s compensation insurance or to self-insure. The program includes an uninsured employers fund (UEF), which is used to pay worker’s compensation benefits on claims filed by employees who are injured while working for uninsured employers in this state. The money for the UEF comes from, among various sources, penalties assessed against uninsured employers. The bill changes the appropriation for the UEF from a sum sufficient appropriation to a continuing appropriation.

**Reimbursements for supplemental worker’s compensation benefits**

Under current law, worker’s compensation insurers are required to pay supplemental benefits to certain employees who were permanently disabled by an injury that is compensable under worker’s compensation.

DWD is authorized to collect up to $5,000,000 from insurers that provide worker’s compensation insurance to provide those supplemental benefits. This money must be used exclusively to provide reimbursements to insurers that pay those supplemental benefits and that request reimbursements. The bill creates a new, separate appropriation in the worker’s compensation operations fund, to be used exclusively to provide these reimbursements. The bill does not increase revenue to DWD or collections from insurers.

**Unemployment insurance; appropriation for administration**

The bill creates an appropriation that provides general purpose revenue funding to DWD for administration of the unemployment insurance program.

**Unemployment insurance; appropriations for renovation and modernization**

The bill creates appropriations to provide general purpose revenue and federal funding to DWD for the renovation and modernization of unemployment insurance information technology systems.

**ENVIRONMENT**

**WATER QUALITY**

**PFAS standards**

The bill requires DNR to establish and enforce various standards for per- and poly-fluoroalkyl substances (PFAS). The PFAS group of substances includes several thousand chemicals; two of the most well known are perfluorooctanoic acid (PFOA) and perfluorooctane sulfonic acid (PFOS).

The bill requires DNR to establish, by rule, acceptable levels and standards, monitoring requirements, and required response actions for any PFAS in drinking water, groundwater, surface water, air, solid waste, beds of navigable waters, and soil and sediment, if the department determines that the substance may be harmful to human health or the environment. These rules must cover, at a minimum, PFOA and PFOS, as well as perfluorohexane sulfonic acid (PFHxS), perfluorononanoic acid (PFNA), and perfluorobutane sulfonic acid (PFBS).

The bill also requires DNR to establish air emission standards for PFAS to provide adequate protection for public health and welfare, taking into account
SENATE BILL 111

energy, economic, and environmental impacts and other costs related to the emission source.

Under current law, DNR maintains a list of substances that have a reasonable probability of entering the groundwater resources of the state and that are shown to involve public health concerns. Under the bill, DNR is required to add to this list PFOA, PFOS, PFHxS, PFNA, PFBS, and all other PFAS that have a reasonable probability of entering the groundwater resources of the state and that are shown to involve public health concerns. Under current law, DHS recommends enforcement standards for substances on this list, which DNR then proposes as DNR rules in its rule-making process. Until DNR establishes such rules, the bill requires DNR to apply any DHS-recommended groundwater enforcement standard for any PFAS as an interim standard for groundwater and as an interim maximum contaminant level for drinking water.

The bill also provides that DNR may, if it determines doing so is necessary to protect human health or the environment, require a person who possesses or controls PFAS to provide proof of financial responsibility for remediation and long-term care to address contamination by a potential discharge of PFAS or environmental pollution that may be caused by a discharge of PFAS.

In addition, the bill requires DNR to set criteria for certifying laboratories to test for PFAS, and to certify laboratories that meet these criteria. Before these criteria are set, the bill allows DNR to require testing for PFAS to be done according to nationally recognized standards.

Finally, the bill requires a person who generates solid or hazardous waste at a site or facility under investigation by DNR to provide DNR with access to information relating to any transportation to or treatment, storage, or disposal at another site, facility, or location.

**PFAS appropriations**

The bill creates two new appropriations related to PFAS for the purposes of sampling and testing public water supplies for PFAS and collecting and disposing of PFAS-containing fire fighting foam.

**PFAS rules**

The bill allows DNR to promulgate emergency rules relating to the collection and disposal of PFAS-containing fire fighting foam.

**PFAS municipal grant program**

The bill creates a municipal grant program, administered by DNR, to address PFAS. Under the program, DNR must provide grants to cities, towns, villages, counties, utility districts, lake protections districts, sewerage districts, and municipal airports. DNR may award a grant only if the applicant tested or trained with a PFAS-containing fire fighting foam in accordance with applicable state and federal law, or if a third party tested or trained with PFAS-containing fire fighting foam within the boundaries of the municipality; the applicant applied biosolids to land under a water pollution permit issued by DNR; or PFAS are impacting the applicant’s drinking water supply or surface water or groundwater within the municipality and the responsible party is unknown or is unwilling or unable to take the necessary response actions.
SENATE BILL 111

Under the bill, grants provided under this program may be used to investigate potential PFAS impacts in order to reduce or eliminate environmental contamination; treat or dispose of PFAS-containing fire fighting foam containers; sample a private water supply within three miles of a site or facility known to contain PFAS or to have caused a PFAS discharge; provide a temporary emergency water supply, a water treatment system, or bulk water to replace water contaminated with PFAS; conduct emergency, interim, or remedial actions to mitigate, treat, dispose of, or remove PFAS contamination; or remove or treat PFAS in public water systems in areas where PFAS levels exceed the maximum contaminant level for PFAS in drinking water or an enforcement standard for PFAS groundwater or in areas where the state has issued a health advisory for PFAS.

An applicant that receives a grant under this program must contribute matching funds equal to at least 20 percent of the amount of the grant. The applicant must apply for a grant on a form prescribed by DNR and must include any information that DNR finds is necessary to determine the eligibility of the project, identify the funding requested, determine the priority of the project, and calculate the amount of a grant. In awarding grants under this program, DNR must consider the applicant’s demonstrated commitment to performing and completing eligible activities, including the applicant’s financial commitment and ability to successfully administer grants; the degree to which the project will have a positive impact on public health and the environment; and any other criteria that DNR finds necessary to prioritize the funds available for awarding grants.

Concentrated animal feeding operations

Under current law, a person who operates a concentrated animal feeding operation (CAFO) must have a Wisconsin Pollutant Discharge Elimination System (WPDES) permit from DNR. A CAFO is a livestock operation that contains at least 1,000 animal units, that discharges pollutants into a navigable water, or that contaminates a well. Current law requires a CAFO operator with a WPDES permit to pay an annual fee of $345 to DNR. The bill increases the amount of this annual fee to $545. The bill also requires a CAFO operator applying for a new WPDES permit to pay a $3,270 application fee.

Well compensation grant program

The bill makes changes to the well compensation grant program currently administered by DNR.

Under current law, an individual owner or renter of a contaminated private well may apply for a grant from DNR to cover a portion of the costs to treat the water, reconstruct the well, construct a new well, connect to a public water supply, or fill and seal the well. To be eligible for a grant, the well owner’s or renter’s annual family income may not exceed $65,000. A grant awarded under the program may not cover any portion of a project’s eligible costs in excess of $16,000 and, of those costs, may not exceed 75 percent of a project’s eligible costs, meaning that a grant may not exceed $12,000. In addition, if the well owner’s or renter’s annual family income exceeds $45,000, the amount of the award is reduced by 30 percent of the amount by which the annual family income exceeds $45,000.
SENATE BILL 111

The bill increases the family income limit to $100,000. In addition, under the bill, a well owner or renter whose family income is below the state's median income may receive a grant of up to 100 percent of a project's eligible costs, not to exceed $16,000. The bill also eliminates the requirement to reduce an award by 30 percent if the well owner's or renter's family income exceeds $45,000.

Under current law, a well that is contaminated only by nitrates is eligible for a grant only if the well is a water supply for livestock, is used at least three months in each year, and contains nitrates in excess of 40 parts per million. The bill eliminates these restrictions for claims based on nitrates, and instead allows grants to be issued for wells based on contamination by at least 10 parts per million of nitrate nitrogen. The bill also allows grants to be issued for wells contaminated by at least 10 parts per billion of arsenic.

Under current law, DNR must issue grants in the order in which completed claims are received. Under the bill, if there are insufficient funds to pay claims, DNR may, for claims based on nitrate contamination, prioritize claims that are based on higher levels of nitrate contamination.

**Lead service line replacement**

Under current law, DOA and DNR administer the Safe Drinking Water Loan Program (SDWLP), which provides financial assistance from the environmental improvement program to municipalities, and to the private owners of community water systems that serve municipalities, for projects that will help the municipality comply with federal drinking water standards. DNR establishes a funding list for SDWLP projects and DOA allocates funding for those projects.

The bill creates a general fund appropriation under the environmental improvement program for projects involving forgivable loans to private users of public water systems to cover not more than 50 percent of the cost to replace lead service lines.

**Well construction notification fee**

Under current law, no person may construct a high capacity well, which is a well with a capacity of more than 100,000 gallons per day, without prior approval of DNR and payment of a $500 fee. Prior to construction of a well that is not a high-capacity well, the owner of the property where the well is to be constructed must notify DNR and pay a fee of $50. The bill increases the notification fee to $70.

**Well construction variances application fee**

Under current law, DNR regulates groundwater withdrawal. Administrative rules promulgated by DNR establish requirements for the construction of wells and provide that a person may request a variance from those rules if strict compliance with the requirements is not feasible. DNR may determine whether a variance is justified and may condition the issuance of a variance on additional construction features to safeguard groundwater. The bill provides that DNR must collect a $100 fee from a person requesting a well construction variance.

**Water stewardship certification**

The bill creates a grant program for DATCP to provide grants to reimburse the costs for agricultural producers to apply for a certification of water stewardship from
the Alliance for Water Stewardship. The grants must be made directly to the producer, and may not be used to pay the costs of operational changes needed to achieve certification.

**Procedures under the clean water fund program and safe drinking water loan program**

The bill makes various changes to the process for applying for financial assistance under the Clean Water Fund Program (CWFP) and the SDWLP. The CWFP, which is administered by DNR, provides financial assistance to municipalities for projects to control water pollution, such as sewage treatment plants.

Under current law, a municipality that intends to apply for financial assistance under either program must submit notice of its intent to apply to DNR at least six months before the beginning of the fiscal year in which it will request to receive the assistance. The bill eliminates the requirement to submit a notice of intent to apply before applying.

Current law also requires an applicant for financial assistance under the SDWLP to submit an engineering report as required by DNR by rule. The bill changes this provision to allow DNR to determine, by rule, whether to require submission of engineering reports. Under the bill, if an engineering report is required by DNR, the applicant must submit the report either before or at the same time as the application.

In addition, current law requires an applicant for financial assistance under the SDWLP to submit the application on or before the June 30 before the fiscal year in which the applicant wishes to receive funding, with certain exceptions. The bill removes this requirement and instead requires DNR to provide, at least annually, instructions for submitting applications, including the deadline for submittal, if any.

Finally, under the current SDWLP, if funding is allocated for a loan and the loan is not closed before June 30 of the year following the year in which funding is allocated, DOA must release the allocated funding. The bill repeals this provision.

**Clean water fund program appropriation**

The CWFP receives federal capitalization grants for a state revolving loan fund, for which the state provides a 20 percent match. An appropriation under current law provides a certain amount from the federal revolving loan fund account for general operations of the CWFP. The bill changes this appropriation to provide all moneys received from the federal revolving loan fund account for general operations of the CWFP.

**Environmental improvement fund revenue bonding limit**

Current law authorizes the issuance of revenue bonds for the CWFP and the SDWLP under the environmental improvement fund, but limits the principal amount of those revenue bonds to $2,526,700,000. The bill increases that limit by $385,000,000, to $2,911,700,000.

**Bonding for nonpoint source water pollution abatement**

Under current law, the state may contract up to $50,550,000 in public debt to provide financial assistance for projects that control pollution that comes from
diffuse sources rather than a single concentrated discharge source in areas that qualify as high priority due to water quality problems. The bill increases the bonding authority for these projects by $6,500,000.

**Bonding for Great Lakes contaminated sediment removal**

Under current law, the state may contract up to $36,000,000 in public debt to provide financial assistance for projects to remove contaminated sediment from Lake Michigan or Lake Superior, or a tributary of Lake Michigan or Lake Superior, if DNR has identified the body of water as being impaired by the sediment. The bill increases the bonding authority for sediment removal projects by $25,000,000.

**Bonding for urban storm water, flood control, and riparian restoration**

Under current law, the state may contract up to $57,600,000 in public debt to provide financial assistance for projects that manage urban storm water and runoff and for flood control and riparian restoration projects. The bill increases the bonding authority for these projects by $12,000,000 and allocates $8,000,000 of those amounts in fiscal biennium 2021–23 for cost-sharing grants under the municipal flood control and riparian restoration program administered by DNR under current law. The program provides financial assistance to local units of government for facilities and structures for the collection and transmission of storm water and groundwater and for the floodproofing of public and private structures that remain in the 100-year floodplain.

**Storm water management**

Under current law, a person may need to obtain a storm water discharge permit from DNR, and pay a permit fee, in order to discharge storm water. Current law appropriates money annually from the general fund for the administration, including enforcement, of the storm water discharge permit program (storm water permit appropriation). An annual appropriation is expendable only up to the amount shown in the schedule and only for the fiscal year for which made. Storm water permit fees collected by DNR are credited to the storm water permit appropriation.

The bill changes the storm water permit appropriation from an annual to a continuing appropriation, which is an appropriation that is expendable until fully depleted or repealed by subsequent action of the legislature. Under the bill, the storm water permit appropriation is still funded by all moneys received from storm water permit fees.

**HAZARDOUS SUBSTANCES AND ENVIRONMENTAL CLEANUP**

**Elimination of the land recycling loan program**

Under the environmental improvement fund, the state provides financial assistance to local governmental units for certain projects. The environmental improvement fund is made up of three programs: the CWFP; the SDWLP; and the land recycling (brownfields) loan program, which provides financial assistance for the investigation and remediation of certain contaminated properties.

The bill eliminates the land recycling loan program, which has not provided loans since 2008. Under the bill, current law provisions continue to apply to any outstanding loans under the program that are in repayment. The bill also requires
any unallocated balance of moneys appropriated to the land recycling loan program to be transferred to the CWFP.

**RECYCLING**

*Local regulation of certain containers*

Current law limits the ability of political subdivisions (cities, villages, towns, and counties) to regulate auxiliary containers. “Auxiliary container” is defined as “a bag, cup, bottle, can, or other packaging that is designed to be reusable or single-use; that is made of cloth, paper, plastic, cardboard, corrugated material, aluminum, glass, postconsumer recycled material, or similar material or substrates, including coated, laminated, or multilayer substrates; and that is designed for transporting or protecting merchandise, food, or beverages from a food service or retail facility.” In general, a political subdivision may not 1) enact or enforce an ordinance regulating the use, disposition, or sale of auxiliary containers, 2) prohibit or restrict auxiliary containers, or 3) impose a fee, charge, or surcharge on auxiliary containers.

The bill provides that DNR may grant a political subdivision an exemption from these prohibitions as they apply to a specific type of container. A political subdivision seeking an exemption must make an application to DNR that describes the type of container to which the exemption would apply and demonstrate that the political subdivision cannot sell the type of container at a price that exceeds the recycling processing costs of the container. If DNR grants the exemption, DNR must specify the period of the exemption, which may not exceed two years.

*E-Cycle grants*

The bill requires DNR to create a program to provide grants to expand electronics recycling collection in rural counties of the state. Grants may be provided to local units of government, businesses, and nonprofit entities for hosting a collection site or collection event in a rural county of the state.

**GENERAL ENVIRONMENT**

*Tipping fee exemption for waste-to-energy facilities*

Current law imposes several fees, commonly called tipping fees, on generators of solid waste that is disposed of at a landfill or other waste disposal facility. Under current law, a facility that recycles construction, demolition, and remodeling materials is exempt from these tipping fees, in an amount equal to the weight of residue generated by the recycling process or 30 percent of the total weight of material accepted by the recycling facility, whichever is less. To be eligible for this exemption, the facility must be licensed as a solid waste processing facility; the facility’s plan of operation must require reporting of the volume or weight of materials processed, recycled, and discarded; and the facility must be in compliance with its plan of operation.

The bill creates a similar exemption from tipping fees for existing facilities that incinerate solid waste for the purpose of energy recovery, commonly called waste-to-energy facilities. To be eligible for this exemption, the facility must be licensed as a municipal solid waste combustor; the facility’s plan of operation must require reporting of the weight of material coming into the facility, and the weight of material rejected and residue produced by the facility and where the rejected
SENATE BILL 111

material and residue is sent; and the facility must be in compliance with its plan of operation. The exemption does not apply to ash residue generated at these facilities.

The bill also makes a terminology change, referring to facilities exempt from the tipping fee as “qualified facilities” instead of “qualified materials recovery facilities.”

**Ban on coal tar-based sealants**

The bill prohibits the sale of coal tar-based sealant products and high PAH sealant products (products with more than 0.1 percent polycyclic aromatic hydrocarbons by weight) beginning January 1, 2022, and prohibits the use of such products beginning July 1, 2022. A person who violates these prohibitions is subject to the same penalty that applies under current law to other general environmental provisions, which is a forfeiture of between $10 and $5,000 for each violation.

**Municipal flood control aid**

The bill requires DNR to award, from the amounts appropriated to DNR to provide assistance for municipal flood control, $1,000,000 in grants in each fiscal year of the 2021–23 fiscal biennium for the preparation of flood insurance studies and other flood mapping projects.

**Lapsing certain appropriations**

The bill lapses, to the general fund in fiscal year 2021–22, $2,500 from the DNR appropriation for Great Lakes remediation; $37,800 from the DNR appropriation for maintenance and development of state parks and lands; and $7,200 from the DNR appropriation for acquisition and development of new buildings.

**HEALTH AND HUMAN SERVICES**

**Public assistance**

**Emergency assistance for needy families**

Under current law, DCF administers a program to distribute emergency assistance funds to qualifying families who are homeless or who are facing impending homelessness. Current law describes several scenarios that constitute “homelessness or impending homelessness” for purposes of receiving the emergency assistance. One scenario under current law is if the family receives an eviction notice due to its inability to make rent, mortgage, or property tax payments that results from a financial hardship. Under current law, a family can only qualify for this emergency assistance once in a 12-month period. DCF rules specify certain financial and nonfinancial eligibility requirements and the maximum payment amounts for the emergency assistance.

Under current DCF rule, a family is defined as one or more dependent children and a qualified caretaker relative who lives with the child, and a family’s annual gross income may not exceed 115 percent of the federal poverty line in order to qualify. The maximum payment amount is calculated by multiplying the maximum payment amount per family member for a family of that size by the number of family members, or is determined by the amount of actual financial need due to the emergency, whichever is less. Under current DCF rule, the maximum payment amounts for families range from $258 per family member for a two-person family to $110 per family member for a family of six or more people.
The bill makes the following changes to the emergency assistance program:

1. Adds that an individual who is between the ages of 18 and 24 may qualify for emergency assistance payments even if that person is not a qualifying caretaker relative of a child.
2. Increases the maximum family annual gross income to 200 percent of the federal poverty line.
3. Allows a family to receive emergency assistance once in a six-month period instead of once in a 12-month period.
4. Sets the maximum payment at an amount set by DCF by publication in the Wisconsin Administrative Register, regardless of the size of the family, or the actual financial need of the family due to the emergency, whichever is less.

The bill also specifies that, during a national emergency declared by the U.S. president or a state of emergency declared by the governor, a family is considered to be facing impending homelessness if it cannot make rent, mortgage, or property tax payments regardless of whether the family has received notice that it will be evicted if the payments are not made immediately.

**Definition of “domestic abuse” in the emergency assistance program**

Under the emergency assistance program, a family is considered to be homeless or facing impending homelessness if certain conditions apply, including if a member of the family was a victim of domestic abuse. Under the program, “domestic abuse” has the same definition as under the statute establishing arrest and prosecution procedures for domestic abuse incidents.

Also under current law, however, DCF is required under the Wisconsin Works (W-2) program to promulgate rules for screening victims of domestic abuse, and those rules must specify the evidence that is sufficient to establish that an individual is or has been a victim of domestic abuse or is at risk of further domestic abuse. Under current law, the W-2 program provides, among other things, work experience and benefits for low-income custodial parents who are at least 18 years old.

The bill eliminates the definition of domestic abuse in the emergency assistance program. Instead, it provides that evidence that is sufficient under the W-2 domestic abuse screening program to establish that an individual is or has been a victim of domestic abuse is also sufficient for that purpose under the emergency assistance program.

**Child care quality improvement program**

Under Wisconsin Shares, which is a part of the W-2 program, an individual who is the parent of a child under the age of 13 or, if the child is disabled, under the age of 19, who needs child care services to participate in various education or work activities, and who satisfies other eligibility criteria may receive a child care subsidy for child care services under Wisconsin Shares. Under current law, DCF sets the maximum payment rates for child care providers who provide services under Wisconsin Shares and may modify an individual child care provider’s payment rate in the following manner on the basis of the child care provider’s quality rating under the Young Star system: a provider who receives a one-star rating may be denied payment; a provider who receives a two-star rating may have the maximum payment rate reduced by up to 5 percent; a provider who receives a three-star rating
may receive up to the maximum payment rate; a provider who receives a four-star rating may have the maximum payment rate increased by up to 15 percent; and a provider who receives a five-star rating may have the maximum payment rate increased by up to 30 percent.

The bill eliminates the current law method by which DCF may modify payments to child care providers under Wisconsin Shares based on a child care provider’s rating under the quality rating system known as Young Star. The bill instead authorizes DCF to establish a program for making monthly payments and monthly per-child payments to certified child care providers, licensed child care centers, and child care programs established or contracted for by a school board. The bill allows DCF to promulgate rules to implement the program, including establishing eligibility requirements and payment amounts and setting requirements for how recipients may use the payments. The bill funds the program through a new appropriation and by allocating federal moneys, including child care development funds and moneys received under the Temporary Assistance for Needy Families block grant program.

**Temporary Assistance for Needy Families**

Under current law, DCF allocates specific amounts of federal moneys, including child care development funds and moneys received under the Temporary Assistance for Needy Families (TANF) block grant program for various public assistance programs. Under the bill, TANF funding allocations are changed in the following ways, as compared to the funding allocation in the 2019–21 fiscal biennium:

1. For Wisconsin Works benefits, agency contracts, and job access loans, the total funding is increased by 20 percent.
2. For emergency assistance payments, funding is increased by 73 percent.
3. For grants to Wisconsin Trust Account Foundation, Inc., for distribution to programs that provide civil legal services to low-income families, funding is doubled.
4. For the Transform Milwaukee and Transitional Jobs programs, funding is increased by 49 percent.
5. For direct child care services, child care administration, and child care improvement programs, total funding is decreased by 7 percent.
6. For kinship care payments, safety and out-of-home placement services, and child abuse and neglect prevention services, total funding is increased by 10 percent.
7. For grants to the Boys and Girls Clubs of America, funding is increased by 5 percent.
8. For the earned income tax credit supplement, funding is increased by 34 percent.
9. For the support of the dependent children of recipients of supplemental security income, funding is decreased by 27 percent.
10. For all other programs under TANF, funding is continued with a funding change of less than 5 percent.

The bill additionally allocates $500,000 of TANF funding in each fiscal year to fund the Jobs for America’s Graduates programs to improve social, academic, and employment skills of youth who are eligible to receive TANF.
SENATE BILL 111

Also, the bill specifies that, with respect to a TANF-funded contract for services, “allocation” means the amount under the contract that DCF is obligated to pay.

Grants for homelessness case management services

Under current law, DOA may award 10 annual grants from TANF funds of up to $50,000 to homeless shelter facilities to provide case management services for homeless families. The bill increases the annual limit on grants to a shelter facility from $50,000 to $75,000 and eliminates the restriction that limits DOA to making no more than 10 grants in total each year.

Civil legal services grants

Under current law, DCF is directed to allocate in each fiscal year specific amounts of money, including federal moneys received under the TANF block grant program, for various public assistance programs. Under current law, DCF provides funding to the Wisconsin Trust Account Foundation, Inc. (the Foundation), to provide civil legal services to TANF-eligible individuals in two ways:

1. DCF provides up to $100,000 in each fiscal year in matching funds to the Foundation for the provision of civil legal services to eligible individuals. This grant does not specify what types of civil legal services may be provided.

2. DCF provides a $500,000 grant in each fiscal year to the Foundation to provide grants to programs, up to $75,000 each, that provide certain legal services to eligible individuals. The legal services provided through this grant are limited to legal services in civil matters related to domestic abuse or sexual abuse or to restraining orders or injunctions for individuals at risk.

The bill removes the grant that requires matching funds and increases the grant to provide certain legal services to eligible individuals to $1,000,000 per fiscal year. Under the bill, the Foundation may additionally use this funding to provide to eligible individuals civil legal services related to eviction. The bill removes the $75,000 cap on grants provided by the Foundation to individual programs.

Internet assistance program

The bill requires DCF to establish an Internet assistance program, under which it makes payments to Internet service providers on behalf of low-income individuals to assist with paying for Internet service. The bill requires that other assistance program options be exhausted before assistance is provided under this program. The bill allows DCF to contract for the administration of the program. The bill requires DCF to promulgate rules to implement the program, including a requirement that the family income of a recipient not exceed 200 percent of the federal poverty line. Under the bill, the new program is funded through an appropriation from the general fund and from $10,000,000 that the bill requires DCF to allocate from federal moneys, including moneys received under the TANF block grant program.

Foster care youth driver’s licensing

The bill requires DCF to establish or contract for a driver education program for individuals who are 15 years of age or older and in out-of-home care. The bill requires the program to assist those individuals with identifying an appropriate driver education course and obtaining an operator’s license. The bill
SENATE BILL 111

authorizes DCF to pay, for any individual in the program, any fees required to enroll in a driver education course or to obtain an operator’s license.

**Offender reentry demonstration project**

Under current law, DCF was required to establish a five-year offender reentry demonstration project in the 2017-18 fiscal year. The project focuses on noncustodial fathers in the city of Milwaukee. Under current law, DCF was to conduct an evaluation of the project by June 30, 2023. The bill extends the demonstration project to six years and the deadline for an evaluation to June 30, 2024.

**Transferring Head Start state supplement to DCF**

The bill transfers the Head Start state supplement from DPI to DCF. The bill transfers from the state superintendent to the secretary of children and families the responsibilities of determining whether agencies are eligible for designation as Head Start agencies under the federal Head Start program to provide comprehensive health, educational, nutritional, social, and other services to economically disadvantaged children and their families, and of distributing federal Head Start funds to those eligible agencies.

**Option to purchase public health coverage**

The bill requires DHS, OCI, or DHS in consultation with OCI to conduct an analysis and actuarial study of the creation of an option to purchase coverage that is publicly provided or administered. In its analysis, DHS or OCI must incorporate input from a variety of interested persons or entities and an analysis of any other health care affordability initiatives. The bill allows DHS or OCI to submit any requests for federal approval, including Medical Assistance state plan amendments and waiver requests, necessary to implement the public option or other health care affordability initiative. If federal approval is not necessary or if federal approval is granted and DHS or OCI determines that the public option or affordability initiative is feasible, DHS or OCI shall implement the public option or other initiative before January 1, 2025, or if the insurance market provisions of the federal Patient Protection and Affordable Care Act are not longer enforceable, by January 1, 2022, or as soon as possible.

**Electronic benefit transfer processing and funding for farmers; healthy eating incentive pilot program**

The bill allows DHS to expend general purpose revenue to provide electronic benefit transfer processing equipment and services to farmer's markets and farmers who sell directly to consumers. The electronic benefit transfer system is the method used by DHS to deliver FoodShare benefits to recipients. FoodShare, also known as the food stamp program and the federal Supplemental Nutrition Assistance Program, provides a monetary benefit to individuals who have limited financial resources for the purpose of purchasing food products.

The bill also limits the amount of general purpose revenue DHS may expend on the healthy eating incentive pilot program to $425,000 per fiscal year. The purpose of the healthy eating incentive pilot program is to provide discounts on fresh produce and other healthy foods to FoodShare recipients. The bill also eliminates the time limit under current law for DHS to expend funds to contract with an entity to
administer the healthy eating incentive program. Under current law, DHS could not expend any money for the program after December 31, 2019, except for amounts already encumbered on or before that date.

**FSET requirement**

Current law requires DHS to require all able-bodied adults, with some limited exceptions, who seek benefits from the FoodShare program to participate in the FoodShare employment and training program, known as FSET, unless they are already employed. The bill eliminates that requirement for able-bodied adults with dependents while retaining the requirement for able-bodied adults without dependents.

**Eliminating FSET drug testing requirement**

2015 Wisconsin Act 55 required DHS to promulgate rules to develop and implement a drug screening, testing, and treatment policy, which DHS promulgated as DHS 38, Wis. Adm. Code. 2017 Wisconsin Act 370 incorporated into statutes DHS 38, relating to drug screening, testing, and treatment for recipients of FSET. The bill eliminates the requirement to implement a drug screening, testing, and treatment policy and removes from the statutes the language incorporated by Act 370.

**Eliminating FSET pay-for-performance requirement**

Current law requires DHS to create and implement a payment system based on performance for entities that perform administrative functions for FSET. DHS is required to base the pay-for-performance system on performance outcomes specified in current law. The bill eliminates the requirement for DHS to create a pay-for-performance system for FSET vendors.

**Medical Assistance**

**Medicaid expansion; elimination of childless adults demonstration project**

BadgerCare Plus and BadgerCare Plus Core are programs under the state’s Medical Assistance program, which provides health services to individuals who have limited financial resources. The federal Patient Protection and Affordable Care Act allows a state to receive an enhanced federal medical assistance percentage payment for providing benefits to certain individuals through a state’s Medical Assistance program. The bill changes the family income eligibility level to up to 133 percent of the federal poverty line for parents and caretaker relatives under BadgerCare Plus and for childless adults currently covered under BadgerCare Plus Core and who are incorporated into BadgerCare Plus in the bill. The bill requires DHS to comply with all federal requirements and to request any amendment to the state Medical Assistance plan, waiver of Medicaid law, or other federal approval necessary to qualify for the highest available enhanced federal medical assistance percentage for childless adults under the BadgerCare Plus program.

Under current law, certain parents and caretaker relatives with incomes of not more than 100 percent of the federal poverty line, before a 5 percent income disregard is applied, are eligible for BadgerCare Plus benefits. Under current law, childless adults who 1) are under age 65; 2) have family incomes that do not exceed 100 percent of the federal poverty line, before a 5 percent income disregard is applied; and 3) are not otherwise eligible for Medical Assistance, including BadgerCare Plus, are
SENATE BILL 111

eligible for benefits under BadgerCare Plus Core. The bill eliminates the childless adults demonstration project, known as BadgerCare Plus Core, as a separate program on July 1, 2021.

2017 Wisconsin Act 370 requires by statute that DHS implement the BadgerCare Reform waiver as it relates to childless adults as approved by the federal Department of Health and Human Services effective October 31, 2018. The 2015-17 and 2017-19 biennial budget acts required DHS to submit a waiver request to the federal Department of Health and Human Services authorizing DHS to take certain actions, including imposing premiums on, requiring a health risk assessment of, and limiting the time of eligibility for recipients of BadgerCare Plus under the childless adults demonstration project waiver. Act 370 required DHS to implement the childless adults BadgerCare Reform waiver by no later than November 1, 2019. If JCF determines that DHS has not complied with the implementation deadline, has not made sufficient progress in implementing the BadgerCare Reform waiver, or has not complied with other requirements relating to approved waiver implementation, Act 370 allows JCF to reduce from moneys allocated for state operations or administrative functions DHS’s appropriation or expenditure authority, whichever is applicable, or change the authorized level of full-time equivalent positions for DHS related to the Medical Assistance program. The bill eliminates the statutory implementation requirement for the BadgerCare Reform waiver, including the deadline and penalties, eliminates the statutory requirement for DHS to seek the waiver, and allows DHS to modify or withdraw the waiver.

Eliminating legislative review of Medicaid state plan amendments

The Medical Assistance program is the state’s Medicaid program and is jointly funded by the state and federal governments through a detailed agreement known as the state plan. 2017 Wisconsin Act 370 requires DHS to submit to JCF under its passive review process any proposed Medical Assistance state plan amendment and any proposed change to a reimbursement rate for or supplemental payment to a Medical Assistance provider that has an expected fiscal effect of $7,500,000 or more from all revenue sources over a 12-month period. The bill eliminates this requirement to submit for JCF review Medical Assistance state plan amendments, changes to reimbursement rates, or supplemental payments.

Eliminating legislative oversight over federal law waivers

2017 Wisconsin Act 370 prohibits DHS from submitting a request to a federal agency for a waiver or renewal, modification, withdrawal, suspension, or termination of a waiver of federal law or rules or for authorization to implement a pilot program or demonstration project unless legislation has been enacted specifically directing the submission of the request. For any legislation that requires submission of a request that has not yet been submitted, Act 370 requires DHS to submit an implementation plan to JCF and submit its final proposed request to JCF for approval. Act 370 requires DHS to take certain actions and submit monthly progress reports to JCF once a request has been submitted to the federal agency. When the federal agency has approved the request in whole or in part and the request has not been fully implemented, Act 370 requires DHS to submit its final implementation plan to JCF for approval. Act 370 allows JCF to reduce from moneys
allocated for state operations or administrative functions the agency’s appropriation or expenditure authority or change the authorized level of full-time equivalent positions for the agency related to the program for which the request is required to be submitted if JCF determines that the state agency has not made sufficient progress or is not acting in accordance with the enacted legislation requiring the submission of the request. The bill eliminates the requirement that legislation be enacted in order for DHS to submit a request for a waiver or renewal, modification, withdrawal, suspension, or termination of a waiver of federal law or rules or for authorization to implement a pilot program or demonstration project. The bill also eliminates the legislative review procedure for requests for waivers, pilot programs, or demonstration projects required by Act 370.

*Postpartum Medical Assistance coverage*

The bill extends the time that women who are eligible for Medical Assistance when pregnant continue to be eligible under Medical Assistance to the last day of the month in which the 365th day after the last day of the pregnancy falls. Under current law, postpartum women are eligible for Medical Assistance benefits until the last day of the month in which the 60th day after the last day of the pregnancy falls. The bill directs DHS to apply for any amendment to the state plan, any waiver to federal law, or any approval of a demonstration project necessary to implement the expansion of Medicaid coverage for pregnant women. However, the bill instructs DHS to reimburse providers for acceptable costs to pregnant women who meet eligibility standards regardless of whether any amendment, waiver, or demonstration project is accepted.

*Coverage of doula services under Medical Assistance*

The bill requires DHS to request any necessary waiver or amendment to the state Medical Assistance plan to allow Medical Assistance reimbursement for doula services and, if any necessary waiver or amendment is approved, directs DHS to reimburse certified doulas for doula services provided to Medical Assistance recipients. Doula services consist of childbirth education and support services, including emotional and physical support provided during pregnancy, labor, birth, and the postpartum period.

*Community health worker services*

The bill requires DHS to request any necessary waiver or amendment to the state Medical Assistance plan to allow Medical Assistance reimbursement for community health services. Under the bill, community health services are those services provided by a community health worker. A community health worker is one who serves as a liaison between health and social services and the community to facilitate access to services and improve the quality and cultural competence of service delivery, and who builds individual and community capacity by engaging in a range of activities such as outreach, community education, informal counseling, social support, and advocacy.

*Services that contribute to determinants of health*

The bill includes nonmedical services, as determined by DHS, that contribute to the determinants of health as a benefit under the Medical Assistance program.
 SENATE BILL 111

The Medical Assistance program is a joint federal and state program that provides health services to individuals who have limited financial resources. The bill requires DHS to seek any necessary state plan amendment or request any waiver of federal Medicaid law to provide the services but does not require DHS to provide the services as a Medical Assistance benefit if the federal Department of Health and Human Services does not provide federal financial participation for the services.

Coverage of group physical therapy under Medical Assistance

The bill directs DHS to promulgate rules by July 1, 2022, to include group physical therapy as one of the physical therapy services authorized for reimbursement under the Medical Assistance program. The bill allows DHS to promulgate emergency rules to authorize group physical therapy for reimbursement under the Medical Assistance program.

Coverage of substance abuse treatment room and board under Medical Assistance

The bill directs DHS to pay allowable charges on behalf of recipients of Medical Assistance for room and board for residential substance use disorder treatment.

Community-based psychosocial services

Currently, community-based psychosocial services provided to Medical Assistance recipients are reimbursed only when the federal government agrees to provide its financial participation for the services, when the recipient’s needs require more than outpatient level services but less than provided by a community support program, when the recipient’s county has made the services available, when the provider is certified by DHS under its rules, and when any other requirements established by DHS by rule are met. The bill allows DHS to also provide community-based psychosocial services to Medical Assistance recipients and provide reimbursement for those services through providers other than those made available by a county. Reimbursement to providers that are not county-based will be both the federal and nonfederal share based on a fee schedule that is determined by DHS. For a county that elects to provide the services, DHS must reimburse the county for the federal and nonfederal amount of allowable charges under the Medical Assistance program.

Medical Assistance program coverage of acupuncture services

The bill includes acupuncture that is provided by a certified acupuncturist as a reimbursable benefit under the Medical Assistance program. The bill requires DHS to submit to the federal government any request for federal approval necessary to provide the reimbursement for an acupuncture benefit under the Medical Assistance program.

Children’s long-term support waiver program

The bill requires DHS to ensure that any eligible child who applies for the disabled children’s long-term support waiver program receives services under that program. The disabled children’s long-term support waiver program provides services to children who have developmental, physical, or severe emotional disabilities and who are living at home or in another community-based setting.
SENATE BILL 111

**Acuity-based billing in nursing homes and community-based residential facilities**

Under current law, payment for health care provided in a nursing home or a community-based residential facility under the Medical Assistance program is determined by prospective payment systems updated annually by DHS. DHS is required to implement an acuity-based payment rate system for determining payments to nursing homes and community-based residential facilities for all allowable, non-billable services of a registered nurse, licensed practical nurse, or nurse aide. The bill makes several changes to the acuity-based payment rate system implemented by DHS to allow DHS to align the state’s rate-setting methodology with an updated Patient Driven Payment Model established by the federal Centers for Medicare and Medicaid Services. Currently, DHS follows a Resource Utilization Groupings model. Further, the bill allows DHS to use data from calendar years other than calendar year 2020 or calendar year 2021 if DHS determines that either or both of those years are inappropriate bases for prospective rate setting due to fluctuations in costs caused by the COVID-19 pandemic.

**Statewide minimum rate band for home and community-based long-term health care supports**

The bill directs DHS to develop a statewide rate band that would establish equitable and sustainable minimum rates for home and community-based long-term care supports. Home and community-based long-term care supports are Medical Assistance programs designed to deliver long-term care to patients in their own home or other community-based setting, rather than a nursing home or other institutional setting. The bill also requires DHS to include in its 2023–25 biennial budget request a proposal to implement the statewide rate band.

**Payments for direct care in nursing and intermediate care facilities**

The bill requires DHS to increase Medical Assistance payments, from the increase in reimbursement for nursing facilities, also known as nursing homes, and intermediate care facilities for persons with an intellectual disability, by an amount specified in the bill, including the state and federal shares, to support staff who provide direct care to residents of those facilities.

**Hospital assessment**

Currently, each hospital, including each critical access hospital, must pay an assessment for the privilege of doing business in Wisconsin. The percentage of gross patient revenues that each hospital must pay is adjusted so that the total amount of assessments collected for all hospitals that are not critical access hospitals totals $414,507,300 in each state fiscal year. The same percentage of gross patient revenues is also assessed on critical access hospitals, though the amount is collected separately from and deposited into a separate fund from that of other hospitals. Current law requires DHS to use a portion of this total to pay for services provided by hospitals under the Medical Assistance program, including the federal and state share of Medical Assistance, in a total amount that equals the amount collected from hospitals divided by 61.68 percent. Similarly, current law requires DHS to use a portion of the amount collected from critical access hospitals to make payments to
critical access hospitals for Medical Assistance services in a total amount that equals the amount collected from critical access hospitals divided by 61.68 percent. The bill decreases the 61.68 percent to 53.69 percent if the state adopts the Medicaid expansion, thus increasing the amount of payments that must be made to critical access hospitals and other hospitals under the Medical Assistance program. The Medicaid expansion, as authorized under the Patient Protection and Affordable Care Act, allows a state to provide benefits under the Medicaid program to individuals who have an income up to 133 percent of the federal poverty line and who were previously ineligible for Medicaid, and in exchange, the Affordable Care Act then provides that the federal government pays an increased percentage of the cost of the benefits for those newly eligible individuals.

*Medical Assistance reimbursement rates for direct care in personal care agencies*

The bill requires DHS to increase the reimbursement rates paid for direct care under the Medical Assistance program to agencies that provide personal care services to support staff in those agencies that provide direct care. For purposes of Medical Assistance, “personal care services” are defined as medically oriented activities that assist recipients with activities of daily living that are necessary to maintain the individual in his or her residence in the community, such as eating, bathing, dressing, meal preparation, or shopping for food.

*Disproportionate share hospital payments*

Current law requires DHS to make payments under the Medical Assistance program to hospitals that serve a disproportionate share of low-income patients. These hospitals are referred to as “disproportionate share hospitals,” and the payments are known as DSH payments. DHS must pay $27,500,000 in each fiscal year, cumulatively, as the state share of DSH payments and must also pay to the disproportionate share hospitals the amounts contributed by the federal government. For a hospital to receive a DSH payment under current law, the hospital must be a Wisconsin hospital providing a wide array of services that meets applicable requirements under federal law and for which at least 6 percent of all total inpatient days at the hospital are Medical Assistance recipients’ inpatient days. Current law provides mechanisms for determining how DSH payments are distributed among eligible hospitals and imposes some limits on payments, including that no single hospital may receive more than $4,600,000 per fiscal year. The bill increases, if the state adopts the Medicaid expansion, the state share of the cumulative amount of DSH payments in a fiscal year to $47,500,000 and increases the single hospital limit to $7,950,000. The Medicaid expansion, as authorized under the Patient Protection and Affordable Care Act, allows a state to provide benefits under the Medicaid program to individuals who have an income up to 133 percent of the federal poverty line and who were previously ineligible for Medicaid, and in exchange, the Affordable Care Act then provides that the federal government pays an increased percentage of the cost of the benefits for those newly eligible individuals.
**SENATE BILL 111**

**Critical access reimbursement payments to dental providers**

The bill requires DHS to provide enhanced reimbursement payments under the Medical Assistance program to dental providers who meet certain qualifications. In order to qualify, a provider must meet quality of care standards established by DHS. In addition, at least 50 percent of individuals served by a nonprofit or public provider must be without dental insurance or enrolled in the Medical Assistance program for the provider to qualify for enhanced reimbursement, and a for-profit provider must have at least 5 percent of patients enrolled in the Medical Assistance program.

For services rendered by a qualified nonprofit or public dental provider, DHS must increase reimbursement by 50 percent above the reimbursement rate otherwise paid to that provider. For services provided by a qualified for-profit provider, DHS must increase reimbursement by 30 percent above the reimbursement rate otherwise paid to that provider. For qualified providers serving individuals in managed care under the Medical Assistance program, DHS must increase reimbursement to pay an additional amount on the basis of the rate that would have been paid to the provider had the individual not been enrolled in managed care. If a provider has more than one service location, reimbursement is determined separately for each location. Under the bill, any providers receiving reimbursement through the existing dental reimbursement pilot project are not eligible for critical access reimbursement payments.

**Eliminating prescription drug copayments under Medical Assistance**

Under current law, states may require recipients of Medical Assistance to contribute a share of the costs of their health care. Such a contribution is referred to as a copayment or cost sharing. The bill eliminates all copayment requirements for prescription drugs under the state Medical Assistance plan and specifies that the receipt of prescription drugs is a service that is not subject to recipient cost sharing.

**Payments to tribes for medical assistance administration**

The bill directs DHS to make payments to eligible tribal governing bodies or tribal health care providers for the administration and reimbursement of Medical Assistance services. DHS must determine payment amounts on the basis of the difference between the state share of Medical Assistance payments paid for services rendered to tribal members for whom a care coordination agreement is in place and the state share of Medical Assistance payments that would have been paid for those services absent care coordination agreements. The bill specifies that care coordination agreements must be in compliance with federal requirements.

**Children**

**Qualified residential treatment programs**

The bill allows for the certification of qualified residential treatment programs and establishes certain procedures that apply when a child is placed in one.

The bill allows DCF to certify a residential care center for children and youth, group home, or shelter care facility to operate a qualified residential treatment program (QRTP) if it determines that the program meets the federal requirements for such a program to receive Title IV-E child welfare funding and DCF’s requirements for such a program. The bill allows DCF to monitor compliance with
certification requirements, including by inspection authority, and to deny, suspend, restrict, refuse to renew, or otherwise withhold a certification for failure to comply with those requirements. Under the bill, DCF may promulgate rules for the establishment, certification, operation, and monitoring of, and the placement of a child in, a QRTP.

Currently, when a child or juvenile (collectively referred to as “child”) alleged or adjudged to be in need of protection or services is removed from his or her home in a proceeding under the Children’s Code or Juvenile Justice Code, the agency responsible for that child’s removal is required to prepare a permanency plan, designed to ensure that the child is reunified with his or her family whenever appropriate, or that the child quickly attains a placement or home providing long-term stability. Current law requires the juvenile court to periodically review the plan and to periodically hold a hearing on the plan.

Under the bill, if a child is placed in a certified QRTP, the agency must assemble a family permanency team to participate in permanency planning for the child, and invite appropriate biological family members, relatives, like-kin, and professionals who serve as a resource for the family to participate. The bill requires the agency to include in the permanency plan information about the family permanency team and its meetings and recommendations.

The bill requires that, in a review or hearing on a permanency plan for a child who is placed in a certified QRTP, the agency that prepared the permanency plan must present to the juvenile court certain information that the juvenile court must consider when determining the continuing necessity for and the safety and appropriateness of the placement, including 1) whether the placement is supported by assessment of the child’s needs, is the most effective and appropriate level of care in the least restrictive environment, and meets the goals for the child in the permanency plan; 2) the specific treatment or service needs that the placement will meet and how long the child will need that treatment or service; and 3) the efforts made by the agency to prepare the child to return home or to be placed with a relative, guardian, or adoptive parent or in a foster home.

Under the bill, if a child is placed or proposed to be placed in a certified QRTP in juvenile court proceedings for a temporary physical custody (TPC) hearing, a change in placement (CIP), consent decree, or a disposition, a qualified individual must conduct an assessment, using a tool determined by DCF, of the strengths and needs of the child to determine the appropriateness of that placement (standardized assessment). The bill creates a definition for “qualified individual” to match the term used in federal law, meaning a trained professional or licensed clinician who is not an employee of the state and who is not connected to, or affiliated with, any placement setting in which children are placed by the state. The federal law definition provides that a state may request a waiver from this definition, and on December 14, 2020, Wisconsin requested such a waiver to allow state and county child welfare staff to serve as qualified individuals.

The bill requires the qualified individual to develop a recommendation on all of the following: 1) whether the proposed placement will provide the child with the most effective and appropriate level of care in the least restrictive environment; 2)
how the placement is consistent with the short-term and long-term goals for the child in the permanency plan; 3) the reasons why the child’s needs can or cannot be met by the child’s family or in a foster home (and a shortage or lack of foster homes is not an acceptable reason); and 4) the placement preference of the family permanency team and, if it is not the placement recommended by the qualified individual, why that recommended placement is not preferred. Then, depending on the type of proceeding, the intake worker, agency primarily responsible for providing services under a temporary custody, person or agency primarily responsible for implementing the dispositional order, or agency appointed as the guardian of the child must submit the standardized assessment and the qualified individual’s recommendation to the juvenile court and any person who is required to receive a copy of the notice or request in the proceeding.

Under the bill, the standardized assessment and recommendation must be submitted by the time of a TPC hearing, by the time the notice or request is filed in a CIP proceeding, by the time the consent decree is entered, or by the time the disposition report is filed. With respect to most CIP proceedings, if not available by the time the notice or request is filed, the bill generally requires it to be submitted within 10 days after the filing of the CIP notice, except this does not apply to a CIP requested by someone other than the intake worker, agency, district attorney, or corporation counsel or from in-home to out-of-home, to a consent decree, or to a disposition. In all cases, if the required information is not available by these first deadlines, it must be submitted no later than 30 days after the date on which the placement is made.

The bill requires the juvenile court to make the following findings when it issues an order placing a child in a certified QRTP: 1) whether the needs of the child can be met through placement in a foster home; 2) whether placement of the child in a certified QRTP provides the most effective and appropriate level of care for the child in the least restrictive environment; 3) whether the placement is consistent with the short-term and long-term goals for the child in the permanency plan; and 4) whether the juvenile court approves or disapproves the placement. The answers to these questions do not affect whether the placement may be made. If the standardized assessment and recommendation of the qualified individual are not available at the time of this order, the bill requires the juvenile court to defer making the findings. However, by no later than 60 days after the date on which the placement was made the juvenile court must issue an order making those findings.

The bill requires that, for youth in out-of-home care who are parenting or pregnant, a permanency plan must include 1) a list of the services or programs to be provided to or on behalf of the child to ensure that the child, if pregnant, is prepared and, if a parent, is able to be a parent; and 2) the out-of-home care prevention strategy for any child born to the parenting or pregnant child.

**Foster and kinship care rates**

The bill increases the rates that are paid to a foster parent or a kinship care relative (a relative other than a parent) who is providing care and maintenance for a child.
SENATE BILL 111

The bill increases the monthly basic maintenance rates that are paid by the state or a county to all foster parents for the care and maintenance of a child by 2.5 percent beginning on January 1, 2022, and increases the age-based monthly basic maintenance rates paid to parents providing higher than level one care by an additional 2.5 percent beginning on January 1, 2023. Beginning on January 1, 2022, the monthly rates are $300 for a child of any age in a foster home certified to provide level one care and, for a foster home certified to provide higher than level one care, $431 for a child under five years of age, $472 for a child 5 to 11 years of age, $535 for a child 12 to 14 years of age, and $559 for a child 15 years of age or over. Beginning on January 1, 2023, the monthly rates for a foster home certified to provide higher than level one care are increased to $442 for a child under five years of age, $484 for a child 5 to 11 years of age, $548 for a child 12 to 14 years of age, and $573 for a child 15 years of age or over.

The bill also increases the monthly basic maintenance rates that are paid by the state or a county to a kinship care relative (a relative other than a parent) who is providing care and maintenance for a child. These rates are the same as for a foster home certified to provide level one care.

Youth aids; allocations

Under current law, DCF is required to allocate to counties community youth and family aids (youth aids) funding. Youth aids funding comes from various state and federal moneys and is used to pay for state-provided juvenile correctional services and local delinquency-related and juvenile justice services. The bill updates the allocation of youth aids funding that is available to counties for the 2021-23 fiscal biennium.

Under current law, some of the youth aids funding is allocated to reimburse counties that are purchasing community supervision services from DOC for juveniles, and some of the funding is allocated for alcohol and other drug abuse treatment programs. The bill eliminates these earmarks and instead provides that DCF may use youth aids funding to reimburse counties for the costs associated with the care and maintenance of juveniles who are adjudged delinquent and who are placed in certain secured juvenile facilities under the supervision of a county or the state.

Youth aids; administration

Current law allocates some youth aids for the purchase of juvenile correctional services, emergencies, provision of community supervision services for juveniles, and for alcohol and other drug abuse treatment programs. Also under current law, DCF may award funding to counties for early intervention services for first offenders under the Community Intervention Program (CIP).

The bill replaces CIP with the Youth Justice System Improvements Program. Under the bill, DCF may use funding for the Youth Justice System Improvements Program to support diversion programs, to address emergencies related to youth aids, or to fund other activities required of DCF under youth aids.

Under current law, youth aids funding is allocated to counties on a calendar year basis. Youth aids funds that are not spent in the calendar year can be carried forward three ways: 1) DCF may carry forward 5 percent of a county’s allocation for
SENATE BILL 111

that county for use in the subsequent calendar year; 2) DCF may carry forward $500,000 or 10 percent of its unspent youth aids funds, whichever is larger, for use in the subsequent two calendar years; and 3) DCF may carry forward any unspent emergency funds for use in the subsequent two calendar years.

The bill changes the way that unspent youth aids are reallocated. Under the bill, DCF may still carry forward 5 percent of a county’s allocation for that county to use in the next calendar year. However, instead of carrying forward $500,000 or 10 percent of its unspent youth aids funds, whichever is larger, for use in the next two calendar years, under the bill, DCF may transfer 10 percent of unspent youth aids funds to the Youth Justice System Improvements Program.

**Child abuse and neglect prevention program; home visitation**

Under current law, DCF provides funding to counties, cities, private agencies, and Indian tribes to provide home visitation program services to individuals who are determined, through a risk assessment, to be at risk of poor birth outcomes or of abusing or neglecting his or her child. The bill requires DCF to allocate an additional $500,000 per year to the Nurse Family Partnership home visitation program in Milwaukee county, beginning in fiscal year 2021-22.

**Recruitment for adoptive placements**

The bill requires DCF to provide $300,000 annually to the Wendy’s Wonderful Kids program at the Children’s Hospital of Wisconsin, which provides support in finding adoptive placements for children with special needs in foster care. The bill specifies that the funding is to recruit adoptive placements for children in Milwaukee County.

**Grants to support foster parents and children**

2017 Wisconsin Act 260 established a one-year pilot program for DCF to distribute grants to counties, nonprofit organizations, and tribes for the purpose of supporting foster parents and providing normalcy for children in out-of-home care. The bill makes the grant program permanent and specifies that grants under the program may be distributed for the purpose of sibling reconnection.

**Five-county pilot program for representation of parents in CHIPS proceedings.**

Under current law, a parent is generally not entitled to representation by a public defender in a proceeding under the Children’s Code in which a child is alleged to be in need of protection or services. However, a pilot program that began in 2018 requires the state public defender to assign counsel to any nonpetitioning parent in these cases in the counties of Brown, Outagamie, Racine, Kenosha, and Winnebago. This five-county pilot program is set to expire on June 30, 2021. The bill extends the expiration date of the pilot program to June 30, 2023.

**Congregate care facility staff training**

The bill specifies that DCF is authorized to provide training to staff or contractors of a congregate care facility or a child welfare agency.

**Grants for youth services**

The bill consolidates certain DCF youth services programs into a new youth services grant program. Under current law, the following DCF programs provide
SENATE BILL 111

youth services: grants for services for homeless and runaway youth, treatment and services for children who are the victims of sex trafficking, grants for children’s community programs, and the Brighter Futures Initiative. Under the bill, these programs are consolidated into the youth services grant program, under which DCF must distribute grants to public agencies, nonprofit corporations, and Indian tribes to provide programs that accomplish one or more of the following purposes:

1. Increasing youth access to housing.
2. Increasing youth self-sufficiency through employment, education, and training.
3. Increasing youth social and emotional health by promoting healthy and stable adult connections, social engagement, and connection with necessary services.
4. Preventing sex trafficking of children and youth.
5. Providing treatment and services for documented and suspected victims of child and youth sex trafficking.
6. Preventing and reducing the incidence of youth violence and other delinquent behavior.
7. Preventing and reducing the incidence of youth alcohol and other drug use and abuse.
8. Preventing and reducing the incidence of child abuse and neglect.
9. Preventing and reducing the incidence of teen pregnancy.

Under current law, DCF must allocate in each fiscal year specific amounts of money, including federal moneys received under the Temporary Assistance for Needy Families (TANF) block grant program, for various public assistance programs, including $500,000 for the Brighter Futures Initiative for programs to provide evidence-based programs and practices for substance abuse prevention to at-risk youth and their families. Under the bill, this amount is allocated instead to the grants for youth services.

Under current law, DHS transfers amounts to DCF for the Brighter Futures Initiative. Under the bill, DHS transfers those amounts to DCF for the grants for youth services. The bill maintains a requirement, currently under the Brighter Futures Initiative, that DCF distribute $55,000 in each fiscal year to Diverse and Resilient, Inc., to provide youth services, as part of the new youth services grant program.

Safety promotion and placement prevention services

The bill creates new authority for DCF to provide funding for services or to provide direct evidence-based services or support to agencies for the provision of evidence-based services aimed at preventing the removal of children from the home under the Children's Code and the Juvenile Justice Code.

The bill also creates a new GPR appropriation for DCF to provide services that allow a child to remain at home in lieu of an out-of-home placement.

Children and family services

Under current law, DCF must distribute not more than $80,125,200 in fiscal year 2019–20 and $101,145,500 in fiscal year 2020–21 to counties for children and family services. The bill increases the maximum amount DCF must distribute to
SENATE BILL 111

counties for these services to $106,389,600 in fiscal year 2021-22 and $111,868,900 in fiscal year 2022-23.

Diversity, equity, and inclusion grants

The bill requires DCF to award grants to public, private, or nonprofit entities that promote diversity and advance equity and inclusion.

HEALTH

Requiring hospitals to allow designation of a caregiver

The bill requires hospitals to provide a patient or, if applicable, a patient’s legal guardian with an opportunity to designate a caregiver who will receive, before the patient is discharged from the hospital, instruction regarding assistance with the patient’s care after discharge.

Under the bill, a hospital must, no later than 24 hours following a patient’s admission to a hospital and before the patient is discharged or transferred, provide at least one opportunity for a patient or, if applicable, a patient’s legal guardian to designate at least one caregiver. If a patient is unconscious or otherwise incapacitated when admitted, the hospital shall provide an opportunity for caregiver designation within 24 hours after the patient regains consciousness or capacity. If a patient or legal guardian designates a caregiver, a hospital must promptly record the name and contact information of the caregiver. If a patient or legal guardian declines to designate a caregiver, the hospital must also promptly document that information. Patients are not required to designate a caregiver under the bill and, further, the designation of a caregiver does not obligate any individual to provide aftercare for the patient. A patient may elect to change the designated caregiver at any time, and the hospital must record the change within 24 hours.

The bill requires that if a patient designates a caregiver, the hospital must promptly request written consent to release medical information to the patient’s caregiver. If the patient or the patient’s legal guardian declines to provide consent, the hospital is relieved of its notification and consultation obligations.

Under current law, patient medical records are kept confidential except in certain limited circumstances, including if a patient or a person authorized by the patient gives consent to the disclosure. Even without agreement, a health care provider may provide to the patient’s immediate family, another relative, a close personal friend of the patient, or an individual identified by the patient, that portion of information from the health care record directly relevant to that individual’s involvement in the patient’s care. The bill adds designated caregivers to the list of individuals permitted access to information directly relevant to that individual’s involvement in the patient’s care.

Pediatric inpatient supplement

The bill establishes in statute reference to supplemental funding totaling $2,000,000 to be distributed by DHS to certain acute care hospitals located in Wisconsin that have a total of more than 12,000 inpatient days in the hospital’s acute care pediatric units and intensive care pediatric units, not including neonatal intensive care units. In addition, under the bill, DHS may distribute additional funding of $7,500,000 in each state fiscal year to hospitals that are free-standing...
SENATE BILL 111

pediatric teaching hospitals located in Wisconsin that have a Medicaid inpatient utilization rate greater than 45 percent if DHS has expanded eligibility for the Medical Assistance program under the federal Patient Protection and Affordable Care Act.

**Tailored caregiver assessment and referral (TCARE) pilot program**

The bill requires DHS to conduct, during fiscal year 2021-22, a one-year Tailored Caregiver Assessment and Referral pilot program as described in the September 2020 report of the Governor’s Task Force on Caregiving. Tailored Caregiver Assessment and Referral, commonly referred to as TCARE or a family caregiver survey, is an evidence-based care management protocol designed to support family members who are providing care to adults of any age with chronic or acute health conditions. TCARE includes both a pre-screening tool and a full assessment that seeks information from the family or informal caregiver in order to assess their health and well-being, stress levels, challenges, skills needed to perform care, their informal support system, and strengths that enable them to provide care.

**Title V and Title X family planning funding**

Current law requires DHS to apply for federal Title X grant funds and to distribute any funds received to public entities for family planning and related preventive health services. The bill eliminates that requirement.

Under current law, DHS must allocate women’s health funds, which are federal Title V funds and women’s health block grant funds, to develop and maintain an integrated system of community health services and maximize coordination of family planning services. Current law excludes from the definition of “family planning” the performance, promotion, encouragement, or counseling in favor of, or referral either directly or through an intermediary for, voluntary termination of pregnancy but includes in the definition of “family planning” the provision of nondirective information explaining prenatal care and delivery or infant care, foster care, or adoption. DHS must distribute women’s health funds only to public entities. Currently, those public entities may provide some or all of the funds to other public entities or private entities as long as the recipients of the funds do not provide abortion services, make referrals for abortion services, or have an affiliate that provides abortion services or makes referrals for abortion services. The bill retains the authorization for the public entity that receives funds from DHS to provide some or all of the funds to other public or private entities but eliminates the restriction on which public or private entities may receive those funds. The bill also includes in the definition of “family planning” the provision of nondirective information explaining pregnancy termination.

**Grants to free and charitable clinics**

Under current law, DHS is required to award grants each fiscal year to several classes of community health centers. A community health center is a health care entity that provides primary health care, health education, and social services to low-income individuals. The 2019 biennial budget act, 2019 Wisconsin Act 9, required DHS to annually award $500,000 in grants to free and charitable clinics from the same community health services appropriation. The bill continues the grant for free and charitable clinics and directs DHS to annually award $2,500,000
in grants to free and charitable clinics. The bill defines “free and charitable clinics” as health care organizations that use a volunteer and staff model to provide health services to uninsured, underinsured, underserved, economically and socially disadvantaged, and vulnerable populations and that meet criteria specified in the bill.

**Black women’s health and infant and maternal mortality**

The bill instructs DHS to annually award $1,750,000 in grants to community-serving organizations that are led by Black women that improve Black women’s health in Dane, Milwaukee, Rock, and Kenosha Counties. Further, the bill directs DHS to annually award $1,750,000 in grants to organizations that work to reduce racial disparities related to infant and maternal mortality. Additionally, the bill instructs DHS to award a grant totaling $500,000 in fiscal year 2021-22 and another grant totaling $500,000 in fiscal year 2022-23 to an entity to coordinate efforts between the state, public and private sector organizations, and community organizations to support a statewide strategy to advance Black women’s health.

**Alzheimer’s family and caregiver support**

Under current law, DHS distributes funds for certain community aids, including for the Alzheimer’s family and caregiver support program. The bill increases the community aid funding available for the Alzheimer’s family and caregiver support program from not more than $2,558,900 each fiscal year to not more than $3,058,900 each fiscal year, and broadens financial eligibility for the program by increasing the maximum joint income an individual and the individual’s spouse may earn per year and remain financially eligible from $48,000 to $55,000.

**Health equity grants**

The bill directs DHS to award grants to community organizations to implement community health worker care models. The bill also directs DHS to award grants to community organizations and local or tribal health departments to hire health equity strategists and to implement health equity action plans.

**Lead screening and outreach grants**

Under current law, DHS must award grants related to lead poisoning and lead exposure prevention. The bill increases the amount of money granted to fund lead screening and outreach activities at community-based human service agencies that provide primary health care, health education, and social services to low-income individuals in first class cities from $125,000 each fiscal year to $175,000. Currently, the only first class city is Milwaukee.

**Wisconsin drug repository program**

Under current law, DHS is required to maintain a drug repository program under which persons may donate certain drugs or supplies that may be used by other individuals identified by the department by rule. The bill allows DHS to partner with out-of-state drug repository programs. The bill also allows out-of-state persons to donate to the drug repository program in Wisconsin, and persons in Wisconsin to donate to participating drug repository programs in other states. Further, the bill directs DHS to study and implement a centralized physical drug repository program.
SENATE BILL 111

Surgical quality improvement grant

The bill allows, but does not require, DHS to award a onetime grant up to a total amount of $335,000 in fiscal year 2021-22 to support surgical quality improvement activities. The bill allows DHS to transfer moneys appropriated for this grant from fiscal year 2021-22 to fiscal year 2022-23.

Spinal cord injury research grants and symposia

The bill requires DHS to establish a program to award grants to persons in this state for research into spinal cord injuries. The grants must support research into new and innovative treatments and rehabilitative efforts for the functional improvement of people with spinal cord injuries. Research topics may include pharmaceutical, medical device, brain stimulus, and rehabilitative approaches and techniques. DHS must make annual reports to the legislature about the grants. The bill also allows DHS to hold symposia every two years for grant recipients to present their research findings. The bill biennially appropriates general purpose revenues not exceeding $3,000,000 for the grants and symposia.

The bill also requires DHS to appoint a Spinal Cord Injury Council with one member representing the University of Wisconsin School of Medicine and Public Health, one member representing the Medical College of Wisconsin, and the following members: 1) a person with a spinal cord injury; 2) a family member of a person with a spinal cord injury; 3) a veteran with a spinal cord injury; 4) a physician specializing in the treatment of spinal cord injuries; 5) a neurosurgery researcher; and 6) a researcher employed by the Veterans Health Administration of the U.S. Department of Veterans Affairs. If DHS is unable to appoint any of the foregoing members, the bill allows DHS to appoint, in lieu of that member, a member representing the general public. Members of the council have two-year terms. The bill requires the council to develop criteria for DHS to evaluate and award grants, review and make recommendations on grant applications, and perform other duties specified by DHS. Council members must make written disclosures of financial interests in organizations that the council recommends for grants.

Public health campaign to prevent tobacco and vapor product use

The bill allows DHS to develop and carry out a public health campaign aimed at the prevention of initiation of tobacco and vapor product use. The bill also allows DHS to distribute grants to local and regional organizations working on youth vaping and providing cessation services.

Direct support professional training pilot program

The bill directs DHS to develop and implement a pilot program in the 2021-23 biennium to provide person-centered direct support professional training to achieve consistent standards of health care practice. The bill instructs DHS to collaborate with DWD, TCS, and health care providers in developing and implementing the pilot program. Further, the bill directs DHS to develop a career plan that describes the steps that lead to potential certification as a nurse aide.
BEHAVIORAL HEALTH AND DEVELOPMENTAL DISABILITIES

Guardianship training requirements

The bill establishes mandatory initial training requirements for certain guardians. Under current law, a guardian of the person is a person appointed by a court to act to secure any necessary care or services for the ward that are in the ward's best interests, and a guardian of the estate is a person appointed by a court to provide a ward with the greatest amount of independence and self-determination with respect to property management. Currently, there are no training requirements for guardians of the person or guardians of the estate.

Under the bill, guardians of the person must complete training on all of the following topics: 1) the duties and responsibilities of a guardian of the person under the law and limits of the guardian of the person's decision-making authority; 2) alternatives to guardianship, included supported decision-making and powers of attorney; 3) rights retained by the ward; 4) best practices for a guardian to solicit and understand the wishes and preferences of a ward, to involve a ward in decision-making, and to take a ward's wishes and preferences into account in decisions made by the guardian; 5) restoration of a ward's rights and the process for removal of guardianship; 6) future planning and identification of a potential standby or successor guardian; and 7) resources and technical support for guardians. The bill also requires that guardians of the estate complete training on the duties and responsibilities of a guardian of the estate under the law, limits of a guardian of the estate's decision-making authority, and inventory and accounting requirements. The bill provides limited exemptions for guardians of minors and children and certain corporate and volunteer guardians.

Under the bill, a proposed guardian of the person or a proposed guardian of the estate must submit, as part of the guardianship case, a sworn and notarized statement to the court that the proposed guardian has completed the training requirements.

The bill requires DHS to award a grant to administer and conduct the required guardian training. DHS must require, in the request for proposal, that the grantee have expertise in state guardianship law, experience with technical assistance and support to guardians and wards, and knowledge of common challenges and questions encountered by guardians and wards. In addition, the grantee selected to develop training shall develop plain-language, web-based training modules using adult-learning design principles that can be accessed for free by training topic and in formats that maximize accessibility, with printed versions available for free upon request.

Early intervention services for children with lead in their blood

Under current law, DHS implements a statewide program, referred to as the Birth to 3 program, that provides early intervention services for children aged three and under who are developmentally delayed or are diagnosed as having a condition that is likely to result in significantly delayed development. The bill ensures that children with a concentration of lead in their blood of at least 5 micrograms per 100 milliliters of blood are eligible for services under the Birth to 3 program.
SENATE BILL 111

Crisis response system

The bill requires DHS to award grants to entities to provide a continuum of mental health crisis services, including crisis urgent care and observation centers, crisis stabilization and inpatient psychiatric beds, and crisis stabilization facilities. DHS must also award up to five grants for services at facilities providing crisis stabilization services. The bill also allows DHS to create a certification for crisis urgent care and observation centers and establish criteria for that certification by rule. If DHS creates the certification, then no one may operate a crisis urgent care and observation center without a certification.

Bed tracking system

Currently, DHS is required to award a grant to the entity that collects data on hospitals for the purpose of developing and operating a system to show the availability of inpatient psychiatric beds. To receive the grant, the entity must use a secure website to allow reporting of and access to information on the availability and location of psychiatric beds by hospitals and inpatient units. The bill expands the system to include reporting of availability of peer run respite and crisis stabilization beds by facilities, centers, and programs and expands access to the system to county departments and any other entity that is involved in identifying placement options. The bill also increases the amount of the grant awarded in each fiscal year.

Crisis program enhancement grants

The bill expands the crisis program enhancement grant program to include grants to establish and enhance law enforcement and behavioral health emergency response collaboration services and grants to Milwaukee County to enhance mobile crisis teams. Under current law, the program requires DHS to award grants to counties or regions of counties to establish or enhance crisis programs to serve individuals having crises in rural areas. The bill instructs DHS to annually award at least $1,250,000 to establish and enhance law enforcement and behavioral health services emergency response collaboration programs, and at least $850,000 to Milwaukee County to enhance mobile crisis teams.

The bill requires any entity, including a county or region, that receives a grant to establish and enhance law enforcement and behavioral health services emergency response collaboration programs to contribute at least 25 percent of the grant amount awarded for the purpose that the grant money is received.

County crisis call center support

Under current law, DHS awards several grants during each fiscal biennium to certain entities for various programs involving mental health and crisis intervention. The bill directs DHS to annually award grants to support mental health professionals to provide supervision and consultation to individuals who support crisis call center services. The bill specifies that each county or multicounty program that receives supervision and consultation services from a mental health professional awarded a grant under this program shall contribute at least 10 percent of the costs of the services that the mental health professional incurs for the purpose that the grant is received.
SENATE BILL 111

Trauma response teams

The bill directs DHS to annually award a grant equal to $450,000 for the Milwaukee Trauma Response Team, which is a joint venture between the City of Milwaukee, the Milwaukee Police Department, and Wraparound Milwaukee's Mobile Urgent Treatment Team to provide support and guidance for children who have witnessed or have been exposed to potentially traumatic events.

Deaf, Hard of Hearing, and Deaf-Blind Behavioral Health Treatment Center

The bill allows DHS, as part of the grants DHS is required to award for community programs, to distribute up to $1,936,000 in each fiscal year starting with fiscal year 2022–23 to a statewide provider of behavioral health treatment services for individuals who are deaf, hard of hearing, or deaf-blind.

Opioid and methamphetamine data system

The bill requires DOA to issue a request for proposals to establish and maintain an opioid and methamphetamine data system to collect, format, analyze, and disseminate information on opioid and methamphetamine use as specified in the bill. DOA must collaborate with and collect data from DHS, DOC, DOJ, DSPS, and DCF and any other applicable agencies for the opioid and methamphetamine data system. Under the bill, DOA administers the contract with a vendor to operate the opioid and methamphetamine data system, has access to the data contained in the opioid and methamphetamine data system, and works with the vendor to disseminate information and advanced analytics from the opioid and methamphetamine data system in as close to real time as possible. The opioid and methamphetamine data system must allow the state agencies that submit data to the opioid and methamphetamine data system access to the data in the opioid and methamphetamine data system as appropriate for the agency to fulfill its functions and as allowed by state and federal confidentiality laws. The bill requires DOA to submit a report to the governor and appropriate standing committees of the legislature summarizing the information from the opioid and methamphetamine data system and analyzing trends in that information across years of data collection.

Behavioral health technology grants

The bill appropriates general purpose revenue to DHS to provide grants to behavioral health providers to implement electronic health records systems and connect to health information exchanges.

Medication-assisted treatment grants

The bill directs DHS, as part of the grants DHS is required to award for community programs, to award up to $500,000 in grants in fiscal year 2021–22 and then up to $1,000,000 annually thereafter to develop or support entities that offer medication-assisted treatment. Medication-assisted treatment addresses opioid use disorder and opioid dependence.

Substance use harm reduction grant

The bill allows DHS, as part of the grants DHS is required to award for community programs, to annually award up to $250,000 to organizations with
SENATE BILL 111

comprehensive harm reduction strategies for the development or support of
substance use harm reduction programs, as determined by DHS.

**Addiction treatment platform**

The bill directs DHS to contract in fiscal year 2022–23 for the development of
a substance use disorder treatment platform that allows for the comparison of
substance use disorder treatment programs in the state. Substance use disorder
treatment programs treat individuals for substance use disorder by offering services
including counseling, medication management, and recovery coaching. The bill
requires that DHS may spend no more than $300,000 on the contract.

**Training for methamphetamine addiction treatment**

The bill appropriates general purpose revenue to DHS to provide grants to
provide trainings to substance use disorder treatment providers on treatment
models for methamphetamine addiction.

**GENERAL HEALTH AND HUMAN SERVICES**

**Making references in the statutes gender neutral**

The bill recognizes same-sex marriage by making references in the statutes to
spouses gender neutral, with the intent of harmonizing the Wisconsin Statutes with
the holding of the U.S. Supreme Court in *Obergefell v. Hodges*, 135 S. Ct. 2584, 192
L. Ed. 2d 609 (2015), which recognizes that same-sex couples have a fundamental
constitutional right to marriage. The bill also recognizes legal parentage for
same-sex couples under certain circumstances and adopts gender neutral parentage
terminology.

The bill provides that marriage may be contracted between persons of the same
sex and confers the same rights and responsibilities on married persons of the same
sex that married persons of different sexes have under current law. The bill defines
“spouse” as a person who is legally married to another person of the same sex or a
different sex and replaces every reference to “husband” or “wife” in current law with
“spouse.” The bill makes applicable to married persons of the same sex all provisions
under current law that apply to married persons of different sexes. These provisions
relate to such diverse areas of the law as income tax, marital property, inheritance
rights, divorce, child and spousal support, insurance coverage, family and spousal
recreational licenses, consent to conduct an autopsy, domestic abuse, and eligibility
for various types of benefits, such as retirement or death benefits and medical
assistance.

In addition to making statutory references to spouses gender neutral, the bill
specifies ways in which married couples of the same sex may be the legal parents of
a child and, with some exceptions, makes current references in the statutes to
“mother” and “father,” and related terms, gender neutral.

Under current law, all of the following may adopt a child: a husband and wife
jointly, a husband or wife whose spouse is the parent of the child, and an unmarried
adult. Because the bill makes references in the statutes to spouses gender neutral,
same-sex spouses jointly may adopt a child and become the legal parents of the child,
and a same-sex spouse of a person who is the parent of a minor child may adopt the
child and become the legal parent of his or her spouse’s child.
Under current law, if a woman is artificially inseminated under the supervision of a physician with semen donated by a man who is not her husband and the husband consents in writing to the artificial insemination of his wife, the husband is the natural father of any child conceived. Under the bill, one spouse may also consent to the artificial insemination of his or her spouse and is the natural parent of the child conceived. The artificial insemination is not required to take place under the supervision of a physician, but, if it does not, the semen used for the insemination must have been obtained from a sperm bank.

Under current law, a man is presumed to be the father of a child if he and the child’s natural mother 1) were married to each other when the child was conceived or born or 2) married each other after the child was born but had a relationship with each other when the child was conceived and no other man has been adjudicated to be the father or is presumed to be the father because the man was married to the mother when the child was conceived or born. The paternity presumption may be rebutted in a legal action or proceeding by the results of a genetic test showing that the statistical probability of another man’s parentage is 99.0 percent or higher. The bill expands this presumption into a parentage presumption, so that a person is presumed to be the natural parent of a child if he or she 1) was married to the child’s established natural parent when the child was conceived or born or 2) married the child’s established natural parent after the child was born but had a relationship with the established natural parent when the child was conceived and no person has been adjudicated to be the father and no other person is presumed to be the child’s parent because he or she was married to the mother when the child was conceived or born. The parentage presumption may still be rebutted by the results of a genetic test showing that the statistical probability of another person’s parentage is 99.0 percent or higher. Expanding on current law, the bill allows for a paternity action to be brought for the purpose of rebutting the parentage presumption, regardless of whether that presumption applies to a male or female spouse.

Current law provides that a mother and a man may sign a statement acknowledging paternity and file it with the state registrar. If the state registrar has received such a statement, the man is presumed to be the father of the child. Under current law, either person who has signed a statement acknowledging paternity may rescind the statement before an order is filed in an action affecting the family concerning the child or within 60 days after the statement is filed, whichever occurs first. Under current law, a man who has filed a statement acknowledging paternity that is not rescinded within the time period is conclusively determined to be the father of the child. The bill provides that two people may sign a statement acknowledging parentage and file it with the state registrar. If the state registrar has received such a statement, the people who have signed the statement are presumed to be the parents of the child. Under the bill, a statement acknowledging parentage that is not rescinded conclusively establishes parentage with regard to the person who did not give birth to the child and who signed the statement.

The bill defines “natural parent” as a parent of a child who is not an adoptive parent, whether the parent is biologically related to the child or not. Thus, a person who is a biological parent, a parent by consenting to the artificial insemination of his
SENATE BILL 111

or her spouse, or a parent under the parentage presumption is a natural parent of a child. The definition applies throughout the statutes wherever the term “natural parent” is used. In addition, the bill expands some references in the statutes to “biological parent” by changing the reference to “natural parent.”

**Gender neutral references on birth certificates**

Generally, the bill substitutes the term “spouse” for “husband” in the birth certificate statutes and enters the spouse, instead of the husband, of the person who has given birth on the birth certificate at times when a husband would currently be entered on a birth certificate. The name of the person who has given birth is entered on a birth certificate when the person gives birth to a child, and current law specifies when another name should be entered on the birth certificate. Current law requires that if a birth mother is married at any time from the conception to the birth of a child, then her husband’s name is entered on the birth certificate as the legal father of the child. Under the bill, if a person who gives birth is married at any time from the conception to the birth of the child, then that person’s spouse’s name is entered as a legal parent of the child. The bill also specifies that, in the instance that a second parent’s name is initially omitted from the birth certificate, if the state registrar receives a signed acknowledgement of parentage by people presumed to be parents because the two people married after the birth of the child, the two people had a relationship during the time the child was conceived, no person is adjudicated to be the father, and no other person is presumed to be the parent, then the state registrar must enter the name of the spouse of the person who gave birth as a parent on the birth certificate.

**Health information exchange grants**

The bill requires DHS to provide a grant of $655,000 in each of fiscal years 2021–22 and 2022–23 to support health information exchange activities. Health information exchange, generally, is the sharing of patient information between health care providers or health care systems. The bill allows DHS to transfer moneys appropriated for these grants between fiscal years.

**Home care provider registry**

The bill requires DHS to conduct a one-year pilot program to create a home care provider registry to support home and community-based long-term care support programs and clients and vendors of care services. DHS is required to use its competitive request-for-proposals procedures to select a vendor of the software platform for the registry.

**HOUSING**

**Homelessness**

**Priority for homeless children**

The bill creates a two-year pilot program that gives priority to homeless children and their families, as defined under federal law, on the waiting list that WHEDA, or a public housing agency or other entity that contracts with WHEDA, maintains under the federal Housing Choice Voucher Program. Under the bill, WHEDA is required to develop policies and procedures for the pilot program.
SENATE BILL 111

Report on homeless children and youths

The bill requires DPI to annually submit a report to the legislature on the number of homeless children and youths in the public schools of this state. Under the bill, “homeless children and youths” is defined by reference to federal law providing homeless assistance.

Rental assistance grants for homeless veterans

The bill requires DOA to award grants to each continuum of care organization in Wisconsin for the purpose of providing tenant-based rental assistance to homeless veterans. A continuum of care organization is an organization designated by the federal Department of Housing and Urban Development that provides funding and services to alleviate homelessness.

Eliminating employment grants program

Under current law, DOA may award grants of up to $75,000 to counties, cities, villages, or towns to be used to connect homeless individuals with permanent employment. The bill eliminates that grant program.

LANDLORD-TENANT

Notification of building code violations

Under current law, before entering into a lease with or accepting any earnest money or a security deposit from a prospective tenant, a landlord must disclose to the prospective tenant any building code or housing code violations of which the landlord has actual knowledge if the violation presents a significant threat to the prospective tenant’s health or safety. The bill eliminates the condition that the landlord have actual knowledge of such a violation and that the threat to the prospective tenant’s health or safety be “significant”; under the bill, the landlord must disclose to a prospective tenant a building code or housing code violation, regardless of whether the landlord has actual knowledge of the violation, if the violation presents a threat to the prospective tenant’s health or safety.

Terminating a tenancy on the basis of criminal activity

Current law allows a landlord, upon providing notice to a tenant, to terminate the tenant’s tenancy, without an opportunity to cure the tenant’s default, if the tenant, a member of the tenant’s household, or a guest of the tenant 1) engages in any criminal activity that threatens the health or safety of other tenants, persons residing in the immediate vicinity of the premises, or the landlord; 2) engages in any criminal activity that threatens the right to peaceful enjoyment of the premises by other tenants or persons residing in the immediate vicinity of the premises; or 3) engages in any drug-related criminal activity on or near the premises. The bill eliminates these provisions.

GENERAL HOUSING

Low income housing tax credit

Under current law, WHEDA may certify a person to claim, for a period of up to six years, a state tax credit if the person has an ownership interest in a low-income housing project in Wisconsin and qualifies for the federal low-income housing tax credit program. Current law limits the amount of credits WHEDA may annually
authorize to $42,000,000. The bill increases the period for which the credit may be claimed to 10 years and increases the amount of credits that WHEDA may annually authorize to $100,000,000. The bill also requires that the project be allocated the federal credit and be financed with tax-exempt bonds that are not subject to the federal credit’s volume cap, as opposed to any tax-exempt bonds as required under current law, and allows WHEDA to waive these requirements to the extent that WHEDA anticipates that sufficient tax-exempt private activity bond volume cap under federal law will not be available to finance low-income housing projects in any year.

**Housing quality standards grants**

The bill requires DOA to award grants to owners of rental housing units in Wisconsin for purposes of satisfying applicable housing quality standards.

**Affordable housing grants**

The bill requires DOA to award grants to municipalities for the purpose of increasing the availability of affordable workforce housing within the municipalities.

**Water utility assistance program for low-income households**

The bill creates a water utility assistance program for low-income households that is administered by DOA. Under the program, low-income households may apply for assistance from the state to help pay the cost of their water utility bills. Although the program is administered by DOA, DOA may contract with a county department, another local governmental agency, or a private nonprofit organization for processing applications and making assistance payments. DOA must establish a payments schedule for the program. If the number of household applicants exceeds the number anticipated to apply, payments to households may be reduced and DOA may suspend additional applications for assistance. Under the bill, a household eligible for water utility assistance may also be eligible for a crisis assistance payment if the household is experiencing or at risk of experiencing a water utility–related emergency, as defined by DOA.

**INSURANCE**

**Pharmacy benefit manager and prescription drug benefit regulation**

The bill generally requires pharmacy benefit managers to be licensed with the commissioner of insurance or to have an employee benefit plan administrator license under current law. The bill also establishes certain requirements on pharmacy benefit managers and certain health plans regarding their interactions with pharmacies and pharmacists. Under the bill, a pharmacy benefit manager is an entity that contracts to administer or manage prescription drug benefits on behalf of an insurer, a cooperative, or another entity that provides prescription drug benefits to Wisconsin residents.

The bill requires a pharmacy benefit manager to be licensed either as a pharmacy benefit manager or as an employee benefit plan administrator, which is an existing license under current law, in order to perform the activities of a pharmacy benefit manager. The bill specifies that an entity that is both an employee benefit plan administrator and a pharmacy benefit manager need only have a single license
as an administrator. To obtain a license, the pharmacy benefit manager must pay the applicable fee; supply a bond; provide its federal employer identification number; and show to the commissioner that the pharmacy benefit manager intends to act in good faith in compliance with applicable laws, rules, and commissioner’s orders through certain competent and trustworthy individuals, to designate an individual to directly administer the prescription drug benefits, and, if not organized in Wisconsin, to agree to be subject to the jurisdiction of the commissioner and Wisconsin courts. Under the bill, pharmacy benefit manager licenses may be limited, suspended, or revoked for the same reasons as for employee benefit plan administrator licenses, which include that the pharmacy benefit manager is unqualified; repeatedly or knowingly violates laws, rules, or commissioner’s orders; endangers enrollees or the public; or has inadequate financial resources. After a pharmacy benefit manager’s license is ordered suspended or revoked, the commissioner may allow the pharmacy benefit manager to continue to provide services for the purpose of providing continuity of care to existing enrollees. In addition to powers the commissioner has, generally, to implement and enforce insurance–related laws, the bill allows the commissioner to examine, audit, or accept an audit of a pharmacy benefit manager in the same manner as employee benefit plan administrators and insurers and to promulgate any rules to implement licensure of pharmacy benefit managers.

Unless federal law requires otherwise, a pharmacy benefit manager is prohibited in the bill from retroactively denying a pharmacist’s or pharmacy’s claim unless the original claim was fraudulent, the payment of the original claim was incorrect, the pharmacy services were not rendered by the pharmacist or pharmacy, the pharmacist or pharmacy violated state or federal law, or the reduction is permitted by contract and is related to a quality program. The bill limits recovery for an incorrect payment to the amount that exceeds the allowable claim. The bill requires every pharmacy benefit manager to submit annual transparency reports containing information specified in the bill to the commissioner. The bill sets requirements on a pharmacy benefit manager; insurer; defined network plan, such as a health maintenance organization; or a self-insured governmental health plan that is conducting an audit of a pharmacist or pharmacy.

Certain health plans, or pharmacy benefit managers on behalf of health plans, may require a pharmacy to fulfill certification or accreditation requirements in order to participate in the plan’s network of providers. The bill requires a pharmacy benefit manager or a representative of a pharmacy benefit manager to provide to a pharmacy, within 30 days of receipt of a written request from the pharmacy, written notice of the certification or accreditation requirements as a determinant of network participation. The bill prohibits a pharmacy benefit manager or representative from changing its accreditation requirements more frequently than once every 12 months.

Current law requires pharmacy benefit managers to agree in their contracts to make certain disclosures regarding prescription drug reimbursement, including updating maximum allowable cost pricing information for prescribed drugs or devices at least every seven business days, reimbursing pharmacies or pharmacists subject to the updated maximum allowable cost pricing, and modifying information
SENATE BILL 111

in the maximum allowable cost information in a timely fashion. Pharmacy benefit managers currently must also include in each contract with a pharmacy a process to appeal, investigate, and resolve pricing disputes in accordance with the specifics in current law. These current law requirements are unchanged by the bill.

Under the bill, a health insurance policy or a governmental self-insured health plan may not, and a policy or plan must ensure that a pharmacy benefit manager does not, restrict a pharmacy from or penalize a pharmacy for informing an enrollee under the policy or plan of any differential between the out-of-pocket cost of a drug to the enrollee under the policy or plan and the cost an individual would pay for the drug without using insurance. Health insurance policies are referred to in the bill as disability insurance policies. The bill prohibits a policy, plan, or pharmacy benefit manager from requiring an enrollee under the policy or plan to pay more for a covered drug than either the cost-sharing amount for the prescription drug under the policy or plan or the amount the enrollee would pay for the drug without using insurance, whichever amount is lower.

The bill requires pharmacies to post a sign describing the pharmacist’s ability to substitute a less expensive drug product equivalent or interchangeable biological product for the prescribed drug or biological product unless the consumer or the prescribing practitioner indicates otherwise. Under current law, a pharmacist is required to dispense either the prescribed drug or biological product or, if lower in price, a drug product equivalent or interchangeable biological product. The pharmacist is currently required to inform the consumer of the options available in dispensing the prescription. The bill requires each pharmacy to have available for the public a listing of the retail price, updated monthly or more often, of the 100 most commonly prescribed prescription drugs available for purchase at the pharmacy. The bill also requires pharmacies to make available for the public information on how to access a list, created by the Pharmacy Examining Board, of the 100 most commonly prescribed generic drugs with the corresponding brand name, and the federal Food and Drug Administration’s list of currently approved interchangeable biological products, to which the Pharmacy Examining Board currently has to provide a link on its website.

The bill requires a health insurance policy, governmental self-insured health plan, or pharmacy benefit manager to provide advanced written notice to an enrollee of a formulary change that either removes a prescription drug from the formulary or reassigns a prescription drug to a higher benefit tier. A higher benefit tier is a tier with a higher deductible, copayment, or coinsurance than the tier the prescription drug had been assigned. The advanced notice required by the bill must be provided no fewer than 30 days before the expected formulary change, must include information on the procedure for the enrollee to request an exception to the formulary change, and need only be provided to those enrollees who are using the drug at the time the notification must be sent. A policy, plan, or pharmacy benefit manager is not required to provide advanced written notice if the prescription drug is no longer approved by the federal Food and Drug Administration; is the subject of a notice, guidance, warning, announcement, or other statement from the FDA relating to concerns about the safety of the drug; or is approved by the FDA for use
without a prescription. A policy, plan, or pharmacy benefit manager is also not required to provide advanced written notice for the removal or reassignment of a prescription drug if the policy, plan, or pharmacy benefit manager adds to the formulary at the same or a lower benefit tier a generic prescription drug that is approved by the FDA for use as an alternative to the prescription drug or a prescription drug in the same pharmacologic class or with the same mechanism of action. A lower benefit tier has a lower deductible, copayment, or coinsurance than the prescription drug’s current benefit tier.

The bill requires a pharmacist or pharmacy to notify an enrollee in a policy or plan if a prescription drug for which an enrollee is filling or refilling a prescription is removed from the formulary and the policy or plan or a pharmacy benefit manager acting on behalf of a policy or plan adds to the formulary at the same or a lower cost-sharing tier a generic prescription drug or a prescription drug in the same pharmacologic class or with the same mechanism of action. If an enrollee has had an adverse reaction to the prescription drug that is being substituted for an originally prescribed drug, the bill allows the pharmacist or pharmacy to extend the prescription order for the originally prescribed drug to fill one 30-day supply of the originally prescribed drug for the cost-sharing amount that applies to the prescription drug at the time of the substitution.

**Fiduciary duty of pharmacy benefit managers**

The bill imposes fiduciary and disclosure requirements on pharmacy benefit managers. Specifically, the bill provides that a pharmacy benefit manager owes a fiduciary duty to a plan sponsor and requires that a pharmacy benefit manager annually disclose all of the following information to the plan sponsor:

1. The indirect profit received by the pharmacy benefit manager from owning a pharmacy or service provider.
2. Any payments made to a consultant or broker who works on behalf of the plan sponsor.
3. From the amounts received from drug manufacturers, the amounts retained by the pharmacy benefit manager that are related to the plan sponsor’s claims or bona fide service fees.
4. The amounts received from network pharmacies and the amount retained by the pharmacy benefit manager.

**Application of manufacturer discounts**

Health insurance policies and plans often apply deductibles and out-of-pocket maximum amounts to the benefits covered by the policy. A deductible is an amount that enrollees in the policy must pay out of pocket before attaining the full benefits of the plan. An out-of-pocket maximum amount is a limit specified by the policy or plan on the amount that enrollees have paid themselves, and once this limit is reached, the policy or plan covers the benefit entirely. The bill requires health insurance policies that offer prescription drug benefits and self-insured health plans to apply the amount of discounts that a manufacturer of a brand name drug provides to reduce the amount of cost-sharing that is charged to any enrollee for those brand name drugs to this out-of-pocket maximum amount and deductible for the enrollee. This requirement applies for brand name drugs that have no generic equivalent and
SENIATE BILL 111

for brand name drugs that have a generic equivalent but that the enrollee has prior authorization or physician approval to obtain. Health insurance policies are referred to in the bill as disability insurance policies.

Reimbursement to federal drug pricing program participants

The bill prohibits any person from reimbursing certain entities that participate in the federal drug pricing program, known as the 340B program, for a drug subject to an agreement under the program at a rate lower than that paid for the same drug to pharmacies that are similar in prescription volume. The bill also prohibits a person from imposing any fee, charge back, or other adjustment on the basis of the entity’s participation in the 340B program. The entities covered by the prohibitions under the bill are federally qualified health centers, critical access hospitals, and grantees under the federal Ryan White HIV/AIDS program, as well as these entities’ pharmacies and any pharmacy with which any of the entities have contracted to dispense drugs through the 340B program.

Drug margin data reporting by hospitals in the 340B program

The bill requires each hospital participating in the 340B program to report to OCI the per unit margin for each drug covered under the 340B program dispensed in the previous year, the total margin, and how the margin revenue was used. OCI is required under the bill to publicly post the information submitted and publish a report analyzing the data. The 340B program limits the pricing of prescription drugs paid by entities that are covered by the program due to agreements between prescription drug manufacturers and the federal government.

Prescription drug affordability review board

The bill creates a prescription drug affordability review board, whose purpose is to protect Wisconsin residents and other stakeholders from the high costs of prescription drugs. The board consists of the commissioner of insurance and the following members, all of whom are appointed by the governor for four-year terms:

1. Two members who represent the pharmaceutical drug industry, at least one of whom is a licensed pharmacist.
2. Two members who represent the health insurance industry.
3. Two members who represent the health care industry, at least one of whom is a licensed practitioner.
4. Two members who represent the interests of the public.

The bill requires the board to meet in open session at least four times per year to review prescription drug pricing information. The board must provide at least two weeks’ public notice of its meetings, make the meeting’s materials publicly available at least one week prior to meeting, and provide the opportunity for public comment. The bill imposes conflict of interest requirements for the board relating to recusal and public disclosure of certain conflicts. The bill directs the board to access and assess drug pricing information, to the extent practicable, by accessing and assessing information from other states, by assessing spending for the drug in Wisconsin, and by accessing other available pricing information.

Under the bill, the board must conduct drug cost affordability reviews. The first step in such reviews is for the board to identify prescription drugs whose increase in wholesale acquisition cost exceeds specified thresholds and other prescription drugs
that may create affordability challenges for the health care system in Wisconsin. For each identified prescription drug, the board must determine whether to conduct an affordability review by seeking stakeholder input and considering the average patient cost share for the drug. During an affordability review, the board must determine whether use of the prescription drug that is fully consistent with the labeling approved by the federal Food and Drug Administration or standard medical practice has led or will lead to an affordability challenge for the health care system in Wisconsin. In making this determination, the bill requires the board to consider a variety of factors, which include the following:

1. The drug’s wholesale acquisition cost.
2. The average monetary price concession, discount, or rebate the manufacturer provides, or is expected to provide, for the drug to health plans.
3. The total amount of price concessions, discounts, and rebates the manufacturer provides to each pharmacy benefit manager for the drug.
4. The price at which therapeutic alternatives have been sold and the average monetary concession, discount, or rebate the manufacturer provides, or is expected to provide, to health plan payors and pharmacy benefit managers for therapeutic alternatives.
5. The costs to health plans based on patient access consistent with federal labeled indications and recognized standard medical practice.
6. The impact on patient access resulting from the drug’s cost relative to insurance benefit design.
7. The current or expected dollar value of drug-specific patient access programs that are supported by the manufacturer.
8. The relative financial impacts to health, medical, or social services costs that can be quantified and compared to baseline effects of existing therapeutic alternatives.
9. The average patient copay or other cost-sharing for the drug.

If the board determines that a prescription drug will lead to an affordability challenge, the bill directs the board to establish an upper payment limit for that drug that applies to all purchases and payor reimbursements of the drug dispensed or administered to individuals in Wisconsin. In establishing the upper payment limit, the board must consider the cost of administering the drug, the cost of delivering it to consumers, and other relevant administrative costs. For certain drugs, the board must solicit information from the manufacturer regarding the price increase and, if the board determines that the price increase is not a result of the need for increased manufacturing capacity or other effort to improve patient access during a public health emergency, the board must establish an upper payment limit equal to the drug’s cost prior to the price increase.

**Moneys from pharmacy benefit manager regulation used for general program operations**

The bill credits to the appropriation account for OCI’s general program operations all moneys received from the regulation of pharmacy benefit managers, pharmacy benefit management brokers, pharmacy benefit management
consultants, pharmacy services administration organizations, and pharmaceutical sales representatives.

**Drug cost reporting**

The bill generally requires certain prescription drug cost reporting by drug manufacturers, pharmacy benefit managers, insurers, and pharmacy services administrative organizations.

Under the bill, each insurer that offers a health insurance policy that covers prescription drugs must submit to OCI an annual report that identifies the 25 prescription drugs that are the highest cost to the insurer and the 25 prescription drugs that have the highest cost increases over the 12 months before the submission of the report. Health insurance policies are referred to in the bill as disability insurance policies.

The bill requires a drug manufacturer to notify OCI if it increases the wholesale acquisition cost of a brand-name or generic drug on the market in Wisconsin by more than an amount specified in the bill, or if it intends to introduce to market a brand-name or generic drug that has an annual wholesale acquisition cost of more than a specified amount. The manufacturer must include with the notice justification for and documentation regarding the price increase. The bill requires each manufacturer to provide OCI an annual description of each manufacturer-sponsored patient assistance program in effect during the previous year. Each manufacturer must also report to OCI the value of price concessions provided to each pharmacy benefit manager for each drug sold.

The bill requires pharmacy benefit managers to report to OCI the amount received from manufacturers as drug rebates and the value of price concessions provided by manufacturers for each drug. OCI is required under the bill to publicly post information submitted, analyze data collected, publish a report on emerging trends in prescription prices and price increases, and annually conduct a public hearing based on that analysis. OCI must also conduct a statistically valid survey of pharmacies regarding whether the pharmacy agreed to not disclose that customer drug benefit cost-sharing exceeds the cost of the dispensed drug.

The bill requires pharmacy services administrative organizations to annually report to OCI the negotiated reimbursement rates of the 25 prescription drugs with the highest reimbursement rates, the 25 prescription drugs with the largest year-to-year change in reimbursement rate, and the schedule of fees charged to pharmacies.

**Licensure of pharmaceutical representatives**

The bill requires a pharmaceutical representative to be licensed by OCI and to display his or her license during each visit with a health care professional. The bill defines “pharmaceutical representative” to mean an individual who markets or promotes pharmaceuticals to health care professionals on behalf of a pharmaceutical manufacturer for compensation.

Under the bill, the license must be annually renewed. The application to obtain or renew a license must include the applicant's contact information, a description of the type of work in which he or she will engage, an attestation that the professional education requirements are met, the license fee, proof that any penalties and other
fees are paid, and any other information required by OCI. Under the bill, the license fee is set by the commissioner. The bill requires the pharmaceutical representative to report, within four business days, any change to the information provided on the application or any material change to his or her business operations or other information required to be reported under the bill.

The bill requires that a pharmaceutical representative complete a professional education course prior to becoming licensed and to annually complete at least five hours of continuing professional education. The coursework must include, at a minimum, training in ethical standards, whistleblower protections, and the laws and rules applicable to pharmaceutical marketing. The bill directs the commissioner to regularly publish a list of courses that fulfill the education requirements. Under the bill, a course provider must disclose any conflict of interest and the courses may not be provided by an employer of a pharmaceutical representative or be funded by the pharmaceutical industry or a third party funded by the industry.

The bill requires that, no later than June 1 of each year, a pharmaceutical representative report to OCI his or her total number of contacts with health care professionals in Wisconsin, the specialties of those health care professionals, the location and duration of each contact, the pharmaceuticals discussed, and the value of any item provided to a health care professional. The bill directs the commissioner to publish the information on OCI's website, without identifying individual health care professionals.

The bill requires that a pharmaceutical representative, during each contact with a health care professional, disclose the wholesale acquisition cost of any pharmaceuticals discussed and the names of at least three generic prescription drugs from the same therapeutic class.

The bill directs the commissioner to promulgate ethical standards for pharmaceutical representatives. Additionally, the bill prohibits a pharmaceutical representative from engaging in deceptive or misleading marketing of a pharmaceutical product; using a title or designation that could reasonably lead a licensed health care professional, or an employee or representative of such a professional, to believe that he or she is licensed to practice in a health occupation unless he or she holds a license to practice; or attending an examination without the patient’s consent.

Under the bill, an individual violating any of these provisions is subject to a fine and his or her license may be suspended or revoked. An individual whose license is revoked must wait at least two years before applying for a new license.

**Pharmacy benefit management broker and consultant licensing**

The bill requires a person who is acting as a pharmacy benefit management broker or consultant or any other person who procures the services of a pharmacy benefit manager on behalf of a client to obtain a license. The bill allows OCI to establish criteria, procedures, and fees for licensure by rule. Pharmacy benefit managers, as defined under current law, are entities that contract to administer or manage prescription drug benefits on behalf of an insurer or other entity that provides prescription drug benefits.
SENATE BILL 111

Pharmacy services administrative organizations

The bill requires that pharmacy services administrative organizations (PSAOs) be licensed by OCI. Under the bill, a PSAO is an entity operating in Wisconsin that does all of the following:

1. Contracts with an independent pharmacy to conduct business on the pharmacy’s behalf with a third-party payer.
2. Provides at least one administrative service to an independent pharmacy and negotiates and enters into a contract with a third-party payer or pharmacy benefit manager on the pharmacy’s behalf.

The bill defines “independent pharmacy” to mean a licensed pharmacy operating in Wisconsin that is under common ownership with no more than two other pharmacies. “Administrative service” is defined to mean assisting with claims or audits, providing centralized payment, performing certification in a specialized care program, providing compliance support, setting flat fees for generic drugs, assisting with store layout, managing inventory, providing marketing support, providing management and analysis of payment and drug dispensing data, or providing resources for retail cash cards. The bill defines “third-party payer” to mean an entity operating in Wisconsin that pays or insures health, medical, or prescription drug expenses on behalf of beneficiaries.

To obtain the license required by the bill, a person must apply to OCI and provide the contact information for the applicant and a contact person, evidence of financial responsibility of at least $1,000,000, and any other information required by the commissioner. Under the bill, the license fee is set by the commissioner and the term of a license is two years.

The bill also requires that a PSAO disclose to OCI the extent of any ownership or control by an entity that provides pharmacy services; provides prescription drug or device services; or manufactures, sells, or distributes prescription drugs, biologicals, or medical devices. The PSAO must notify OCI within five days of any material change in its ownership or control related to such an entity.

Cost-sharing cap on insulin

The bill prohibits every health insurance policy and governmental self-insured health plan that covers insulin and imposes cost-sharing on prescription drugs from imposing cost-sharing on insulin in an amount that exceeds $50 for a one-month supply. Current law requires every health insurance policy that provides coverage of expenses incurred for treatment of diabetes to provide coverage for specified expenses and items, including insulin. The required coverage under current law for certain diabetes treatments other than insulin infusion pumps is subject to the same exclusions, limitations, deductibles, and coinsurance provisions of the policy as other covered expenses. The bill’s cost-sharing limitation on insulin supersedes the specification that the exclusions, limitations, deductibles, and coinsurance are the same as for other coverage.

Value-based diabetes medication pilot project

The bill directs OCI to develop a pilot project under which a pharmacy benefit manager and pharmaceutical manufacturer are directed to create a value-based,
sole-source arrangement to reduce the costs of prescription diabetes medication. The bill allows OCI to promulgate rules to implement the pilot project.

**Insulin safety net programs**

The bill requires insulin manufacturers to establish a program under which qualifying Wisconsin residents who are in urgent need of insulin and are uninsured or have limited insurance coverage can be dispensed insulin at a pharmacy. Under the program, if a qualifying individual in urgent need of insulin provides a pharmacy with a form attesting that the individual meets the program’s eligibility requirements, specified proof of residency, and a valid insulin prescription, the pharmacy must dispense a 30-day supply of insulin to the individual and may charge the individual a copayment of no more than $35. The pharmacy may submit an electronic payment claim for the insulin’s acquisition cost to the manufacturer or agree to receive a replacement of the same insulin in the amount dispensed.

The bill also requires that insulin manufacturers establish a patient assistance program to make insulin available to any qualifying Wisconsin resident who is uninsured or has limited insurance coverage and whose income does not exceed 400 percent of the federal poverty guidelines. Under the bill, an individual must apply to participate in a manufacturer’s program. If the manufacturer determines that the individual meets the program’s eligibility requirements, the manufacturer issues the individual a statement of eligibility, which is valid for 12 months and may be renewed. Under the bill, if an individual with a statement of eligibility and valid insulin prescription requests insulin from a pharmacy, the pharmacy must submit an order to the manufacturer, who must then provide a 90-day supply of insulin at no charge to the individual or pharmacy. The pharmacy may charge the individual a copayment of no more than $50. Under the bill, a manufacturer is not required to issue a statement of eligibility if the individual has prescription drug coverage through an individual or group health plan and the manufacturer determines that the individual’s insulin needs are better addressed through the manufacturer’s copayment assistance program. In such case, the manufacturer must provide the individual with the necessary drug coupons, and the individual may not be required to pay more than a $50 copayment for a 90-day supply of insulin.

Under the bill, if the manufacturer determines that an individual is not eligible for the patient assistance program, the individual may file an appeal with OCI. The bill directs OCI to establish procedures for deciding appeals. Under the bill, OCI must issue a decision within 10 days, and that decision is final.

The bill requires that insulin manufacturers annually report to OCI information about the number of patients served and amount of insulin dispensed under the programs and that OCI annually report to the legislature on the programs. The bill also directs OCI to conduct public outreach and develop an information sheet about the programs, conduct satisfaction surveys of individuals and pharmacies who participate in the programs, and report to the legislature on the surveys by July 1, 2024. Additionally, the bill requires that OCI develop a training program for health care navigators to assist individuals in accessing appropriate long-term insulin options and maintain a list of trained navigators.
SENATE BILL 111

The bill provides that a manufacturer that fails to comply with the bill’s provisions may be assessed a penalty of up to $200,000 per month of noncompliance, which increases to $400,000 if the manufacturer continues to be in noncompliance after six months and to $600,000 if the manufacturer continues to be in noncompliance after one year. The bill’s requirements do not apply to manufacturers with annual insulin sales revenue in Wisconsin of no more than $2,000,000 or to insulin that costs less than a specified dollar amount.

Patient pharmacy benefits tool

The bill directs OCI to award grants in an amount of up to $500,000 in each fiscal year to health care providers to develop and implement a tool that would allow prescribers to disclose the cost of prescription drugs for patients. The tool must be usable by physicians and other prescribers to determine the cost of prescription drugs for their patients. Any health care provider that receives a grant to develop and implement a patient pharmacy benefits tool is required to contribute matching funds equal to at least 50 percent of the total grant awarded.

Prescription drug importation program

The bill requires the commissioner of insurance, in consultation with persons interested in the sale and pricing of prescription drugs and federal officials and agencies, to design and implement a prescription drug importation program for the benefit of and that generates savings for Wisconsin residents. The bill establishes requirements for the program, including all of the following: the commissioner must designate a state agency to become or contract with a licensed wholesale distributor and seek federal certification and approval to import prescription drugs; the importation program must comply with certain federal regulations and import from Canadian suppliers only prescription drugs that are not brand-name drugs, have fewer than four competitor drugs in this country, and for which importation creates substantial savings; the commissioner must ensure that prescription drugs imported under the program are not distributed, dispensed, or sold outside of Wisconsin; and the importation program must have an audit procedure to ensure the program complies with certain requirements specified in the bill. Before submitting the proposed implementation program to the federal government for certification, the commissioner must submit the proposed importation program to JCF for its approval.

State prescription drug purchasing entity

The bill requires OCI to conduct a study on the viability of creating or implementing a state prescription drug purchasing entity.

Health insurance premium assistance program

The bill directs OCI to develop a program to provide premium assistance to individuals who purchase a silver level plan on the health insurance exchange created under the federal Affordable Care Act and whose household income is between 138 and 250 percent of the federal poverty line. The bill requires that the assistance be provided no later than plan year 2024 and that OCI include a cost estimate for the program with the agency’s 2023–24 biennial budget submission. Under the bill, the assistance amount is the difference between the lowest-cost silver
level plan and lowest-cost bronze level plan in the county in which the individual resides. The bill defines silver and bronze level plans with reference to federal law. Under federal law, a silver level plan must provide coverage that is designed to provide benefits that are actuarially equivalent to 70 percent of the full actuarial value of the benefits provided under the plan, with the percentage reduced to 60 percent for a bronze level plan. Also under federal law, individuals who purchase a silver level plan and whose household income does not exceed 250 percent of the federal poverty line may be eligible for federal cost-sharing subsidies.

**State-based exchange**

The bill directs OCI to establish and operate a state-based health insurance exchange. Under current law, the federal Affordable Care Act (ACA) requires that an exchange be established in each state to facilitate the purchase of qualified health insurance coverage by individuals and small employers. Under the ACA, a state must operate its own state-based exchange, use the federally facilitated exchange operated by the U.S. Department of Health and Human Services, or adopt a hybrid approach under which the state operates a state-based exchange but uses the federal platform, known as HealthCare.gov, to handle eligibility and enrollment functions. Wisconsin currently uses the federally facilitated exchange. The bill directs OCI to establish and operate a state-based exchange, first by using the federal platform and then transitioning to a fully state-run exchange. The bill authorizes OCI to enter into any agreement with the federal government necessary to implement these provisions. The bill also requires that OCI impose a user fee on insurers offering plans through the state-based exchange. Under current law, the ACA imposes user fees on insurers offering plans through federally facilitated exchanges and state-based exchanges using the federal platform, which are currently 3 percent and 2.5 percent of total monthly premiums, respectively. The bill authorizes OCI to impose a user fee at the following rates:

1. For any plan year that OCI operates the state-based exchange using the federal platform, the rate is 0.5 percent.
2. For the first two plan years that OCI operates the fully state-run exchange, the rate is 3 percent. For later plan years, the rate is set by OCI by rule.

The bill also creates an annual appropriation in state general purpose revenue for OCI's general program operations. Under the bill, OCI may spend up to $900,000 in fiscal year 2021-22 for the development of a public option health insurance plan.

**Coverage of individuals with preexisting conditions and other insurance market regulations**

The bill requires certain health plans to guarantee access to coverage; prohibits plans from imposing preexisting condition exclusions; prohibits plans from setting premiums or cost-sharing amounts based on health status-related factors; prohibits plans from setting lifetime or annual limits on benefits; requires plans to cover certain essential health benefits; requires coverage of certain preventive services by plans without a cost-sharing contribution by an enrollee; sets a maximum annual amount of cost sharing for enrollees; and designates risk pool, medical loss ratio, and actuarial value requirements.
SENATE BILL 111

The bill requires every individual health insurance policy, known in the bill as a health benefit plan, to accept every individual who, and every group health insurance policy to accept every employer that, applies for coverage, regardless of sexual orientation, gender identity, or whether an employee or individual has a preexisting condition. The bill allows health benefit plans to restrict enrollment in coverage to open or special enrollment periods and requires the commissioner of insurance to establish a statewide open enrollment period of no shorter than 30 days for every individual health benefit plan. The bill prohibits a group health insurance policy, including a self-insured governmental health plan, from imposing a preexisting condition exclusion. The bill also prohibits an individual health insurance policy from reducing or denying a claim or loss incurred or disability commencing under the policy on the ground that a disease or physical condition existed prior to the effective date of coverage.

A health benefit plan offered on the individual or small employer market or a self-insured governmental health plan may not vary premium rates for a specific plan except on the basis of whether the plan covers an individual or family, area in the state, age, and tobacco use as specified in the bill. An individual health benefit plan or self-insured health plan is prohibited under the bill from establishing rules for the eligibility of any individual to enroll based on health-status related factors, which are specified in the bill. A self-insured health plan or an insurer offering an individual health benefit plan is also prohibited from requiring an enrollee to pay a greater premium, contribution, deductible, copayment, or coinsurance amount than is required of a similarly situated enrollee based on a health-status related factor. Current state law prohibits group health benefit plans from establishing rules of eligibility or requiring greater premium or contribution amounts based on a health-status related factor. The bill adds to these current law requirements for group health benefit plans that the plan may not require a greater deductible, copayment, or coinsurance amount based on a health-status related factor.

Under the bill, an individual or group health benefit plan or a self-insured governmental health plan may not establish lifetime or annual limits on the dollar value of benefits for an enrollee or a dependent of an enrollee under the plan. The bill specifies a maximum amount of cost-sharing that a plan may impose as the amount calculated under the federal Patient Protection and Affordable Care Act (ACA).

The bill requires individual and small employer plans to have either a single statewide risk pool for the individual market and a single pool for the small employer market or a single statewide risk pool for a combination of the individual and small employer markets. The bill requires individual and small employer plans to have a medical loss ratio of at least 80 percent and larger group plans to have a medical loss ratio of at least 85 percent. The medical loss ratio is the proportion of premium revenues that the plan spends on clinical services and quality improvement. The bill also requires individual and small employer plans to provide a level of coverage that is designed to provide benefits that are actuarially equivalent to at least 60 percent of the full actuarial value of the benefits provided under the plan. An actuarial value of 60 percent corresponds to a bronze tier plan under the ACA.
SENATE BILL 111

The bill requires certain health insurance policies, known in the bill as disability insurance policies, and self-insured governmental health plans to cover essential health benefits that will be specified by the commissioner of insurance by rule. The bill specifies a list of requirements that the commissioner must follow when establishing the essential health benefits including certain limitations on cost-sharing and the following general categories of benefits, items, or services in which the commissioner must require coverage: ambulatory patient services, emergency services, hospitalization, maternity and newborn care, mental health and substance use disorder services, prescription drugs, rehabilitative and habilitative services and devices, laboratory services, preventive and wellness services and chronic disease management, and pediatric services. If an essential health benefit specified by the commissioner is also subject to its own mandated coverage requirement, the bill requires the disability insurance policy or self-insured health plan to provide coverage under whichever requirement provides the insured or plan participant with more comprehensive coverage.

The bill requires health insurance policies and self-insured governmental health plans to cover certain preventive services and to provide coverage of those preventive services without subjecting that coverage to deductibles, copayments, or coinsurance. The preventive services for which coverage is required are specified in the bill. The bill also specifies certain instances when cost-sharing amounts may be charged for an office visit associated with a preventive service.

**Short-term plan coverage requirements**

The bill generally sets certain coverage requirements on health plans that are short-term limited duration health plans. Under current law, short-term plans may have an initial term of no longer than 12 months and may have an aggregate duration of no longer than 18 months. The bill shortens the initial term to no longer than three months and the aggregate duration to no longer than six months.

The bill requires every short-term, limited duration plan to accept every individual who applies for coverage, whether the individual has a preexisting condition. Current law allows short-term limited duration plans to impose a preexisting condition exclusion but requires the plan to reduce the length of time of the exclusion by the aggregate duration of the insured’s consecutive periods of coverage. A preexisting condition exclusion is a period of time during which a plan will not cover a medical condition for which the insured received some medical attention before the effective date of coverage. The bill, however, prohibits short-term, limited duration plans from imposing any preexisting condition exclusion.

A short-term, limited duration plan may not vary premium rates for a specific plan except on the basis of whether the plan covers an individual or family, area in the state, age, and tobacco use as specified in the bill. A short-term, limited duration plan is prohibited under the bill from establishing rules for the eligibility of any individual to enroll based on health status-related factors, which are specified in the bill, and from requiring an enrollee to pay a greater premium, contribution, deductible, copayment, or coinsurance amount than is required of a similarly situated enrollee based on a health status-related factor. Under the bill, a
SENATE BILL 111

short-term, limited duration plan may not establish lifetime or limits for the
duration of the coverage on the dollar value of benefits for an enrollee or a dependent
of an enrollee under the plan.

Balance billing for emergency medical services and other items and services

The bill requires defined network plans, such as health maintenance
organizations, and certain preferred provider plans and self-insured governmental
plans that cover benefits or services provided in either an emergency department of
a hospital or independent freestanding emergency department to cover emergency
benefits without requiring a prior authorization determination and without regard
to whether or not the health care provider providing the emergency medical services
is a participating provider or facility. If the emergency medical services for which
coverage is required are provided by a nonparticipating provider, the plan must 1) not impose a prior authorization requirement or other limitation that is more restrictive than if the service was provided by a participating provider, 2) not impose cost-sharing on the enrollee that is greater than the cost-sharing required if the service was provided by a participating provider, 3) calculate the cost-sharing amount to be equal to the amount that would have been charged if the service was provided by a participating provider, 4) provide, within 30 days of the provider’s or facility’s bill, an initial payment or denial notice to the provider or facility and then pay a total amount to the provider or facility that is equal to the amount by which the provider’s or facility’s rate exceeds the amount it received in cost-sharing from the enrollee, and 5) count any cost-sharing payment made by the enrollee for the emergency medical services toward any in-network deductible or out-of-pocket maximum as if the cost-sharing payment were made for services provided by a participating provider or facility. The provider or facility may not bill or hold liable an enrollee of the plan for any amount for the emergency medical service that is more than the cost-sharing amount that is determined as described in the bill for the emergency medical service.

For coverage of an item or service that is provided by a nonparticipating
provider in a participating facility, a plan must 1) not impose a cost-sharing
requirement for the item or service that is greater than the cost-sharing
requirement that would have been imposed if the item or service was provided by a
participating provider, 2) calculate the cost-sharing amount to be equal to the
amount that would have been charged if the service was provided by a participating
provider, 3) provide, within 30 days of the provider’s bill, an initial payment or denial
notice to the provider and then pay a total amount to the provider that is equal to the
amount by which the provider’s rate exceeds the amount it received in cost-sharing
from the enrollee, and 4) count any cost-sharing payment made by the enrollee for the
emergency medical services toward any in-network deductible or out-of-pocket
maximum as if the cost-sharing payment were made for services provided by a
participating provider. A nonparticipating provider providing an item or service in
a participating facility may not bill or hold liable an enrollee for more than the
cost-sharing amount unless the provider provides notice and obtains consent as
described in the bill. However, if the nonparticipating provider is providing an
ancillary item or service that is specified in the bill and the commissioner of
insurance has not specifically allowed balance billing for that item or service by rule, the nonparticipating provider providing the ancillary item or service in a participating facility may not bill or hold liable an enrollee for more than the cost-sharing amount.

A provider or facility that is entitled to a payment under the bill for an emergency medical service or other item or service may initiate open negotiations with the plan to determine the amount of payment. If the open negotiation period terminates without determination of the payment amount, the provider, facility, or plan may initiate the independent dispute resolution process as specified by the commissioner of insurance. If an enrollee of a plan is a continuing care patient, as defined in the bill, and is obtaining services from a participating provider or facility and the contract is terminated or the coverage of benefits is going to be terminated, the plan must notify an enrollee of the enrollee’s right to elect to continue transitional care, provide the enrollee an opportunity to notify the plan of the need for transitional care, and allow the enrollee to continue to have the benefits provided under the plan under the same terms and conditions as would have applied without the termination until either 90 days after the termination notice date or the date on which the enrollee is no longer a continuing care patient, whichever is earlier.

**Telehealth parity**

The bill requires health insurance policies and self-insured governmental health plans to cover a treatment or service that is provided through telehealth if the treatment or service is covered by the policy or plan when provided in person. A policy or plan may limit its coverage to those treatments or services that are medically necessary. “Telehealth” is defined in the bill as a practice of health care delivery, diagnosis, consultation, treatment, or transfer of medically relevant data by means of audio, video, or data communications that are used either during a patient visit or consultation or are used to transfer medically relevant data about a patient. Health insurance policies are referred to as disability insurance policies in the bill, and a self-insured governmental health plan is a self-funded health plan of the state or a county, city, village, town, or school district.

The bill also sets parameters on the coverage of telehealth treatments and services that is required in the bill. A policy or plan may not subject a telehealth treatment or service to a greater deductible, copayment, or coinsurance than if provided in person. Similarly, a policy or plan may not impose a policy or calendar year or a lifetime benefit limit or other maximum limitation or a prior authorization requirement on a telehealth treatment or service that is not imposed on treatments or services provided through manners other than telehealth. A policy or plan also may not place unique location requirements on telehealth treatment or services. If a policy or plan covers a telehealth treatment or service that has no in-person equivalent, the policy or plan must disclose this in the policy or plan materials.

**Participation by school districts in state group health insurance plan**

The bill requires the commissioner of insurance to create a task force to develop an implementation plan for participation by school districts in a group health insurance plan offered by the Group Insurance Board. The task force consists of 13
SENATE BILL 111

members appointed by the governor, including a representative from each of the following entities: OCI, DOA, DPI, and ETF. The task force also includes one administrator of a school district, one business official of a school district, one member of a school board, one official of a public employee union, three employees of public schools, and one representative of a health plan. Under the bill, the commissioner of insurance and the secretary of employee trust funds are required to consult with the task force and review an actuarial study conducted by GIB and develop a plan to implement participation by school districts in a group health insurance plan offered by GIB, by January 1, 2024. Finally, under the bill, the commissioner of insurance and the secretary of employee trust funds are required to provide the implementation plan to the governor and JCF no later than December 31, 2022.

Outreach and education regarding employee misclassification

The bill directs the commissioner of insurance to conduct, on at least an annual basis, outreach and education to insurers and other persons regulated by the state insurance laws on how to identify the misclassification of employees and report suspected misclassifications to the appropriate federal and state agencies.

JUSTICE

Powers of the attorney general

The bill repeals changes made to the powers of the attorney general in 2017 Wisconsin Act 369 relating to the power to compromise or discontinue civil actions prosecuted by DOJ and the power to compromise and settle actions in cases in which DOJ is defending the state. The bill reestablishes these settlement powers as they existed under the law before 2017 Wisconsin Act 369 was enacted.

The bill allows the attorney general to compromise or discontinue actions prosecuted by DOJ 1) when directed by the officer, department, board, or commission that directed the prosecution or 2) with the approval of the governor when the action is prosecuted by DOJ on the initiative of the attorney general or at the request of any individual. The bill eliminates the requirement for approval of a compromise or discontinuance from a legislative intervenor or JCF. It also eliminates the requirement for the attorney general to obtain approval of a compromise or discontinuance by the Joint Committee on Legislative Organization in certain circumstances before submitting a proposed plan to JCF.

Under the bill, when DOJ is defending the state, the attorney general may compromise and settle the action as the attorney general determines to be in the best interest of the state. The bill eliminates the requirement under current law that, in actions for injunctive relief or if there is a proposed consent decree, the attorney general must 1) obtain the approval of any legislative intervenor or 2) if there is no intervenor, submit a proposed plan to JCF and, in certain circumstances, obtain approval of JCF. The bill also eliminates the requirement for the attorney general to obtain approval from JCLO in certain circumstances before submitting a proposed plan of settlement or compromise to JCF.
Gifts and grants and disposition of settlement funds

The bill repeals certain changes made by 2017 Wisconsin Act 369 relating to gifts and grants and certain proceeds received by DOJ, specifically reversing provisions that changed a DOJ gifts and grants appropriation and a DOJ gifts, grants, and proceeds appropriation from continuing appropriations to annual appropriations.

Second, the bill repeals the requirement that the attorney general must deposit all settlement funds into the general fund. The bill restores procedures relating to discretionary settlement funds under which the attorney general could expend certain settlement funds not committed under the terms of a settlement after submitting a plan to JCF for passive review and either 1) the cochairpersons of JCF do not schedule a meeting; or 2) a meeting is scheduled and JCF approves a plan for expenditure.

Sexual assault kits

Under current law, there is no statutory procedure for the collection and processing of sexual assault kits. The bill creates procedures for transmission, processing, and storage of sexual assault kits. Under the bill, a health care professional who collects a sexual assault kit must do one of the following: 1) if the victim wants to report the sexual assault to law enforcement, the health care professional must notify a law enforcement agency within 24 hours of collecting the kit; or 2) if the victim does not want to report the sexual assault to law enforcement, the health care professional must send the kit to the state crime laboratories within 72 hours for storage. Under the bill, if a law enforcement agency has received notification from a health care professional that a kit has been collected, the law enforcement agency must take possession of the kit within 72 hours and must send the kit to the state crime laboratories for processing within 14 days. If the victim changes his or her mind about wanting to have his or her kit analyzed after it is given to a law enforcement agency but before the agency sends the kit to the state crime laboratories for processing, the agency must send the kit to the state crime laboratories for storage rather than for processing.

Under the bill, once the state crime laboratories takes possession of a sexual assault kit, it must do one of the following: 1) if it has received the kit of a person who has not consented to analysis, securely store the kit for a period of 10 years; or 2) if it has received the kit of a person who has consented to analysis, process the kit and then send it to a law enforcement agency to store the kit for a period of 50 years, or until the date of the expiration of the statute of limitations, or until the end of a term of imprisonment or probation of a person convicted in the sexual assault case, whichever is longer.

Under current law, local law enforcement agencies report certain crime statistics to DOJ. The bill requires law enforcement agencies to provide additional data to DOJ regarding sexual assault kits collected and processed in Wisconsin in addition to the data currently being reported. The bill also requires DOJ to publish data on law enforcement agency compliance with DOJ reporting requirements.
SENATE BILL 111

Collection of data from traffic stops

The bill requires a law enforcement agency to collect the following information concerning motor vehicle stops made on or after January 1, 2022: 1) the name, address, gender, and race of the operator of the motor vehicle, with the officer subjectively determining the person’s race as being Caucasian, Black or African American, Hispanic, American Indian or Alaska Native, or Asian or Pacific Islander; 2) the reason for the motor vehicle stop; 3) the make and year of the motor vehicle; 4) the date, time, and location of the motor vehicle stop; 5) whether or not a law enforcement officer conducted a search of the motor vehicle, the operator, or any passenger and, if so, whether the search was with consent or by other means; 6) the name, address, gender, and race of any person searched; and 7) the name and badge number of the officer making the motor vehicle stop.

The information that is collected under the bill concerning motor vehicle stops is not subject to inspection or copying as a public record. The information, however, must be forwarded to DOJ, which must then compile and analyze it, along with any other relevant information, to determine, both for the state as a whole and for each law enforcement agency, whether the number of stops and searches involving motor vehicles operated or occupied by members of a racial minority are disproportionate compared to the number of stops and searches involving motor vehicles operated or occupied solely by persons who are not members of a racial minority.

Universal background check requirement for all firearm transfers

Current law provides that a federally licensed firearms dealer may not transfer a handgun after a sale until the dealer has asked DOJ to perform a background check on the prospective transferee to determine if he or she is prohibited from possessing a firearm under state or federal law. The bill generally prohibits any person from transferring any firearm, including the frame or receiver of a firearm, unless the transfer occurs through a federally licensed firearms dealer and involves a DOJ background check of the prospective transferee. Under the bill, the following are excepted from that prohibition: a transfer to a firearms dealer or to a law enforcement or armed services agency; a transfer of a firearm classified as antique; or a transfer that is by gift, bequest, or inheritance to a family member. A person who is convicted of violating the prohibition is guilty of a misdemeanor and must be fined not less than $500 nor more than $10,000, may be imprisoned for not more than nine months, and may not possess a firearm for a period of two years.

Treatment alternatives and diversion grant program

Under current law, DOJ, in collaboration with DOC and DHS, awards grants to counties or tribes that have established qualifying treatment alternatives and diversion (TAD) programs that offer substance abuse or mental health treatment services as alternatives to prosecution or incarceration in order to reduce recidivism, promote public safety, and reduce prison and jail populations.

Under current law, in order to qualify for a TAD grant, a county’s or tribe’s program is required to match 25 percent of the grant, and a program is required to charge participants a fee to participate. A county or tribe that receives a TAD grant must create an oversight committee to administer and evaluate its program. DOJ is required to make grants available to any county or tribe on a competitive basis.
SENATE BILL 111

every five years. At the end of the five-year grant cycle, DOJ is required to prepare a comprehensive report on the grant program based on annual reports and other data it collects from the counties and tribes.

The bill makes several changes to the TAD grant program. Under the bill, a program funded by a TAD grant need not focus solely on alcohol and other drug treatment, but must employ evidence-based practices targeted to the population served by the program. The bill changes the match requirement from 25 percent to 10 percent and changes the competitive grant process to a four-year cycle. The bill allows, but does not require, an eligible program to charge participants a fee for their treatment. The bill also eliminates certain requirements pertaining to exposure of genitals during drug testing.

Under current law, when a person pleads or is found guilty of certain drug offenses, the court is required to order a substance use assessment. Under current law, the court does not have to order an assessment if the person is already covered by such an order, has recently completed an assessment under such an order, or is participating in a TAD program. The bill specifies that if a person is participating in any evidence-based substance use disorder treatment program as determined by DOJ, regardless of its status relating to the TAD program, the court does not need to order an assessment.

Sentencing review council

The bill creates the Sentencing Review Council within DOJ. The council is charged with studying and making recommendations on 1) criminal penalties and reforming the Criminal Code; 2) the equitability of sentences; 3) the state’s bifurcated sentencing structure; and 4) sentencing for individuals who were age 18 to 25 at the time the crime was committed. Under the bill, membership of and appointments to the council are determined by the governor.

Grants for alternative emergency response and 911 diversion

The bill creates a grant program within DOJ for alternative emergency response and 911 diversion. Under the bill, DOJ must issue grants to counties with a population of 750,000 or more to facilitate contracts between local health departments and behavioral crisis support service providers and to support research, design, and personnel costs associated with creating programs to divert behavioral health situations in 911 call centers.

Sexual assault victim services grants for the Wisconsin Coalition Against Sexual Assault

Under current law, DOJ administers a grant program to provide grants to organizations that provide services to victims of sexual assault. The bill requires that, in addition to the other grants under the program, DOJ must provide an annual grant of $100,000 to the Wisconsin Coalition Against Sexual Assault. Under the bill, the Wisconsin Coalition Against Sexual Assault may also apply for additional grants under the program.

Youth diversion services

Under current law, DOJ allocates $1,050,000 to contract with organizations to provide services in Milwaukee, Racine, Kenosha, and Brown Counties for the
diversion of youths from gang activities into productive activities such as educational, recreational, and employment programs. Under current law, these contracts are funded by a penalty surcharge on court fines and forfeitures. The bill creates a GPR appropriation account from which funding for these services may be provided.

**County Victim Witness Reimbursement**

Under current law, there are three program revenue appropriations from which DOJ is required to reimburse counties for services provided to victims and witnesses of crime. The bill creates an additional general purpose revenue annual appropriation from which DOJ is required to reimburse counties for services provided to victims and witnesses of crime.

**Nonviolent offender diversion program**

The 2019 biennial budget created a diversion pilot program for nonviolent criminal offenders to be diverted to a treatment option. Under current law, the pilot program sunsets on July 1, 2021. The bill repeals that sunset so that the diversion program remains in place beyond July 1, 2021.

**Ongoing transfer for investigation of crimes against children**

The bill creates an ongoing transfer of moneys collected from crime laboratory, DNA analysis, and drug law enforcement surcharges to an appropriation to be used for investigation and prosecution of internet crimes against children.

**Relator appropriation**

The bill creates a continuing appropriation to hold all money received by DOJ that is owed to a relator, to provide payments to relators. A relator is a type of party in a legal action in whose name an action is brought by a state.

**LAW ENFORCEMENT**

**Use of force policies**

Under current law, each law enforcement agency must have a written public policy that regulates the use of force by law enforcement officers. The bill makes several changes that affect this requirement.

First, the bill requires the law enforcement agency to post its policy on the law enforcement agency website or, if the agency does not have one, on a website maintained by the municipality over which the law enforcement agency has jurisdiction.

Second, the bill requires each law enforcement agency to ensure that its use of force policy incorporates the following principles: that the primary duty of all law enforcement is to preserve the life of all individuals; that deadly force is to be used only as the last resort; that chokeholds are banned; that officers should use skills and tactics that minimize the likelihood that force will become necessary; that, if officers must use physical force, it should be the least amount of force necessary to safely address the threat; and that law enforcement officers must take reasonable action to stop or prevent any unreasonable use of force by their colleagues.

Third, under the bill, each law enforcement officer must annually complete at least eight hours of training on use-of-force options and techniques a law enforcement officer may use to de-escalate a potentially unstable situation.
Fourth, the bill prohibits disciplining a law enforcement officer for reporting a violation of a law enforcement agency’s use of force policy.

Finally, the bill requires the Law Enforcement Standards Board to develop a model use of force policy for law enforcement agencies. The model policy must address interactions with individuals with mental disorders, alcohol or drug problems, dementia disorders, and developmental disabilities; limit the use of force against vulnerable populations; and include other best practices that LESB identifies.

**Reports on use of force incidents**

Current law requires DOJ to collect certain information concerning criminal offenses committed in Wisconsin. The bill requires DOJ to collect data and publish an annual report on law enforcement use of force incidents, including incidents in which there was a shooting, in which a firearm was discharged in the direction of a person (even if there was no injury), and in which other serious bodily harm resulted from the incident. The bill requires certain demographic information to be collected about each such incident, and reported annually by DOJ on its website.

**Grant program to reduce violence**

The bill creates a $1,000,000 grant program, administered by DOJ, to fund community organizations that are utilizing evidence-based outreach and violence interruption strategies to mediate conflicts, prevent retaliation and other potentially violent situations, and connect individuals to community supports.

**Cause of action for unnecessarily summoning a law enforcement officer**

The bill creates a civil cause of action for unnecessarily summoning a law enforcement officer. Under the bill, a person may bring an action against another person who, with the intent to do any of the following, causes a law enforcement officer to arrive at a location to contact the person: infringe upon a constitutional right of the person; unlawfully discriminate against the person; cause the person to feel harassed, humiliated, or embarrassed; cause the person to be expelled from a place in which the person is lawfully located; damage the person’s reputation or standing within the community; or damage the person’s financial, economic, consumer, or business prospects or interests.

Under the bill, the person may recover the greater of special and general damages, including damages for emotional distress, or an amount equal to $250 from each defendant found liable; punitive damages; and costs, including all reasonable attorney fees and other costs of the investigation and litigation that were reasonably incurred.

**Prohibition on no-knock warrants**

Under current law, a law enforcement officer executing a search warrant must knock and announce before entering unless, at the time the warrant is executed, the law enforcement officer has a reasonable suspicion that knocking and announcing will be dangerous or futile or will inhibit the effective investigation of the crime. The bill requires that a law enforcement officer executing a search warrant must, before entering the premises, identify himself or herself as a law enforcement officer and announce the authority and purpose of the entry.
Training and recruiting officers

The bill makes certain changes to the responsibilities of the Law Enforcement Standards Board. Under current law, LESB regulates the training of law enforcement officers. The bill requires LESB to also regulate jail and juvenile detention officer training standards, and to regulate recruitment standards for the recruiting of new law enforcement, jail, and juvenile detention officers.

The bill also requires each law enforcement agency to maintain an employment file for each employee. Under the bill, when a law enforcement agency, jail, or juvenile detention facility is recruiting for new officers, the agency, jail, or facility must require each candidate that is or has been employed by a different agency, jail, or facility to authorize that employer to disclose his or her employment files to the recruiting agency, jail, or facility and to release that employer from any liability related to the use and disclosure of the files.

LOCAL GOVERNMENT

Public contracts

Bidding thresholds

In general, under current law, a second, third, or fourth class city or a village, town, county, technical college district board, or federated public library system must let a public contract having an estimated cost of more than $25,000 to the lowest responsible bidder. Under the bill, the amount above which any of these local governmental units must let a contract to the lowest responsible bidder is raised to $50,000.

Levy limits

Levy limits; alternative minimum growth factor increase

Generally under current law, local levy limits are applied to the property tax levies that are imposed by a city, village, town, or county (political subdivision) in December of each year. Current law prohibits any political subdivision from increasing its levy by a percentage that exceeds its “valuation factor,” which is defined as the greater of either 0 percent or the percentage change in the political subdivision’s equalized value due to new construction, less improvements removed. The bill increases the alternative percentage factor for purposes of the “valuation factor” to 2 percent.

Levy limit reduction for service transfer

Under current law, if a political subdivision transfers to another governmental unit the responsibility to provide a service that it provided in the previous year, the levy limit otherwise applicable in the current year is decreased to reflect the cost that the political subdivision would have incurred to provide that service. The bill repeals that provision.

Levy limit negative adjustment for certain service revenues

Under current law, a political subdivision must reduce its allowable levy by the estimated amount of any revenue from fees or payments in lieu of taxes if the revenue is received for providing certain “covered services” that were funded with property tax revenues in calendar year 2013. The “covered services” are certain garbage
collection, fire protection, snow plowing, street sweeping, and storm water management.

The bill repeals the requirement that a political subdivision must reduce its allowable levy by the estimated amount of revenues received for providing covered services that were funded with property tax revenues in calendar year 2013.

**Levy limit exclusion for cross-municipality transit routes**

Current law contains a number of exceptions to the levy limit, such as amounts a county levies for a countywide emergency medical system, for a county children with disabilities education board, and for certain bridge and culvert construction and repair. In addition, a political subdivision may exceed the levy limit that is otherwise applicable if its governing body adopts a resolution to do so and if that resolution is approved by the electors in a referendum.

The bill creates another exception to local levy limits. Under the bill, amounts levied by a political subdivision for costs related to new or enhanced transit services that cross adjacent county or municipal borders do not apply to the limit if the political subdivisions between which the routes operate have entered into an agreement to provide for the services and if the agreement is approved in a referendum.

**Levy limit exception for regional planning commission contributions**

The bill creates a local levy limit exception for the amount a political subdivision levies to pay for the political subdivision’s share of a regional planning commission’s (RPC’s) budget.

An RPC’s budget is determined annually by the RPC. The RPC then charges all political subdivisions within its jurisdiction a proportional amount to fund the budget based on the equalized value of property in the political subdivision and the total amount of equalized value of property within the RPC’s jurisdiction.

**TAX INCREMENTAL FINANCING**

**Tax incremental housing for workforce housing**

The bill authorizes workforce housing initiatives and makes changes that affect tax incremental districts and state housing grants. The bill creates a definition for workforce housing, changes the definition of “mixed-use development TID,” increases the maximum number of years a city or village may extend the life of a TID to improve its affordable and workforce housing, requires a TID’s project plan to contain alternative economic projections, and changes the method of imposing certain impact fees.

Under the bill, a political subdivision may put into effect a workforce housing initiative by taking one of several specified actions and posting on its website an explanation of the initiative. Workforce housing initiatives include the following: reducing permit processing times or impact fees for workforce housing; increasing zoning density for a workforce housing development; rehabilitating existing uninhabitable housing stock into habitable workforce housing; or implementing any other initiative to address workforce housing needs. Once an initiative takes effect, it remains in effect for five years. After June 30, 2021, if a political subdivision has in effect at least three initiatives at the same time, WHEDA, WEDC, and DOA must
SENATE BILL 111

give priority to housing grant applications from, or related to a project in, the political subdivision.

The bill defines “workforce housing” to mean the following, subject to the five-year average median costs as determined by the U.S. Census Bureau:
1. Housing that costs a household no more than 30 percent of the household’s gross median income.
2. Housing that comprises residential units for initial occupancy by individuals whose household median income is no more than 120 percent of the county’s gross median income.

Under current law, a mixed-use development TID contains a combination of industrial, commercial, or residential uses, although newly platted residential areas may not exceed more than 35 percent of the real property within the TID. Under the bill, newly platted residential areas may not exceed either the 35 percent limit or 60 percent of the real property within the TID if the newly platted residential use that exceeds 35 percent is used solely for workforce housing.

Currently, a city or village may extend the life of a TID for up to one year for housing stock improvement if all of the following occurs:
1. The city or village pays off all of the TID’s project costs.
2. The city or village adopts a resolution stating that it intends to extend the life of the TID, the number of months it intends to do so, and how it intends to improve housing stock.
3. The city or village notifies DOR.

Current law requires the city or village to use 75 percent of the tax increments received during the period specified in the resolution to benefit affordable housing in the city or village and 25 percent to improve the city’s or village’s housing stock. Under the bill, a city or village may extend the life of a TID for up to three years to increase the number of affordable and workforce housing improvements. The bill also changes the term “housing stock” to “affordable and workforce housing units.”

Under current law, if a city, village, or town (municipality) imposes an impact fee on a developer to pay for certain capital costs to accommodate land development, the municipality may provide in the ordinance an exemption from, or a reduction in the amount of, impact fees on land development that provides low-cost housing. Under the bill, the impact fee exemption or reduction provisions also apply to workforce housing. Current law prevents the shifting of an exemption from or reduction in impact fees to any other development in the land development in which the low-cost housing is located. The bill applies this provision to workforce housing as well.

Tax incremental districts in city of Wisconsin Dells

The bill extends the expenditure periods for two tax incremental districts in the City of Wisconsin Dells. Under current law, a city or village that creates a TID generally may not make expenditures for project costs later than five years before the TID’s unextended termination date. Under the bill, the City of Wisconsin Dells may make expenditures for project costs through November 2026 for TID Number Two and through May 2040 for TID Number Three.
**SENATE BILL 111**

**GENERAL LOCAL GOVERNMENT**

*Provision and funding of emergency medical services by towns*

The bill authorizes a town to contract for or maintain emergency medical services for the town. The bill also authorizes a town to do any of the following for the purpose of funding these emergency medical services:

1. Appropriate money.
2. Charge property owners a fee for the cost of emergency medical services provided to their property according to a written schedule established by the town board.
3. Levy taxes on the entire town.
4. Levy taxes on property served by a particular source of emergency medical services, to support the source of emergency medical services.

*Municipality construction, ownership, or operation of broadband facilities*

Current law prohibits, with several exceptions, a municipality from constructing, owning, or operating a facility for providing video service, telecommunications service, or broadband service to the public unless 1) the municipality holds a public hearing on the proposed action, 2) notice of the public hearing is given, and 3) the municipality prepares and makes available for public inspection a report estimating the total costs of, and revenues derived from, constructing, owning, or operating the facility for a period of at least three years. The bill eliminates the requirement that a municipality prepare and make available for public inspection that report if the facility is a broadband facility intended to serve an area designated as underserved or unserved by PSC.

Currently, under one of the exceptions, the public hearing and cost report do not apply to a facility for providing broadband service if 1) the municipality offers use of the facility on a nondiscriminatory basis to persons who provide broadband service to end users of the service, 2) the municipality itself does not use the facility to provide broadband service to end users, and 3) the municipality determines that, at the time of authorization, the facility does not compete with more than one provider of broadband service. The bill eliminates the requirements under items 2 and 3 for facilities that are intended to serve an underserved or unserved area. As a result, a municipality is not required to hold a public hearing or prepare a report for a broadband facility intended to serve an underserved or unserved area if the municipality offers use of the facility on a nondiscriminatory basis to persons who provide broadband service.

Currently, under another of the exceptions, the public hearing and cost report do not apply to a facility for providing broadband service to an area within the boundaries of a municipality if the municipality asks, in writing, each person that provides broadband service within the boundaries of the municipality whether the person currently provides broadband service to the area or intends to provide broadband service to the area within nine months and 1) does not receive an affirmative response within 60 days, 2) the municipality determines that a person who responded does not currently provide broadband service to the area, and no other person makes the response to the municipality, or 3) the municipality determines that a person who responded that the person intended to provide
SENATE BILL 111

broadband service to the area within nine months did not actually provide the service within nine months and no other person makes the response to the municipality.

Under the bill, for this exception in the case of an underserved or unserved area, rather than asking whether a person plans to provide broadband service to the area within nine months, the municipality must ask whether the person intends or actively plans to provide broadband service to the area within three months.

County debt issuance

The bill authorizes a county to issue debt to replace revenue lost due to a disaster or public health emergency declared by the governor or by the county board itself. The county board must adopt a resolution stating that the debt is issued for such a purpose, must specify the amount of revenue lost or expected to be lost, and must send a certified copy of the resolution to DOA. DOA must determine, based on the resolution and any other available information, the appropriate amount of debt that the county may issue. The bill requires DOA to promulgate any rules it believes are necessary to administer its requirement to determine the appropriate amount of debt. Under the bill, the county may not issue debt in an amount that exceeds the amount specified by DOA. The debt may not be issued for a term that exceeds 10 years.

Use of premiums received in issuance of municipal obligations

Under current law, the proceeds of municipal obligations must be paid into a municipality’s borrowed money fund, except that any accrued interest and any premium received when municipal obligations are sold above par value must be paid into the debt service fund. In general, moneys may be disbursed from the borrowed money fund only for the purposes for which the municipal obligations were issued and from the debt service fund only to pay debt service on the obligations. Under the bill, a premium received when municipal obligations are sold above par value is paid into the debt service fund only to the extent provided in a resolution authorizing the issuance of the municipal obligations.

Local landlord-tenant ordinances

Current law prohibits political subdivisions from enacting certain ordinances relating to landlords and tenants. Political subdivisions may not do any of the following:

1. Prohibit or limit landlords from obtaining or using certain information relating to a tenant or prospective tenant, including monthly household income, occupation, rental history, credit information, court records, and social security numbers.

2. Limit how far back in time a landlord may look at a prospective tenant’s credit information, conviction record, or previous housing.

3. Prohibit or limit a landlord from entering into a rental agreement with a prospective tenant while the premises are occupied by a current tenant.

4. Prohibit or limit a landlord from showing a premises to a prospective tenant during a current tenant’s tenancy.

5. Place requirements on a landlord with respect to security deposits or earnest money or inspections that are in addition to what is required under administrative rules.
SENNATE BILL 111

6. Limit a tenant’s responsibility for any damage to or neglect of the premises.
7. Require a landlord to provide any information to tenants or to the local government any information that is not required to be provided under federal or state law.
8. Require a residential property to be inspected except under certain circumstances.
9. Impose an occupancy or transfer of tenancy fee on a rental unit.

Current law also prohibits political subdivisions from regulating rent abatement in a way that permits abatement for conditions other than those that materially affect the health or safety of the tenant or that substantially affect the use and occupancy of the premises. The bill eliminates all of these prohibitions.

**Local moratorium on evictions**

Current law prohibits political subdivisions from imposing a moratorium on landlords from pursuing evictions actions against a tenant. The bill eliminates that prohibition.

**Local employment regulations**

The bill repeals the preemptions of local governments from enacting or enforcing ordinances related to the following:
1. Regulations related to wage claims and collections.
2. Regulation of employee hours and overtime, including scheduling of employee work hours or shifts.
3. The employment benefits an employer may be required to provide to its employees.
4. An employer’s right to solicit information regarding the salary history of prospective employees.
5. Occupational licensing requirements that are more stringent than a state requirement.

**Certain local and state government regulations**

The bill repeals the following:
1. The prohibition of the state and local governments from requiring any person to waive the person’s rights under state or federal labor laws as a condition of any approval by the state or local government.
2. A provision under which neither the state nor a local government may enact a statute or ordinance, adopt a policy or regulation, or impose a contract, zoning, permitting, or licensing requirement, or any other condition, that would require any person to accept any provision that is a subject of collective bargaining under state labor laws or the federal National Labor Relations Act.

**Exception to law enforcement officer citizenship requirement**

Under current law, no person may be appointed as a deputy sheriff of any county or police officer of a municipality unless that person is a citizen of the United States. The bill allows the sheriff of a county or the appointing authority of a local law enforcement agency to elect to authorize the appointment of noncitizens who are in receipt of valid employment authorization from the federal Department of Homeland Security as deputy sheriffs or police officers. The bill also prevents the
SENATE BILL 111

law enforcement standards board from preventing such a noncitizen from participating in a law enforcement preparatory training program.

Local government civil service system and grievance procedure requirements

The bill modifies the requirements for any grievance system established by local governmental units, including adding a requirement for any civil service system or grievance procedure to include a just cause standard of review for employee terminations. Under current law, a local governmental unit that did not have a civil service system before June 29, 2011, must have established a grievance system. In order to comply with the requirement to have established a grievance system, a local governmental unit may establish either 1) a civil service system under any provision authorized by law, to the greatest extent practicable, if no specific provision for creation of a civil service system applies to the governmental unit; or 2) a grievance procedure as set forth in the statutes. Current law requires that any civil service system established or grievance procedure created must contain a grievance procedure that addresses employee terminations, employee discipline, and workplace safety. The bill does not eliminate the requirement for these provisions, but instead adds a requirement for a provision relating to a just cause standard of review for employee terminations, including a refusal to renew a teaching contract.

Current law also requires that if a local governmental unit creates a grievance procedure, the procedure must contain certain elements, including a written document specifying the process that a grievant and an employer must follow; a hearing before an impartial hearing officer; and an appeal process in which the highest level of appeal is the governing body of the local governmental unit. The bill provides that the hearing officer must be from the Wisconsin Employment Relations Commission, and adds two additional required elements in the grievance procedure: 1) a provision indicating the grievant is entitled to representation throughout the grievance process; and 2) a provision indicating that the employer must bear all fees and costs related to the grievance process, except the grievant's representational fees and costs.

Consideration of climate change in certain local plans

Under current law, local governmental units are required or permitted to prepare a variety of plans that guide the local governmental unit’s response to future events. Among these plans are comprehensive plans that assist in guiding a local governmental unit’s future physical development, community health plans that assist in guiding a local governmental unit’s response to community health problems, and hazard mitigation plans that assist a local governmental unit in preparing for disasters. Under the bill, if a local governmental unit prepares a comprehensive plan, a community health plan, or a disaster mitigation plan, it must consider the effects of climate change when preparing the plan.

Municipal records filings and filing requirements for certain annexations

The bill transfers the duty of filing certain municipal records from the secretary of state to the secretary of administration and transfers certain records held by the secretary of state to instead be held by DOA. 2015 Wisconsin Act 55 transferred
SENATE BILL 111

some, but not all, municipal records filing duties from the secretary of state to DOA. The bill completes the transfer of these duties from the secretary of state to DOA for all municipal filing categories.

The bill also replaces the term “plat” with the term “scale map” in certain filing statutes to conform with existing statutory requirements for certain filings, including petitions for incorporation and for annexation. The bill reduces the number of copies that must be provided to DOA in certain circumstances from multiple copies to just one copy. Finally, the bill removes the population requirement for annexations initiated by electors and property owners to make uniform the filing requirements for all annexations, regardless of county population size.

City of Superior local exposition district

Generally, under current law, a political subdivision may create a local exposition district, either singly or with another political subdivision. A local exposition district is a unit of government that is separate from the political subdivision that creates it and has powers related to creating and operating an exposition center.

The bill makes changes to the local exposition district law that apply only to future districts created by the City of Superior (Superior exposition districts). Under the bill, the primary uses of a Superior exposition district may include sporting tournaments, and the structures included in the district may include those intended for use by transient tourists. A Superior exposition district may impose and collect a food and beverage tax and may impose and collect a room tax at a maximum rate of 2 percent. The bill limits the maximum amount of bond proceeds that the district may issue for development and construction of an exposition center to $20,300,000. Before an enabling resolution adopted by the City of Superior to create a Superior exposition district may take effect, it must be approved in a referendum by a majority of the electors in the city voting on the resolution.

MMSD dredged material management facility

The bill allows a metropolitan sewerage commission for a sewerage district including a first class city (currently only the city of Milwaukee) to finance and construct a dredged material management facility.

Current law allows a metropolitan sewerage commission for a sewerage district including a first class city to participate in certain shore protection projects, but the provision does not apply to any project after January 1, 1992. The bill would modify certain current law requirements, including the date restriction, to specifically allow the metropolitan sewerage commission to construct projects, including a dredged material management facility project, before January 1, 2032. Under the bill, the metropolitan sewerage commission must pay for all costs of the project through its capital budget and finance the project over a period of 35 years. The bill also provides that the commission may reserve space in the dredged material management facility for the disposal of sediment from flood management projects.
MARIJUANA

Legalizing recreational marijuana

Current law prohibits a person from manufacturing, distributing, or delivering marijuana; possessing marijuana with the intent to manufacture, distribute, or deliver it; possessing or attempting to possess marijuana; using drug paraphernalia; or possessing drug paraphernalia with the intent to produce, distribute, or use a controlled substance. The bill changes state law so that it allows recreational use of marijuana. The bill does not affect federal law, which generally prohibits persons from manufacturing, delivering, or possessing marijuana and applies to both intrastate and interstate violations.

The bill changes state law to allow a Wisconsin resident who is at least 21 years old, or a qualifying patient, to possess no more than two ounces of marijuana and to allow a nonresident of Wisconsin who is at least 21 years old to possess no more than one-quarter ounce of marijuana. Under the bill, generally, a qualifying patient is an individual who has been diagnosed by a physician as having or undergoing a debilitating medical condition or treatment and who is at least 18 years old.

Generally, under the bill, a person who possesses more than the maximum amount he or she is allowed to possess, but not more than 28 grams of marijuana, is subject to a civil forfeiture not to exceed $1,000 or imprisonment not to exceed 90 days or both. A person who possesses more than 28 grams of marijuana is guilty of a Class B misdemeanor, except that, if the person takes action to hide the amount of marijuana he or she has and the person has in place a security system to alert him or her to the presence of law enforcement, a method of intimidation, or a trap that could injure or kill a person approaching the area containing the marijuana, the person is guilty of a Class I felony.

The bill also eliminates the prohibition on possessing or using drug paraphernalia that relates to marijuana consumption.

Permits to produce, process, and sell recreational marijuana

The bill creates a process by which a person may obtain a permit to produce, process, or sell marijuana for recreational use and pay an excise tax for the privilege of doing business in this state. Sixty percent of the revenue collected from the tax is deposited into a segregated fund called the “community reinvestment fund.” Under the bill, the community reinvestment fund is used to provide grants to underserved communities, sparsity aid to school districts, grants to promote health equity, and grants to promote diversity and advance equity and inclusion.

The bill requires a person to obtain separate permits from DOR to produce, process, distribute, or sell marijuana, and requires marijuana producers and processors to obtain additional permits from DATCP. The requirements for obtaining these permits differ based on whether the permit is issued by DOR or DATCP but, in general, a person may not obtain such a permit if he or she is not a state resident, is under the age of 21, or has been convicted of certain crimes. In addition, a person may not operate under a DOR permit within 500 feet of a school, playground, recreation facility, child care facility, public park, public transit facility, or library and may not operate as a marijuana producer under a DATCP permit.
within 500 feet of a school. A person who holds a permit from DOR must also comply with certain operational requirements.

Under the bill, a permit applicant with 20 or more employees may not receive a permit from DATCP or DOR unless the applicant certifies that the applicant has entered into a labor peace agreement with a labor organization. The labor peace agreement prohibits the labor organization and its members from engaging in any economic interference with persons doing business in this state, prohibits the applicant from disrupting the efforts of the labor organization to communicate with and to organize and represent the applicant’s employees, and provides the labor organization access to areas in which the employees work to discuss employment rights and the terms and conditions of employment. Current law prohibits the state and any local unit of government from requiring a labor peace agreement as a condition for any regulatory approval. The permit requirements under the bill are not subject to that prohibition.

The bill also requires DATCP and DOR to use a competitive scoring system to determine which applicants are eligible to receive permits. Each department must issue permits to the highest scoring applicants that it determines will best protect the environment; provide stable, family–supporting jobs to local residents; ensure worker and consumer safety; operate secure facilities; and uphold the laws of the jurisdictions in which they operate. Each department may deny a permit to an applicant with a low score.

Under the bill, a person who does not have a permit from DOR to sell marijuana may not sell, distribute, or transfer marijuana or possess marijuana with the intent to sell or distribute it. A person who violates this prohibition is guilty of a Class I felony.

Also under the bill, a person who does not have a permit from DATCP may not produce or process marijuana. A person who violates this prohibition, who fails to pay the fee for a permit, or who violates any rules promulgated by DATCP relating to producing or processing marijuana is subject to a criminal penalty of a fine of between $100 and $500, imprisonment of up to six months, or both. In addition, a person who is cultivating marijuana plants without a permit who possesses more than six but not more than 12 marijuana plants that have reached the flowering stage is subject to a civil forfeiture not to exceed $1,000 and the permit may be suspended for up to 30 days. If the person possesses more than 12 plants that have reached the flowering stage at one time, the person is guilty of a Class B misdemeanor, except that, if the person takes action to hide the number of plants he or she has and the person has in place a security system to alert him or her to the presence of law enforcement, a method of intimidation, or a trap that could injure or kill a person approaching the area containing the plants, the person is guilty of a Class I felony.

Penalties for sales to minors

The bill prohibits a DOR permittee from selling, distributing, or transferring marijuana to a person who is under the age of 21 (minor) and from allowing a minor to be on premises for which a permit is issued. If a permittee violates one of those prohibitions, the permittee may be subject to a civil forfeiture of not more than $500 and the permit may be suspended for up to 30 days. If a person who does not have
SENATE BILL 111

a permit from DOR to sell marijuana sells, distributes, or transfers marijuana to a minor, and the person is at least three years older than the minor, the person is guilty of a Class H felony.

Under the bill, a minor who does any of the following is subject to a forfeiture of not less than $250 nor more than $500: procures or attempts to procure marijuana from a permittee; falsely represents his or her age to receive marijuana from a permittee; knowingly possesses marijuana for recreational use; or knowingly enters any premises for which a permit has been issued without being accompanied by his or her parent, guardian, or spouse who is at least 21 years of age or at least 18 years of age if a qualifying patient.

Medical marijuana registry

The bill requires DOR to create and maintain a medical marijuana registry program whereby a person who is a qualifying patient may obtain a registry identification card and purchase marijuana from a licensed retail establishment without having to pay the sales or excise taxes imposed on that sale.

Registration for testing labs

The bill also requires DATCP to register entities as tetrahydrocannabinols (THC)-testing laboratories. The laboratories must test marijuana for contaminants; research findings on the use of medical marijuana; and provide training on safe and efficient cultivation, harvesting, packaging, labeling, and distribution of marijuana, security and inventory accountability, and research on medical marijuana.

Employment discrimination

Under the fair employment law, no employer or other person may engage in any act of employment discrimination against any individual on the basis of the individual’s use or nonuse of lawful products off the employer’s premises during nonworking hours, subject to certain exceptions, one of which is if the use impairs the individual’s ability to undertake adequately the job-related responsibilities of that individual’s employment. The bill specifically defines marijuana as a lawful product for purposes of the fair employment law, such that no person may engage in any act of employment discrimination against an individual because of the individual’s use of marijuana off the employer’s premises during nonworking hours, subject to those exceptions.

Unemployment benefits

Under current law, an individual may be disqualified from receiving unemployment insurance benefits if he or she is terminated because of misconduct or substantial fault. The bill specifically provides that an employee’s use of marijuana off the employer’s premises during nonworking hours does not constitute misconduct or substantial fault unless termination for that use is permitted under one of the exceptions under the fair employment law. Also under current law, DWD must establish a program to test claimants who apply for UI benefits for the presence of controlled substances, as defined under federal law. If a claimant tests positive for a controlled substance, the claimant may be denied UI benefits, subject to certain exceptions and limitations. The bill excludes THC for purposes of this testing
requirement. As such, under the bill, an individual who tests positive for THC may not be denied UI benefits.

Drug testing for public assistance programs

The bill exempts THC, including marijuana, from drug testing for certain public assistance programs. Currently, a participant in a community service job or transitional placement under the Wisconsin Works program (W-2) or a recipient of the FoodShare program, also known as the food stamp program, who is convicted of possession, use, or distribution of a controlled substance must submit to a test for controlled substances as a condition of continued eligibility. DHS is currently required to request a waiver of federal Medicaid law to require drug screening and testing as a condition of eligibility for the childless adult demonstration project in the Medical Assistance program. Current law also requires DHS to promulgate rules to develop and implement a drug screening, testing, and treatment policy for able-bodied adults without dependents in the FoodShare employment and training program. The bill exempts THC from all of those drug-testing requirements and programs. In addition, because THC is not a controlled substance under state law under the bill, the requirement under current law that DCF promulgate rules to create a controlled substance abuse screening and testing requirement for applicants for the work experience program for noncustodial parents under W-2 and the Transform Milwaukee Jobs and Transitional Jobs programs does not include THC.

Anatomical gifts

Unless federal law requires otherwise, the bill prohibits a hospital, physician, organ procurement organization, or other person from determining the ultimate recipient of an anatomical gift on the sole basis of a positive test for the use of marijuana by a potential recipient.

MILITARY AFFAIRS

Urban search and rescue task force

Under current law, a regional structural collapse team contracted with the Division of Emergency Management in the DMA is required to respond to structural collapse incidents that meet criteria established by the division. Under current law, a team may respond only to incidents of structural collapse. The bill changes the team’s designation from being a structural collapse team to an urban search and rescue task force, as designated by the National Fire Protection Association and Emergency Management Accreditation program standards. This change allows an urban search and rescue task force to respond to a wider variety of incidents.

Under current law, when a regional structural collapse team responds to an incident, the team must make a good faith effort to identify the party who is responsible for the structural collapse and provide that information to the Division of Emergency Management to seek reimbursement from that party. Any reimbursement to a regional structural collapse team is limited to the amounts collected by the Division of Emergency Management. Under the bill, this limitation on reimbursement is removed, and DMA must reimburse within 60 days local agencies that provided services as part of an urban search and rescue task force if
agencies apply for reimbursement within 45 days of the conclusion of the task force’s deployment. DMA may seek reimbursement for those services from any responsible party.

The bill also allows DMA to reimburse a local agency for any increase in contributions for duty disability premiums because an employee incurred an injury while performing duties as a member of an urban search and rescue task force.

**Statewide public safety interoperable communication system**

Under current law, DMA provides staff support for the Interoperability Council and is charged with overseeing the development and operation of a statewide public safety interoperable communication system, which is a system that allows various public safety entities, public works and transportation agencies, hospitals, and volunteer emergency services agencies to communicate via radio or other communication technology in an emergency.

The bill provides that DMA must also administer any current or future statewide public safety interoperable communication system, and allows DMA to enter into agreements for maintenance and support of, upgrades to, and enhancements for the statewide public safety interoperable communication system.

**Next Generation 911 geographic information systems grants**

Under current law, DMA must issue grants to public safety answering points, more commonly known as 911 call centers, for a variety of purposes related to advanced 911 operations, known as Next Generation 911.

The bill creates an additional grant program, under which DMA must issue grants to counties for the purpose of preparing geographic information systems data to help enable Next Generation 911. Under the bill, the appropriate purposes and eligibility criteria for the grants must be developed by DMA policy. Grant purposes may include data preparation, data gathering, data creation, geographic information system staffing, data preparation and collection contracts, and training, if these purposes enable Next Generation 911, but may not include general overhead or costs for providing emergency services or emergency services equipment. DMA must coordinate with DOA in administering the grant program. DMA may not award more than one such grant per county per fiscal year. Under the bill, this new grant program sunsets on June 30, 2025.

**State disaster assistance for hazard mitigation measures**

Under current law, the state disaster assistance program requires DMA to make payments to retail electric cooperatives, local governmental units, and federally recognized American Indian tribes and bands in this state for damages and costs incurred as the result of certain disasters that do not qualify for federal disaster assistance funding. The bill authorizes state disaster assistance payments to include costs incurred for approved hazard mitigation measures after a disaster.

**Truax Field electrical micro grid**

The bill directs DMA to conduct a study in fiscal year 2022-23 to determine whether it would be feasible to build an electrical micro grid system at Truax Field. DMA may spend $64,000 in fiscal year 2022-23 to conduct such a study. If, based on the study, the adjutant general determines that construction of an electrical micro
grid system at Truax Field is feasible, DMA may spend $296,000 in fiscal year 2022-23 for schematic designs related to the construction of such an electrical micro grid system.

**Emergency management assistance compact**

The bill converts two appropriations for services provided under the emergency management assistance compact from annual appropriations to continuing appropriations. Under current law, the emergency management assistance compact is an agreement between the state of Wisconsin and all other states that have entered into the compact to provide for mutual assistance among the states in managing any emergency or disaster that is declared by the governor of the affected state.

**Lapses to the general fund**

The bill lapses $130,094 to the general fund from three continuing appropriations to DMA related to emergency management.

**NATURAL RESOURCES**

**GENERAL NATURAL RESOURCES**

**Extending the Warren Knowles-Gaylord Nelson Stewardship 2000 program**

Current law authorizes the state to incur public debt for certain conservation activities under the Warren Knowles-Gaylord Nelson Stewardship 2000 program, which is administered by DNR. The state may incur this debt to acquire land for the state for conservation purposes and for property development activities and may award grants to local governments and nonprofit organizations to acquire land for these purposes. Current law establishes the amounts that DNR may obligate in each fiscal year through fiscal year 2021-22 for expenditure under each of five subprograms of the stewardship program.

The bill reauthorizes the stewardship program until fiscal year 2031-32 and sets at $70,000,000 the amount that DNR may obligate under the program in each fiscal year beginning in fiscal year 2022-23 and ending in fiscal year 2031-32. The bill increases to $1,788,850,000 the total amount of public debt that the state may contract under the program.

Beginning in fiscal year 2022-23 the bill increases the amount DNR may obligate in each fiscal year under the land acquisition subprogram from $21,000,000 to $26,000,000 until fiscal year 2025-26, then decreases that amount to $25,000,000 in each fiscal year until 2031-32. Of that total amount, the bill increases from $9,000,000 to $10,000,000 the amount that DNR may obligate for DNR land acquisitions in each fiscal year. The bill requires DNR to set aside $1,000,000 in each fiscal year in fiscal years 2022-23 to 2025-26 to acquire land from the board of commissioners of public lands and to provide counties with 50 percent matching grants to acquire land from BCPL. The bill increases from $7,000,000 to $10,000,000 the amount in each fiscal year that must be set aside for grants awarded to nonprofit conservation organizations (NCO).

The bill maintains the following amounts that DNR must set aside in each fiscal year for the following purposes under the land acquisition subprogram: $5,000,000 for the county forest grant program, $1,000,000 for the Ice Age Trail, and $2,000,000 to match federal Forest Legacy Program grants. The bill adds property development...
and maintenance to the activities for which stewardship moneys may be obligated for the Ice Age Trail and property development to the activities for which stewardship moneys may be obligated under the county forest grant program. In addition, the bill provides that the Ice Age Trail moneys may also be obligated for 50 percent matching grants to NCOs and local governments to acquire, develop, and maintain Ice Age Trail properties.

Beginning in fiscal year 2022-23 the bill increases from $9,750,000 to $41,000,000 the amount in each fiscal year that DNR may obligate under the property development and local assistance subprogram, then increases this amount to $42,000,000 in each fiscal year beginning in fiscal year 2026-27 and ending with fiscal year 2031-32. Of that total amount, the bill increases from $3,250,000 to $22,000,000 the amount DNR must obligate in each fiscal year under current law for DNR property development beginning in fiscal year 2022-23, then increases this amount to $23,000,000 in each fiscal year beginning in fiscal year 2026-27 and ending with fiscal year 2031-32. The bill increases from $6,000,000 to $18,000,000 the amount that DNR may obligate in each fiscal year for local assistance grants for property development. The bill requires DNR to set aside $1,000,000 in each fiscal year for grants to NCOs and friends groups for property development projects on DNR properties, with a limit of $80,000 in grants per DNR property in each fiscal year. Current law limits the amount that may be encumbered on those grants to $250,000 each fiscal year and $20,000 per DNR property. The bill eliminates all-terrain vehicle (ATV), utility terrain vehicle (UTV), and snowmobile projects as one of the purposes for which moneys may be obligated under the property development and local assistance subprogram.

Beginning in fiscal year 2022-23 the bill increases from $2,500,000 to $3,000,000 the amount in each fiscal year that DNR may obligate under the recreational boating aids subprogram.

Under the bill, if for fiscal years 2022-23, 2024-25, 2026-27, 2028-29, and 2030-31 DNR does not obligate the full amount it is authorized to obligate under the land acquisition, property development and local assistance, and recreational boating aids subprograms, DNR may obligate the unobligated amount in the next fiscal year for the purpose for which it was authorized. Then, if for fiscal years 2023-24, 2025-26, 2027-28, 2029-30, and 2031-32 DNR does not obligate the full amount it is authorized to obligate under those subprograms, plus any unobligated amount from the prior fiscal year, DNR may obligate those unobligated amounts in any fiscal year through 2031-32, but only for property development of DNR lands or on conservation easements adjacent to DNR lands.

Under current law, if DNR does not obligate the full amount it is authorized to obligate in a fiscal year for grants to NCOs, it may obligate the unobligated amount in the next fiscal year but only for county forest grants. Under the bill, if DNR does not obligate the full amount it is authorized to obligate for grants to NCOs for any of the fiscal years 2022-23, 2024-25, 2026-27, 2028-29, and 2030-31, it may obligate the unobligated amount in the next fiscal year but only for local assistance grants. If any of that unobligated amount remains after that second year, DNR may
obligate it in any fiscal year through 2031-32, but only for property development of
DNR lands or on conservation easements adjacent to DNR lands.

Under current law, generally, for any project or activity for which more than
$250,000 of stewardship moneys are proposed to be obligated, DNR must obtain
written approval for the project or activity from the joint committee on finance. The
bill increases this threshold to $500,000. The bill also eliminates the requirement
that DNR obtain written approval for obligating stewardship moneys for any land
acquisition located north of STH 64.

Under current law, any person receiving a stewardship grant to acquire land
on former managed forest land must allow public access to the land for nature-based
outdoor activities, except that a person may prohibit public access for one or more
nature-based outdoor activities if the Natural Resources Board determines the
prohibition is necessary in order to protect public safety, protect a unique animal or
plant community, or accommodate usership patterns. The bill eliminates a current
law provision under which the exception with respect to accommodating usership
patterns does not apply for land acquired after the effective date of the bill that is not
for state trails or the Ice Age Trail.

The bill eliminates a limitation under current law that prohibits more than
one-third of the amount set aside for DNR’s acquisition of land from being obligated
to acquire land in fee simple.

Finally, the bill eliminates a requirement under current law that DNR provide
a written directory of all stewardship land that is open for public access.

**Pierce County islands wildlife restoration**

The bill creates a continuing appropriation from the conservation fund to DNR
for restoration projects in the Pierce County islands wildlife area.

**Terrestrial invasive species prevention**

The bill creates an annual appropriation from the conservation fund to DNR for
grants to cooperative invasive species management areas for surveying, monitoring,
and controlling terrestrial invasive species.

**Law enforcement technology**

Under current law, DNR is appropriated scheduled amounts from the general
fund, the environmental fund, and the conservation fund for acquiring law
enforcement radios. Under the bill, each appropriation is made for the purpose of
acquiring law enforcement technology.

**Sheboygan Marsh dam funding**

The bill authorizes DNR to award a $1,000,000 grant to Sheboygan county to
remove and reconstruct a dam on the Sheboygan River at the Sheboygan Marsh.

**MacKenzie environmental center**

Under current law, moneys are appropriated to the MacKenzie environmental
center biennially from the general fund (MacKenzie appropriation). A biennial
appropriation is expendable only for the biennium for which made. Current law
allows DNR to charge fees to participants in a DNR environmental education
program to cover the costs of the program, and requires such fees collected by DNR
for the use of the MacKenzie environmental center to be deposited in the general fund and credited to the MacKenzie appropriation.

The bill changes the MacKenzie appropriation to a continuing appropriation, which is an appropriation that is expendable until fully depleted or repealed by subsequent action of the legislature. Under the bill, the MacKenzie appropriation is still funded by all moneys received from fees collected for the use of the MacKenzie environmental center.

**Funding from Indian gaming receipts**

Current law requires DOA to transfer portions of Indian gaming receipts to certain DNR appropriations annually. The bill eliminates the requirement to transfer these amounts to appropriations that fund elk management and the reintroduction of whooping cranes, eliminates those appropriations, and replaces them with appropriations funded from the conservation fund. The bill also eliminates the requirement to transfer these amounts to an appropriation that funds snowmobile law enforcement operations and safety training and fatality reporting and eliminates that appropriation. The bill makes no change to an appropriation funding the same purposes from the conservation fund.

**Navigable waters and wetlands**

**Great Lakes erosion control loan program**

The bill requires DNR to administer a revolving loan program to assist municipalities and owners of homes located on the shore of Lake Michigan or Lake Superior where the structural integrity of municipal buildings or homes is threatened by erosion of the shoreline. Under the bill, moneys for the program are provided from the environmental fund. The bill requires DNR to promulgate rules to administer the program, including eligibility requirements and income limitations, and authorizes DNR to promulgate emergency rules for the period before permanent rules take effect.

**Hydrologic restoration**

Under current law, DNR may issue a general permit to a person wishing to proceed with a wetland restoration activity sponsored by a federal agency. The bill requires DNR to issue a general permit that authorizes wetland, stream, and floodplain restoration and management activities that will result in a net improvement in hydrologic connections, conditions, and functions.

The general permit issued under the bill is valid for a period of five years, except that an activity that DNR determines is authorized by a general permit remains authorized under the permit until the activity is completed. The general permit issued under the bill for an activity is in lieu of any permit or approval that would otherwise be required for that activity under state navigable water law, water quality law, or wetland law. The bill requires DNR to apply several conditions to the new general permit and authorizes DNR to require an individual seeking approval to conduct activities under the general permit to apply for an individual permit under certain circumstances.
SENATE BILL 111

The bill creates at DNR a hydrologic restoration and management advisory council to provide input, make recommendations, and generally assist DNR with the implementation of the new general permit and associated restoration projects.

Bonding for dam safety projects

Under current law, the state may contract up to $29,500,000 in public debt to provide financial assistance to counties, cities, villages, towns, and public inland lake protection and rehabilitation districts for dam safety projects. The bill increases the bonding authority for these projects by $6,000,000.

PARKS, FORESTRY, AND RECREATION

Free admission to state parks for 4th graders

Under current law, no person may operate a vehicle in any state park or in certain other recreational areas on state land unless the vehicle displays a vehicle admission receipt. The bill requires DNR to waive the fee for an annual vehicle admission receipt issued to the parent or guardian of a student receiving a 4th grade level of instruction. A parent or guardian of a qualifying pupil may apply to DNR for the waiver by submitting required certifications. A parent or guardian may receive the waiver only once in his or her lifetime and DNR may issue a waiver only once for a household. The bill also requires DNR to provide on its website an activity guide for state parks, forests, recreation areas, and trails.

Recreational vehicle online registration

Under current law, no person may operate an ATV, UTV, or snowmobile and no owner may give permission for such operation unless the ATV, UTV, or snowmobile is registered with DNR. Current law allows DNR to appoint persons who are not DNR employees as agents to issue, transfer, or renew registration documents for ATVs, UTVs, and snowmobiles and to issue reprints of those documents. Current law provides that an agent who accepts an application and required fees for ATV, UTV, or snowmobile registration documents must issue to the applicant a temporary operating receipt or some or all of the registration documents at the time the application is submitted, and issue any remaining registration documents directly from DNR at a later date. The bill allows an agent to accept an application by facilitating an online application for registration documents.

Current law requires every ATV, UTV, or snowmobile manufacturer, dealer, distributor, or renter to register with DNR and apply to DNR for, respectively, a commercial ATV and UTV or commercial snowmobile certificate. The bill allows these applications to be completed through an online application system.

Under current law, no person may operate an off-highway motorcycle (OHM) off the highways and no owner may give permission for such operation unless the OHM is registered with DNR. Current law requires an OHM dealer to register with DNR and apply to obtain a commercial OHM certificate. Current law requires an OHM dealer to require an OHM buyer to pay the applicable registration fee and complete an application for registration of an OHM. Current law requires an OHM dealer to affix a decal issued by DNR to a removable plate or sign on an OHM offered for sale. If a commercial OHM certificate or decal is lost or destroyed, current law
SENATE BILL 111

allows the holder to apply to DNR for a duplicate. The bill allows for all of these applications to be completed through an online application system.

Current law requires an OHM dealer to provide an OHM buyer with a temporary operating receipt, and to mail or deliver the application and fee to DNR no later than seven days after the date of the sale. If ownership of an unregistered OHM is transferred by a person other than an OHM dealer, current law requires the buyer or transferee to complete an application for registration. If ownership of a registered OHM is transferred, current law requires the transferee to complete an application for transfer on a DNR form and mail or deliver the form to DNR within 10 days after the date of transfer. The bill allows for all of these applications to be completed through an online application system.

Boating enforcement aids

Under current law, a county or municipality that operates a water safety patrol unit is eligible for an aid payment that is calculated based on the costs that are directly attributable to the operation and maintenance of the water safety patrol unit. Aid payments are currently limited to 75 percent of these costs. The bill increases the aid payment limit to 80 percent of costs.

Vehicle registration and trail use fee retention

Off-highway motorcycle administration

Under current law, moneys received from the sale of nonresident trail passes for OHM operation are not credited to a specific appropriation but are deposited in the conservation fund. Under the bill, all moneys received from the sale of nonresident trail passes for OHM operation will continue to be deposited in the conservation fund but will be credited to the appropriation account that provides DNR moneys to administer the OHM program.

Snowmobile aids for trail maps and grooming tracker

Under current law, state aid is available for snowmobile trail development, maintenance, rehabilitation, and signage. The bill expands the purposes for which this state aid may be used to include payment of a qualified vendor to provide real-time tracking of snowmobile trail grooming through DNR's online trail grooming reporting system (commonly known as the Snowmobile Automated Reporting System, or SNARS) and to develop and maintain an accurate, statewide geographic information system map of snowmobile trails.

Withdrawal of county forest lands for sale to American Indian tribes

Under current law, a county board may designate certain land as a county forest and enter that designation by application to DNR. The county must manage the county forest for recreational use, timber harvesting, and other specified purposes and DNR must make payment to the county based on the acreage of county forest the county maintains. A county may subsequently apply to DNR to withdraw the entry of land as a county forest and sell the land. If the sale is to be to a person other than the state or a local unit of government, DNR must establish a minimum value for the land to be withdrawn. Under the bill, county forest that is withdrawn to be sold to an American Indian tribe or band is also excluded from the requirement that DNR establish the minimum value of the land to be withdrawn.
SENATE BILL 111

Emergency rule making for the urban forestry grant program

Under current law, DNR administers an urban forestry grant program to provide grants to municipalities and NCOs to undertake various tree projects in urban areas. The bill allows DNR to promulgate emergency rules to incorporate new priorities and categories of grants and recipients and to increase the minimum amount of urban forestry grants, without finding that an emergency exists or providing evidence that promulgating an emergency rule is necessary to preserve public peace, health, safety, or welfare.

FISH, GAME, AND WILDLIFE

Use of ID card to establish residency for DNR approvals

Under current law, DNR issues approvals that authorize the holder of the approval to engage in certain activities, such as hunting wild animals. In general, residents of the state are issued a different approval, for a lower fee, than nonresidents of the state. Current law provides that a resident is anyone who has maintained a permanent abode in the state for at least 30 days prior to applying for an approval, which must be established by demonstrating domiciliary intent. Under current law, evidence of domiciliary intent includes voting, paying personal income taxes, or obtaining a driver’s license at a location in the state. The bill provides that domiciliary intent may also be satisfied by obtaining an identification card issued by DOT. Under current law, an identification card issued by DOT is required to contain the same information that is required for an operator’s license, including the license holder’s name, address, and photograph, but must be clearly labeled as providing only identification of the card’s holder.

Waterfowl stamp fee and uses

Under current law generally, no person may hunt waterfowl unless he or she is issued a conservation patron license, a hunting license authorizing the hunting of small game and a waterfowl hunting stamp, or a sports license and a waterfowl hunting stamp. The bill raises the fee for a waterfowl hunting stamp from $6.75 to $11.75. Current law requires DNR to spend 67 percent of the money received from fees for waterfowl hunting stamps for developing, managing, preserving, restoring, and maintaining wetland habitat and for producing waterfowl and ecologically related species of wildlife. Under the bill, DNR may also provide those moneys to NCOs and local units of government for developing and restoring wetland habitat.

Aquatic plant management

Under current law, without a valid aquatic plant management permit issued by DNR, no person may introduce nonnative aquatic plants into waters of this state, manually remove aquatic plants from navigable waters, or control aquatic plants in waters of this state by the use of chemicals or by introducing biological agents, by using a process that involves dewatering, desiccation, burning, or freezing, or by using mechanical means. Under current law, DNR establishes fees for aquatic plant management permits, and those fees are deposited into a general fund appropriation used for facilities, materials, or services provided by DNR relating to its environmental quality functions and to the management of the state’s water.
resources. Under the bill, those fees are deposited into a general fund appropriation used solely for the aquatic plant management permit program.

**Deer carcass disposal sites**

The bill requires DNR to provide financial assistance to local governments, individuals, businesses, and conservation organizations to purchase large metal containers for the disposal of deer carcasses.

**PUBLIC UTILITIES**

**Broadband line extension grants**

The bill requires PSC to make grants to residents of properties that are not served by a broadband service provider to assist in paying the customer costs associated with line extension necessary to connect broadband service to the properties. The maximum amount of a broadband line extension grant is $4,000. The bill also requires PSC to give priority to primary residences and to establish other criteria for awarding the grants.

**Broadband planning grants**

The bill requires PSC to make grants to cities, villages, towns, counties, school districts, tribal governments, regional planning commissions, nonprofit organizations, and local economic development councils for the following: 1) broadband planning; 2) feasibility engineering related to broadband infrastructure construction; 3) broadband adoption planning; and 4) digital inclusion activities. The maximum amount of a broadband planning grant is $50,000. The bill also requires PSC to provide training, technical assistance, and information on broadband infrastructure construction, broadband adoption, and digital inclusion.

**Creating an appropriation for the state broadband office**

The bill creates an appropriation to fund the operations of the state broadband office within PSC. Currently, the state broadband office enhances the availability, adoption, and use of broadband across the state.

**Funding for broadband expansion grant program**

The bill appropriates general purpose revenue for the broadband expansion grant program administered by PSC.

**Eligibility for broadband expansion grants**

The bill makes a city, village, town, or county (political subdivision) eligible to apply for a broadband expansion grant from PSC if the political subdivision is underserved or located in an unserved area. Under current law, underserved means served by fewer than two broadband service providers, and an unserved area is an area not served by an Internet service provider that meets certain standards for the service provided and for upload and download speeds. Under current law, a political subdivision is only eligible to apply for a broadband expansion grant if its application is submitted in partnership with a nonprofit organization or a telecommunications utility.

**Broadband mapping**

Under the bill, PSC must require Internet service providers, annually by April 1, to disclose to PSC the properties they serve, the average minimum download and
upload speeds at which they provide Internet service to those properties, and a description of their existing service areas. The bill requires PSC to use this information to conduct broadband mapping and facilitate the deployment of broadband infrastructure and access to broadband service. The bill adds an exception to the public records law by requiring PSC to withhold from public inspection any information disclosed by Internet service providers that would aid a competitor in competing with that provider if PSC determines that public disclosure is not necessary to conduct broadband mapping or facilitate the deployment of broadband infrastructure and access to broadband service.

**Allowing electric providers to use easements for broadband service**

The bill allows electric providers to use easements that they hold to do the following: 1) install or maintain broadband infrastructure; and 2) lease or provide excess capacity in broadband infrastructure to a supplier of broadband services. Under the bill, “electric provider” includes both electric public utilities and electric cooperatives. The bill also provides that except for an easement that expressly prohibits, by its terms, using the easement for those purposes, the terms or conditions of an easement held by an electric provider that inhibit it from using the easement for those purposes do not apply.

Before an electric provider uses an easement for the purposes allowed under the bill, it must provide notice to the owner of the property subject to the easement. After providing notice, an electric provider may record a memorandum including certain information in the office of the register of deeds of the county where the property subject to the easement is located. The bill also establishes requirements for actions brought by a property owner against an electric provider, subsidiary of an electric provider, or supplier of broadband services because of the electric provider’s use of an easement for a purpose allowed by the bill, and the bill prohibits owners from bringing such actions if the bill’s requirements are not satisfied.

**Focus on Energy funding**

The bill makes changes to the funding of statewide energy efficiency and renewable resources programs, known as Focus on Energy, that current law requires investor-owned electric and natural gas utilities to fund. Under the bill, PSC must require those utilities to spend 2.4 percent of their annual operating revenues derived from retail sales to fund Focus on Energy and related programs. Under current law, the amount those utilities must spend is 1.2 percent of their annual operating revenues from retail sales.

**Focus on Energy initiatives for low-income households**

The bill requires statewide energy efficiency and renewable resources programs, known as Focus on Energy, to include programs that promote energy efficiency and renewable energy measures for low-income households and that address the energy needs and decrease the energy burden of low-income households. Current law requires investor-owned electric and natural gas utilities to fund Focus on Energy and related programs.
SENATE BILL 111

Social cost of carbon

The bill requires PSC to consider the social cost of carbon in determining whether to issue certificates required to construct large electric generating facilities or high-voltage transmission lines or to engage in certain other public utility projects. The bill defines “social cost of carbon” as a measure of the economic harms and other impacts expressed in dollars that result from emitting one ton of carbon dioxide into the atmosphere. The bill requires PSC to evaluate and set the social cost of carbon emissions as a dollar amount per ton of carbon dioxide emitted into the atmosphere. The bill requires PSC to evaluate and adjust as necessary that dollar amount every two years. In making the evaluations, PSC must use integrated assessment models and consider appropriate discount rates. The bill requires any adjustment by PSC to be consistent with the international consensus on the social cost of carbon. The bill requires PSC to consult with DNR in making the evaluations.

The bill also requires that, beginning no later than December 31, 2021, PSC must submit a report every odd-numbered year to the legislature describing PSC’s evaluation of the social cost of carbon. If PSC adjusts the previously set dollar amount, the report must specify the social cost of carbon as adjusted by PSC.

Nonutility-owned electric vehicle charging stations

The bill exempts from regulation as a public utility a person who supplies electricity through an electric vehicle charging station to users’ electric vehicles. Under current law, a person who directly or indirectly provides electricity to the public is regulated as a public utility by PSC.

Compensation for participants in PSC proceedings

The bill requires PSC to require investor-owned electric and natural gas public utilities to provide funding to a “consumer advocate,” which is defined as the Citizens Utility Board. All actions by the consumer advocate that are funded under the bill must be directed toward a duty to represent and protect the interests of residential, small commercial, and small industrial energy customers of the state. The bill requires the consumer advocate to annually file with PSC a budget, which PSC must approve if it is consistent with the foregoing duty and covers reasonable annual costs. The bill allows PSC to approve the budget with conditions and modifications that PSC determines are necessary.

The bill limits the total annual funding for the consumer advocate to a maximum of $900,000. Each energy utility’s share of that total is based on an individual energy utility’s proportionate share of residential, small commercial, and small industrial customer meters in the state. The bill requires PSC to ensure in rate-making orders that energy utilities recover the funding from their customers. The bill also limits the amount that PSC may compensate the consumer for participating in PSC proceedings to $100,000 annually. Under current law, if certain requirements are satisfied, PSC is allowed to compensate participants in proceedings who are not public utilities.

The bill also requires PSC to reserve $50,000 annually to compensate equity-focused participants who review economic and environmental issues impacting low-income populations.
Residential energy improvement program

The bill authorizes PSC to establish and implement a program under which a public utility may finance energy improvements at a specific dwelling for a residential customer. Under the bill, a public utility may recover the costs of such an energy improvement through a surcharge periodically placed on the customer’s account.

Model ordinance and marketing related to efficiency and renewable resource improvements

Under current law, a political subdivision may make a loan to, or enter into a repayment agreement with, an owner or lessee of a premises for installing certain energy or water efficiency improvements or renewable resource improvements (known as the property assessed clean energy or PACE program). The bill requires PSC to develop and make available a model ordinance that addresses political subdivisions making loans or entering into agreements under the PACE program for installing certain energy or water efficiency improvements or renewable resource improvements.

The bill also authorizes activities advertising the availability of PACE program loans to be conducted as part of Focus on Energy programs. Under current law, Focus on Energy programs are a set of statewide energy efficiency and renewable resources programs that investor-owned electric and natural gas utilities are required to fund.

Energy utility innovative technology programs

The bill allows investor-owned energy utilities to establish innovative technology programs. Under the bill, a program must first be approved by PSC, and an energy utility may pay for the program by charging its customers or by another method approved by PSC. The bill also requires PSC to promulgate rules and establish goals, priorities, and measurable targets related to these programs.

Penalties for gas pipeline safety violations

The bill increases the maximum penalties for persons who fail to operate and maintain gas production, transmission, and distribution facilities in a reasonably adequate and safe manner. Current law requires gas production, transmission, and distribution facilities to be operated and maintained in a reasonably adequate and safe manner and authorizes PSC to issue orders and rules to promote safety of those facilities. Under current law, a person who violates one of these PSC orders or rules or fails to operate and maintain gas production, transmission, and distribution facilities in a reasonably adequate and safe manner is subject to a forfeiture of up to $25,000 per day and a total forfeiture of up to $500,000 for a single persisting violation. Under the bill, a violator is subject to a forfeiture of up to $200,000 per day and a total forfeiture of up to $2,000,000 for a single persisting violation.

Securitization of retiring power plants

Under current law, an energy utility is allowed to apply to PSC for an order allowing the utility to finance the costs of the following activities by issuing bonds: 1) the construction, installation, or otherwise putting into place of environmental control equipment in connection with a plant that, before March 30, 2004, has been used to provide service to customers; and 2) the retiring of any existing plant, facility,
or other property to reduce, control, or eliminate environmental pollution in accordance with federal or state law. Current law defines these activities as “environmental control activities.” If approved by PSC, the bonds, which are referred to as “environmental trust bonds,” are secured by revenues arising from charges paid by an energy utility’s customers for the utility to recover the cost of the activities, as well as the cost of financing the bonds.

The bill adds the retiring of any existing electric generating facility fueled by nonrenewable combustible energy resources as an environmental control activity, the costs of which may be financed by an environmental trust bond.

**High-voltage transmission line fees**

The bill requires PSC to administer annual impact and onetime environmental impact fees paid under current law by persons authorized by PSC to operate high-voltage transmission lines. Under current law, DOA administers the fees.

**RETIREMENT AND GROUP INSURANCE**

**DOMESTIC PARTNERS**

**Benefits for domestic partners**

2017 Wisconsin Act 59, the 2017 biennial budget act, removed from the statutes certain benefits provided to domestic partners of public employees who receive benefits through the Wisconsin Retirement System (WRS), the Group Insurance Board (GIB), and the Deferred Compensation Program. The bill reestablishes those benefits.

Specifically, Act 59 did all of the following: 1) for purposes of WRS, limited domestic partners to only those individuals who submitted an affidavit of domestic partnership to ETF before January 1, 2018; 2) prohibited GIB from covering an eligible employee’s domestic partner or stepchild under a domestic partnership in a group health insurance plan offered by GIB; 3) eliminated the option for a surviving domestic partner to purchase health insurance coverage under a group health insurance plan offered by GIB; and 4) for deaths occurring on or after January 1, 2018, provided that a surviving domestic partner is not a default beneficiary for purposes of a deferred compensation plan and is not eligible to receive duty disability survivorship benefits. The bill reverses, prospectively, those changes to those benefits.

**WISCONSIN RETIREMENT SYSTEM**

**Rehired teacher annuitants in the Wisconsin Retirement System**

Under current law, certain people who receive a retirement or disability annuity from WRS and who are hired by an employer that participates in WRS must suspend that annuity and may not receive a WRS annuity payment until the person is no longer in a WRS-covered position. This suspension applies to a person who 1) has reached his or her normal retirement date; 2) is appointed to a position with a WRS-participating employer or provides employee services as a contractor to a WRS-participating employer; and 3) is expected to work at least two-thirds of what is considered full-time employment by ETF.

The bill creates an exception to this suspension if 1) the person retired from WRS-covered employment as a teacher; 2) at least 15 days have elapsed from the
date the person left WRS-covered employment with a school district; 3) the person is hired as a teacher; 4) at the time the person initially retires from a school district, the person does not have an agreement with any school district to return to employment as a teacher or a contractor providing employee services as a teacher; and 5) the person elects to not become a participating employee at the time the person is rehired or enters into a contract after retirement. In other words, the bill allows a WRS teacher annuitant who is either hired as a teacher or provides employee services as a teacher with a school district that is a participating employer to return to work as a teacher and elect to not become a participating employee for purposes of WRS and instead continue to receive his or her annuity.

HEALTH INSURANCE

Waiting period for state employees

Under current law, most state employees, other than limited-term employees, may become covered under the state group health insurance plan on the first day of the first month after becoming employed with the state by filing an election within 30 days of being hired. However, most state employees are ineligible for an employer contribution towards the premiums for the health insurance for the first three months of employment. The bill changes the date to the first day of the second month for most state employees other than limited-term appointments hired on or after the effective date of the bill.

Actuarial study of mandatory participation by school districts

The bill requires GIB to conduct a study of the potential costs and savings to school districts and current participants in group health insurance plans offered by GIB of mandating participation by all school districts in this state in a group health insurance plan offered by GIB. The bill also requires GIB to submit a written report of the study to the governor and JCF by June 30, 2022.

DISABILITY PLANS

Oversight of group disability benefit insurance plans

Under current law, GIB oversees the group income continuation insurance plan and the group long-term disability insurance (LTDI) plan. The bill transfers oversight of those plans to the Employee Trust Funds Board (ETFB). The bill provides explicit statutory authority for ETFB to establish the LTDI plan.

EMPLOYEE TRUST FUNDS BOARDS

Board consolidation

Under current law, ETF is under the direction and supervision of ETFB, which has 11 appointed or elected members, serving four-year terms, and two members appointed by virtue of another office each holds (ex officio members). Eight of the board members are appointed by two boards attached to ETF, four members from the Wisconsin Retirement Board (WRB) and four members from the Teachers Retirement Board (TRB).

ETFB sets policy for ETF; appoints the secretary of employee trust funds; approves tables used for computing benefits, contribution rates, and actuarial assumptions; authorizes all annuities except for disability; approves or rejects ETF
administrative rules; and oversees the benefit programs for state and local
government employees, except the group insurance and deferred compensation
programs.

Under current law, WRB advises ETFB on matters relating to retirement;
approves or rejects administrative rules; authorizes or terminates disability benefits
for WRS members who aren’t teachers; and hears appeals of disability rulings. WRB
appoints one member to the separate State of Wisconsin Investment Board (SWIB).
All members of WRB are ex officio members or appointed by the governor.

Also under current law, TRB advises ETFB on retirement and other benefit
matters involving teachers at public schools, technical schools, community colleges,
and state universities; acts on administrative rules; authorizes or terminates
teacher disability benefits; and hears disability benefit appeals. Nine members of
TRB are elected, and four are appointed by the governor.

The bill eliminates WRB and TRB and transfers their property, contracts,
orders, and pending matters to ETFB on the effective date of the bill. The bill also
transfers the duties of WRB and TRB to ETFB. Between the effective date of the bill
and April 30, 2026, all current members of ETFB will transition off ETFB at a rate
of two to three members per year, and they will be replaced by new members. The
membership of ETFB will remain 13, with a mix of ex officio, elected, and appointed
members.

State of Wisconsin Investment Board and membership

Under the bill, the secretary of employee trust funds or his or her designee and
one WRS participant appointed by ETFB are members of SWIB. Under current law,
two WRS participants are members of SWIB, one of which is a teacher participant
appointed by TRB and the other is a participant appointed by WRB who is not a
teacher.

Administrative changes

Internal auditor

The bill creates the Office of Internal Audit attached to ETF. Under the bill, the
office plans and conducts audits of activities and programs administered by ETF,
among other responsibilities, while following policies, principles, and directives
established by ETFB.

The bill requires ETFB to appoint an internal auditor and internal audit staff
within the classified service who report directly to ETFB. Currently, the internal
auditor for ETF reports to the secretary of employee trust funds, and internal audit
staff report to the internal auditor.

Trust funds earnings allocations

Under current law, investment gains and losses of the core and variable
retirement investment trust funds are distributed in a ratio of each participating
account’s average daily balance to the total average daily balance of all participating
accounts. SWIB invests assets of the core and variable investment trust funds,
which are commingled under current law, but all activity is not recorded on a daily
basis for the separate participating accounts. SWIB provides certified annual
earnings reports for the core and variable trust funds.
SENATE BILL 111

The bill provides that ETF may distribute the earnings to each participating account by calculating a simple average balance, which uses beginning and end-of-year balances for each participating account, and comparing that average balance to the total average balance of all participating accounts.

**Gifts and grants appropriation**

The bill creates a continuing appropriation for all gifts, grants, and bequests received by ETF. The bill also provides that such a gift, grant, or bequest is not subject to JCF approval.

**SAFETY AND PROFESSIONAL SERVICES**

**Buildings and safety**

**Use of vapor products in indoor locations**

The bill specifies that the general prohibition under current law against smoking in indoor locations includes inhaling or exhaling vapor from a “vapor product.” Under the bill, a “vapor product” is a noncombustible product that produces vapor or aerosol for inhalation from the application of a heating element to a liquid or other substance. The prohibition applies to vapor products regardless of whether they contain nicotine.

**Construction contractor registration**

The bill requires most persons who hold themselves out or act as a construction contractor to be registered by DSPS. DSPS may directly assess a forfeiture by issuing an order against any person who fails to register as required under the bill. The registration requirement does not apply to a person who engages in construction on his or her own property, to a state agency or local governmental unit, or to a person who engages in construction in the course of his or her employment by a state agency or local governmental unit.

**Private on-site wastewater treatment system grants**

The bill extends the grant program aiding certain persons and businesses served by failing private on-site wastewater treatment systems (POWTS), which are commonly known as septic tanks. Under current law, the program is repealed effective June 30, 2021. In addition, under the bill, a failing POWTS installed at least 33 years ago is eligible to receive a grant. Current law authorizes grants only for failing POWTS that were installed before July 1, 1978.

**Professional licensure**

**Licensure of dental therapists**

Under current law, dentists and dental hygienists are licensed by the Dentistry Examining Board to practice dentistry and dental hygiene, respectively. The bill provides for the licensure of a third type of dental practitioner: dental therapists. Under the bill, the examining board must grant a dental therapist license to an individual who satisfies certain criteria, including completion of a dental therapy program and passage of required examinations. The bill specifies the settings in which a dental therapist may practice dental therapy.

Dental therapists may provide dental therapy services only under the general supervision of a dentist with whom the dental therapist has a collaborative
management agreement that addresses various aspects of the dental therapist’s practice. The supervising dentist must give consent to supervise the dental therapist and must have prior knowledge of dental therapy services performed and examinations conducted. However, the supervising dentist is not required to be present at the time a task is performed or an examination is conducted. Dental therapists are, subject to the terms of a collaborative management agreement, limited to providing services, treatments, and procedures that are specified in the bill, as well as additional services, treatments, or procedures specified by the examining board by rule. The bill enumerates settings in which a dental therapist may practice dental therapy, requires the examining board to establish by rule the additional settings in which a dental therapist may provide dental therapy services, and specifies that those additional settings may be only settings in which low-income, uninsured, and underserved populations are served. Dental therapists must complete 12 hours of continuing education each biennium.

The bill subjects dental therapists to, or covers dental therapists under, various other laws, including the health care records law, the volunteer health care provider program, the health care worker protection law, and the emergency volunteer health care practitioner law. The bill also provides for loan forgiveness for dental therapists under the health care provider loan assistance program.

Finally, the bill requires, effective when the first individual becomes licensed as a dental therapist in this state, that two dental therapists be added to the examining board.

Dispensing of naloxone by pharmacists; training

The bill requires the Pharmacy Examining Board to promulgate rules requiring all pharmacists to receive training on delivering or dispensing an opioid antagonist. Opioid antagonists are prescription drugs, such as the drug naloxone, some of which can, when administered to a person undergoing an overdose on drugs such as heroin or prescription narcotics, have the effect of countering the effects of the overdose.

Pharmacist continuing education credits for volunteering at free and charitable clinics

The bill allows pharmacists to satisfy up to 10 hours of their biennial continuing education requirements by volunteering at a free and charitable clinic. Current law requires pharmacists to complete 30 hours of continuing education every two years as a condition of renewing their licenses.

Maintaining current e-mail addresses for credential applicants and recipients

The bill requires that applicants for and recipients of a professional credential provide DSPS with a current e-mail address. Current law requires those applicants and recipients to inform DSPS of their current name and address and of any changes to that information within 30 days of such change. This new requirement does not apply if the applicant or recipient does not have reasonable access to the Internet, in which case the applicant or recipient may maintain paper communication with DSPS. The bill specifies that electronic communications from DSPS may not be substituted for the service of any process, notice, or demand.
Moneys from other agencies

The bill creates an appropriation for DSPS to receive and use moneys received from other agencies, such as federal moneys.

STATE GOVERNMENT

LEGISLATURE

Congressional and legislative redistricting

Under the U.S. and Wisconsin Constitutions, the Wisconsin Legislature undertakes congressional and state assembly and senate redistricting after each federal decennial census. The most recent federal census was conducted beginning on April 1, 2020. The bill imposes all of the following requirements on the 2021–23 legislature concerning congressional and legislative redistricting:

1. The Legislative Reference Bureau must prepare bills that give effect to the congressional and legislative redistricting plans proposed by the People’s Maps Commission, which Governor Evers created on January 27, 2020, under Executive Order 66. Executive Order 66 requires the commission to hold public hearings throughout the state and develop redistricting maps for consideration by the legislature. Once LRB has prepared the bills, LRB is required to deliver the bills to the governor for approval.

2. The governor then provides the bills to the Joint Committee on Legislative Organization (JCLO), which is required to introduce the bills without change in each house of the legislature. The legislature must take final action on the bills no later than the 60th day after the bills are introduced. Additionally, the bill prohibits the legislature from taking action on any other redistricting legislation until after each house of the legislature votes on final passage of the commission’s maps.

3. All records created or maintained by each house, committee, and member of the legislature that relate to congressional or legislative redistricting may not be destroyed until after December 31, 2030. Under current law, legislators’ records need not be retained for a specified period of time.

4. All records created or maintained by each house, committee, and member of the legislature that relate to congressional or legislative redistricting are subject to public access under Wisconsin’s open records law and may not be withheld from public access on the basis of any claim of confidentiality or privilege, except for records containing confidential attorney-client communications concerning a previously drafted congressional or legislative redistricting plan. Under current law, such records, depending on the circumstances, may be subject to statutory or common law confidentiality requirements or privileges, including the attorney-client privilege.

5. Each meeting related to congressional or legislative redistricting that includes at least two members of the legislature, members of the partisan staff of at least two legislative offices, a member of the legislature and nonpartisan legislative staff, or a member of the legislature and a person retained by the legislature to assist with congressional or legislative redistricting, must be preceded by public notice in the manner provided under Wisconsin’s open meetings law and must be held in a place reasonably accessible to members of the public and open to all citizens at all
SENATE BILL 111

times. Under current law, the open meetings law applies to meetings of government bodies. It does not apply to meetings between legislators and staff.

**Legislative intervention in certain court proceedings**

Current law as established in 2017 Wisconsin Act 369 provides that the legislature may intervene as a matter of right in an action in state or federal court when a party to the action does any of the following:

1. Challenges the constitutionality of a statute.
2. Challenges a statute as violating or preempted by federal law.
3. Otherwise challenges the construction or validity of a statute.

Current law as established in Act 369 also provides that the legislature must be served with a copy of the proceedings in all such actions, regardless of whether the legislature intervenes in the action.

The bill repeals all of those provisions.

**Retention of legal counsel by the legislature**

Current law allows representatives to the assembly and senators, as well as legislative employees, to receive legal representation from DOJ in most legal proceedings. However, current law also provides all of the following:

1. With respect to the assembly, that the speaker of the assembly may authorize a representative to the assembly or assembly employee who requires legal representation to obtain outside legal counsel if the acts or allegations underlying the action are arguably within the scope of the representative’s or employee’s legislative duties; and that the speaker may obtain outside legal counsel in any action in which the assembly is a party or in which the interests of the assembly are affected, as determined by the speaker.

2. With respect to the senate, that the senate majority leader may authorize a senator or senate employee who requires legal representation to obtain outside legal counsel if the acts or allegations underlying the action are arguably within the scope of the senator’s or employee’s legislative duties; and that the majority leader may obtain outside legal counsel in any action in which the senate is a party or in which the interests of the senate are affected, as determined by the majority leader.

3. That the cochairpersons of JCLO may authorize a legislative service agency employee who requires legal representation to obtain outside legal counsel if the acts or allegations underlying the action are arguably within the scope of the employee’s legislative duties; and that the cochairpersons may obtain outside legal counsel in any action in which the legislature is a party or in which the interests of the legislature are affected, as determined by the cochairpersons.

The bill eliminates these provisions. Under the bill, representatives to the assembly and senators, as well as legislative employees, may continue to receive legal representation from DOJ in most legal proceedings.

**Advice and consent of the senate**

Under current law, any individual nominated by the governor or another state officer or agency subject to the advice and consent of the senate, whose confirmation for the office or position is rejected by the senate, may not do any of the following during the legislative session biennium in which his or her nomination is rejected:

1. Hold the office or position for which he or she was rejected.
SENATE BILL 111

2. Be nominated again for that office or position.
3. Perform any duties of that office or position.
The bill eliminates those restrictions.

Capitol security
Under current law, DOA is required to submit any proposed changes to security at the capitol, including the posting of a firearm restriction, to JCLO for approval under passive review. The bill eliminates that requirement.

STATE FINANCE

Refunding certain general obligation debt
The bill increases from $7,510,000,000 to $9,510,000,000 the amount of state public debt that may generally be contracted to refund any unpaid indebtedness used to finance tax–supported or self-amortizing facilities.

Use of bond premium proceeds for costs incurred in contracting and administering public debt
The bill authorizes the state to use premium proceeds from the sale of bonds for costs incurred in contracting and administering public debt. Premium proceeds are proceeds received at the time of the bond sale that are in excess of the actual amount of principal borrowed.

GENERAL STATE GOVERNMENT

Office of Sustainability and Clean Energy
The bill creates the Office of Sustainability and Clean Energy in DOA to administer certain energy programs. The bill requires the Office of Sustainability and Clean Energy to work on initiatives with specified goals regarding clean and renewable energy, innovative sustainability, and diversification of energy resources and imposes duties on the office for advising, supporting, reporting, and assisting state agencies, local governments, and private entities on clean and renewable energy. The bill allows the Office of Sustainability and Clean Energy to provide technical assistance to governmental units and private entities. In addition, the bill requires the Office of Sustainability and Clean Energy to establish a program for making grants from the environmental fund for clean energy production research.

Creating the Office of Environmental Justice
The bill creates the Office of Environmental Justice within DOA. The office is led by a director outside the classified service who is appointed by the secretary of administration.

The duties of the office include all of the following: 1) developing a statewide climate risk assessment and resiliency plan; 2) assisting state agencies, local governments, and tribal governments with the development of climate risk assessment and resiliency plans; 3) administering a climate risk assessment and resiliency plan technical assistance grant program; 4) collaborating with state agencies and entities that serve vulnerable communities to address the impact of climate change on vulnerable communities; 5) providing guidance to state entities on issues regarding environmental justice and related community issues to address environmental issues and concerns that affect primarily low income and minority
SENATE BILL 111

communities; and 6) creating an annual report on issues, concerns, and problems related to environmental justice. The bill also creates the unclassified positions of chief resiliency officer and director of the Office of Environmental Justice. Under the bill, the chief resiliency officer and the director of the Office of Environmental Justice are assigned to executive salary group 3.

The bill makes an appropriation for the administration of the Office of Environmental Justice, development of state agency climate risk assessments and resiliency plans, and the chief resiliency officer. Also under the bill, DOA is required to charge state agencies a fee for the development of state agency climate risk assessments and resiliency plans.

The bill also makes an appropriation for the administration of the climate risk assessment and resiliency plan technical assistance grant program.

**Office of Digital Transformation; enterprise data management and analytics**

The bill creates the Office of Digital Transformation in DOA. The office is under the direction and supervision of a director who is appointed by and serves at the pleasure of the secretary of administration.

The bill authorizes the office to establish an enterprise data management and analytics program to gather, combine, and analyze data provided by state agencies to evaluate the outcomes of state-funded programs; develop and implement policies and strategies to promote the effective, efficient, and best use of state resources; and identify, prevent, or eliminate the fraudulent use of state funds, resources, and programs. At the office’s request, a state agency must provide data to the office for use under the program.

The bill includes measures to protect the confidentiality of data provided to the office under the program and requires the office, in consultation with other agencies, to develop protocols and security measures to ensure the security and proper use of data shared under the program.

**Administrative attachments to DOA**

Under current law, a division, office, commission, council, or board that is attached to an agency for administrative purposes exercises its powers and duties independently, but the agency performs budgeting, program coordination, and related management functions on behalf of the division, office, or other body.

Under current law, the governor, lieutenant governor, secretary of state, and state treasurer each head a staff termed the “office” of the respective constitutional officer. The bill attaches all of those offices to DOA for administrative purposes.

Under current law, the Higher Educational Aids Board is an independent agency in the executive branch of state government. The bill attaches to DOA for administrative purposes both HEAB and the Distance Learning Authorization Board, which is currently attached to HEAB.

Under current law, the Kickapoo Reserve Management Board is attached to the Department of Tourism for administrative purposes. The bill attaches the board to DOA for administrative purposes.
SENATE BILL 111

Under current law, the State Fair Park Board is attached to the Department of Tourism for administrative purposes. The bill attaches the board to DOA for administrative purposes.

The bill also requires DOA to perform budgeting, program coordination, and related management functions on behalf of the Department of Tourism.

**Assistant secretary of state**

2015 Wisconsin Act 55 eliminated the position of assistant secretary of state. The bill restores that position. The secretary of state may delegate any duty or power to the assistant secretary of state, except duties and powers the secretary of state performs as a member of the Board of Commissioners of Public Lands (BCPL).

**Office of the State Treasurer appropriation**

The bill creates a GPR program operations appropriation for the Office of the State Treasurer. Currently, the office is funded by a PR appropriation from moneys received from the state’s unclaimed property program.

**Programs for the certification of certain businesses for preference in state contracting**

Under current law, DOA administers disabled veteran-owned business certifications, woman-owned business certifications, and minority business certifications. A business that qualifies for and maintains one of those certifications may be eligible to receive certain advantages bidding on public projects and other benefits. Current law authorizes DOA to charge a certification fee to cover its costs to administer the certifications programs. The bill eliminates that fee authorization.

Additionally, the bill establishes the following new certification programs:

1. Lesbian, gay, bisexual, or transgender-owned businesses, including financial advisers and investment firms. DOA may certify a business as a lesbian, gay, bisexual, or transgender-owned business if it determines the business satisfies all of the following:
   a. One or more lesbian, gay, bisexual, or transgender individuals own at least 51 percent of the business or, in the case of any publicly owned business, one or more lesbian, gay, bisexual, or transgender individuals own at least 51 percent of the stock of the business.
   b. One or more lesbian, gay, bisexual, or transgender individuals or one or more duly authorized representatives of one or more lesbian, gay, bisexual, or transgender individuals control the management and daily business operations of the business.
   c. The business has its principal place of business in this state.
   d. The business is currently performing a useful business function.

2. Disability-owned businesses, including financial advisers and investment firms. DOA may certify a business as a disability-owned business if it determines the business satisfies all of the following:
   a. One or more individuals with a disability own at least 51 percent of the business or, in the case of any publicly owned business, one or more individuals with a disability own at least 51 percent of the stock of the business.
   b. One or more individuals with a disability or one or more duly authorized representatives of one or more individuals with a disability control the management and daily business operations of the business.
c. The business has its principal place of business in this state.

Under the bill, lesbian, gay, bisexual, or transgender-owned businesses and disability-owned businesses are not charged a fee for certification and, if certified, are eligible to receive certain advantages bidding on public projects and other benefits similar to certified disabled veteran-owned businesses, woman-owned businesses, and minority businesses.

**Technology for Educational Achievement program (TEACH)**

The bill makes various changes to the Technology for Educational Achievement program, known as TEACH, which offers telecommunications access to school districts, private schools, cooperative educational service agencies, technical college districts, independent charter school authorizers, juvenile correctional facilities, private and tribal colleges, and public library boards (educational agencies) at discounted rates and by subsidizing the cost of installing data lines.

The bill makes the following changes to the TEACH educational telecommunications access program:

1. Under the program, educational agencies are required to pay for the services provided to them by the TEACH program. Under current law, an educational agency’s payment to the state may not exceed $100 per month for each data line that relies on a transport medium that operates at a speed of 1.544 megabits per second or less and may not exceed $250 per month for each data line that operates at a higher speed. The bill increases the threshold data line speed to which the minimum monthly payment limitation applies from 1.544 megabits per second or less to less than one gigabit per second.

2. Under current law, DOA must ensure that a juvenile correctional facility that receives access to data lines or bandwidth under the program uses that access only for educational purposes. The bill expands this requirement to apply to all types of educational agencies and requires that the access must be used primarily for educational purposes, rather than only for educational purposes.

3. Eliminates a provision under current law that prohibits an educational agency that receives access to a data line under the program from 1) providing access to the data line to any business entity unless certain conditions are met; or 2) requesting access to an additional data line for purposes of providing access to a political subdivision under a shared service agreement.

4. Eliminates a provision under current law that allows a public library board that receives access to a data line under the program to enter into a shared service agreement with a political subdivision, subject to certain conditions, to provide the political subdivision with access to any excess bandwidth.

The bill also makes statutory language changes to the former TEACH educational technology infrastructure financial assistance program. Under the program, school districts and public libraries could apply for loans and grants to fund the upgrading of electrical wiring in buildings in existence on October 14, 1997, and the installation and upgrading of computer network wiring. The program required DOA to determine the amount of financial assistance for which a school district or library was eligible and to loan the school district or library 50 percent of that amount.
and to award a grant for the other 50 percent of that amount. Schools and libraries were required to pay the debt service on the loans and to repay the loans within 10 years, and the state paid the debt service for the grants. The program was closed to new applications for assistance as of July 26, 2003. The bill eliminates obsolete language in the statutes related to the former program while retaining language that requires repayment of certain debt service expenditures.

**TEACH information technology block grant program**

As part of the TEACH program, DOA awards information technology block grants to rural school districts and rural public libraries to improve information technology infrastructure. The bill makes the following changes to the information technology block grant program:

1. Extends the sunset for awarding grants from June 30, 2021, to June 30, 2025.
2. Adjusts the amounts DOA may award annually under the grant program. Under current law, DOA may award up to $3,000,000 in each of fiscal years 2019-20 and 2020-21. Under the bill, DOA may award $3,000,000 in each fiscal year, but, if DOA does not award the full amount in the first fiscal year of a biennium, DOA may award that unawarded amount in the second fiscal year of the biennium.
3. Specifies that eligibility for school districts based on membership and for public libraries based on municipal population is determined in the first fiscal year of a biennium and that the determination applies for both fiscal years of the biennium.
4. Specifies that a school district’s eligibility is based on its membership in the most recent school year for which finalized data is available, rather than membership in the previous school year.
5. Modifies the definition for what constitutes a “rural” public library for eligibility purposes. Under the bill, a public library is eligible for the grant program if the population of the municipality in which the library is located is 20,000 or less and the library is located outside of urban areas, as determined by the U.S. Census Bureau.

Finally, the bill requires DOA to, at least annually, provide all school districts and public libraries in this state that are eligible for information technology block grants with information regarding how to apply for the grants.

**Project labor agreements**

Under current law, the state and local units of government are prohibited from engaging in certain practices in letting bids for state procurement or public works contracts. Among these prohibitions, as established by 2017 Wisconsin Act 3, the state and local governments may not do any of the following in specifications for bids for the contracts: 1) require that a bidder enter into an agreement with a labor organization; 2) consider, when awarding a contract, whether a bidder has or has not entered into an agreement with a labor organization; or 3) require that a bidder enter into an agreement that requires that the bidder or bidder’s employees become or remain members of a labor organization or pay any dues or fees to a labor organization. The bill repeals these limitations related to labor organizations.
SENATE BILL 111

Fund of funds investment program

Currently, DOA administers a program for the investment of moneys in venture capital funds that invest in businesses located in this state, called the fund of funds investment program. Under the program, the state initially contracted with an investment manager during the 2013-14 fiscal year to invest $25,000,000 in venture capital funds. The gross proceeds from the investment of this $25,000,000 were to be returned to the state for deposit into the general fund. The bill provides that the gross proceeds are to be reinvested in venture capital funds unless otherwise directed by DOA.

Volkswagen settlement grants

Under current law, moneys received under a settlement that the state received from a legal action against Volkswagen are held in an appropriation account that limits spending to three purposes: replacement of state fleet vehicles, grants for the replacement of public transit vehicles, and grants for the replacement of school buses. The bill eliminates the school bus grant program and provides that grants may be awarded for the replacement of public transit vehicles and the installation of electric vehicle charging stations. The bill requires that, of the settlement funds that are received for grants during the 2021-23 biennium, DOA must allocate $10,000,000 for electric vehicle charging stations and any funds in excess of $10,000,000 to the replacement of state vehicles with fuel efficient or electric vehicles.

Equal opportunity internship program

The bill requires the Division of Personnel Management in DOA to establish a program for the placement of up to 16 paid interns annually with state agencies and members of the legislature. Under the program, each intern must come from a household whose income does not exceed 300 percent of the federal poverty line based on family size. Additionally, each intern must be paid a stipend of at least $15 per hour, which may be paid for up to 20 hours of work per week. Under the bill, the stipend is required to be disregarded in establishing household income for purposes of obtaining public benefits under any state program.

Youth wellness center

Under current law, DOA provides funding to American Indian tribes to create architectural plans for a youth wellness center. The bill changes the appropriation to provide funding for a youth wellness center, removing the limitation of the creation of architectural plans.

Equity grant program and diversity, equity, and inclusion

The bill requires DOA to provide grants to public, private, and nonprofit entities in this state that promote diversity and advance equity and inclusion. The bill also makes a new appropriation to DOA to administer the equity grant program and for diversity, equity, and inclusion activities overseen by DOA.

Director of Native American affairs

The bill requires the secretary of administration to appoint a director of Native American affairs in the unclassified service to manage relations between the state and American Indian tribes or bands in the state.
Grants to American Indian tribes or bands
The bill requires DOA to award grants of equal amounts to each American Indian tribe or band in the state for the purpose of supporting programs to meet the needs of members of the tribe or band. No grant moneys may be used to pay gaming-related expenses.

Civil legal services for the indigent
The bill requires DOA to make annual payments to the Wisconsin Trust Account Foundation, Inc., for the purpose of providing civil legal services to indigent persons.

Procurement and risk management educational services
The bill authorizes DOA to provide educational services in procurement and risk management to local governmental units and private entities. The bill requires DOA to charge fees for its services. The bill also creates an appropriation for fees received from local governmental units and private entities for technical assistance services provided by the Office of Sustainability and Clean Energy.

Plan for green and environmentally friendly state procurement practices
The bill requires DOA to develop a plan to expand the use of green and environmentally friendly state procurement practices, and to provide the written plan to the governor by June 30, 2022.

Contracts for written foreign language translation
The bill requires the Bureau of Procurement in DOA to enter into contracts or amend existing contracts with vendors to provide written foreign language translation services to executive branch agencies by September 1, 2022.

High-voltage transmission line fees
The bill requires PSC to administer annual impact and onetime environmental impact fees paid under current law by persons authorized by PSC to operate high-voltage transmission lines. Under current law, DOA administers the fees.

Excess insurance premiums
The bill creates an appropriation account to receive premiums charged to state agencies for excess insurance under a contract entered into by DOA.

Worker misclassification outreach
The bill requires DOA to direct state agencies, constitutional offices, departments, independent agencies, and societies, associations, and certain other agencies of state government for which appropriations are made by law, to provide educational outreach regarding worker misclassification to employers, workers, and organizations that serve vulnerable populations.

Juneteenth state holiday
The bill designates June 19, the day on which Juneteenth is celebrated, as a state holiday on which state offices are closed. Under current law, the offices of the agencies of state government are generally closed on Saturdays, Sundays, and a total of nine state holidays. The bill also increases the number of regular paid holidays state employees receive annually from nine days to 10 days. The bill also requires the administrator of the Division of Personnel Management in DOA to include June
SENATE BILL 111

19 as a paid holiday for UW System employees in the proposal it submits to the Joint Committee on Employee Relations for compensation plan changes for the 2021-23 biennium.

**BCPL payments in lieu of taxes appropriation**

Under current law, land that BCPL owns is not subject to property taxes. For certain lands purchased on or after July 14, 2015, though, BCPL makes annual payments to municipalities in lieu of the property tax that would have been owed on these lands were they not tax exempt. Currently, these payments are made from BCPL's general operations appropriation account. The bill creates an appropriation account specifically for these payments in lieu of taxes.

**BCPL gifts and grants appropriation**

The bill creates a continuing appropriation for all gifts and grants received by BCPL.

**Raffle and bingo appropriations**

The bill combines the appropriation accounts for general program operations for raffles and bingo, and removes the requirement for unspent bingo funds to be transferred into the lottery fund at the end of each fiscal year.

**Defining “multijurisdictional” for the purposes of the lottery**

Under current law, the state is authorized to operate a state lottery, which includes participation in a multijurisdictional lottery. Under current law, “multijurisdictional” is defined to include any U.S. state or territory, Canada, or any Canadian province. The bill changes the definition of “multijurisdictional,” for the purposes of the state lottery, to include any other country or nation.

**Public records location fee**

Current law allows an authority to impose a fee on any person requesting a public record to cover the cost of locating that record, if the cost is $50 or more. The location fee may not exceed the actual, necessary, and direct cost of locating the record. Current law defines an “authority” to include any elective official or state or local government agency that has custody of a public record.

Under the bill, the cost of locating a public record must be $100 or more before an authority may impose a fee to cover the actual, necessary, and direct cost of locating the record.

**TAXATION**

**Income taxation**

**Child and dependent care tax credit**

The bill creates an individual income tax credit based on the federal child and dependent care tax credit. The federal credit may be claimed by an individual who pays for the care of a “qualifying individual” so that the credit claimant can work or actively look for work. A qualifying individual is the claimant’s dependent child under 13 years of age or the claimant’s spouse or dependent who is incapable of self care. The total expenses for care that a claimant may take into account when calculating the federal credit is $3,000 if there is one qualifying individual and $6,000 if there is more than one qualifying individual. Depending on the claimant’s
adjusted gross income, the credit may be worth between 20 percent and 35 percent of the allowable expenses. The federal credit is nonrefundable, which means it may be claimed only up to the amount of the claimant’s tax liability.

Under current law, Wisconsin does not have a child and dependent care tax credit but does allow individuals to deduct the expenses that qualify for the federal credit when computing their income for state tax purposes.

For taxable years beginning after December 31, 2020, the bill creates a tax credit based on the amount claimed under the federal credit and repeals the existing deduction. Under the bill, an individual who is eligible for and claims the federal child and dependent care tax credit may claim 50 percent of the same amount as a nonrefundable credit on his or her Wisconsin income tax return. The Wisconsin credit may not be claimed by a part-year resident or nonresident of this state.

**Caregiver tax credit**

The bill creates an income tax credit for individuals who pay for items that directly relate to the care or support of a family member who requires assistance with one or more daily living activities and is over the age of 18. The credit equals 50 percent of the expenses, limited to a maximum annual credit per family member of $500, or $250 for married spouses filing separately. If more than one individual may claim the credit based on the same family member, the maximum annual credit amount is apportioned among them based on expenses paid. For married couples filing jointly, the credit phases out between federal adjusted gross income of $150,000 and $170,000, and no credit may be claimed if federal AGI exceeds $170,000. For all other taxpayers, the phase out range is between federal AGI of $75,000 and $85,000, and no credit may be claimed if federal AGI exceeds $85,000. Under the bill, expenses that qualify for the credit include amounts spent on improving the claimant’s primary residence to assist the family member, purchasing equipment to help the family member with daily living activities, and obtaining other goods or services to help care for the family member. Expenses that do not qualify for the credit include general food, clothing, transportation, and household repair costs, as well as amounts that are reimbursed by insurance or other means. The credit is nonrefundable, which means it may be claimed only up to the amount of the claimant’s tax liability.

**Earned income tax credit**

The bill increases the amount that an individual with fewer than three qualifying children may claim as the Wisconsin earned income tax credit. Under current law, the Wisconsin EITC is equal to a percentage of the federal EITC. The percentage is 4 percent of the federal EITC if the individual has one qualifying child, 11 percent if the individual has two qualifying children, and 34 percent if the individual has three or more qualifying children. The credit is refundable, which means that if the credit exceeds the individual’s tax liability, he or she will receive the excess as a refund check.

Under the bill, the percentage of the federal EITC that an eligible individual may claim for Wisconsin purposes is 16 percent if the individual has one qualifying child, 25 percent if the individual has two qualifying children, and 34 percent if the individual has three or more qualifying children.
SENATE BILL 111

Subtraction for active duty pay

Under current law, members of a reserve component of the U.S. armed forces who are called into active federal service or special state service under specified sections of the U.S. Code may subtract the military pay they receive from the federal government while on active duty. The bill expands the existing subtraction to include members who are activated under an additional section of the U.S. Code that relates to orders to active duty for preplanned missions in support of the combatant commands. Also under the bill, members of the Wisconsin national guard may, when computing their state income taxes, subtract from income the pay they receive from the state while on active state duty.

Manufacturing and agriculture credit limitation

Currently, a person may claim a tax credit on the basis of the person’s income from manufacturing or agriculture. A taxpayer may claim a credit equal to 7.5 percent of the income derived from either the sale of tangible personal property manufactured in whole or in part on property in this state that is assessed as manufacturing property or from the sale of tangible personal property produced, grown, or extracted in whole or in part from property in this state assessed as agricultural property. If the amount of the credit exceeds the taxpayer’s income tax liability, the taxpayer does not receive a refund, but may apply the balance to the taxpayer’s tax liability in subsequent taxable years.

The bill limits to $300,000 the amount of income from manufacturing that a person may use as the basis for claiming the credit. The bill does not affect the amount of income from agriculture that may be used as a basis for claiming the credit.

Work opportunity tax credit

The bill creates a state income and franchise tax credit to supplement the federal Work Opportunity Tax Credit. The federal tax credit is available to employers who hire individuals from specified targeted groups. The targeted groups are veterans, ex-felons, Temporary Assistance for Needy Families recipients, designated community residents, vocational rehabilitation referrals, summer youth employees, Supplemental Nutrition Assistance Program recipients, Supplemental Security Income recipients, long-term family assistance recipients, and long-term unemployment recipients. In general, the federal credit equals 40 percent of the wages, limited to $6,000, paid to the individual during the first year of employment if the individual works at least 400 hours and 20 percent of such wages if the individual works between 120 and 400 hours. Different limitations and rules exist for members of certain targeted groups. The federal tax credit is scheduled to expire on January 1, 2026.

Under the bill, an employer may claim a state tax credit for wages paid to individuals who are members of a targeted group, as determined under federal law, for services performed in Wisconsin. The state credit is equal to 50 percent of the amount that the claimant could claim under the federal credit for those wages and must be claimed at the same time as the federal credit.
SENATE BILL 111

First-time homebuyer savings accounts

The bill creates a tax-advantaged first-time homebuyer savings account. Under the bill, an individual, known as the account holder, may open an account at a financial institution for the purpose of paying the down payment and closing costs for the purchase of a single-family residence in Wisconsin by the account’s designated beneficiary. The beneficiary, who may be the account holder, must be a Wisconsin resident who has not owned a single-family residence during the 36 months prior to the purchase. An individual may be designated the beneficiary of more than one account, but not by the same account holder. The account holder may change the beneficiary at any time. An account may only remain open for 10 years.

The bill provides that an account holder, when calculating his or her income for state tax purposes, may subtract the deposits that he or she made into the account during the year, as well as any interest and other gains on the account that are redeposited into it. The maximum amount of deposits that the account holder may subtract per account each year is $5,000, which is increased to $10,000 if he or she is married and files a joint return. Over all taxable years, the account holder may not subtract more than $50,000 of deposits into any account for each beneficiary. The bill provides that other persons may contribute to the account, but they may not subtract their contributions.

Under the bill, with limited exceptions, if an amount is withdrawn from the account for any reason other than paying the down payment and closing costs, the account holder is subject to a 10 percent penalty tax on the withdrawal and must include the amount of the withdrawal in income for state tax purposes.

The bill requires that the account holder annually submit information about the account to DOR, including a list of the account’s transactions. These provisions apply to taxable years beginning after December 31, 2021.

Homestead tax credit

Under current law, the homestead tax credit is a refundable income tax credit that may be claimed by homeowners and renters. The credit is based on the claimant’s household income and the amount of property taxes or rent constituting property taxes on his or her Wisconsin homestead. Because the credit is refundable, if the credit exceeds the claimant’s income tax liability, he or she receives the excess as a refund check. Under current law, there are three key dollar amounts used when calculating the credit:

1. If household income is $8,060 or less, the credit is 80 percent of the property taxes or rent constituting property taxes. If household income exceeds $8,060, the property taxes or rent constituting property taxes are reduced by 8.785 percent of the household income exceeding $8,060, and the credit is 80 percent of the reduced property taxes or rent constituting property taxes.

2. The credit may not be claimed if household income exceeds $24,680.

3. The maximum property taxes or rent constituting property taxes used to calculate the credit is $1,460.

Beginning with claims filed in 2021, the bill reduces the percentage used for household income over $8,060 from 8.785 to 6.655 percent and increases the
SENATE BILL 111

maximum income amount from $24,680 to $30,000. The bill also indexes the $8,060, $30,000, and $1,460 amounts for inflation, beginning in 2023.

*Veterans and surviving spouses property tax credit*

Under current law, an eligible veteran or surviving spouse may claim a refundable income tax credit that equals the amount of property taxes paid during the year on his or her principal dwelling in Wisconsin. Current law does not expressly address the treatment of renters. DOR allows an eligible veteran or surviving spouse who is a renter to claim the credit if he or she is required to pay the property taxes under a written agreement with the landlord and pays the property taxes directly to the municipality.

Under the bill, an eligible veteran or surviving spouse who is a renter may claim the credit in an amount equal to his or her rent constituting property taxes. The bill defines “rent constituting property taxes” to mean 20 percent of the rent paid during the year for the use of a principal dwelling if heat is included in the rent, and 25 percent of the rent if heat is not included.

*Medical care insurance subtraction*

The bill modifies the income tax subtraction for amounts paid for medical care insurance by self-employed individuals. Under current law, the subtraction may not exceed the individual’s net earnings from a trade or business that are taxable by Wisconsin. Under the bill, the subtraction may not exceed the individual’s wages, salary, tips, unearned income, and net earnings from a trade or business that are taxable by Wisconsin.

The bill similarly modifies the provision under current law that prorates the subtraction for self-employed nonresidents and part-year residents based on the percentage of the individual’s net earnings from a trade or business taxable by Wisconsin to total net earnings from a trade or business. Under the bill, the subtraction is prorated based on the percentage of the individual’s wages, salary, tips, unearned income, and net earnings from a trade or business that are taxable by Wisconsin to total wages, salary, tips, unearned income, and net earnings from a trade or business. The bill also eliminates obsolete provisions related to the medical care insurance subtraction for self-employed individuals.

*Private school tuition deduction*

Under current law, an individual, when computing income for income tax purposes, may deduct the tuition paid during the year to send his or her dependent child to private school. The maximum deduction is $4,000 for an elementary school pupil and $10,000 for a secondary school pupil.

Under the bill, only individuals whose Wisconsin adjusted gross income is below a threshold amount may claim the deduction for private school tuition. The threshold amount is $100,000 for single individuals and heads of household, $150,000 for married couples filing jointly; and $75,000 for married individuals filing separately.

*Limitation on capital gains exclusion*

Current law allows individuals, when computing their income for state tax purposes, to subtract 30 percent of the net capital gains realized from the sale of
assets held more than one year or acquired from a decedent. The subtraction is increased to 60 percent for gains realized from the sale of farm assets held more than one year or acquired from a decedent.

Under the bill, an individual may not make the 30 percent subtraction if his or her federal adjusted gross income exceeds $400,000 for a single individual or head of household filer; $533,000 for a married couple who files jointly; or $266,500 for a married individual who files separately. The bill creates an exception for individuals whose federal AGI, after subtracting 30 percent of net capital gains from nonfarm assets, is below the threshold amount. These individuals may make the subtraction, subject to the 30 percent limitation, but must reduce the amount subtracted by the amount that federal AGI exceeds the threshold amount. The bill makes no changes to the 60 percent subtraction.

**Education award subtraction**

Under current law, an individual who completes a term of service in the AmeriCorps program may receive a Segal AmeriCorps education award to pay for post-secondary educational expenses and to repay student loans. The awards are subject to federal and state income taxation. Under the bill, an individual may subtract the amount received as an award during the taxable year when calculating his or her income for Wisconsin income tax purposes.

**Flood insurance premiums**

The bill creates a nonrefundable individual income tax credit for flood insurance premiums. The credit is equal to 10 percent of the amount of the premiums that an individual paid in the taxable year for flood insurance, but the amount of the claim may not exceed $60 in any taxable year. Because the credit is nonrefundable, it may be claimed only up to the amount of the individual’s tax liability.

**Dividends received deduction**

Current law allows corporations to deduct, for income and franchise tax purposes, the dividends received from related corporations. The dividends must be paid on common stock, and the corporation receiving the dividends must own at least 70 percent of the total combined voting stock of the other corporation. Current law also allows businesses to carry forward net business losses to future taxable years in order to offset income in those years. Under the bill, a business may not take the dividends received deduction into account when determining if it has a net business loss that can be carried forward.

**Net operating loss carryback**

The bill repeals the provision under which an individual may carry back a net operating loss to the two prior taxable years in order to reduce the amount of income subject to tax in those years.

**Pass-through entities and refundable tax credits**

Current law allows businesses operating in this state to claim a number of income and franchise tax credits to promote job creation and economic development. The following credits allow a business to receive a refund if the amount of the credit exceeds its tax liability: the jobs tax credit, the business development credit, the enterprise zones jobs credit, the electronics and information technology
manufacturing zone credit, and the research credit. Partnerships, limited liability companies, and tax-option corporations may not claim these credits, but, instead, the partners, members, and shareholders of the respective entities may claim the credits in proportion to their ownership interests in the entity. Generally, the entities determine the aggregate amount of the credits that the partners, members, or shareholders may claim.

The bill allows partnerships, limited liability companies, and tax-option corporations to claim the refundable tax credits, not including the electronics and information technology manufacturing zone credit and the research credit.

**Research credit refunds**

Current law allows a person to claim an income and franchise tax credit equal to a percentage of the person’s qualified research expenses that exceed 50 percent of the average qualified research expenses for the three taxable years immediately preceding the taxable year for which the person claims the credit. For example, a person may claim a credit equal to 11.5 percent of the person’s excess qualified research expenses related to research related to the design and manufacturing of energy efficient lighting systems, building automation and control systems, or automotive batteries for use in hybrid-electric vehicles.

If the amount of the credit exceeds the person’s tax liability, the person will receive a refund in an amount not exceeding 10 percent of the allowable claim. The taxpayer may apply any remaining unused portion of the credit to subsequent taxable years. Under the bill, if the amount of the credit exceeds the person’s tax liability, the person will receive a refund in an amount not exceeding 20 percent of the allowable claim and may continue to claim the remaining unused portion in subsequent taxable years.

**Federal changes to college savings accounts**

The bill adopts for state income tax purposes current and future provisions of the federal Internal Revenue Code related to qualified tuition programs, including the provision that requires a taxpayer to reduce the amount that he or she claims as interest on education loans by the amount of distributions from a qualified tuition program treated as qualified higher education expenses under federal law. In addition, current state law requires a taxpayer to add back to his or her federal adjusted gross income any amount distributed from a qualified tuition program that was not used for qualified higher education expenses, if the amount was contributed to the qualified tuition program account after December 31, 2013, and the taxpayer also claimed that amount as a subtraction. Under the bill, the taxpayer must make that addition regardless of when the amount was contributed to the account.

**Broker-dealer apportionment factor**

Under current law, multistate businesses must apportion their income to Wisconsin and the other state or states for income and franchise tax purposes. Current law requires that DOR promulgate rules for apportioning the income of specialized industries. A DOR rule provides that broker-dealers, investment advisers, investment companies, and underwriters apportion income using a single receipts factor. The rule also provides that, under certain circumstances, the factor's numerator includes the modified gross receipts from the sales of trading assets,
unless DOR orders or allows modified net gains to be used instead. The bill amends
the DOR rule to provide that the factor’s numerator includes the modified net gains
from the sales of trading assets, rather than modified gross receipts.

**Internal Revenue Code references**

The bill adopts, for state income and franchise tax purposes, certain changes
made to the Internal Revenue Code by the federal Tax Cuts and Jobs Act, enacted
in December 2017. The bill adopts provisions of the act related to amortization of
research and experimental expenditures, certain special rules for the taxable year
of inclusion, and limitations on excessive employee renumeration, the
business-related deduction for interest, the deduction by employers of expenses for
fringe benefits, the deduction for Federal Deposit Insurance Corporation premiums,
and losses for taxpayers other than for corporations.

**Property Taxation**

**Assessments; leased property and comparable sales**

The bill provides that, for property tax purposes, real property includes any
leases, rights, and privileges pertaining to the property, including assets that cannot
be taxed separately as real property, but are inextricably intertwined with the real
property. The bill also requires real property to be assessed at its highest and best
use. Current law requires that real property be assessed at its full value and upon
actual view or from the best information that the assessor can obtain from
“arm’s-length sales” of comparable property. The bill defines an “arm’s-length sale”
as a sale between a willing buyer and willing seller, neither being under compulsion
to buy or sell and each being familiar with the attributes of the property sold.

The bill also provides that an assessor may determine the value of leased
property by considering the lease provisions and actual rent pertaining to the
property, if the lease provisions and rent are the result of an “arm’s-length
transaction.” The bill defines an “arm’s-length transaction” as an agreement
between willing parties, neither being under compulsion to act and each being
familiar with the attributes of the property.

The Wisconsin Supreme Court decided in 2008 that a property tax assessment
of leased retail property using the income approach must be based on “market rents,”
which is what a person would pay to rent the property, based on rentals of similar
property, as opposed to “contract rents,” which is the amount that the lessee actually
paid to rent the property. See, *Walgreen Company v. City of Madison*, 2008 WI 80,
752 N.W.2d 689. The bill changes Wisconsin law to specify that an assessment using
the income approach must be based instead on contract rents.

The bill also provides that to determine the value of property using generally
accepted appraisal methods, an assessor must consider all of the following as
comparable to the property being assessed:

1. Sales or rentals of properties exhibiting the same or a similar highest and
   best use with placement in the same real estate market segment.

2. Sales or rentals of properties that are similar to the property being assessed
   with regard to age, condition, use, type of construction, location, design, physical
   features, and economic characteristics.
SENATE BILL 111

The bill defines “real estate market segment” to mean a pool of potential buyers and sellers that typically buy or sell properties similar to the property being assessed, including potential buyers who are investors or owner-occupants.

The bill also provides that a property is not comparable to the property being assessed if the seller has placed restrictions on the highest and best use of the property or if the property is dark property and the property being assessed is not dark property. The bill defines “dark property” as property that is vacant or unoccupied beyond the normal period for property in the same real estate market segment.

Manufacturing property assessment fees

Under current law, DOR assesses manufacturing property for property tax purposes and imposes a fee on each municipality in which the property is located to cover part of the assessment costs. DOR bills the municipalities for the fee. If a municipality does not pay by March 31 of the following year, DOR reduces the municipality’s July shared revenue distribution by the amount of the fee.

The bill directs DOR to first collect the fees by reducing municipalities’ July and November shared revenue distributions. If DOR is unable to collect the fee from a municipality in this manner, then the fee is directly imposed on the municipality.

Community health centers

The bill creates a property tax exemption for the property of a community health center that receives federal grants to provide health services to vulnerable populations, is a nonprofit organization exempt from federal income taxes, and annually treats at least 30,000 patients. With regard to land owned by the community health center, the exemption is limited to 25 acres necessary for the location and convenience of buildings while such property is not used for profit.

Current law provides similar property tax exemptions for property owned by churches or religious, educational, or benevolent associations. Under current law, land owned by churches or religious associations that is necessary for the location and convenience of buildings and used for educational purposes and not for profit is subject to a 30-acre limitation.

Sales of certain lands to American Indian tribes

Current law provides that before a county may sell tax delinquent real estate in its possession it must provide public notice of the sale and the property’s appraised value. In addition, although the county may accept any bid on the property that is advantageous to it, the county may not accept at the first attempt to sell the property a bid that is less than the property’s appraised value. After that first attempt, the property may be sold at less than its appraised value if the sale is reviewed and approved by the county board or by a committee designated by the board. Also, the county may not sell the property for less than the highest bid unless the county board prepares a written statement for public inspection that explains its reasons for accepting a lower bid. Under current law, these provisions do not apply to the sale or exchange of lands to or between municipalities or to the state. Under the bill, the provision for the sale of tax delinquent real estate also does not apply to the sale or exchange of lands to or between federally recognized American Indian tribes or bands.
SENATE BILL 111

School aid reduction information

The bill requires that a person's property tax bill include information from the school district in which the property is located regarding the amount of any gross reduction in state aid to the district as a result of pupils enrolled in the statewide choice program, the Racine choice program, or the Milwaukee choice program or as a result of making payments to private schools under the special needs scholarship program.

GENERAL TAXATION

County and municipality sales and use taxes

Current law allows a county to enact an ordinance to impose sales and use taxes at the rate of 0.5 percent of the sales price or purchase price on tangible personal property and taxable services. The county must use the revenue from the taxes for property tax relief. The bill allows a county to impose, by ordinance, an additional sales and use tax at the rate of 0.5 percent of the sales price or purchase price on tangible personal property and taxable services. However, the ordinance does not take effect unless approved by the majority of the voters of the county at a referendum. The revenue from those taxes may be used for any purpose designated by the county board or specified in the ordinance or in the referendum approving the ordinance.

The bill also allows a municipality with a 2020 population exceeding 30,000 to enact an ordinance to impose sales and use taxes at the rate of 0.5 percent of the sales price or purchase price on tangible personal property and taxable services. The ordinance does not take effect unless approved by the majority of the voters of the municipality at a referendum. The revenue from those taxes may be used for any purpose designated by the governing body of the municipality or specified in the ordinance or in the referendum approving the ordinance.

Sales tax exemption for energy systems

Current law provides a sales and use tax exemption for a product that has as its power source wind energy, direct radiant energy received from the sun, or gas generated from anaerobic digestion of animal manure and other agricultural waste, if the product produces at least 200 watts of alternating current or 600 British thermal units per day. The sale of electricity or energy produced by the product is also exempt.

The bill modifies current law so that the exemption applies to solar power systems and wind energy systems that produce electrical or heat energy directly from the sun or wind and are capable of continuously producing at least 200 watts of alternating current or 600 British thermal units. In addition, the exemption applies to a waste energy system that produces electrical or heat energy directly from gas generated from anaerobic digestion of animal manure and other agricultural waste and are capable of continuously producing at least 200 watts of alternating current or 600 British thermal units. A system for which the exemption applies includes tangible personal property sold with the system that is used primarily to store or facilitate the storage of the electrical or heat energy produced by the system.
SENATE BILL 111

Vapor products

Current law imposes a tax on vapor products, which are any noncombustible products that produce vapor or aerosol for inhalation from the application of a heating element to a liquid or other substance that is depleted as the product is used, regardless of whether the liquid or other substance contains nicotine. The tax is imposed at the rate of 5 cents per milliliter of the liquid or other substance based on the volume as listed by the manufacturer.

The bill taxes vapor products at the rate of 71 percent of the manufacturer’s list price and modifies the definition of “vapor product.” Under the bill, “vapor product” means a noncombustible product that employs a heating element, power source, electronic circuit, or other electronic, chemical, or mechanical means that can be used to produce vapor from a solution or other substance, regardless of whether the product contains nicotine. A “vapor product” is defined to include an electronic cigarette, electronic cigar, electronic cigarillo, electronic pipe, or similar product or device, as well as any container of a solution or other substance that is intended to be used with these items. The bill specifies that any product regulated by the federal Food and Drug Administration as a drug or device is not a vapor product.

Little cigars

The bill taxes little cigars at the same rate as the excise tax imposed on cigarettes. Under current law, all cigars are taxed at the rate of 71 percent of the manufacturer’s established list price, limited to 50 cents per cigar. Under the bill, little cigars are taxed at the rate of 126 mills per little cigar, regardless of weight. The bill defines “little cigar” to mean a cigar that has an integrated cellulose acetate filter and is wrapped in any substance containing tobacco.

Definition of “manufacturer’s list price”

Current law imposes a tax on tobacco products based on the “manufacturer’s established list price,” without defining the term. The bill removes the word “established” and defines “manufacturer’s list price” to mean the total price of tobacco products charged by the manufacturer or other seller to an unrelated distributor. The bill specifies that the total price must include all charges by the manufacturer or other seller that are necessary to complete the sale, without reduction for any cost or expense incurred by the manufacturer or other seller or for the value or cost of discounts or free promotional or sample products. The bill provides that a manufacturer or other seller is related to a distributor if they have significant common purposes and either substantial common membership or substantial common direction or control.

Sales tax exemption for diapers

The bill creates a sales and use tax exemption for the sale of diapers, not including adult undergarments for incontinence.

Prairie and wetland counseling services

Under current law, the sale of landscaping and lawn maintenance services is subject to the sales tax. The bill excludes from taxable landscaping services the planning and counseling services for the restoration, reclamation, or revitalization
of prairie, savanna, or wetlands if such services are provided for a separate and optional fee distinct from other services.

Repeal of sales tax exemption for farm-raised deer

The bill repeals the sales and use tax exemption that applies to the sale of farm-raised deer to a person operating a hunting preserve or game farm in this state.

Repeal of sales tax exemption for game birds and clay pigeons

The bill repeals the sales and use tax exemption that applies to the sale of live game birds and clay pigeons to qualifying bird hunting preserves and shooting facilities.

Sales and use tax on candy

Current law imposes the sales and use tax on the sale of candy. For purposes of the sales and use tax, “candy” is defined, generally, as a preparation of sugar, honey or other sweetener combined with chocolate, fruit, nuts or other ingredients or flavorings. “Candy” does not include a preparation that contains flour or that requires refrigeration. Under the bill, for purposes of the sales and use tax, “candy” also does not include a preparation that has as its predominant ingredient dried or partially dried fruit, not including a preparation that has a confectionary coating or glazing on the dried or partially dried fruit.

Providing notices for public utility taxes

Under current law, public utility companies, including railroads and air carriers, are exempt from local property taxes and are instead subject to special state taxes. Current law requires DOR to send certain notices regarding these taxes by certified mail. Under the bill, DOR must still provide the notices but is no longer required to send them by certified mail.

SHARED REVENUE

Increase in county and municipal aid

The bill increases the amount that each county and municipality annually receives as a county and municipal aid payment. Currently, a county or municipality receives a payment equal to the payment it received in 2012. The bill increases that amount by 2 percent in 2021 and an additional 2 percent beginning in 2022.

Expenditure restraint program

Under current law, generally, a municipality is eligible to receive an expenditure restraint payment if its property tax levy is greater than five mills and if the annual increase in its municipal budget is less than the sum of factors based on inflation and the increased value of property in the municipality as a result of new construction. Current law excludes certain payments and expenditures from the municipal budget for purposes of determining eligibility for an expenditure restraint payment. For example, principal and interest on long-term debt, recycling fee payments, and unreimbursed expenses related to a declared state of emergency are excluded from the determination.

The bill excludes from the expenditure restraint program payment determination additional revenues resulting from a referendum to increase the municipality’s property tax levy limit or the tax rate of the premier resort area tax.
SENATE BILL 111

**Video service provider fee**

Under current law, the state provides an aid payment to municipalities to compensate the municipalities for a state-mandated reduction in the amount of video service provider franchise fees that a municipality may impose and collect. The aid amount is a percentage of the gross receipts reported to the municipality by the video service provider. In 2020, the amount that a municipality received was equal to 0.5 percent of the video service provider’s gross receipts. In 2021, the municipality will receive an amount equal to 1 percent of the gross receipts. Annually, beginning in 2022, the municipality will receive an amount equal to the amount it received in 2021.

The bill changes the appropriation for the aid payment from an annual appropriation to a sum sufficient appropriation.

**TRANSPORTATION**

**DRIVERS AND MOTOR VEHICLES**

**Driver’s cards**

Under 2007 Wisconsin Act 20, certain provisions specified in the federal REAL ID Act of 2005 (REAL ID) were incorporated into state law and these provisions became effective on January 1, 2013. Among these provisions was the requirement that DOT follow certain procedures in processing applications for driver’s licenses and identification cards. However, under 2011 Wisconsin Acts 23 and 32, DOT may process applications for driver’s licenses and identification cards in a manner other than that required by REAL ID if the driver’s licenses and identification cards are marked to indicate that they are not REAL ID compliant and DOT processes the applications in compliance with DOT practices and procedures applicable immediately prior to implementation of REAL ID.

Under current law, an applicant for a driver’s license or identification card, regardless of whether it is REAL ID compliant or REAL ID noncompliant, must provide to DOT 1) an identification document that includes either the applicant’s photograph or both the applicant’s full legal name and date of birth; 2) documentation, which may be the same as item 1, above, showing the applicant’s date of birth; 3) proof of the applicant’s social security number or verification that the applicant is not eligible for a social security number; 4) documentation showing the applicant’s name and address of principal residence; and 5) documentary proof that the applicant is a U.S. citizen or is otherwise lawfully present in the United States. However, in processing an application for a REAL ID noncompliant driver’s license or identification card, DOT is not required to meet the standards for document retention and verification that are imposed for REAL ID compliant products.

Under the bill, an applicant for a REAL ID noncompliant driver’s license or identification card (noncompliant REAL ID) is not required to provide documentary proof that the applicant is a U.S. citizen or is otherwise lawfully present in the United States. Also, an applicant may, in lieu of item 1, above, provide an individual taxpayer identification number, a foreign passport, or any other documentation deemed acceptable to the department and, in lieu of items 2 and 4, above, provide documentation deemed acceptable to the department. If the applicant does not have
SENATE BILL 111

a social security number, the applicant is required to provide verification only that he or she does not have one, rather than verification that he or she is not eligible for one. In processing an application for, and issuing or renewing, a noncompliant REAL ID, DOT may not include any question or require any proof or documentation as to whether the applicant is a U.S. citizen or is otherwise lawfully present in the United States. The bill does not change any current law requirements related to driver qualifications such as minimum age or successful completion of knowledge and driving skills tests.

Under current law, most driver’s licenses issued by DOT are issued for an initial two-year period and must be renewed every eight years thereafter. In general, an applicant for renewal of a driver’s license must pass an eyesight test and have his or her photograph taken with each renewal. Most identification cards issued by DOT are issued for an initial period of eight years and are renewable for eight-year periods thereafter, and applicants, generally, must have their photograph taken with each renewal.

Under the bill, an applicant for a noncompliant REAL ID who does not provide a social security number is issued a noncompliant REAL ID that displays, on its face, the words “Not valid for voting purposes. Not evidence of citizenship or immigration status.” and that has a four-year renewal period rather than an eight-year renewal period. With each renewal, DOT has discretion whether or not to take a new photograph and, for a driver’s license, give an eyesight test. However, DOT must take a new photograph and, for a driver’s license, give an eyesight test at least once every eight years.

With limited exceptions, DOT may not disclose social security numbers obtained from operator’s license or identification card applicants. The bill prohibits DOT from disclosing the fact that an applicant has verified to DOT that the applicant does not have a social security number, except that DOT may disclose this information to the Elections Commission.

The bill also prohibits discrimination on the basis of a person’s status as a holder or a nonholder of a noncompliant REAL ID, adding this license status as a prohibited basis for discrimination in employment, housing, and the equal enjoyment of a public place of accommodation or amusement.

Electronic renewal of operator’s licenses

Under current law, most operator’s licenses issued by DOT must be renewed every eight years. In general, an applicant for renewal of an operator’s license must pass an eyesight test and have his or her photograph taken.

Under the bill, if an applicant for renewal of an operator’s license, other than a commercial driver license, meets certain requirements, the applicant may apply for renewal, and DOT may renew the license, by electronic means. The renewal may occur without an eyesight test and without a photograph. Licenses issued under this procedure will be marked as REAL-ID noncompliant licenses that are not intended to be accepted by federal agencies for federal identification or other official purposes. Among the eligibility requirements for use of the electronic procedure are 1) that the applicant’s most recent previous license transaction was not made by electronic means; 2) that the applicant’s license is not subject to restrictions based on medical
conditions, other than a requirement that the applicant use corrective lenses; 3) that the applicant is not more than 65 years of age; and 4) that the applicant meets any additional criteria for eligibility established by DOT.

Driving skills test waiver

Under current law, with limited exceptions, an applicant for an operator’s license authorizing operation of “Class D” vehicles, which are automobiles and most passenger vehicles, must successfully complete a knowledge test and a driving skills (road) test. The bill allows DOT to waive the road test for a person if all of the following are satisfied:

1. The person is under 18 years of age.
2. The person is applying for authorization to operate only “Class D” vehicles.
3. The person has satisfactorily completed a course in driver education.
4. The person has held an instruction permit for not less than six months.
5. The person has not committed a moving violation during the six-month period immediately preceding application.
6. An adult sponsor of the person consents to a waiver of the driving skills test.

Operator license suspension and arrest for nonmoving violations

Under current law, if a person does not pay the forfeiture or appear in court in response to a citation for a nonmoving violation (commonly known as a parking ticket), the court may issue a summons for the person, order DOT to suspend the person’s vehicle registration, or issue a warrant for the person’s arrest. If a person fails to pay the forfeiture for a moving or nonmoving violation, the court may order the person to be imprisoned until the judgment is paid, but for a time period not to exceed 90 days. In lieu of imprisonment, the court may order that the person’s operating privilege be suspended.

The bill eliminates the option to arrest a person and suspend the person’s motor vehicle operator license for failure to pay the required forfeiture for a nonmoving violation.

Replacement of motor vehicle registration plates

Under current law, DOT must establish new designs for plates at intervals determined by DOT. Subsequently, DOT must issue plates with the new design at a time determined by DOT. Plates may also be replaced upon application of a vehicle owner in the case of lost, destroyed, or illegible plates.

Under the bill, beginning with registrations effective July 1, 2021, if the registration for a vehicle is renewed and plates for that vehicle have not been issued during the previous 10 years, DOT must issue two new registration plates for the vehicle. The bill requires DOT to assess a $6.25 fee for the replacement plates.

Disclosure of records relating to identification card holders

Under current law, with certain exceptions, DOT is prohibited from disclosing records or other information relating to applicants for, or holders of, identification cards. The bill eliminates this prohibition.
SENATE BILL 111

Exemption from probationary license requirement for persons enlisted in the U.S. armed forces

Under current law, probationary licenses are, with certain exceptions, issued to all applicants who qualify for an original driver’s license and remain in effect for two years from the date of the licensee’s next birthday. Currently, the following persons are exempt from this requirement:

1. Certain persons who have been licensed by another jurisdiction.
2. Persons who are issued a commercial driver license.
3. Persons entitled to a regular license under a foreign license reciprocity agreement.

Those who are exempt from the probationary license requirement are instead issued a regular license that remains in effect for eight years after the date of issuance.

Under the bill, a person who provides DOT with documentary proof that the person is enlisted in the U.S. armed forces is also exempt from the probationary license requirement.

Fee for paper registration renewal notice

Under current law, a person may not operate a vehicle on any highway unless the vehicle is registered with DOT. At least 30 days prior to the expiration of a vehicle’s registration, DOT must mail to the registrant a notice of the date upon which the vehicle’s registration must be renewed. DOT is also authorized to test and evaluate the effectiveness of alternative methods of processing and distributing vehicle registration renewals. Under the bill, for a vehicle registration renewal notice that DOT sends by mail, DOT must charge the recipient a fee of $0.33 and deposit all such fees in the transportation fund.

HIGHWAYS

Enumeration of the I 94 east-west corridor project

Under current law, DOT may not encumber or expend any moneys for construction of a southeast Wisconsin freeway megaproject unless the project is enumerated by the legislature. The bill enumerates as a southeast Wisconsin freeway megaproject the “I 94 east-west corridor project,” which is defined to mean “all freeways, including related interchange ramps, roadways, and shoulders, encompassing I 94 in Milwaukee County from 70th Street to 16th Street, and all adjacent frontage roads and collector road systems.” The bill authorizes DOT to contract up to $40,000,000 in public debt for the project.

Establishment of bikeways and pedestrian ways in highway projects

Under current law, DOT must, with exceptions, give due consideration to establishing bikeways and pedestrian ways in all new highway construction and reconstruction projects funded from state or federal funds.

Under the bill, with several exceptions, DOT must ensure that bikeways and pedestrian ways are established in all new highway construction and reconstruction projects funded from state or federal funds and must promulgate rules identifying certain exceptions to the requirement.
SENATE BILL 111

Transportation revenue bonds

Under current law, the Building Commission may issue revenue bonds for major highway projects and transportation administrative facilities in a principal amount that may not exceed $4,055,372,900. The bill increases the revenue bond limit to $4,359,650,700, an increase of $304,277,800.

Also, under a separate authorization, the Building Commission may issue revenue bonds for major highway projects and transportation administrative facilities in a principal amount that may not exceed $142,254,600. The bill eliminates this separate authorization.

State highway rehabilitation bonding

Under current law, state highway rehabilitation projects may be funded from various sources, including bond proceeds. Various provisions of current law authorize specific maximum levels of general obligation bonding for these projects and the total authorized amount of general obligation bonding available for these projects is the cumulative amount specified in all of these provisions. Under one of these provisions of current law, the state may contract up to $141,000,000 in public debt to fund state highway rehabilitation projects. The bill increases this authorized general obligation bonding limit by $278,500,000 to $419,500,000.

Design-build project bonding

Under current law, the design and construction of highway projects are generally two distinct phases. Under this method, often referred to as “design-bid-build,” DOT has broad authority to accomplish the design of a project. The construction of a project must be executed by contract based on bids, with DOT awarding the contract to the lowest responsible bidder. Alternatively, DOT may use the “design-build” method, under which design, engineering, construction, and related services are procured through a single contract with a single entity capable of providing the services.

Under current law, state highway rehabilitation projects, major highway projects, and southeast Wisconsin freeway megaprojects may be funded from various sources, including bond proceeds. The bill provides that the state may contract up to $20,000,000 in public debt to fund state highway rehabilitation projects, major highway projects, and southeast Wisconsin freeway megaprojects that are delivered using the design-build method.

Transportation project requirements

Under current law, for certain highway projects for which DOT spends federal money, federal money must make up at least 70 percent of the funding for those projects. DOT is required to notify political subdivisions receiving aid for local projects whether the aid includes federal moneys and how those moneys must be spent. For certain projects that receive no federal money, DOT may not require political subdivisions to comply with any portion of DOT’s facilities development manual other than design standards. Any local project funded with state funds under the surface transportation program or the local bridge program must be let through competitive bidding and by contract to the lowest responsible bidder. The bill repeals all of these requirements.
Specific information signs

The bill makes numerous changes to the specific information sign program administered by DOT, under which DOT erects and maintains signs to direct motorists to services located near certain highways.

Under current law, DOT may not authorize the erection of specific information signs along a highway unless the highway is enumerated by the legislature. The bill makes numerous changes to existing enumerations to reflect highway construction and designation changes. The bill also enumerates two new highway segments.

Under current law, the annual permit fee for inclusion on a specific information sign is $40. The bill increases the fee to $80. Current law specifies the design of specific information signs and provides that signs may be illuminated. The bill eliminates the reference to sign illumination.

Under current law, to be included on a specific information sign for the “FOOD” category, a business must operate at least five days a week and be open, at a minimum, from 10 a.m. to 7 p.m. The bill eliminates the hours-of-service requirement.

Current law provides that no more than four specific information signs for each category of motorist service may be erected along an approach to an interchange or intersection. The bill removes the specific limit on the number of allowable signs and instead provides that the number may not exceed the number allowed under the federal Manual on Uniform Traffic Control Devices for Streets and Highways adopted by DOT.

Electric vehicle infrastructure program

The bill establishes an electric vehicle infrastructure program within DOT. Under the program, DOT provides funding for electric vehicle infrastructure projects. DOT, in consultation with DOA, determines appropriate locations for such projects. The bill also authorizes the issuance of $5,000,000 in public debt for the purpose of funding projects under this program.

Ray Nitschke Memorial Bridge

The bill requires DOT, in the 2021-22 fiscal year, to set aside $1,200,000 of the amounts appropriated to DOT for bridge development, construction, and rehabilitation for repairs to the Ray Nitschke Memorial Bridge in Brown County.

Improvements to the interchange of I 94 and Moorland Road

The bill requires DOT, in the 2021-23 fiscal biennium, to allocate $1,750,000 for the construction of geometric improvements to improve the safety of the interchange of I 94 and Moorland Road in Waukesha County.

Thresholds for certain contracts requiring gubernatorial approval

Current law requires gubernatorial approval of certain DOT contracts involving expenditures over specified thresholds. The bill increases these thresholds as follows:

1. Engagement of engineering or related services, from $3,000 to $100,000.
2. Contracts for highway improvement, from $1,000 to $250,000.
3. Non-bid contracts with counties for highway improvements, from $5,000 to $100,000.
SENATE BILL 111

4. Non-bid contracts with railroads or public utilities for highway improvements, from $5,000 to $100,000.

5. Emergency non-bid contracts for highway improvements, from $10,000 to $100,000.

TRANSPORTATION AIDS

General transportation aids

The bill increases the amount of aid DOT may provide to counties and municipalities under the general transportation aids program. Under current law, DOT makes aid payments to counties based on a share-of-costs formula and to municipalities based on the greater of a share-of-costs formula or an aid rate per mile. Under the bill, the aid rate per mile is increased to $2,681 for calendar year 2022 and $2,734 for calendar year 2023 and thereafter. The maximum amount of aid that may be paid to counties under the program is increased to $124,647,300 for calendar year 2022 and $127,140,200 for calendar year 2023 and thereafter. The maximum amount of aid that may be paid to municipalities under the program is increased to $391,173,300 for calendar year 2022 and $398,996,800 for calendar year 2023 and thereafter.

Penalty for late submission of reports related to general transportation aids

Under the general transportation aids program, counties and municipalities with a population of 25,000 or more are required to file certain financial reports with DOR by July 31 each year. If a county or municipality fails to file the necessary reports by the deadline, but does file the reports within 30 days after the deadline, the amount of aid payable to that county or municipality for the following year is reduced by 1 percent for each day late, up to a maximum 10 percent reduction. If a county or municipality fails to file the necessary reports within 30 days of the deadline, the amount of aid payable to that county or municipality for the following year is reduced by 10 percent.

Under the bill, if a county or municipality fails to file the necessary reports by the specified deadline, but does provide the reports within 30 days after the deadline, the amount of aid payable to the county or municipality may not be reduced by more than $100 for each day that the necessary reports are late.

Mass transit aids amounts

Under current law, DOT provides state aid payments to local public bodies in urban areas served by mass transit systems to assist the local public bodies with the expenses of operating those systems. There are five classes of mass transit systems, and the total amount of state aid payments to four of these classes is limited to a specified amount in each calendar year. The fifth class consists of certain commuter or light rail systems, and no state aid amounts are specified for this class.

The bill increases the total amount of state aid payments to the four classes of mass transit systems for which state aid amounts are specified as follows:

1. For mass transit systems having annual operating expenses of $80,000,000 or more, the bill maintains the current limit of $65,477,800 in calendar year 2021 and increases the limit to $67,114,700 in calendar year 2022 and $68,792,600 in calendar year 2023 and thereafter.
SENATE BILL 111

2. For mass transit systems having annual operating expenses of over $20,000,000 but less than $80,000,000, the bill maintains the current limit of $17,205,400 in calendar year 2021 and increases the limit to $17,635,500 in calendar year 2022 and $18,076,400 in calendar year 2023 and thereafter.

3. For mass transit systems serving urban areas having a population of at least 50,000 but having annual operating expenses of no more than $20,000,000, the bill maintains the current limit of $24,976,400 in calendar year 2021 and increases the limit to $25,600,800 in calendar year 2022 and $26,240,800 in calendar year 2023 and thereafter.

4. For mass transit systems serving urban areas having a population of less than 50,000, the bill maintains the current limit of $5,292,700 in calendar year 2021 and increases the limit to $5,425,000 in calendar year 2022 and $5,560,600 in calendar year 2023 and thereafter.

Transit capital assistance grants

The bill requires DOT to establish a transit capital assistance grant program, under which DOT awards grants to eligible applicants for the replacement of public transit vehicles.

Local infrastructure grant program

The bill establishes a local road aids for critical infrastructure grant program within the DOT. Under the program, DOT makes grants to political subdivisions for the reconstruction to a higher standard durability of a culvert or bridge. Bridges and culverts eligible for grants under the program must be owned by the political subdivision and must be at risk of being damaged by future extreme storm water events. Grants under the program may cover up to 50 percent of the cost of the reconstruction project. The bill also authorizes the issuance of $15,000,000 in public debt for the purpose of making grants under this program.

Local supplement grant program

The bill creates a local supplement grant program under which DOT provides discretionary grants to political subdivisions for projects related to bridge construction or reconstruction or local road improvement or to local governments for projects related to transportation alternatives, including construction of pedestrian and bicycle facilities and environmental mitigation of highway construction.

Tribal elderly transportation grants

Current law requires DOA to transfer a portion of Indian gaming receipts to a DOT appropriation that funds tribal elderly transportation grants. The bill eliminates the requirement to make this transfer and replaces the DOT appropriation that funds tribal elderly transportation grants using transferred Indian gaming receipts with an appropriation from the transportation fund.

Town of Milton project

The bill requires DOT to award a grant of $75,000 to the town of Milton in Rock County for the Clear Lake Road project.
RAIL AND AIR TRANSPORTATION

Freight rail preservation bonding
Under current law, the state may contract up to $280,300,000 in public debt for DOT to acquire railroad property and to provide grants and loans for railroad property acquisition and improvement. The bill increases the authorized general obligation bonding limit for these purposes by $20,000,000 to $300,300,000.

Airport sound mitigation grant program
The bill requires DOT to develop and administer an airport sound mitigation grant program. Under the program, DOT must award grants for projects that mitigate the impact of airport sound on structures located near airports that include a military base or installation. DOT is required to give highest priority in awarding these grants to projects involving schools and child care centers and secondary priority to projects involving private residences.

GENERAL TRANSPORTATION

Collection of data from traffic stops
The bill requires a law enforcement agency to collect the following information concerning motor vehicle stops made on or after January 1, 2022: 1) the name, address, gender, and race of the operator of the motor vehicle, with the officer subjectively determining the person’s race as being Caucasian, Black or African American, Hispanic, American Indian or Alaska Native, or Asian or Pacific Islander; 2) the reason for the motor vehicle stop; 3) the make and year of the motor vehicle; 4) the date, time, and location of the motor vehicle stop; 5) whether or not a law enforcement officer conducted a search of the motor vehicle, the operator, or any passenger and, if so, whether the search was with consent or by other means; 6) the name, address, gender, and race of any person searched; and 7) the name and badge number of the officer making the motor vehicle stop.

The information that is collected under the bill concerning motor vehicle stops is not subject to inspection or copying as a public record. The information, however, must be forwarded to DOJ, which must then compile and analyze it, along with any other relevant information, to determine, both for the state as a whole and for each law enforcement agency, whether the number of stops and searches involving motor vehicles operated or occupied by members of a racial minority are disproportionate compared to the number of stops and searches involving motor vehicles operated or occupied solely by persons who are not members of a racial minority.

Harbor assistance bonding
Under current law, the state may contract up to $152,000,000 in public debt for DOT to provide local grants for harbor assistance and for harbor improvements such as dock wall repair and maintenance, construction of new dock walls, dredging of materials from a harbor, or the placement of dredged materials in containment facilities. The bill increases the authorized general obligation bonding limit for these purposes by $15,300,000 to $167,300,000.

Intermodal freight assistance program
Current law authorizes DOT to make grants to public or private applicants for intermodal freight facilities that the department determines have a public purpose.
SENATE BILL 111

The bill provides that DOT may not make such a grant unless the grantee agrees to provide adequate intermodal freight services at the facility funded by the grant, subject to remedial transfer of the facility to DOT. The bill also states that the program has a public purpose.

VETERANS

Veterans service officer grants

Under current law, DVA is required to annually award a grant to counties that employ a full-time county veterans service officer. The grants are awarded for the purpose of improving a county’s services to veterans. The amount of each grant is as follows: $8,500 for a county with a population of less than 20,000, $10,000 for a county with a population of 20,000 to 45,499, $11,500 for a county with a population of 45,500 to 74,999, and $13,000 for a county with a population of 75,000 or more. Counties that employ a part-time county veterans service officer are eligible to receive an annual grant not exceeding $500. DVA may also make annual grants not to exceed $15,000 to the governing bodies of federally recognized American Indian tribes and bands if the tribal governing body appoints a tribal veterans service officer. The bill increases the amount of each of these grants by 5 percent.

Veterans outreach and recovery program

Under current law, DVA administers a program to provide outreach, mental health services, and support to veterans who reside in the state who have a mental health condition or substance use disorder. The bill directs DVA to spend at least $100,000 annually under the program to promote suicide prevention and awareness by providing services to individuals who are members of a traditionally underserved population, including minority groups and individuals who reside in rural areas of the state.

Hire Heroes program

Under current law, DWD administers the Hire Heroes program that provides transitional jobs to veterans and reimburses employers of veterans for wages and other related costs. In order for a veteran to be eligible to participate in the program, he or she must be a DVA-certified veteran, be at least 18 years old, be ineligible to participate in the Wisconsin Works program, be unemployed for at least four weeks, and satisfy any applicable substance abuse screening, testing, and treatment. Prospective program participants must also submit an application to the program no later than seven years after the date of discharge from military service. The bill removes the seven-year limit on when veterans may submit an application to the program.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.
SENATE BILL 111

Because this bill may increase or decrease, directly or indirectly, the cost of the development, construction, financing, purchasing, sale, ownership, or availability of housing in this state, the Department of Administration, as required by law, will prepare a report to be printed as an appendix to this bill.

This proposal may contain a health insurance mandate requiring a social and financial impact report under s. 601.423, stats.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

Public notice of the time and place of the test shall be given by the clerk at least 48 hours prior to the test by publication of a class 1 notice under ch. 985 in one or more newspapers published within the municipality if a newspaper is published therein, otherwise in a newspaper of general circulation therein. The test shall be conducted by processing a preaudited group of ballots so marked as to record a predetermined number of valid votes for each candidate and on each referendum. The test shall include for each office one or more ballots which have votes in excess of the number allowed by law and, for a partisan primary election, one or more ballots which have votes cast for candidates of more than one recognized political party, in order to test the ability of the automatic tabulating equipment to reject such votes. Unless election officials are selected under s. 7.30 (4) (c) without regard to party affiliation, the employees at each central counting location, other than any specially trained technicians who are required for the operation of the automatic tabulating equipment, shall be equally divided between members of the 2 major political parties under s. 7.30 (2) (a) and all duties performed by the employees shall be by teams consisting of an equal number of members of each political party whenever sufficient persons from each party are available.

6.02 (1) Every U.S. citizen age 18 or older who has resided in an election district or ward for 28 10 consecutive days before any election where the citizen offers to vote is an eligible elector.

SECTION 11. 6.02 (2) of the statutes is amended to read:
SENATE BILL 111

6.02 (2) Any U.S. citizen age 18 or older who moves within this state later than 28 10 days before an election shall vote at his or her previous ward or election district if the person is otherwise qualified. If the elector can comply with the 28-day 10-day residence requirement at the new address and is otherwise qualified, he or she may vote in the new ward or election district.

SECTION 12. 6.10 (3) of the statutes is amended to read:

6.10 (3) When an elector moves his or her residence from one ward or municipality to another ward or municipality within the state at least 28 10 days before the election, the elector may vote in and be considered a resident of the new ward or municipality where residing upon registering at the proper polling place or other registration location in the new ward or municipality under s. 6.55 (2) or 6.86 (3) (a) 2. 6.10 (4) The residence of an unmarried person sleeping in one ward and boarding in another is the place where the person sleeps. The residence of an unmarried person in a transient vocation, a teacher or a student who boards at different places for part of the week, month, or year, if one of the places is the residence of the person’s parents, is the place of the parents’ residence unless through registration or similar act the person elects to establish a residence elsewhere. If the person has no parents and if the person has not registered elsewhere, the person’s residence shall be at the place that the person considered his or her residence in preference to any other for at least 28 10 consecutive days before an election. If this
place is within the municipality, the person is entitled to all the privileges and subject
to all the duties of other citizens having their residence there, including voting.

28 10 consecutive days prior to the date of the presidential election, is entitled to vote
for the president and vice president but for no other offices. The fact that the person
was not registered to vote in the state from which he or she moved does not prevent
voting in this state if the elector is otherwise qualified.

SECTION 15. 6.15 (2) (a) of the statutes is amended to read:

6.15 (2) (a) The elector’s request for the application form may be made in person

be made not sooner than 27 9 days nor later than 5 p.m. on the day before the election,
or may be made at the proper polling place in the ward or election district in which
the elector resides. If an elector makes application before election day, the
application form shall be returned to the municipal clerk after the affidavit has been
signed in the presence of the clerk or any officer authorized by law to administer
oaths. The affidavit shall be in substantially the following form:

SECTION 18. 6.22 (7) of the statutes is amended to read:

6.22 (7) EXTENSION OF PRIVILEGE. This section applies to all military electors for 28 days after the date of discharge from a uniformed service or termination of services or employment of individuals specified in sub. (1) (b) 1. to 4.

SECTION 19. 6.256 of the statutes is created to read:

6.256 Facilitating registration of electors. (1) The commission shall use all feasible means to facilitate the registration of all eligible electors of this state and the maintenance of the registration of all eligible electors for so long as they remain eligible.

(2) Subject to s. 343.14 (2p) (b), for the purpose of carrying out its functions under sub. (1), the commission shall obtain the following information from the department of transportation, to the extent that the department has the information:

(a) The full name of each individual who holds a current operator’s license issued to the individual under ch. 343 or a current identification card issued to the individual under s. 343.50, together with the following information pertaining to that individual:

1. The current address of the individual together with any address history and any name history maintained by the department of transportation.

2. The date of birth of the individual.
3. The number of the license or identification card issued to the individual.

4. A copy of each document that the applicant provided as proof of citizenship and a statement from the department of transportation indicating that the department verified the applicant’s citizenship.

(b) For each item of information specified in par. (a), the most recent date that the item of information was provided to or obtained by the department of transportation.

(3) The commission shall compare the information obtained under sub. (2) with the information in the registration list under s. 6.36 (1) (a). If the commission finds any discrepancy between the information obtained under sub. (2) regarding an elector and the information in the registration list under s. 6.36 (1) (a) regarding that elector, the commission shall attempt to contact the elector to resolve the discrepancy and update the registration list accordingly. If the commission is unable to resolve the discrepancy, the information in the registration list shall control.

(4) If the commission concludes that an individual appears eligible to vote in this state but is not registered and the commission has obtained from reliable sources all the information required under s. 6.33 (1) to complete the individual’s registration, the commission shall enter the individual’s name on the registration list maintained under s. 6.36 (1) (a). If the commission has not obtained from reliable sources all the information pertaining to an individual that is required under s. 6.33 (1), the commission shall attempt to obtain from reliable sources the necessary information under s. 6.33 (1) that is required to complete the individual’s registration. If an elector’s status has been changed from eligible to ineligible under s. 6.50 and the elector’s eligibility, name, or residence has not changed, the commission may not change the individual’s name to eligible status unless the
commission first verifies that the individual is eligible and wishes to change his or
her status to eligible.

(5) The commission shall attempt to contact an individual described in sub. (4)
if necessary to obtain all the information specified in s. 6.33 (1) pertaining to the
individual that is required to complete the individual’s registration.

(6) The commission shall mail a notice to each individual whose name the
commission enters under sub. (4) on the registration list maintained under s. 6.36
(1) (a). The notice shall be printed in English, Spanish, and other languages spoken
by a significant number of state residents, as determined by the commission, and
shall include all of the following:

(a) A statement informing the individual that his or her name has been entered
on the registration list and showing the current address for the individual based on
the commission’s records.

(b) A statement informing the individual that he or she may request to have
his or her name deleted from the registration list and instructions for doing so.

(c) Instructions for notifying the commission of a change in name or address.

(d) Instructions for obtaining a confidential listing under s. 6.47 (2) and a
description of how an individual qualifies for a confidential listing.

(7) Any individual may file a request with the commission to exclude his or her
name from the registration list maintained under s. 6.36 (1) (a). Any individual
whose name is added to the registration list by the commission may file a request
with the commission or a municipal clerk to have his or her name deleted from the
list. A request for exclusion or deletion shall be filed in the manner prescribed by the
commission. An individual who files an exclusion or deletion request under this
subsection may revoke his or her request by the same means that an individual may
request an exclusion or deletion. The commission shall ensure that the name of any
individual who has filed an exclusion or deletion request under this subsection is
excluded from the registration list or, if the individual's name appears on the list, is
removed from the registration list and is not added to the list at any subsequent time
unless the individual files a revocation of his or her request under this subsection.

(8) If the commission removes from the registration list maintained under s.
6.36 (1) (a) the name of an elector who does not request that his or her name be
deleted, or changes the elector's status from eligible to ineligible, other than to
correct an entry that the commission determines to be a duplication or to change the
name of an individual who is verified to be deceased to ineligible status, the
commission shall mail the individual a notice of the removal or change in status by
1st class postcard at the individual's last-known address. The notice shall provide
that the individual may apply to have his or her status changed to eligible if he or
she is a qualified elector.

(9) The commission shall attempt to facilitate the initial registration of all
eligible electors as soon as practicable.

(10) The commission shall maintain the confidentiality of all information
obtained from the department of transportation under sub. (2) and may use this
information only for the purpose of carrying out its functions under sub. (1) and s.
6.34 (2m) and in accordance with the agreement under s. 85.61 (1).

SECTION 20. 6.29 (2) (a) of the statutes is amended to read:

6.29 (2) (a) Any qualified elector of a municipality who has not previously filed
a registration form or whose name does not appear on the registration list of the
municipality may register after the close of registration but not later than 5 p.m. or
the close of business, whichever is later, on the Friday before an election at the office
of the municipal clerk and at the office of the clerk’s agent if the clerk delegates responsibility for electronic maintenance of the registration list to an agent under s. 6.33 (5) (b). The elector shall complete, in the manner provided under s. 6.33 (2), a registration form containing all information required under s. 6.33 (1). properly executed, the applicant is a qualified elector of the ward or election district,
and the applicant has not voted in the election, they shall enter an indication on the

The municipal clerk shall give at least 48 hours’ notice of any meeting under this subsection. SECTION 34. 7.52 (5) (b) of the statutes is amended to read:

7.52 (5) (b) For the purpose of deciding upon ballots that are challenged for any reason, the board of absentee ballot canvassers may call before it any person whose absentee ballot is challenged if the person is available to be called. If the person challenged refuses to answer fully any relevant questions put to him or her by the
board of absentee ballot canvassers under s. 6.92, the board of absentee ballot
canvassers shall reject the person’s vote. If the challenge is not withdrawn after the
person offering to vote has answered the questions, one of the members of the board

person challenged answers fully all relevant questions put to the elector by the board
of absentee ballot canvassers under s. 6.92, takes the oath or affirmation, and fulfills
the applicable registration requirements, and if the answers to the questions given
by the person indicate that the person meets the voting qualification requirements,
the person’s vote shall be received.

(b) “Claim” means any request or demand, whether under a contract or otherwise, for money or property and whether the state has title to the money or property, that is presented to an officer, employee, agent, or other representative of the state or to a contractor, grantee, or other person if the money or property is to be spent or used on the state’s behalf or to advance a state program or interest, and if
the state provides any portion of the money or property which is requested or
 demanded, or if the state will reimburse directly or indirectly such contractor,
grantee, or other person for any portion of the money or property which is requested
or demanded. “Claim” includes a request or demand for services from a state agency
or as part of a state program. “Claim” does not include requests or demands for
money or property that the state has paid to an individual as compensation for state
employment or as an income subsidy with no restriction on that individual’s use of
the money or property.

(d) “Knowingly” means, with respect to information, having actual knowledge
of the information, acting in deliberate ignorance of the truth or falsity of the
information, or acting in reckless disregard of the truth or falsity of the information.
“Knowingly” does not mean specifically intending to defraud.

(de) “Material” means having a natural tendency to influence, or be capable of
influencing, the payment or receipt of money or property or the receipt of services.

(dm) “Medical assistance” has the meaning given under s. 49.43 (8).

(dr) “Obligation” has the meaning given in 31 USC 3729 (b) (3).

(dt) “Original source” has the meaning given in 31 USC 3730 (e) (4) (B).

(e) “Proceeds” includes damages, civil penalties, surcharges, payments for costs
of compliance, and any other economic benefit realized by this state as a result of an
action or settlement of a claim.

(2) Except as provided in sub. (3), any person who does any of the following is
liable to this state for 3 times the amount of the damages that were sustained by the
state or would have been sustained by the state, whichever is greater, because of the
actions of the person, and shall forfeit, for each violation, an amount within the range
specified under 31 USC 3729 (a):
(a) Knowingly presents or causes to be presented a false or fraudulent claim to a state agency, including a false or fraudulent claim for medical assistance.

(b) Knowingly makes, uses, or causes to be made or used, a false record or statement material to a false or fraudulent claim to a state agency, including a false or fraudulent claim for medical assistance.

(dg) Knowingly makes, uses, or causes to be made or used, a false record or statement material to an obligation to pay or transmit money or property to the Medical Assistance program, or knowingly conceals or knowingly and improperly avoids or decreases an obligation to pay or transmit money or property to the Medical Assistance program.

(dm) Knowingly makes, uses, or causes to be made or used a false record or statement material to an obligation to pay or transmit money or property to a state agency, or knowingly conceals or knowingly and improperly avoids or decreases an obligation to pay or transmit money or property to a state agency.

(dr) Conspires to commit a violation under par. (a), (b), (dg), or (dm).

(3) The court may assess against a person who violates sub. (2) not less than 2 nor more than 3 times the amount of the damages sustained by the state because of the acts of the person, and shall not assess any forfeiture, if the court finds all of the following:

(a) The person who commits the acts furnished the attorney general with all information known to the person about the acts within 30 days after the date on which the person obtained the information.

(b) The person fully cooperated with any investigation of the acts by this state.

(c) At the time that the person furnished the attorney general with information concerning the acts, no criminal prosecution or civil or administrative enforcement
action had been commenced with respect to any such act, and the person did not have
actual knowledge of the existence of any investigation into any such act.

(5) (a) Except as provided in subs. (10) and (12), any person may bring a civil
action as a qui tam plaintiff against a person who commits an act in violation of sub.
(2) for the person and the state in the name of the state.

(b) The plaintiff shall serve upon the attorney general a copy of the complaint
and documents disclosing substantially all material evidence and information that
the person possesses. The plaintiff shall file a copy of the complaint with the court
for inspection in camera. Except as provided in par. (c), the complaint shall remain
under seal for a period of 60 days from the date of filing, and shall not be served upon
the defendant until the court so orders. Within 60 days from the date of service upon
the attorney general of the complaint, evidence, and information under this
paragraph, the attorney general may intervene in the action.

(bm) Any complaint filed by the state in intervention, whether filed separately
or as an amendment to the qui tam plaintiff’s complaint, shall relate back to the filing
date of the qui tam plaintiff’s complaint, to the extent that the state’s claim arises
out of the conduct, transactions, or occurrences set forth, or attempted to be set forth,
in the qui tam plaintiff’s complaint.

(c) The attorney general may, for good cause shown, move the court for one or
more extensions of the period during which a complaint in an action under this
subsection remains under seal.

(d) Before the expiration of the period during which the complaint remains
under seal, the attorney general shall do one of the following:

1. Proceed with the action or an alternate remedy under sub. (10), in which case
the action or proceeding under sub. (10) shall be prosecuted by the state.
2. Notify the court that he or she declines to proceed with the action, in which case the person bringing the action may proceed with the action.

(e) If a person brings a valid action under this subsection, no person other than the state may intervene or bring a related action while the original action is pending based upon the same facts underlying the pending action.

(f) In any action or other proceeding under sub. (10) brought under this subsection, the plaintiff is required to prove all essential elements of the cause of action or complaint, including damages, by a preponderance of the evidence.

(6) If the state proceeds with an action under sub. (5) or an alternate remedy under sub. (10), the state has primary responsibility for prosecuting the action or proceeding under sub. (10). The state is not bound by any act of the person bringing the action, but that person has the right to continue as a party to the action.

(7) (b) With the approval of the governor, the attorney general may compromise and settle an action under sub. (5) or an administrative proceeding under sub. (10) to which the state is a party, notwithstanding objection of the person bringing the action, if the court determines, after affording to the person bringing the action the right to a hearing at which the person is afforded the opportunity to present evidence in opposition to the proposed settlement, that the proposed settlement is fair, adequate, and reasonable considering the relevant circumstances pertaining to the violation.

(c) Upon a showing by the state that unrestricted participation in the prosecution of an action under sub. (5) or an alternate proceeding to which the state is a party by the person bringing the action would interfere with or unduly delay the prosecution of the action or proceeding, or would result in consideration of
repetitious or irrelevant evidence or evidence presented for purposes of harassment, 
the court may limit the person’s participation in the prosecution, such as:

1. Limiting the number of witnesses that the person may call.
2. Limiting the length of the testimony of the witnesses.
3. Limiting the cross-examination of witnesses by the person.
4. Otherwise limiting the participation by the person in the prosecution of the 
action or proceeding.

(d) Upon showing by a defendant that unrestricted participation in the 
prosecution of an action under sub. (5) or alternate proceeding under sub. (10) to 
which the state is a party by the person bringing the action would result in 
harassment or would cause the defendant undue burden or unnecessary expense, the 
court may limit the person’s participation in the prosecution.

(8) Except as provided in sub. (7), if the state elects not to participate in an 
action filed under sub. (5), the person bringing the action may prosecute the action. 
If the attorney general so requests, the attorney general shall, at the state’s expense, 
be served with copies of all pleadings and deposition transcripts in the action. If the 
person bringing the action initiates prosecution of the action, the court, without 
limiting the status and rights of that person, may permit the state to intervene at a 
later date upon showing by the state of good cause for the proposed intervention.

(9) Whether or not the state participates in an action under sub. (5), upon 
showing in camera by the attorney general that discovery by the person bringing the 
action would interfere with the state’s ongoing investigation or prosecution of a 
criminal or civil matter arising out of the same facts as the facts upon which the 
action is based, the court may stay such discovery in whole or in part for a period of 
not more than 60 days. The court may extend the period of any such stay upon
further showing in camera by the attorney general that the state has pursued the
criminal or civil investigation of the matter with reasonable diligence and the
proposed discovery in the action brought under sub. (5) will interfere with the
ongoing criminal or civil investigation or prosecution.

(10) The attorney general may pursue a claim relating to an alleged violation
of sub. (2) through an alternate remedy available to the state or any state agency,
including an administrative proceeding to assess a civil forfeiture. If the attorney
general elects any such alternate remedy, the attorney general shall serve timely
notice of his or her election upon the person bringing the action under sub. (5), and
that person has the same rights in the alternate venue as the person would have had
if the action had continued under sub. (5). Any finding of fact or conclusion of law
made by a court or by a state agency in the alternate venue that has become final is
conclusive upon all parties named in an action under sub. (5). For purposes of this
subsection, a finding or conclusion is final if it has been finally determined on appeal,
if all time for filing an appeal or petition for review with respect to the finding or
conclusion has expired, or if the finding or conclusion is not subject to judicial review.

(11) (a) Except as provided in pars. (b) and (e), if the state proceeds with an
action brought by a person under sub. (5) or the state pursues an alternate remedy
relating to the same acts under sub. (10), the person who brings the action shall
receive at least 15 percent but not more than 25 percent of the proceeds of the action
or settlement of the claim, depending upon the extent to which the person
contributed to the prosecution of the action or claim.

(b) Except as provided in par. (e), if an action or claim is one in which the court
or other adjudicator finds to be based primarily upon disclosures of specific
information not provided by the person who brings an action under sub. (5) relating
to allegations or transactions specifically in a criminal, civil, or administrative
hearing, or in a legislative or administrative report, hearing, audit, or investigation,
or report made by the news media, the court or other adjudicator may award such
amount as it considers appropriate, but not more than 10 percent of the proceeds of
the action or settlement of the claim, depending upon the significance of the
information and the role of the person bringing the action in advancing the
prosecution of the action or claim.

(c) Except as provided in par. (e), in addition to any amount received under par.
(a) or (b), a person bringing an action under sub. (5) shall be awarded his or her
reasonable expenses necessarily incurred in bringing the action together with the
person’s costs and reasonable actual attorney fees. The court or other adjudicator
shall assess any award under this paragraph against the defendant.

(d) Except as provided in par. (e), if the state does not proceed with an action
or an alternate proceeding under sub. (10), the person bringing the action shall
receive an amount that the court decides is reasonable for collection of the civil
penalty and damages. The amount shall be not less than 25 percent and not more
than 30 percent of the proceeds of the action and shall be paid from the proceeds. In
addition, the person shall be paid his or her expenses, costs, and fees under par. (c).

(e) Whether or not the state proceeds with the action or an alternate proceeding
under sub. (10), if the court or other adjudicator finds that an action under sub. (5)
was brought by a person who planned or initiated the violation upon which the action
or proceeding is based, then the court may, to the extent that the court considers
appropriate, reduce the share of the proceeds of the action that the person would
otherwise receive under par. (a), (b), or (d), taking into account the role of that person
in advancing the prosecution of the action or claim and any other relevant
circumstance pertaining to the violation, except that if the person bringing the action is convicted of criminal conduct arising from his or her role in a violation of sub. (2), the court or other adjudicator shall dismiss the person as a party and the person shall not receive any share of the proceeds of the action or claim or any expenses, costs, and fees under par. (c).

(12) Except if the action is brought by the attorney general or the person bringing the action is an original source of the information, the court shall dismiss an action or claim under this section, unless opposed by the state, if substantially the same allegations or transactions as alleged in the action or claim were publicly disclosed in any of the following ways:

(a) In a federal criminal, civil, or administrative hearing in which the state or its agent is a party.

(b) In a congressional, government accountability office, or other federal report, hearing, audit, or investigation.

(c) From the news media.

(13) The state is not liable for any expenses incurred by a private person in bringing an action under sub. (5).

(14) Any employee, contractor, or agent who is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms and conditions of employment because of lawful actions taken by the employee, contractor, agent, or by others in furtherance of an action or claim filed under this section or on behalf of the employee, contractor, or agent, including investigation for, initiation of, testimony for, or assistance in an action or claim filed or to be filed under sub. (5) is entitled to all necessary relief to make the employee, contractor, or agent whole. Such relief shall in each case include reinstatement with
the same seniority status that the employee, contractor, or agent would have had but
for the discrimination, 2 times the amount of back pay, interest on the back pay at
the legal rate, and compensation for any special damages sustained as a result of the
discrimination, including costs and reasonable attorney fees. An employee,
contractor, or agent may bring an action to obtain the relief to which the employee,
contractor, or agent is entitled under this subsection within 3 years after the date the
retaliation occurred.

(15) A civil action may be brought based upon acts occurring prior to the
effective date of this subsection .... [LRB inserts date], if the action is brought within
the period specified in s. 893.9815.

(16) A judgment of guilty entered against a defendant in a criminal action in
which the defendant is charged with fraud or making false statements estops the
defendant from denying the essential elements of the offense in any action under sub.
(5) that involves the same elements as in the criminal action.

(17) The remedies provided for under this section are in addition to any other
remedies provided for under any other law or available under the common law.

(18) This section shall be liberally construed and applied to promote the public
interest and to effect the congressional intent in enacting 31 USC 3729 to 3733, as
reflected in the act and the legislative history of the act.

SECTION 636. 30.2065 (1g) of the statutes is created to read:

30.2065 (1g) (a) The department shall issue a general permit that authorizes wetland, stream, and floodplain restoration and management activities that will result in a net improvement in hydrologic connections, conditions, and functions. These activities shall be designed to the extent possible to return wetland, stream, and floodplain hydrology to a natural and self-regulating condition in order to achieve such goals as to slow the flow of runoff, reduce flood peaks, restore surface and groundwater interactions, improve water quality, or increase soil retention, groundwater infiltration, base flow, upper watershed storage, and flood resilience.
An activity is authorized by the general permit only if the applicant demonstrates to the satisfaction of the department that the activity will result in net improvements in hydrologic connections, conditions, and functions and will not injure public rights or interests or result in material injury to the rights of any riparian owner. The department may develop a quantification tool to determine if an activity will meet those standards. The department shall include conditions under the general permit that do all of the following:

1. Authorize hydrologic restoration activities in and adjacent to wetlands, streams, floodplains, and drainageways, including those that are no longer present but are restorable, for the purposes of reconnecting streams and floodplains, reestablishing healthy channel form and condition, removing or reducing wetland drainage, restoring or improving natural flow and movement of water or sediment, and reestablishing vegetation to support site stability and help manage flow and infiltration.

2. Authorize hydrologic restoration activities that alter the flow of water in, to, or from an area of special natural resource interest if the activities restore or repair surface or subsurface connections within the area of special natural resource interest or between the area of special natural resource interest and other waters of the state.

3. Specify that the general permit does not authorize any of the following activities:
   a. Construction of artificial wetlands.
   b. Construction of stormwater retention or detention ponds.
   c. Construction of large dams, as defined under s. 31.19 (1m), or dams that pose a risk to life, health, or property.
d. Activities that straighten, berm, dredge, or armor stream channels, except when proposed as a necessary element of a larger hydrologic restoration plan.

e. Fish and wildlife habitat enhancement activities that are not associated with a larger hydrologic restoration plan.

(b) In addition to the conditions under par. (a), the department may include other conditions necessary to ensure that activities authorized by the general permit will not injure public rights or interests or result in material injury to the rights of any riparian owner.

(c) The department shall consider all of the following factors when it assesses whether a proposed activity will result in net improvements in hydrologic connections, conditions, and functions:

1. Minimal adverse impacts regulated under this chapter and ch. 281 may be allowed if those impacts are anticipated to be temporary.

2. Restoring natural and self-regulating hydrology may result in permanent but net-positive changes to biotic communities and abiotic conditions.

(d) In reviewing activities proposed to be conducted under a general permit issued under this subsection, the department may do any of the following:

1. Waive fees.

2. Establish a reporting–only notification process for activities funded in whole or in part by a state or federal agency.

3. Waive requirements for wetland delineations and functional assessments.

4. Adjust and simplify the application and information requirements to reflect the fact that voluntary hydrologic restoration projects differ from projects with potential adverse environmental impacts.
5. Waive requirements related to wetland mitigation for impacts incidental to more fully restoring wetland hydrology.

   (e) The department shall notify, in writing, a person who has applied under s. 30.206 (3) (a) for authorization to proceed under a general permit issued under this subsection that the person is required to apply for an individual permit if the department determines that the proposed activity will not result in net improvements to hydrologic connections, condition, and functions. The department shall document in this notification its reasons for making this determination.

   (f) A person wishing to proceed with an activity that may be authorized by a general permit under this subsection may request and shall be granted a preapplication meeting with the department prior to submitting an application under s. 30.206 (3) (a). The department shall attempt to coordinate this meeting with the local zoning authority in cases where local zoning regulations apply.

The department shall audit the statement and determine the net costs that are directly attributable to the operation and maintenance of the water safety patrol unit, including a reasonable amount for depreciation of equipment. The department shall compute the state aids on the basis of 75% 80 percent of these net costs and shall cause the aids to be paid on or before April 1 of the year in which the statements are filed. The court shall review the report to determine whether any payments or agreement to make payments set forth in the report are coercive to the birth parent of the child or to an alleged father or presumed father of the child or are impermissible under s. 48.913 (4). Making any payment to or on behalf of the birth parent of the child, an alleged or presumed father of the child, or the child conditional in any part upon transfer or surrender of the child or the termination of parental rights or the finalization of the adoption creates a rebuttable presumption of coercion. Upon a finding of coercion, the court shall dismiss the petition or amend the agreement to delete any coercive conditions, if the parties agree to the amendment. Upon a finding that payments which are impermissible under s. 48.913 (4) have been made, the court may dismiss the petition and may refer the matter to the district attorney for prosecution under s. 948.24 (1). a. Whether the needs of the child can be met through placement in a foster home.

b. Whether placement of the child in a residential care center for children and youth, group home, or shelter care facility certified under s. 48.675 provides the most effective and appropriate level of care for the child in the least restrictive environment.

c. Whether the placement is consistent with the short-term and long-term goals for the child, as specified in the permanency plan.

The first question shall be: “Shall the size of the county board of supervisors of .... County be decreased from its current membership of .... members?” Any subsequent question shall be: “If so, shall the size of the board be decreased to .... members?” Each elector may vote in the affirmative or negative on the first question and may then vote in the affirmative on one of the remaining questions. If the first question is not approved by a majority of the electors voting on the question, any subsequent question is of no effect. If the question is approved by a majority of the electors voting on the question, or, if more than one question is submitted, if the

**SECTION 1180.** 66.0903 (1m) (b) of the statutes is amended to read:

66.0903 (1m) (b) The legislature finds that the enactment of ordinances or other enactments by local governmental units requiring laborers, workers, mechanics, and truck drivers employed on projects of public works or on publicly funded private construction projects to be paid the prevailing wage rate and to be paid at least 1.5 times their hourly basic rate of pay for hours worked in excess of the prevailing hours of labor would be logically inconsistent with, would defeat the purpose of, and would go against the repeals spirit of this section and the repeal of s. 66.0904, 2009 stats., and s. 66.0903 (2) to (12), 2013 stats. Therefore, this section shall be construed as an enactment of statewide concern for the purposes of facilitating broader participation with respect to bidding on projects of public works, ensuring that wages accurately reflect market conditions, providing local governments with the flexibility to reduce costs on capital projects, and reducing spending at all levels of government in this state purpose of providing uniform prevailing wage rate and prevailing hours of labor requirements throughout the state.

**SECTION 1181.** 66.0903 (2) to (12) of the statutes are created to read:

66.0903 (2) APPLICABILITY. Subject to sub. (5), this section applies to any project of public works erected, constructed, repaired, remodeled, or demolished for a local governmental unit, including all of the following:

(a) A highway, street, bridge, building, or other infrastructure project.
(b) A project erected, constructed, repaired, remodeled, or demolished by one local governmental unit for another local governmental unit under a contract under s. 66.0301 (2), 83.03, 83.035, or 86.31 (2) (b) or under any other statute specifically authorizing cooperation between local governmental units.

(c) A project in which the completed facility is leased, purchased, lease purchased, or otherwise acquired by, or dedicated to, a local governmental unit in lieu of the local governmental unit contracting for the erection, construction, repair, remodeling, or demolition of the facility.

(d) A road, street, bridge, sanitary sewer, or water main project in which the completed road, street, bridge, sanitary sewer, or water main is acquired by, or dedicated to, a local governmental unit, including under s. 236.13 (2), for ownership or maintenance by the local governmental unit.

(3) Prevailing wage rates and hours of labor. (am) A local governmental unit, before making a contract by direct negotiation or soliciting bids on a contract for the erection, construction, remodeling, repairing, or demolition of any project of public works, shall apply to the department to determine the prevailing wage rate for each trade or occupation required in the work contemplated. The department shall conduct investigations and hold public hearings as necessary to define the trades or occupations that are commonly employed on projects of public works that are subject to this section and to inform itself of the prevailing wage rates in all areas of the state for those trades or occupations, in order to determine the prevailing wage rate for each trade or occupation. The department shall issue its determination within 30 days after receiving the request and shall file the determination with the requesting local governmental unit.
(ar) The department shall, by January 1 of each year, compile the prevailing wage rates for each trade or occupation in each area. The compilation shall, in addition to the current prevailing wage rates, include future prevailing wage rates when those prevailing wage rates can be determined for any trade or occupation in any area and shall specify the effective date of those future prevailing wage rates. If a project of public works extends into more than one area, the department shall determine only one standard of prevailing wage rates for the entire project.

(av) In determining prevailing wage rates under par. (am) or (ar), the department may not use data from projects that are subject to this section, s. 103.49 or 103.50, or 40 USC 3142 unless the department determines that there is insufficient wage data in the area to determine those prevailing wage rates, in which case the department may use data from projects that are subject to this section, s. 103.49 or 103.50, or 40 USC 3142. In determining prevailing wage rates under par. (am) or (ar), the department may not use data from any construction work that is performed by a local governmental unit or a state agency.

(bm) Any person may request a recalculation of any portion of an initial determination within 30 days after the initial determination date if the person submits evidence with the request showing that the prevailing wage rate for any given trade or occupation included in the initial determination does not represent the prevailing wage rate for that trade or occupation in the area. The evidence shall include wage rate information reflecting work performed by individuals working in the contested trade or occupation in the area during the current survey period. The department shall affirm or modify the initial determination within 15 days after the date on which the department receives the request for recalculation.
(br) In addition to the recalculation under par. (bm), the local governmental unit that requested the determination under this subsection may request a review of any portion of a determination within 30 days after the date of issuance of the determination if the local governmental unit submits evidence with the request showing that the prevailing wage rate for any given trade or occupation included in the determination does not represent the prevailing wage rate for that trade or occupation in the city, village, or town in which the proposed project of public works is located. That evidence shall include wage rate information for the contested trade or occupation on at least 3 similar projects located in the city, village, or town where the proposed project of public works is located and on which some work has been performed during the current survey period and which were considered by the department in issuing its most recent compilation under par. (ar). The department shall affirm or modify the determination within 15 days after the date on which the department receives the request for review.

(dm) A local governmental unit that is subject to this section shall include a reference to the prevailing wage rates determined by the department and to the prevailing hours of labor in the notice published for the purpose of securing bids for the project of public works. Except as otherwise provided in this paragraph, if any contract or subcontract for a project of public works is entered into, the prevailing wage rates determined by the department and the prevailing hours of labor shall be physically incorporated into and made a part of the contract or subcontract. For a minor subcontract, as determined by the department, the department shall prescribe by rule the method of notifying the minor subcontractor of the prevailing wage rates and prevailing hours of labor applicable to the minor subcontract. The prevailing wage rates and prevailing hours of labor applicable to a contract or
subcontract may not be changed during the time that the contract or subcontract is
in force.

(e) No contractor, subcontractor, or contractor or subcontractor’s agent that is
subject to this section may do any of the following:

1. Pay an individual performing the work described in sub. (4) less than the
prevailing wage rate in the same or most similar trade or occupation determined
under this subsection.

2. Allow an individual performing the work described in sub. (4) to work a
greater number of hours per day or per week than the prevailing hours of labor,
unless the contractor, subcontractor, or contractor or subcontractor’s agent pays the
individual for all hours worked in excess of the prevailing hours of labor at a rate of
at least 1.5 times the individual’s hourly basic rate of pay.

(4) COVERED EMPLOYEES. (a) Subject to par. (b), any person subject to this
section shall pay all of the following employees the prevailing wage rate determined
under sub. (3) and may not allow such employees to work a greater number of hours
per day or per week than the prevailing hours of labor, unless the person pays the
employee for all hours worked in excess of the prevailing hours of labor at a rate of
at least 1.5 times the employee’s hourly basic rate of pay:

1. All laborers, workers, mechanics, and truck drivers employed on the site of
a project of public works that is subject to this section.

2. All laborers, workers, mechanics, and truck drivers employed in the
manufacturing or furnishing of materials, articles, supplies, or equipment on the site
of a project of public works that is subject to this section or from a facility dedicated
exclusively, or nearly so, to a project of public works that is subject to this section by
a contractor, subcontractor, agent, or other person performing any work on the site
of the project.

(b) A laborer, worker, mechanic, or truck driver who is employed to process,
manufacture, pick up, or deliver materials or products from a commercial
establishment that has a fixed place of business from which the establishment
supplies processed or manufactured materials or products or from a facility that is
not dedicated exclusively, or nearly so, to a project of public works that is subject to
this section is not entitled to receive the prevailing wage rate determined under sub.
(3) or to receive at least 1.5 times his or her hourly basic rate of pay for all hours
worked in excess of the prevailing hours of labor unless any of the following applies:

1. The laborer, worker, mechanic, or truck driver is employed to go to the source
of mineral aggregate such as sand, gravel, or stone and deliver that mineral
aggregate to the site of a project of public works that is subject to this section by
depositing the material directly in final place, from the transporting vehicle or
through spreaders from the transporting vehicle.

2. The laborer, worker, mechanic, or truck driver is employed to go to the site
of a project of public works that is subject to this section, pick up excavated material
or spoil from the site of the project, and transport that excavated material or spoil
away from the site of the project.

(c) A person subject to this section shall pay a truck driver who is an
owner-operator of a truck separately for his or her work and for the use of his or her
truck.

(5) NONAPPLICABILITY. This section does not apply to any of the following:

(a) A single-trade project of public works for which the estimated project cost
of completion is less than $48,000, a multiple-trade project of public works for which
the estimated project cost of completion is less than $100,000, or, in the case of a
multiple-trade project of public works erected, constructed, repaired, remodeled, or
demolished by a private contractor for a city or village having a population of less
than 2,500 or for a town, a multiple-trade project of public works for which the
estimated project cost of completion is less than $234,000.

(b) Work performed on a project of public works for which the local
governmental unit contracting for the project is not required to compensate any
contractor, subcontractor, contractor’s or subcontractor’s agent, or individual for
performing the work.

(c) Minor service or maintenance work, warranty work, or work under a supply
and installation contract.

(f) A project of public works involving the erection, construction, repair,
remodeling, or demolition of a residential property containing 2 dwelling units or
less.

(g) A road, street, bridge, sanitary sewer, or water main project that is a part
of a development in which not less than 90 percent of the lots contain or will contain
2 dwelling units or less, as determined by the local governmental unit at the time of
approval of the development, and that, on completion, is acquired by, or dedicated to,
a local governmental unit, including under s. 236.13 (2), for ownership or
maintenance by the local governmental unit.

(8) POSTING. A local governmental unit that has contracted for a project of
public works shall post the prevailing wage rates determined by the department, the
prevailing hours of labor, and the provisions of subs. (10) (a) and (11) (a) in at least
one conspicuous place on the site of the project that is easily accessible by employees
working on the project, or, if there is no common site on the project, at the place
normally used by the local governmental unit to post public notices.

(9) COMPLIANCE. (a) When the department finds that a local governmental unit
has not requested a determination under sub. (3) (am) or that a local governmental
unit, contractor, or subcontractor has not physically incorporated a determination
into a contract or subcontract as required under this section or has not notified a
minor subcontractor of a determination in the manner prescribed by the department
by rule promulgated under sub. (3) (dm), the department shall notify the local
governmental unit, contractor, or subcontractor of the noncompliance and shall file
the determination with the local governmental unit, contractor, or subcontractor
within 30 days after the notice.

(b) Upon completion of a project of public works and before receiving final
payment for his or her work on the project, each agent or subcontractor shall furnish
the contractor with an affidavit stating that the agent or subcontractor has complied
fully with the requirements of this section. A contractor may not authorize final
payment until the affidavit is filed in proper form and order.

(c) Upon completion of a project of public works and before receiving final
payment for his or her work on the project, each contractor shall file with the local
governmental unit authorizing the work an affidavit stating that the contractor has
complied fully with the requirements of this section and that the contractor has
received an affidavit under par. (b) from each of the contractor’s agents and
subcontractors. A local governmental unit may not authorize a final payment until
the affidavit is filed in proper form and order. If a local governmental unit authorizes
a final payment before an affidavit is filed in proper form and order or if the
department determines, based on the greater weight of the credible evidence, that
any person performing the work specified in sub. (4) has been or may have been paid
less than the prevailing wage rate or less than 1.5 times the hourly basic rate of pay
for all hours worked in excess of the prevailing hours of labor and requests that the
local governmental unit withhold all or part of the final payment, but the local
governmental unit fails to do so, the local governmental unit is liable for all back
wages payable up to the amount of the final payment.

(10) RECORDS; INSPECTION; ENFORCEMENT. (a) Each contractor, subcontractor, or
contractor’s or subcontractor’s agent that performs work on a project of public works
that is subject to this section shall keep full and accurate records clearly indicating
the name and trade or occupation of every individual performing the work described
in sub. (4) and an accurate record of the number of hours worked by each of those
individuals and the actual wages paid for the hours worked.

(b) The department or the contracting local governmental unit may demand
and examine, and every contractor, subcontractor, and contractor’s or
subcontractor’s agent shall keep, and furnish upon request by the department or
local governmental unit, copies of payrolls and other records and information
relating to the wages paid to individuals performing the work described in sub. (4)
for work to which this section applies. The department may inspect records in the
manner provided in ch. 103. Every contractor, subcontractor, or agent performing
work on a project of public works that is subject to this section is subject to the
requirements of ch. 103 relating to the examination of records.

(c) If requested by any person, the department shall inspect the payroll records
of any contractor, subcontractor, or agent performing work on a project of public
works that is subject to this section as provided in this paragraph to ensure
compliance with this section. On receipt of such a request, the department shall
request that the contractor, subcontractor, or agent submit to the department a certified record of the information specified in par. (a), other than personally identifiable information relating to an employee of the contractor, subcontractor, or agent, for no longer than a 4-week period. The department may request that a contractor, subcontractor, or agent submit those records no more than once per calendar quarter for each project of public works on which the contractor, subcontractor, or agent is performing work. The department may not charge a requester a fee for obtaining that information. Certified records submitted to the department under this paragraph are open for public inspection and copying under s. 19.35 (1).

(d) Section 103.005 (5) (f), (11), (12), and (13) applies to this section, except that s. 103.005 (12) (a) does not apply to a person who fails to provide any information to the department to assist the department in determining prevailing wage rates under sub. (3) (am) or (ar). Section 111.322 (2m) applies to discharge and other discriminatory acts arising in connection with any proceeding under this section, including proceedings under sub. (11) (a).

(3) or who pays less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor is liable to any affected employee in the amount of his or her unpaid wages or his or her unpaid overtime compensation and in an additional amount as liquidated damages as provided under subd. 2. or 3., whichever is applicable.

2. If the department determines upon inspection under sub. (10) (b) or (c) that a contractor, subcontractor, or contractor’s or subcontractor’s agent has failed to pay
the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the department shall order the contractor to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages within a period specified by the department in the order.

3. In addition to or in lieu of recovering the liability specified in subd. 1. as provided in subd. 2., any employee for and on behalf of that employee and other employees similarly situated may commence an action to recover that liability in any court of competent jurisdiction. If the court finds that a contractor, subcontractor, or contractor’s or subcontractor’s agent has failed to pay the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the court shall order the contractor, subcontractor, or agent to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages.

5. No employee may be a party plaintiff to an action under subd. 3. unless the employee consents in writing to become a party and the consent is filed in the court in which the action is brought. Notwithstanding s. 814.04 (1), the court shall, in addition to any judgment awarded to the plaintiff, allow reasonable attorney fees and costs to be paid by the defendant.

(b) 1. Except as provided in subds. 2., 4., and 6., any contractor, subcontractor, or contractor’s or subcontractor’s agent who violates this section may be fined not
more than $200 or imprisoned for not more than 6 months or both. Each day that any violation continues is a separate offense.

2. Whoever induces any individual who seeks to be or is employed on any project of public works that is subject to this section to give up, waive, or return any part of the wages to which the individual is entitled under the contract governing the project, or who reduces the hourly basic rate of pay normally paid to an individual for work on a project that is not subject to this section during a week in which the individual works both on a project of public works that is subject to this section and on a project that is not subject to this section, by threat not to employ, by threat of dismissal from employment, or by any other means is guilty of an offense under s. 946.15 (1).

4. Whoever induces any individual who seeks to be or is employed on any project of public works that is subject to this section to allow any part of the wages to which the individual is entitled under the contract governing the project to be deducted from the individual’s pay is guilty of an offense under s. 946.15 (3), unless
the deduction would be allowed under 29 CFR 3.5 or 3.6 from an individual who is
working on a project that is subject to 40 USC 3142.

5. Any individual who is employed on a project of public works that is subject
to this section who knowingly allows any part of the wages to which he or she is
entitled under the contract governing the project to be deducted from his or her pay
is guilty of an offense under s. 946.15 (4), unless the deduction would be allowed
under 29 CFR 3.5 or 3.6 from an individual who is working on a project that is subject
to 40 USC 3142.

6. Subdivision 1. does not apply to any person who fails to provide any
information to the department to assist the department in determining prevailing
wage rates under sub. (3) (am) or (ar).

(12) DEBARMENT. (a) Except as provided under pars. (b) and (c), the department
shall notify any local governmental unit applying for a determination under sub. (3)
of the names of all persons that the department has found to have failed to pay the
prevailing wage rate determined under sub. (3) or has found to have paid less than
1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing
hours of labor at any time in the preceding 3 years. The department shall include

to pay the prevailing wage rate and when the person paid less than 1.5 times the
hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor.
A local governmental unit may not award any contract to the person unless otherwise
recommended by the department or unless 3 years have elapsed from the date the
department issued its findings or the date of final determination by a court of
competent jurisdiction, whichever is later.
(b) The department may not include in a notification under par. (a) the name of any person on the basis of having subcontracted a contract for a project of public works to a person that the department has found to have failed to pay the prevailing wage rate determined under sub. (3) or has found to have paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor.

(c) This subsection does not apply to any contractor, subcontractor, or agent who in good faith commits a minor violation of this section, as determined on a case-by-case basis through administrative hearings with all rights to due process afforded to all parties or who has not exhausted or waived all appeals.

(d) Any person submitting a bid or negotiating a contract on a project of public works that is subject to this section shall, on the date the person submits the bid or negotiates the contract, identify any construction business in which the person, or a shareholder, officer, or partner of the person, if the person is a business, owns, or has owned at least a 25 percent interest on the date the person submits the bid or negotiates the contract or at any other time within 3 years preceding the date the person submits the bid or negotiates the contract, if the business has been found to have failed to pay the prevailing wage rate determined under sub. (3) or to have paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor.

(e) The department shall promulgate rules to administer this subsection.

(d) “Workforce housing” means housing to which all of the following apply, as adjusted for family size and the county in which the household is located, based on the county’s 5-year average median income and housing costs as calculated by the U.S. bureau of the census in its American community survey:

1. The housing costs a household no more than 30 percent of the household’s gross median income.

2. The residential units are for initial occupancy by individuals whose household median income is no more than 120 percent of the county’s gross median income.

The enactment of ss. 101.132 and 106.50 by the legislature does not preempt the subject matter of equal opportunities in housing from consideration by political subdivisions, and does not exempt political subdivisions from their duty, nor deprive them of their right, to enact ordinances that prohibit discrimination in any type of housing solely on the basis of an individual being a member of a protected class.

and all fixtures and leases, rights, and privileges appertaining thereto, including
assets that cannot be taxed separately as real property, but are inextricably
intertwined with the real property, enable the real property to achieve its highest and
best use, and are transferable to future owners, except as provided in sub. (2) and
except that for the purpose of time-share property, as defined in s. 707.02 (32), real
property does not include recurrent exclusive use and occupancy on a periodic basis
or other rights, including, but not limited to, membership rights, vacation services,
and club memberships. In this subsection, “lease” means a right in real estate that
is related primarily to the property and not to the labor, skill, or business acumen of
the property owner or tenant. In this subsection, “highest and best use” has the
meaning given in s. 70.32 (1).

location and convenience of buildings while such property is not used for profit.

**SECTION 1227.** 70.32 (1) of the statutes is amended to read:

70.32 (1) Real property shall be valued by the assessor in the manner specified
in the Wisconsin property assessment manual provided under s. 73.03 (2a) at its
highest and best use from actual view or from the best information that the assessor
can practicably obtain, at the full value which could ordinarily be obtained therefor
at private sale. In determining the value, the assessor shall consider recent
arm’s-length sales of the property to be assessed if according to professionally
acceptable appraisal practices those sales conform to recent arm’s-length sales of
reasonably comparable property; recent arm’s-length sales of reasonably
comparable property; and all factors that, according to professionally acceptable
appraisal practices, affect the value of the property to be assessed. In this subsection,
“arm’s-length sale” means a sale between a willing buyer and willing seller, neither
being under compulsion to buy or sell and each being familiar with the attributes of
the property sold. In this subsection, “highest and best use” means the specific
current use of the property or a higher use for which the property may be used as of
the current assessment date, if the property is marketable for that use and the use
is legally permissible, physically possible, not highly speculative, and financially
feasible and provides the highest net return. When the current use of a property is
the highest and best use of that property, value in the current use equals full market
value. In this subsection, “legally permissible” does not include a conditional use
that has not been granted as of the assessment date.

**SECTION 1228.** 70.32 (1b) of the statutes is created to read:
70.32 (1b) In determining the value of real property under sub. (1), the assessor may consider, as part of the valuation under sub. (1), any lease provisions and actual rent pertaining to a property and affecting its value, including the lease provisions and rent associated with a sale and leaseback of the property, if all such lease provisions and rent are the result of an arm’s-length transaction involving persons who are not related in any of the ways specified under section 267 (b) of the Internal Revenue Code for the year of the transaction. The assessor shall reconcile the results of such consideration with the professionally acceptable appraisal practices regarding reasonably comparable sales, the cost approach, and other methods specified in the Wisconsin property assessment manual provided under s. 73.03 (2a).

In this subsection, an “arm’s-length transaction” means an agreement between willing parties, neither being under compulsion to act and each being familiar with the attributes of the property.

**SECTION 1229.** 70.32 (1d) of the statutes is created to read:

70.32 (1d) (a) To determine the value of property using generally accepted appraisal methods, the assessor shall consider all of the following as comparable to the property being assessed:

1. Sales or rentals of properties exhibiting the same or a similar highest and best use with placement in the same real estate market segment.

2. Sales or rentals of properties that are similar to the property being assessed with regard to age, condition, use, type of construction, location, design, physical features, and economic characteristics, including similarities in occupancy and the potential to generate rental income. For purposes of this subdivision, such properties may be found locally, regionally, or nationally.
(b) For purposes of par. (a), a property is not comparable if any of the following applies:

1. At or before the time of sale, the seller places any deed restriction on the property that changes the highest and best use of the property, or prohibits competition, so that it no longer qualifies as a comparable property under par. (a) 1. or 2. and the property being assessed lacks such a restriction.

2. The property is dark property and the property being assessed is not dark property. In this subdivision, “dark property” means property that is vacant or unoccupied beyond the normal period for property in the same real estate market segment. For purposes of this subdivision, what is considered vacant or unoccupied beyond the normal period may vary depending on the property location.

(c) For purposes of par. (a), “highest and best use” has the meaning given in s. 70.32 (1).

(d) For purposes of par. (a), “real estate market segment” means a pool of potential buyers and sellers that typically buy or sell properties similar to the property being assessed, including potential buyers who are investors or owner-occupants. For purposes of this paragraph, and depending on the type of property being assessed, the pool of potential buyers and sellers may be found locally, regionally, nationally, or internationally.

SECTION 1488. 85.09 (2) (a) of the statutes is amended to read:

85.09 (2) (a) The department of transportation shall have the first right to acquire, for present or future transportational or recreational purposes, any property used in operating a railroad or railway, including land and rails, ties, switches, trestles, bridges, and the like located on that property, that has been abandoned. The department of transportation may, in connection with abandoned rail property, assign this right to a state agency, the board of regents of the University of Wisconsin System, any county or municipality, or any transit commission. Acquisition by the department of transportation may be by gift, purchase, or condemnation in accordance with the procedure under s. 32.05, except that the power of condemnation may not be used to acquire property for the purpose of establishing or extending a recreational trail; a bicycle way, as defined in s. 340.01 (5s); a bicycle lane, as defined in s. 340.01 (5e); or a pedestrian way, as defined in s. 346.02 (8) (a).

Except as provided in subd. 2., “prevailing wage rate” for any trade or occupation engaged in the erection, construction, remodeling, repairing, or demolition of any project of public works in any area means the hourly basic rate of pay, plus the hourly contribution for health insurance benefits, vacation benefits, pension benefits, and any other bona fide economic benefit, paid directly or indirectly for a majority of the hours worked in the trade or occupation on projects in the area.

2. If there is no rate at which a majority of the hours worked in the trade or occupation on projects in the area is paid, “prevailing wage rate” for any trade or occupation engaged in the erection, construction, remodeling, repairing, or
demolition of any project of public works in any area means the average hourly basic rate of pay, weighted by the number of hours worked, plus the average hourly contribution, weighted by the number of hours worked, for health insurance benefits, vacation benefits, pension benefits, and any other bona fide economic benefit, paid directly or indirectly for all hours worked at the hourly basic rate of pay of the highest-paid 51 percent of hours worked in that trade or occupation on projects in that area.

(em) “Single-trade project of public works” means a project of public works in which a single trade accounts for 85 percent or more of the total labor cost of the project.

(f) “State agency” means any office, department, independent agency, institution of higher education, association, society, or other body in state government created or authorized to be created by the constitution or any law, including the legislature and the courts. “State agency” also includes the University of Wisconsin Hospitals and Clinics Authority, the Fox River Navigational System Authority, and the Wisconsin Aerospace Authority.

(fm) “Supply and installation contract” means a contract under which the material is installed by the supplier, the material is installed by means of simple fasteners or connectors such as screws or nuts and bolts, and no other work is performed on the site of the project of public works, and the total labor cost to install the material does not exceed 20 percent of the total cost of the contract.

(g) “Truck driver” includes an owner-operator of a truck.

(1m) APPLICABILITY. Subject to sub. (3g), this section applies to any project of public works erected, constructed, repaired, remodeled, or demolished for the state or a state agency, including all of the following:
(a) A project erected, constructed, repaired, remodeled, or demolished by one state agency for another state agency under any contract or under any statute specifically authorizing cooperation between state agencies.

(b) A project in which the completed facility is leased, purchased, lease purchased, or otherwise acquired by, or dedicated to, the state in lieu of the state or a state agency contracting for the erection, construction, repair, remodeling, or demolition of the facility.

(c) A sanitary sewer or water main project in which the completed sanitary sewer or water main is acquired by, or dedicated to, the state for ownership or maintenance by the state.

(2) Prevailing wage rates and hours of labor. Any contract made for the erection, construction, remodeling, repairing, or demolition of any project of public works to which the state or any state agency is a party shall contain a stipulation that no individual performing the work described in sub. (2m) may be allowed to work a greater number of hours per day or per week than the prevailing hours of labor, except that any such individual may be allowed or required to work more than such prevailing hours of labor per day and per week if he or she is paid for all hours worked in excess of the prevailing hours of labor at a rate of at least 1.5 times his or her hourly basic rate of pay; nor may he or she be paid less than the prevailing wage rate determined under sub. (3) in the same or most similar trade or occupation in the area in which the project of public works is situated. The notice published for the purpose of securing bids for the project must contain a reference to the prevailing wage rates determined under sub. (3) and the prevailing hours of labor. Except as otherwise provided in this subsection, if any contract or subcontract for a project of public works that is subject to this section is entered into, the prevailing wage rates determined
under sub. (3) and the prevailing hours of labor shall be physically incorporated into
and made a part of the contract or subcontract. For a minor subcontract, as
determined by the department, the department shall prescribe by rule the method
of notifying the minor subcontractor of the prevailing wage rates and prevailing
hours of labor applicable to the minor subcontract. The prevailing wage rates and
prevailing hours of labor applicable to a contract or subcontract may not be changed
during the time that the contract or subcontract is in force.

(2m) COVERED EMPLOYEES. (a) Subject to par. (b), any person subject to this
section shall pay all of the following employees the prevailing wage rate determined
under sub. (3) and may not allow such employees to work a greater number of hours
per day or per week than the prevailing hours of labor, unless the person pays for all
hours worked in excess of the prevailing hours of labor at a rate of at least 1.5 times
the employees’ hourly basic rate of pay:

1. All laborers, workers, mechanics, and truck drivers employed on the site of
a project of public works that is subject to this section.

2. All laborers, workers, mechanics, and truck drivers employed in the
manufacturing or furnishing of materials, articles, supplies, or equipment on the site
of a project of public works that is subject to this section or from a facility dedicated
exclusively, or nearly so, to a project of public works that is subject to this section by
a contractor, subcontractor, agent, or other person performing any work on the site
of the project.

(b) A laborer, worker, mechanic, or truck driver who is employed to process,
manufacture, pick up, or deliver materials or products from a commercial
establishment that has a fixed place of business from which the establishment
supplies processed or manufactured materials or products or from a facility that is
not dedicated exclusively, or nearly so, to a project of public works that is subject to
this section is not entitled to receive the prevailing wage rate determined under sub.
(3) or to receive at least 1.5 times his or her hourly basic rate of pay for all hours
worked in excess of the prevailing hours of labor unless any of the following applies:

1. The laborer, worker, mechanic, or truck driver is employed to go to the source
of mineral aggregate such as sand, gravel, or stone and deliver that mineral
aggregate to the site of a project of public works that is subject to this section by
depositing the material directly in final place, from the transporting vehicle or
through spreaders from the transporting vehicle.

2. The laborer, worker, mechanic, or truck driver is employed to go to the site
of a project that is subject to this section, pick up excavated material or spoil from
the site of the project of public works, and transport that excavated material or spoil
away from the site of the project.

(c) A person that is subject to this section shall pay a truck driver who is an
owner-operator of a truck separately for his or her work and for the use of his or her
truck.

(3) INVESTIGATION; DETERMINATION. (a) Before a state agency issues a request
for bids for any work to which this section applies, the state agency having the
authority to prescribe the specifications shall apply to the department to determine
the prevailing wage rate for each trade or occupation required in the work under
contemplation in the area in which the work is to be done. The department shall
conduct investigations and hold public hearings as necessary to define the trades or
occupations that are commonly employed on projects that are subject to this section
and to inform itself of the prevailing wage rates in all areas of the state for those
trades or occupations, in order to determine the prevailing wage rate for each trade
or occupation. The department shall issue its determination within 30 days after receiving the request and shall file the determination with the requesting state agency. A state agency that has contracted for a project of public works subject to this section shall post the prevailing wage rates determined by the department, the prevailing hours of labor, and the provisions of subs. (2) and (6m) in at least one conspicuous place on the site of the project that is easily accessible by employees working on the project.

(am) The department shall, by January 1 of each year, compile the prevailing wage rates for each trade or occupation in each area. The compilation shall, in addition to the current prevailing wage rates, include future prevailing wage rates when those prevailing wage rates can be determined for any trade or occupation in any area and shall specify the effective date of those future prevailing wage rates. If a project of public works extends into more than one area, the department shall determine only one standard of prevailing wage rates for the entire project.

(ar) In determining prevailing wage rates under par. (a) or (am), the department may not use data from projects that are subject to this section, s. 66.0903, 103.50, or 229.8275, or 40 USC 3142 unless the department determines that there is insufficient wage data in the area to determine those prevailing wage rates, in which case the department may use data from projects that are subject to this section, s. 66.0903, 103.50, or 229.8275, or 40 USC 3142. In determining prevailing wage rates under par. (a) or (am), the department may not use data from any construction work performed by a state agency or a local governmental unit, as defined in s. 66.0903 (1) (d).

(b) Any person may request a recalculation of any portion of an initial determination within 30 days after the initial determination date if the person
submits evidence with the request showing that the prevailing wage rate for any
given trade or occupation included in the initial determination does not represent the
prevailing wage rate for that trade or occupation in the area. The evidence shall
include wage rate information reflecting work performed by individuals working in
the contested trade or occupation in the area during the current survey period. The
department shall affirm or modify the initial determination within 15 days after the
date on which the department receives the request for recalculation.

(c) In addition to the recalculation under par. (b), the state agency that
requested the determination under this subsection may request a review of any
portion of a determination within 30 days after the date of issuance of the
determination if the state agency submits evidence with the request showing that
the prevailing wage rate for any given trade or occupation included in the
determination does not represent the prevailing wage rate for that trade or
occupation in the city, village, or town in which the proposed project of public works
is located. That evidence shall include wage rate information for the contested trade
or occupation on at least 3 similar projects located in the city, village, or town where
the proposed project of public works is located on which some work has been
performed during the current survey period and that were considered by the
department in issuing its most recent compilation under par. (am). The department
shall affirm or modify the determination within 15 days after the date on which the
department receives the request for review.

(3g) NONAPPLICABILITY. This section does not apply to any of the following:

(a) A single-trade project of public works for which the estimated project cost
of completion is less than $48,000 or a multiple-trade project of public works for
which the estimated project cost of completion is less than $100,000.
(b) Work performed on a project of public works for which the state or the state agency contracting for the project is not required to compensate any contractor, subcontractor, contractor’s or subcontractor’s agent, or individual for performing the work.

(c) Minor service or maintenance work, warranty work, or work under a supply and installation contract.

(f) A public highway, street, or bridge project.

(g) A project of public works involving the erection, construction, repair, remodeling, or demolition of a residential property containing 2 dwelling units or less.

(h) A road, street, bridge, sanitary sewer, or water main project that is a part of a development in which not less than 90 percent of the lots contain or will contain 2 dwelling units or less, as determined by the local governmental unit at the time of approval of the development, and that, on completion, is acquired by, or dedicated to, the state for ownership or maintenance by the state.

(4r) Compliance. (a) When the department finds that a state agency has not requested a determination under sub. (3) (a) or that a state agency, contractor, or subcontractor has not physically incorporated a determination into a contract or subcontract as required under sub. (2) or has not notified a minor subcontractor of a determination in the manner prescribed by the department by rule promulgated under sub. (2), the department shall notify the state agency, contractor or subcontractor of the noncompliance and shall file the determination with the state agency, contractor, or subcontractor within 30 days after the notice.

(b) Upon completion of a project of public works and before receiving final payment for his or her work on the project, each agent or subcontractor shall furnish
the contractor with an affidavit stating that the agent or subcontractor has complied
fully with the requirements of this section. A contractor may not authorize final
payment until the affidavit is filed in proper form and order.

(c) Upon completion of a project of public works and before receiving final
payment for his or her work on the project, each contractor shall file with the state
agency authorizing the work an affidavit stating that the contractor has complied
fully with the requirements of this section and that the contractor has received an
affidavit under par. (b) from each of the contractor’s agents and subcontractors. A
state agency may not authorize a final payment until the affidavit is filed in proper
form and order. If a state agency authorizes a final payment before an affidavit is
filed in proper form and order or if the department determines, based on the greater
weight of the credible evidence, that any person performing the work specified in sub.
(2m) has been or may have been paid less than the prevailing wage rate or less than
1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing
hours of labor and requests that the state agency withhold all or part of the final
payment, but the state agency fails to do so, the state agency is liable for all back
wages payable up to the amount of the final payment.

(5) RECORDS; INSPECTION; ENFORCEMENT. (a) Each contractor, subcontractor, or
contractor’s or subcontractor’s agent that performs work on a project of public works
that is subject to this section shall keep full and accurate records clearly indicating
the name and trade or occupation of every individual performing the work described
in sub. (2m) and an accurate record of the number of hours worked by each of those
individuals and the actual wages paid for the hours worked.

(b) The department shall enforce this section. The department may demand
and examine, and every contractor, subcontractor, and contractor’s and
subcontractor’s agent shall keep, and furnish upon request by the department, copies of payrolls and other records and information relating to the wages paid to individuals performing the work described in sub. (2m) for work to which this section applies. The department may inspect records in the manner provided in this chapter.

Every contractor, subcontractor, or agent performing work on a project of public works that is subject to this section is subject to the requirements of this chapter relating to the examination of records. Section 111.322 (2m) applies to discharge and other discriminatory acts arising in connection with any proceeding under this section.

(c) If requested by any person, the department shall inspect the payroll records of any contractor, subcontractor, or agent performing work on a project of public works that is subject to this section as provided in this paragraph to ensure compliance with this section. On receipt of such a request, the department shall request that the contractor, subcontractor, or agent submit to the department a certified record of the information specified in par. (a), other than personally identifiable information relating to an employee of the contractor, subcontractor, or agent, for no longer than a 4-week period. The department may request a contractor, subcontractor, or agent to submit those records no more than once per calendar quarter for each project of public works on which the contractor, subcontractor, or agent is performing work. The department may not charge a requester a fee for obtaining that information. Certified records submitted to the department under this paragraph are open for public inspection and copying under s. 19.35 (1).

(6m) Liability and penalties. (ag) 1. A contractor, subcontractor, or contractor’s or subcontractor’s agent who fails to pay the prevailing wage rate determined by the department under sub. (3) or who pays less than 1.5 times the
hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor is liable to any affected employee in the amount of his or her unpaid wages or his or her unpaid overtime compensation and in an additional amount as liquidated damages as provided in subd. 2. or 3., whichever is applicable.

2. If the department determines upon inspection under sub. (5) (b) or (c) that a contractor, subcontractor, or contractor’s or subcontractor’s agent has failed to pay the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the department shall order the contractor to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages within a period specified by the department in the order.

3. In addition to or in lieu of recovering the liability specified in subd. 1. as provided in subd. 2., any employee for and on behalf of that employee and other employees similarly situated may commence an action to recover that liability in any court of competent jurisdiction. If the court finds that a contractor, subcontractor, or contractor’s or subcontractor’s agent has failed to pay the prevailing wage rate determined by the department under sub. (3) or has paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor, the court shall order the contractor, subcontractor, or agent to pay to any affected employee the amount of his or her unpaid wages or his or her unpaid overtime compensation and an additional amount equal to 100 percent of the amount of those unpaid wages or that unpaid overtime compensation as liquidated damages.
5. No employee may be a party plaintiff to an action under subd. 3, unless the employee consents in writing to become a party and the consent is filed in the court in which the action is brought. Notwithstanding s. 814.04 (1), the court shall, in addition to any judgment awarded to the plaintiff, allow reasonable attorney fees and costs to be paid by the defendant.

   (am) Except as provided in pars. (b), (d), and (f), any contractor, subcontractor, or contractor’s or subcontractor’s agent who violates this section may be fined not more than $200 or imprisoned for not more than 6 months or both. Each day that a violation continues is a separate offense.

   (b) Whoever induces an individual who seeks to be or is employed on any project of public works that is subject to this section to give up, waive, or return any part of the wages to which the individual is entitled under the contract governing the project, or who reduces the hourly basic rate of pay normally paid to an individual for work on a project that is not subject to this section during a week in which the individual works both on a project of public works that is subject to this section and on a project that is not subject to this section, by threat not to employ, by threat of dismissal from employment, or by any other means is guilty of an offense under s. 946.15 (1).

   (c) Any individual who is employed on a project of public works that is subject to this section who knowingly allows a contractor, subcontractor, or contractor’s or subcontractor’s agent to pay him or her less than the prevailing wage rate set forth in the contract governing the project, who gives up, waives, or returns any part of the compensation to which he or she is entitled under the contract, or who gives up, waives, or returns any part of the compensation to which he or she is normally entitled for work on a project that is not subject to this section during a week in which
the individual works both on a project of public works that is subject to this section
and on a project that is not subject to this section, is guilty of an offense under s.
946.15 (2).

(d) Whoever induces any individual who seeks to be or is employed on any
project of public works that is subject to this section to allow any part of the wages
to which the individual is entitled under the contract governing the project to be
deducted from the individual’s pay is guilty of an offense under s. 946.15 (3), unless
the deduction would be allowed under 29 CFR 3.5 or 3.6 from an individual who is
working on a project that is subject to 40 USC 3142.

(e) Any individual who is employed on a project of public works that is subject
to this section who knowingly allows any part of the wages to which he or she is
entitled under the contract governing the project to be deducted from his or her pay
is guilty of an offense under s. 946.15 (4), unless the deduction would be allowed
under 29 CFR 3.5 or 3.6 from an individual who is working on a project that is subject
to 40 USC 3142.

(f) Paragraph (am) does not apply to any person who fails to provide any
information to the department to assist the department in determining prevailing
wage rates under sub. (3) (a) or (am).

(7) Debarment: (a) Except as provided under pars. (b) and (c), the department
shall distribute to all state agencies a list of all persons that the department has
found to have failed to pay the prevailing wage rate determined under sub. (3) or has
found to have paid less than 1.5 times the hourly basic rate of pay for all hours worked
in excess of the prevailing hours of labor at any time in the preceding 3 years. The
department shall include with any name the address of the person and shall specify
when the person failed to pay the prevailing wage rate and when the person paid less
than 1.5 times the hourly basic rate of pay for all hours worked in excess of the
prevailing hours of labor. A state agency may not award any contract to the person
unless otherwise recommended by the department or unless 3 years have elapsed
from the date the department issued its findings or date of final determination by a
court of competent jurisdiction, whichever is later.

(b) The department may not include in a notification under par. (a) the name
of any person on the basis of having subcontracted a contract for a project of public
works to a person that the department has found to have failed to pay the prevailing
wage rate determined under sub. (3) or has found to have paid less than 1.5 times
the hourly basic rate of pay for all hours worked in excess of the prevailing hours of
labor.

(c) This subsection does not apply to any contractor, subcontractor, or agent
who in good faith commits a minor violation of this section, as determined on a
case-by-case basis through administrative hearings with all rights to due process
afforded to all parties or who has not exhausted or waived all appeals.

(d) Any person submitting a bid on a project of public works that is subject to
this section shall, on the date the person submits the bid, identify any construction
business in which the person, or a shareholder, officer, or partner of the person if the
person is a business, owns or has owned at least a 25 percent interest on the date the
person submits the bid or at any other time within 3 years preceding the date the
person submits the bid, if the business has been found to have failed to pay the
prevailing wage rate determined under sub. (3) or to have paid less than 1.5 times
the hourly basic rate of pay for all hours worked in excess of the prevailing hours of
labor.

(e) The department shall promulgate rules to administer this subsection.

(b) A laborer, worker, mechanic, or truck driver who is employed to process, manufacture, pick up, or deliver materials or products from a commercial establishment that has a fixed place of business from which the establishment supplies processed or manufactured materials or products or from a facility that is not dedicated exclusively, or nearly so, to a project that is subject to this section is not entitled to receive the prevailing wage rate determined under sub. 2. The laborer, worker, mechanic, or truck driver is employed to go to the site of a project that is subject to this section, pick up excavated material or spoil from the site of the project, and transport that excavated material or spoil away from the site of the project and return to the site of the project.

(c) A contractor, subcontractor, agent, or other person performing work on a project subject to this section shall pay a truck driver who is an owner-operator of a truck separately for his or her work and for the use of his or her truck.
(3) INVESTIGATIONS; DETERMINATIONS. The department shall conduct investigations and hold public hearings necessary to define the trades or occupations that are commonly employed in the highway construction industry and to inform the department of the prevailing wage rates in all areas of the state for those trades or occupations, in order to ascertain and determine the prevailing wage rates accordingly.

is final.

a reference to the prevailing wage rates determined under sub. (3) and the prevailing
hours of labor in the notice published for the purpose of securing bids for a project.

determined under sub. (3) and the prevailing hours of labor shall be physically
incorporated into and made a part of the contract or subcontract. For a minor
subcontract, as determined by the department of workforce development, that
department shall prescribe by rule the method of notifying the minor subcontractor
of the prevailing wage rates and prevailing hours of labor applicable to the minor
subcontract. The prevailing wage rates and prevailing hours of labor applicable to
a contract or subcontract may not be changed during the time that the contract or
subcontract is in force. The department of transportation shall post the prevailing
wage rates determined by the department, the prevailing hours of labor, and the
provisions of subs. (2) and (7) in at least one conspicuous place that is easily
accessible to the employees on the site of the project.

**SECTION 1781.** 109.09 (3) of the statutes is repealed.

**SECTION 1782.** 111.01 of the statutes is created to read:

**111.01 Declaration of policy.** The public policy of the state as to employment relations and collective bargaining, in the furtherance of which this subchapter is enacted, is declared to be as follows:

(1) It recognizes that there are 3 major interests involved, namely: the public, the employee, and the employer. These 3 interests are to a considerable extent interrelated. It is the policy of the state to protect and promote each of these interests with due regard to the situation and to the rights of the others.
(2) Industrial peace, regular and adequate income for the employee, and uninterrupted production of goods and services are promotive of all of these interests. They are largely dependent upon the maintenance of fair, friendly, and mutually satisfactory employment relations and the availability of suitable machinery for the peaceful adjustment of whatever controversies may arise. It is recognized that certain employers, including farmers, farmer cooperatives, and unincorporated farmer cooperative associations, in addition to their general employer problems, face special problems arising from perishable commodities and seasonal production that require adequate consideration. It is also recognized that whatever may be the rights of disputants with respect to each other in any controversy regarding employment relations, they should not be permitted, in the conduct of their controversy, to intrude directly into the primary rights of 3rd parties to earn a livelihood, transact business, and engage in the ordinary affairs of life by any lawful means and free from molestation, interference, restraint, or coercion.

(3) Negotiations of terms and conditions of work should result from voluntary agreement between employer and employee. For the purpose of such negotiation an employee has the right, if the employee desires, to associate with others in organizing and bargaining collectively through representatives of the employee’s own choosing, without intimidation or coercion from any source.

(4) It is the policy of the state, in order to preserve and promote the interests of the public, the employee, and the employer alike, to establish standards of fair conduct in employment relations and to provide a convenient, expeditious, and impartial tribunal by which these interests may have their respective rights and obligations adjudicated. While limiting individual and group rights of aggression
and defense, the state substitutes processes of justice for the more primitive methods
of trial by combat.

**SECTION 1783.** 111.04 (1) and (2) of the statutes are consolidated, renumbered
111.04 and amended to read:

**111.04 Rights of employees.** Employees shall have the right of
self-organization and the right to form, join or assist labor organizations, to bargain
collectively through representatives of their own choosing, and to engage in lawful,
concerted activities for the purpose of collective bargaining or other mutual aid or
protection. (2) Employees shall also have the right to refrain from self-organization;
forming, joining, or assisting labor organizations; bargaining collectively through
representatives; or engaging in activities for the purpose of collective bargaining or
other mutual aid or protection such activities.

organization, employee agency, committee, association, or representation plan by
discrimination in regard to hiring, tenure, or other terms or conditions of
employment except in a collective bargaining unit where an all-union agreement is
in effect. An employer may enter into an all-union agreement with the voluntarily
recognized representative of the employees in a collective bargaining unit, where at
least a majority of such employees voting have voted affirmatively, by secret ballot,
in favor of the all-union agreement in a referendum conducted by the commission,
except that where the bargaining representative has been certified by either the
commission or the national labor relations board as the result of a representation
election, no referendum is required to authorize the entry into an all-union
agreement. An authorization of an all-union agreement continues, subject to the right of either party to the all-union agreement to petition the commission to conduct a new referendum on the subject. Upon receipt of the petition, if the commission determines there is reasonable ground to believe that the employees concerned have changed their attitude toward the all-union agreement, the commission shall conduct a referendum. If the continuance of the all-union agreement is supported on a referendum by a vote at least equal to that provided in this paragraph for its initial authorization, it may continue, subject to the right to petition for a further vote by the procedure under this paragraph. If the continuance of the all-union agreement is not supported on a referendum, it terminates at the expiration of the contract of which it is then a part or at the end of one year from the date of the announcement by the commission of the result of the referendum, whichever is earlier. The commission shall declare any all-union agreement terminated whenever it finds that the labor organization involved has unreasonably refused to receive as a member any employee of such employer. An interested person may, as provided in s. 111.07, request the commission to perform this duty.

**SECTION 1786.** 111.06 (1) (e) of the statutes is amended to read:

or preceding year.

(b) If a petition for judicial review of the findings and order of the commission
concerning the same violation as the violation giving rise to the action under par. (a)
is filed, the circuit court shall consolidate the proceeding for judicial review and the
action under par. (a).

subjected to unfair honesty testing or unfair genetic testing is not required to file a

The department shall publish the adjusted amounts calculated under this subdivision in the Wisconsin Administrative Register, and the adjusted amounts shall apply to actions commenced under sub. (1) (a) beginning on July 1 of the year of publication. This subdivision does not apply if the consumer price index for the 12-month period ending on December 31 of the preceding year did not increase over the consumer price index for the 12-month period ending on December 31 of the year before the preceding year.

Municipal employees have the right to refrain from any and all such activities. A general municipal employee may not be covered by a fair-share agreement unless the general municipal employee is in a collective bargaining unit containing a frontline worker. Unless the general municipal employee is covered by a fair-share agreement, a general municipal employee has the right to refrain from paying dues
while remaining a member of a collective bargaining unit. A public safety employee or, a transit employee, however, or a municipal employee in a collective bargaining unit containing a frontline worker may be covered by a fair-share agreement and be required to pay dues in the manner provided in the fair-share agreement; a fair-share agreement covering a public safety employee or a transit employee must contain a provision requiring the municipal employer to deduct the amount of dues as certified by the labor organization from the earnings of the employee affected by the fair-share agreement and to pay the amount deducted to the labor organization. A fair-share agreement covering a public safety employee or transit employee is subject to the right of the municipal employer or a labor organization to petition the commission to conduct a referendum. Such petition must be supported by proof that at least 30 percent of the employees in the collective bargaining unit desire that the fair-share agreement be terminated. Upon so finding, the commission shall conduct a referendum. If the continuation of the agreement is not supported by at least the majority of the eligible employees, it shall terminate. The commission shall declare any fair-share agreement suspended upon such conditions and for such time as the commission decides whenever it finds that the labor organization involved has refused on the basis of race, color, sexual orientation, gender expression, as defined in s. 111.32 (7j), gender identity, as defined in s. 111.32 (7k), creed, or sex to receive as a member any public safety employee or transit eligible municipal employee of the municipal employer in the bargaining unit involved, and such agreement is subject to this duty of the commission. 111.70 (3) (a) 6. To deduct labor organization dues from the earnings of a public
safety employee, or a transit employee, or a municipal employee who is in a collective
bargaining unit containing a frontline worker unless the municipal employer has
been presented with an individual order therefor, signed by the employee personally,
and terminable by at least the end of any year of its life or earlier by the public safety
employee or transit municipal employee giving at least 30 days’ written notice of such

is a frontline worker if the commission finds that the municipal employee has regular
job duties that include interacting with members of the public or with large populations of people or that directly involve the maintenance of public works. The commission may not determine that a public safety employee or a transit employee is a frontline worker.

**SECTION 1839.** 111.70 (4) (cg) (title), 1., 2., 3., 4. and 5. of the statutes are amended to read:

Upon failure of the requesting party to provide notice, the other party may provide notice to the commission. The notice shall specify the expiration date of the existing collective bargaining agreement, if any, and shall provide any additional information the commission may require on a form provided by the commission.

2. ‘Presentation of initial proposals; open meetings.’ The meetings between parties to a collective bargaining agreement or proposed collective bargaining agreement under this subchapter that involve a collective bargaining unit containing a transit employee or a frontline worker and that are held to present initial bargaining proposals, along with supporting rationale, are open to the public. 3. ‘Mediation.’ The commission or its designee shall function as mediator in labor disputes involving transit employees or municipal employees in a collective bargaining unit containing a frontline worker upon request of one or both of the parties, or upon initiation of the commission. The function of the mediator is to encourage voluntary settlement by the parties. No mediator has the power of compulsion.

4. ‘Grievance arbitration.’ Parties to a dispute pertaining to the meaning or application of the terms of a written collective bargaining agreement involving a collective bargaining unit containing a transit employee or a frontline worker may agree in writing to have the commission or any other appropriate agency serve as arbitrator or may designate any other competent, impartial, and disinterested person to serve as an arbitrator.

5. ‘Voluntary impasse resolution procedures.’ In addition to the other impasse resolution procedures provided in this paragraph, a municipal employer that employs a transit employee or a municipal employee in a collective bargaining unit containing a frontline worker and a labor organization may at any time, as a permissive subject of bargaining, agree in writing to a dispute settlement procedure, including binding interest arbitration, which is acceptable to the parties for resolving an impasse over terms of any collective bargaining agreement under this subchapter. The parties shall file a copy of the agreement with the commission. If the parties agree to any form of binding interest arbitration, the arbitrator shall give weight to the factors enumerated under subds. 7. and 7g.

At the time the petition is filed, the petitioning party shall submit in writing to the other party and the commission its preliminary final offer containing its latest proposals on all issues in dispute. Within 14 calendar days after the date of that submission, the other party shall submit in writing its preliminary final offer on all disputed issues to the petitioning party and the commission. If a petition is filed jointly, both parties shall exchange their preliminary final offers in writing and submit copies to the commission when the petition is filed.

Section 1841. 111.70 (4) (cg) 7r. d., e. and f. of the statutes are amended to read:

111.70 (4) (cg) 8m. ‘Term of agreement; reopening of negotiations.’ Except for the initial collective bargaining agreement between the parties and except as the parties otherwise agree, every collective bargaining agreement covering transit employees or a frontline worker shall be for a term of 2 years, but in no case may a collective bargaining agreement for any collective bargaining unit consisting of transit employees subject to this paragraph be for a term exceeding 3 years. No arbitration award involving transit employees or a frontline worker may contain a provision for reopening of negotiations during the term of a collective bargaining agreement, unless both parties agree to such a provision. The requirement for agreement by both parties does not apply to a provision for reopening of negotiations with respect to any portion of an agreement that is declared invalid by a court or administrative agency or rendered invalid by the enactment of a law or promulgation of a federal regulation.

**SECTION 1844.** 111.70 (4) (d) 1. of the statutes is amended to read:

Any individual employee, or any minority group of employees in any collective bargaining unit, shall have the right to present grievances to the municipal employer in person or through representatives of their own choosing, and the municipal employer shall confer with the employee in relation thereto, if the majority representative has been afforded the opportunity to be present at the conferences. Any adjustment resulting from these conferences may not be inconsistent with the conditions of employment established by the majority representative and the municipal employer.

111.70 (4) (d) 2. a. The commission may decide whether, in a particular case, the municipal employees in the same or several departments, divisions, institutions, crafts, professions, or other occupational groupings constitute a collective bargaining unit. Before making its determination, the commission may provide an opportunity for the municipal employees concerned to determine, by secret ballot, whether they desire to be established as a separate
collective bargaining unit. The commission may not decide, however, that any group of municipal employees constitutes an appropriate collective bargaining unit if the group includes both professional employees and nonprofessional employees, unless a majority of the professional employees vote for inclusion in the unit. The commission may not decide that any group of municipal employees constitutes an appropriate collective bargaining unit if the group includes both craft employees and noncraft employees unless a majority of the craft employees vote for inclusion in the unit. The commission shall place the professional employees who are assigned to perform any services at a charter school, as defined in s. 115.001 (1), in a separate collective bargaining unit from a unit that
includes any other professional employees whenever at least 30 percent of those
professional employees request an election to be held to determine that issue and a
majority of the professional employees at the charter school who cast votes in the
election decide to be represented in a separate collective bargaining unit.

fair-share or maintenance of membership agreement shall contain a provision
requiring the employer to deduct the amount of dues as certified by the labor

agreement and to pay the amount so deducted to the labor organization. Unless the

5. The person has income that comes principally from gambling or has been convicted of 2 or more gambling offenses.

6. The person has been convicted of crimes relating to prostitution.

9. The person has not been a resident of this state continuously for at least 90 days prior to the application date.

(cm) An applicant with 20 or more employees may not receive a permit under this section to operate as a marijuana distributor or marijuana retailer unless the applicant certifies to the department that the applicant has entered into a labor peace agreement, as defined in s. 94.56 (1) (a), and will abide by the terms of the agreement as a condition of maintaining a valid permit under this section. The applicant shall submit to the department a copy of the page of the labor peace agreement that contains the signatures of the union representative and the applicant.

(cn) The department shall use a competitive scoring system to determine which applicants are eligible to receive a permit under this section. The department shall issue permits to the highest scoring applicants that it determines will best protect the environment; provide stable, family-supporting jobs to local residents; ensure worker and consumer safety; operate secure facilities; and uphold the laws of the jurisdictions in which they operate. The department shall, using criteria established by rule, score an applicant for a permit to operate as a marijuana retailer on the applicant’s ability to articulate a social equity plan related to the operation of a marijuana retail establishment. The department may deny a permit to an applicant with a low score as determined under this paragraph. The department may request that the applicant provide any information or documentation that the department deems necessary for purposes of making a determination under this paragraph.

(d) 1. Before the department issues a new or renewed permit under this section, the department shall give notice of the permit application to the governing body of
the municipality where the permit applicant intends to operate the premises of a
marijuana producer, marijuana processor, marijuana distributor, marijuana
retailer, or microbusiness. No later than 30 days after the department submits the
notice, the governing body of the municipality may file with the department a written
objection to granting or renewing the permit. At the municipality’s request, the
department may extend the period for filing objections.

2. A written objection filed under subd. 1. shall provide all the facts on which
the objection is based. In determining whether to grant or deny a permit for which
an objection has been filed under this paragraph, the department shall give
substantial weight to objections from a municipality based on chronic illegal activity
associated with the premises for which the applicant seeks a permit or the premises
of any other operation in this state for which the applicant holds or has held a valid
permit or license, the conduct of the applicant’s patrons inside or outside the
premises of any other operation in this state for which the applicant holds or has held
a valid permit or license, and local zoning ordinances. In this subdivision, “chronic
illegal activity” means a pervasive pattern of activity that threatens the public
health, safety, and welfare of the municipality, including any crime or ordinance
violation, and that is documented in crime statistics, police reports, emergency
medical response data, calls for service, field data, or similar law enforcement agency
records.

(e) After denying a permit, the department shall immediately notify the
applicant in writing of the denial and the reasons for the denial. After making a
decision to grant or deny a permit for which a municipality has filed an objection
under par. (d), the department shall immediately notify the governing body of the
municipality in writing of its decision and the reasons for the decision.
(f) 1. The department’s denial of a permit under this section is subject to judicial review under ch. 227.

A person is not entitled to a refund of the fees paid under this subsection if the person’s permit is denied, revoked, or suspended.

(3) The department may not issue a permit under this section to operate any premises which are within 500 feet of the perimeter of the grounds of any elementary or secondary school, playground, recreation facility, child care facility, public park, public transit facility, or library.

(4) Under this section, a separate permit is required for and issued to each class of permittee, and the permit holder may perform only the operations authorized by the permit. A permit issued under this section is not transferable from one person to another or from one premises to another. A separate permit is required for each place in this state where the operations of a marijuana producer, marijuana processor, marijuana distributor, marijuana retailer, or microbusiness occur, including each retail outlet. No person who has been issued a permit to operate as a marijuana retailer, or who has any direct or indirect financial interest in the
operation of a marijuana retailer, shall be issued a permit to operate as a marijuana
producer, marijuana processor, or marijuana distributor. A person who has been
issued a permit to operate as a microbusiness is not required to hold separate permits
to operate as a marijuana processor, marijuana distributor, or marijuana retailer,
but shall specify on the person’s application for a microbusiness permit the activities
that the person will be engaged in as a microbusiness.

(a) does not meet the standards prescribed by the department, the department shall take the necessary action to ensure that the entire lot from which the sample was taken is destroyed. The department shall promulgate rules to determine lots and lot numbers for purposes of this subsection and for the reporting of lots and lot numbers to the department.

(10) (a) A marijuana processor or a microbusiness that operates as a marijuana processor shall affix a label to all usable marijuana that the marijuana processor or microbusiness sells to marijuana distributors. (2) If the department determines that any permittee’s records are not kept in the prescribed form or are in such condition that the department requires an unusual amount of time to determine from the records the amount of the tax due, the department shall give notice to the permittee that the permittee is required to revise the permittee’s records and keep them in the prescribed form. If the permittee fails to comply within 30 days, the permittee shall pay the expenses reasonably attributable to a proper examination and tax determination at the rate of $30 a day for each auditor used to make the examination and determination. The department shall send a bill for such expenses, and the permittee shall pay the amount of such bill within 10 days.

(3) If any permittee fails to file a report when due, the permittee shall be required to pay a late filing fee of $10. If a person claiming a lien on, or ownership of, the property notifies the department within the time prescribed in this subsection, the department may apply to the circuit court in the county where the property was seized for an order directing disposition of the property or the proceeds from the sale of the property. If the court orders the property to be sold, all liens, if any, may be transferred from the property to the sale proceeds. Neither the property seized nor the proceeds from the sale shall be turned over to any claimant of lien or ownership unless the claimant first establishes that the property was not used in connection with any violation under this subchapter or that, if so used, it was done without the claimant’s knowledge or consent and without the claimant’s knowledge of facts that should have given the claimant reason to believe it would be put to such use. If no claim of lien or ownership is established as provided under this subsection the property may be ordered destroyed.

139.978 Interest and penalties. (1) Any person who makes or signs any false or fraudulent report under this subchapter or who attempts to evade the tax

satisfactory evidence of federal adjusted gross income or projected federal adjusted
gross income of the owner and the owner’s spouse in the current year. The
department shall promulgate rules establishing criteria for determining what constitutes satisfactory evidence of federal adjusted gross income or projected federal adjusted gross income in a current year.

2. Except as provided in subd. 4., annual gross revenue shall be based upon the gross revenue of the business for the taxable year prior to the year in which the determination of failure is made. The department shall promulgate rules establishing criteria for determining what constitutes satisfactory evidence of gross revenue in a prior taxable year.

3. In order to be eligible for grant funds under this section, a business shall submit documentation required by the department under subd. 2. together with any application required by the governmental unit.

The department shall promulgate rules establishing criteria for determining what constitutes satisfactory evidence of gross revenue in a current year.

(e) The department of revenue shall, upon request by the department, verify the income information submitted by an applicant or grant recipient.

(4) Denial of Application. (a) The department or a governmental unit shall deny a grant application under this section if the applicant or a person who would be directly benefited by the grant intentionally caused the conditions which resulted
in a category 1 or 2 failing private on-site wastewater treatment system. The
department or governmental unit shall notify the applicant in writing of a denial,
including the reason for the denial.

(b) The department shall notify a governmental unit if an individual’s name
appears on the statewide support lien docket under s. 49.854 (2) (b). The department
or a governmental unit shall deny an application under this section if the name of
the applicant or an individual who would be directly benefited by the grant appears
on the statewide support lien docket under s. 49.854 (2) (b), unless the applicant or
individual who would be benefited by the grant provides to the department or
governmental unit a payment agreement that has been approved by the county child
support agency under s. 59.53 (5) and that is consistent with rules promulgated
under s. 49.858 (2) (a).

(5) USE OF FUNDS. (a) Except for grants under par. (b), funds available under
a grant under this section shall be applied to the rehabilitation or replacement of the
private on-site wastewater treatment system. An existing private on-site
wastewater treatment system may be replaced by an alternative private on-site
wastewater treatment system or by a system serving more than one principal
residence.

on-site wastewater treatment systems shall be applied to the installation and
monitoring of the experimental private on-site wastewater treatment systems.

(6) ALLOWABLE COSTS; STATE SHARE. (a) Except as provided in par. (e), costs
allowable in determining grant funding under this section may not exceed the costs
of rehabilitating or replacing a private on-site wastewater treatment system that
would be necessary to allow the rehabilitated system or new system to meet the
minimum requirements of the state plumbing code promulgated under s. 145.02.

(b) Except as provided in par. (e), costs allowable in determining grant funding
under this section may not exceed the costs of rehabilitating or replacing a private
on-site wastewater treatment system by the least costly methods, except that a
holding tank may not be used as the measure of the least costly method for
rehabilitating or replacing a private on-site wastewater treatment system other
than a holding tank.

(c) Except as provided in pars. (d) and (e), the state grant share under this
section is limited to $7,000 for each principal residence or small commercial
establishment to be served by the private on-site wastewater treatment system or
to the amount determined by the department based upon private on-site wastewater
treatment system grant funding tables, whichever is less. The department shall
prepare and publish private on-site wastewater treatment system grant funding
tables which specify the maximum state share limitation for various components and
costs involved in the rehabilitation or replacement of a private on-site wastewater
treatment system based upon minimum size and other requirements specified in the
state plumbing code promulgated under s. 145.02. The maximum state share
limitations shall be designed to pay approximately 60 percent of the average
allowable cost of private on-site wastewater treatment system rehabilitation or
replacement based upon estimated or actual costs of that rehabilitation or
replacement. The department shall revise the grant funding tables when it
determines that 60 percent of current costs of private on-site wastewater treatment
system rehabilitation or replacement exceed the amounts in the grant funding tables
by more than 10 percent, except that the department may not revise the grant
funding tables more often than once every 2 years.

(d) Except as provided in par. (e), if the income of a person who owns a principal
residence that is served by a category 1 or 2 failing private on-site wastewater
treatment system is greater than $32,000, the amount of the grant under this section
is limited to the amount determined under par. (c) less 30 percent of the amount by
which the person’s income exceeds $32,000.

(e) Costs allowable for experimental private on-site wastewater treatment
systems shall include the costs of installing and monitoring experimental private
on-site wastewater treatment systems installed under s. 145.02 (3) (b) and this
section. The department shall promulgate rules that specify how the department
will select, monitor and allocate the state share for experimental private on-site
wastewater treatment systems that the department funds under this section.

(7) Application. (a) In order to be eligible for a grant under this section, a
governmental unit shall make an application for replacement or rehabilitation of
private on-site wastewater treatment systems of principal residences or small
commercial establishments and shall submit an application for participation to the
department. The application shall be in the form and include the information the
department prescribes. In order to be eligible for funds available in a fiscal year, an
application is required to be received by the department prior to February 1 of the
previous fiscal year.

(b) Certify that grants will be used for private on-site wastewater treatment system replacement or rehabilitation for a principal residence or small commercial establishment owned by a person who meets the eligibility requirements under sub. (3), that the funds will be used as provided under sub. (5) and that allowable costs will not exceed the amount permitted under sub. (6).

(c) Certify that grants will be used for private on-site wastewater treatment systems which will be properly installed and maintained.

(d) Certify that grants provided to the governmental unit will be disbursed to eligible owners.

(e) Establish a process for regulation and inspection of private on-site wastewater treatment systems.

(f) Establish a system of user charges and cost recovery if the governmental unit considers this system to be appropriate. User charges and cost recovery may include the cost of the grant application fee and the cost of supervising installation and maintenance.

(g) Establish a system which provides for the distribution of grant funds received among eligible applicants based on the amount requested in the application as approved by the department. If the amount received by a county is insufficient to fully fund all grants, the county shall prorate grant funds on the same basis as sub. (11).

(9) ASSISTANCE. The department shall make its staff available to provide technical assistance to each governmental unit. The department shall prepare and
distribute to each participating governmental unit a manual of procedures for the
grant program under this section.

(10) Allocation of Funds. (a) Determination of eligible applications. At the
beginning of each fiscal year the department shall determine the state grant share
for applications from eligible owners received by participating governmental units.
The department may revise this determination if a governmental unit does not meet
the conditions specified under sub. (8) or if it determines that individuals do not meet
eligibility requirements under sub. (3).

(b) Allocation. The department shall allocate available funds for grants to each
participating governmental unit according to the total amount of the state grant
share for all eligible applications received by that governmental unit.

(c) Limitation; commercial establishments. The department may not allocate
more than 10 percent of the funds available under this subsection each fiscal year
for grants for small commercial establishments.

(d) Limitation; experimental private on-site wastewater treatment systems.
The department may not allocate more than 10 percent of the funds available under
this subsection each fiscal year for grants for the installation and monitoring of
experimental private on-site wastewater treatment systems.

(11) Prorating. (a) Except as provided in par. (d), the department shall prorate
available funds under this subsection if funds are not sufficient to fully fund all
applications. A prorated payment shall be deemed full payment of the grant.

(b) Except as provided in par. (d), if funds are sufficient to fully fund all category
1 but not all category 2 failing private on-site wastewater treatment systems, the
department shall fully fund all category 1 systems and prorate the funds for category
2 systems on a proportional basis.
(c) Except as provided in par. (d), if funds are not sufficient to fully fund all
category 1 failing private on-site wastewater treatment systems, the department
shall fund the category 1 systems on a proportional basis and deny the grant
applications for all category 2 systems.

(d) The department is not required to prorate available funds for grants for the
installation and monitoring of experimental private on-site wastewater treatment
systems.

(12) Determination of eligibility; disbursement of grants. (a) The
department shall review applications for participation in the state program
submitted under sub. (7). The department shall determine if a governmental unit
submitting an application meets the conditions specified under sub. (8).

(b) The department shall promulgate rules which shall define payment
mechanisms to be used to disburse grants to a governmental unit.

(13) Inspection. Agents of the department or the governmental unit may enter
premises where private on-site wastewater treatment systems are located pursuant
to a special inspection warrant as required under s. 66.0119, to collect samples,
records and information and to ascertain compliance with the rules and orders of the
department or the governmental unit.

(14) Enforcement. (a) If the department has reason to believe that a violation
of this section or any rule promulgated under this section has occurred, it may do any
of the following:

1. Cause written notice to be served upon the alleged violator. The notice shall
specify the alleged violation, and contain the findings of fact on which the charge of
violation is based, and may include an order that necessary corrective action be taken
within a reasonable time. This order shall become effective unless, no later than 30
days after the date the notice and order are served, the person named in the notice
and order requests in writing a hearing before the department. Upon this request
and after due notice, the department shall hold a hearing. Instead of an order, the
department may require that the alleged violator appear before the department for
a hearing at a time and place specified in the notice and answer the charges
complained of.

2. Initiate action under sub. (15).

(b) If after the hearing the department finds that a violation has occurred, it
shall affirm or modify its order previously issued, or issue an appropriate order for
the prevention, abatement or control of the violation or for other corrective action.
If the department finds that no violation has occurred, it shall rescind its order. Any
order issued as part of a notice or after hearing may prescribe one or more dates by
which necessary action shall be taken in preventing, abating or controlling the
violation.

(c) Additional grants under this section to a governmental unit previously
awarded a grant under this section may be suspended or terminated if the
department finds that a private on-site wastewater treatment system previously
funded in the governmental unit is not being or has not been properly rehabilitated,
constructed, installed or maintained.

(15) Penalties. Any person who violates this section or a rule or order
promulgated under this section shall forfeit not less than $10 nor more than $5,000

operation of “Class A”, “Class B”, “Class C”, “Class D” or “Class M” vehicles shall include both a knowledge test and an actual demonstration in the form of a driving skills test of the applicant’s ability to exercise ordinary and reasonable control in the operation of a representative vehicle. The department shall not administer a driving skills test to a person applying for authorization to operate “Class M” vehicles who has failed 2 previous such skills tests unless the person has successfully completed a rider course approved by the department. The department may, by rule, exempt certain persons from the rider course requirement of this paragraph. The department may not require a person who is applying for authorization to operate “Class M” vehicles and who has successfully completed a rider course approved by the Wisconsin department of transportation motorcycle safety program to hold an instruction permit under s. 343.07 (4) prior to the department’s issuance of a license authorizing the operation of “Class M” vehicles. In administering the knowledge test, the
department shall attempt to accommodate any special needs of the applicant. Except as may be required by the department for an “H” or “S” endorsement, the knowledge test is not intended to be a test for literacy or English language proficiency. This paragraph does not prohibit the department from requiring an applicant to correctly read and understand highway signs.

exchange without the federal platform, the rate is 3 percent.

(c) Beginning with the 3rd plan year for which the commissioner operates a
state-based exchange without the federal platform, the rate shall be set by the
commissioner by rule.
(5) Rules. The commissioner may promulgate rules necessary to implement this section.

SECTION 2917. 601.79 of the statutes is created to read:

601.79 Drug cost affordability review. (1) IDENTIFICATION OF DRUGS. The board shall identify prescription drug products that are any of the following:

(a) A brand name drug or biologic that, as adjusted annually to reflect adjustments to the U.S. consumer price index for all urban consumers, U.S. city average, as determined by the U.S. department of labor, has a launch wholesale acquisition cost of at least $30,000 per year or course of treatment or whose wholesale acquisition cost increased at least $3,000 during a 12–month period.

(b) A biosimilar drug that has a launch wholesale acquisition cost that is not at least 15 percent lower than the referenced brand biologic at the time the biosimilar is launched.

(c) A generic drug that has a wholesale acquisition cost, as adjusted annually to reflect adjustments to the U.S. consumer price index for all urban consumers, U.S. city average, as determined by the U.S. department of labor, that meets all of the following conditions:

1. Is at least $100 for a supply lasting a patient for a period of 30 consecutive days based on the recommended dosage approved for labeling by the U.S. food and drug administration, a supply lasting a patient for fewer than 30 days based on the recommended dosage approved for labeling by the federal food and drug
administration, or one unit of the drug if the labeling approved by the federal food
and drug administration does not recommend a finite dosage.

2. Increased by at least 200 percent during the preceding 12–month period, as
determined by the difference between the resulting wholesale acquisition cost and
the average of the wholesale acquisition cost reported over the preceding 12 months.

(d) Other prescription drug products, including drugs to address public health
emergencies, that may create affordability challenges for the healthcare system and
patients in this state.

(2) Affordability Review. (a) After identifying prescription drug products
under sub. (1), the board shall determine whether to conduct an affordability review
for each identified prescription drug product by seeking stakeholder input about the
prescription drug product and considering the average patient cost share of the
prescription drug product.

(b) The information to conduct an affordability review under par. (a) may
include any document and research related to the manufacturer’s selection of the
introductory price or price increase of the prescription drug product, including life
cycle management, net average price in this state, market competition and context,
projected revenue, and the estimated value or cost–effectiveness of the prescription
drug product.

(c) The failure of a manufacturer to provide the board with information for an
affordability review does not affect the authority of the board to conduct the review.

(3) Affordability Challenge. When conducting an affordability review of a
prescription drug product, the board shall determine whether use of the prescription
drug product that is fully consistent with the labeling approved by the federal food
and drug administration or standard medical practice has led or will lead to an
affordability challenge for the healthcare system in this state, including high
out-of-pocket costs for patients. To the extent practicable, in determining whether
a prescription drug product has led or will lead to an affordability challenge, the
board shall consider all of the following factors:

(a) The wholesale acquisition cost for the prescription drug product sold in this
state.

(b) The average monetary price concession, discount, or rebate the
manufacturer provides, or is expected to provide, to health plans in this state as
reported by manufacturers and health plans, expressed as a percent of the wholesale
acquisition cost for the prescription drug product under review.

(c) The total amount of the price concessions, discounts, and rebates the
manufacturer provides to each pharmacy benefit manager for the prescription drug
product under review, as reported by the manufacturer and pharmacy benefit
manager and expressed as a percent of the wholesale acquisition costs.

(d) The price at which therapeutic alternatives have been sold in this state.

(e) The average monetary concession, discount, or rebate the manufacturer
provides or is expected to provide to health plan payors and pharmacy benefit
managers in this state for therapeutic alternatives.

(f) The costs to health plans based on patient access consistent with labeled
indications by the federal food and drug administration and recognized standard
medical practice.

(g) The impact on patient access resulting from the cost of the prescription drug
product relative to insurance benefit design.

(h) The current or expected dollar value of drug–specific patient access
programs that are supported by the manufacturer.
(i) The relative financial impacts to health, medical, or social services costs that can be quantified and compared to baseline effects of existing therapeutic alternatives.

(j) The average patient copay or other cost sharing for the prescription drug product in the state.

(k) Any information a manufacturer chooses to provide.

(L) Any other factors as determined by the board by rule.

4 Upper Payment Limit. (a) If the board determines under sub. (3) that use of a prescription drug product has led or will lead to an affordability challenge, the board shall establish an upper payment limit for the prescription drug product after considering all of the following:

1. The cost of administering the drug.

2. The cost of delivering the drug to consumers.

3. Other relevant administrative costs related to the drug.

(b) For a prescription drug product identified in sub. (1) (d), the board shall solicit information from the manufacturer regarding the price increase. To the extent that the price increase is not a result of the need for increased manufacturing capacity or other effort to improve patient access during a public health emergency, the board shall establish an upper payment limit under par. (a) that is equal to the cost to consumers prior to the price increase.

(c) 1. The upper payment limit established under this subsection shall apply to all purchases and payor reimbursements of the prescription drug product dispensed or administered to individuals in this state in person, by mail, or by other means.
2. Notwithstanding subd. 1., while state-sponsored and state-regulated health plans and health programs shall limit drug reimbursements and drug payment to no more than the upper payment limit established under this subsection, a plan subject to the Employee Retirement Income Security Act of 1974 or Part D of Medicare under 42 USC 1395w-101 et seq. may choose to reimburse more than the upper payment limit. A provider who dispenses and administers a prescription drug product in this state to an individual in this state may not bill a payor more than the upper payment limit to the patient regardless of whether a plan subject to the Employee Retirement Income Security Act of 1974 or Part D of Medicare under 42 USC 1395w-101 et seq. chooses to reimburse the provider above the upper payment limit.

(5) PUBLIC INSPECTION. Information submitted to the board under this section shall be open to public inspection only as provided under ss. 19.31 to 19.39.

(6) NO PROHIBITION ON MARKETING. Nothing in this section may be construed to prevent a manufacturer from marketing a prescription drug product approved by the federal food and drug administration while the prescription drug product is under review by the board.

(7) APPEALS. A person aggrieved by a decision of the board may request an appeal of the decision no later than 30 days after the board makes the determination. The board shall hear the appeal and make a final decision no later than 60 days after the appeal is requested. A person aggrieved by a final decision of the board may petition for judicial review in a court of competent jurisdiction.

SECTION 2918. 601.83 (1) (a) of the statutes is amended to read:

601.83 (1) (a) The commissioner shall administer a state-based reinsurance program known as the healthcare stability plan in accordance with the specific terms
and conditions approved by the federal department of health and human services dated July 29, 2018. Before December 31, 2023, the commissioner may not request from the federal department of health and human services a modification, suspension, withdrawal, or termination of the waiver under 42 USC 18052 under which the healthcare stability plan under this subchapter operates unless legislation has been enacted specifically directing the modification, suspension, withdrawal, or termination. Before December 31, 2023, the commissioner may request renewal, without substantive change, of the waiver under 42 USC 18052 under which the health care stability plan operates in accordance with s. 20.940 (4) unless legislation has been enacted that is contrary to such a renewal request. The commissioner shall comply with applicable timing in and requirements of s. 20.940.

SECTION 2919. 609.045 of the statutes is created to read:

609.045 Balance billing; emergency medical services. (1) Definitions.

In this section:

(a) “Emergency medical services” means emergency medical services for which coverage is required under s. 632.85 (2) and includes emergency medical services described under s. 632.85 (2) as if section 1867 of the federal Social Security Act applied to an independent freestanding emergency department.

(b) “Preferred provider plan,” notwithstanding s. 609.01 (4), includes only any preferred provider plan, as defined under s. 609.01 (4), that has a network of participating providers and imposes on enrollees different requirements for using providers that are not participating providers.

(c) “Self-insured governmental plan” means a self-insured health plan of the state or a county, city, village, town, or school district that has a network of
participating providers and imposes on enrollees in the self-insured health plan
different requirements for using providers that are not participating providers.

(2) EMERGENCY MEDICAL SERVICES. A defined network plan, preferred provider
plan, or self-insured governmental plan that covers any benefits or services provided
in an emergency department of a hospital or emergency medical services provided
in an independent freestanding emergency department shall cover emergency
medical services in accordance with all of the following:

(a) The plan may not require a prior authorization determination.

(b) The plan may not deny coverage based on whether or not the health care
provider providing the services is a participating provider or participating
emergency facility.

(c) If the emergency medical services are provided to an enrollee by a provider
or in a facility that is not a participating provider or facility, the plan complies with
all of the following:

1. The emergency medical services are covered without imposing on an enrollee
a requirement for prior authorization or any coverage limitation that is more
restrictive than requirements or limitations that apply to emergency medical
services provided by participating providers or in participating facilities.

2. Any cost-sharing requirement imposed on an enrollee for the emergency
medical service is no greater than the requirements that would apply if the
emergency medical service were provided by a participating provider or in a
participating facility.

3. Any cost-sharing amount imposed on an enrollee for the emergency medical
service is calculated as if the total amount that would have been charged for the
emergency medical service if provided by a participating provider or in a
participating facility is equal to the amount paid to the provider or facility that is not
a participating provider or facility as determined by the commissioner.

4. The plan does all of the following:
   a. No later than 30 days after the provider or facility transmits to the plan the
      bill for emergency medical services, sends to the provider or facility an initial
      payment or a notice of denial of payment.
   b. Pays to the provider or facility a total amount that, incorporating any initial
      payment under subd. 4. a., is equal to the amount by which the rate for a provider
      or facility that is not a participating provider or facility exceeds the cost–sharing
      amount.

5. The plan counts any cost–sharing payment made by the enrollee for the
emergency medical services toward any in–network deductible or out–of–pocket
maximum applied by the plan in the same manner as if the cost–sharing payment
was made for an emergency medical service provided by a participating provider or
in a participating facility.

(3) Provider billing limitation for emergency medical services; ambulance
services. A provider of emergency medical services or a facility in which emergency
medical services are provided that is entitled to payment under sub. (2) may not bill
or hold liable an enrollee for any amount for the emergency medical service that is
more than the cost–sharing amount determined under sub. (2) (c) 3. for the
emergency service. A provider of ambulance services that is not a participating
provider under an enrollee’s defined network plan, preferred provider plan, or
self–insured governmental plan may not bill or hold liable an enrollee for any
amount of the ambulance service that is more than the cost–sharing amount that the
enrollee would be charged if the provider of ambulance services was a participating provider under the enrollee’s plan.

(4) NONPARTICIPATING PROVIDER IN PARTICIPATING FACILITY. For items or services other than emergency medical services that are provided to an enrollee of a defined network plan, preferred provider plan, or self-insured governmental plan by a provider who is not a participating provider but who is providing services at a participating facility, the plan shall provide coverage for the item or service in accordance with all of the following:

(a) The plan may not impose on an enrollee a cost-sharing requirement for the item or service that is greater than the cost-sharing requirement that would have been imposed if the item or service was provided by a participating provider.

(b) Any cost-sharing amount imposed on an enrollee for the item or service is calculated as if the total amount that would have been charged for the item or service if provided by a participating provider is equal to the amount paid to the provider that is not a participating provider as determined by the commissioner.

(c) No later than 30 days after the provider transmits the bill for services, the plan shall send to the provider an initial payment or a notice of denial of payment.

(d) The plan shall make a total payment directly to the provider that provided the item or service to the enrollee that, added to any initial payment described under par. (c), is equal to the amount by which the out-of-network rate for the item or service exceeds the cost-sharing amount.

(e) The plan counts any cost-sharing payment made by the enrollee for the item or service toward any in-network deductible or out-of-pocket maximum applied by the plan in the same manner as if the cost-sharing payment was made for the item or service when provided by a participating provider.
(5) CHARGING FOR SERVICES BY NONPARTICIPATING PROVIDER; NOTICE AND CONSENT.

(a) Except as provided in par. (c), a provider of an item or service that is entitled to payment under sub. (4) may not bill or hold liable an enrollee for any amount for the item or service that is more than the cost-sharing amount determined under sub. (4) (b) for the item or service unless the nonparticipating provider provides notice and obtains consent in accordance with all of the following:

1. The notice states that the provider is not a participating provider in the enrollee’s defined network plan, preferred provider plan, or self-insured governmental plan.

2. The notice provides a good faith estimate of the amount that the provider may charge the enrollee for the item or service involved, including notification that the estimate does not constitute a contract with respect to the charges estimated for the item or service.

3. The notice includes a list of the participating providers at the facility that would be able to provide the item or service and notification that the enrollee may be referred to one of those participating providers.

4. The notice includes information about whether or not prior authorization or other care management limitations may be required before receiving an item or service at the participating facility.

5. The enrollee provides consent to the provider to be treated by the nonparticipating provider, and the consent acknowledges that the enrollee has been informed that the charge paid by the enrollee may not meet a limitation that the enrollee’s defined network plan, preferred provider plan, or self-insured governmental plan places on cost sharing, such as an in-network deductible.
6. A signed copy of the consent described under subd. 5. is provided to the enrollee.

(b) To be considered adequate, the notice and consent under par. (a) shall meet one of the following requirements, as applicable:

1. If the enrollee makes an appointment for the item or service at least 72 hours before the day on which the item or service is to be provided, any notice under par. (a) shall be provided to the enrollee at least 72 hours before the day of the appointment at which the item or service is to be provided.

2. If the enrollee makes an appointment for the item or service less than 72 hours before the day on which the item or service is to be provided, any notice under par. (a) shall be provided to the enrollee on the day that the appointment is made.

(c) A provider of an item or service that is entitled to payment under sub. (4) may not bill or hold liable an enrollee for any amount for the ancillary item or service that is more than the cost-sharing amount determined under sub. (4) (b) for the item or service, unless the commissioner specifies by rule that the provider may balance bill for the specified item or service, if the ancillary item or service is any of the following:

1. Related to an emergency medical service.

2. Anesthesiology.

3. Pathology.

5. Neonatology.

6. A item or service provided by an assistant surgeon, hospitalist, or intensivist.

7. Diagnostic service, including a radiology or laboratory service.
8. An item or service provided by a specialty practitioner that the commissioner
specifies by rule.

9. An item or service provided by a nonparticipating provider when there is no
participating provider who can furnish the item or service at the participating
facility.

(6) NOTICE BY PROVIDER OR FACILITY. Beginning no later than January 1, 2022,
a health care provider or health care facility shall make available, including posting
on an Internet site, to enrollees in defined network plans, preferred provider plans,
and self-insured governmental plans notice of the requirements on a provider or
facility under subs. (3) and (5), of any other applicable state law requirements on the
provider or facility with respect to charging an enrollee for an item or service if the
provider or facility does not have a contractual relationship with the plan, and of
information on contacting appropriate state or federal agencies in the event the
enrollee believes the provider or facility violates any of the requirements under this
section or other applicable law.

(7) NEGOTIATION; DISPUTE RESOLUTION. A provider or facility that is entitled to
receive an initial payment or notice of denial under sub. (2) (c) 4. a. or (4) (c) may
initiate, within 30 days of receiving the initial payment or notice of denial, open
negotiations with the defined network plan, preferred provider plan, or self-insured
governmental plan to determine a payment amount for the emergency medical
service or other item or service for a period that terminates 30 days after initiating
open negotiations. If the open negotiation period under this subsection terminates
without determination of a payment amount, the provider, facility, defined network
plan, preferred provider plan, or self-insured governmental plan may initiate,
within the 4 days beginning on the day after the open negotiation period ends, the
independent dispute resolution process as specified by the commissioner. If the independent dispute resolution decision maker determines the payment amount, the party to the independent dispute resolution process whose amount was not selected shall pay the fees for the independent dispute resolution. If the parties to the independent dispute resolution reach a settlement on the payment amount, the parties to the independent dispute resolution shall equally divide the payment for the fees for the independent dispute resolution.

(8) Continuity of Care. (a) In this subsection:

1. “Continuing care patient” means an individual who is any of the following:
   a. Undergoing a course of treatment for a serious and complex condition from a provider or facility.
   b. Undergoing a course of institutional or inpatient care from a provider or facility.
   c. Scheduled to undergo nonelective surgery, including receipt of postoperative care, from a provider or facility.
   d. Pregnant and undergoing a course of treatment for the pregnancy from a provider or facility.
   e. Terminally ill and receiving treatment for the illness from a provider or facility.

2. “Serious and complex condition” means any of the following:
   a. In the case of an acute illness, a condition that is serious enough to require specialized medical treatment to avoid the reasonable possibility of death or permanent harm.
b. In the case of a chronic illness or condition, a condition that is life-threatening, degenerative, potentially disabling, or congenital and requires specialized medical care over a prolonged period of time.

(b) If an enrollee is a continuing care patient and is obtaining items or services from a participating provider or facility and the contract between the defined network plan, preferred provider plan, or self-insured governmental plan and the participating provider or facility is terminated or the coverage of benefits that include the items or services provided by the participating provider or facility are terminated by the plan, the plan shall do all of the following:

1. Notify each enrollee of the termination of the contract or benefits and of the right for the enrollee to elect to continue transitional care from the provider or facility under this subsection.

2. Provide the enrollee an opportunity to notify the plan of the need for transitional care.

3. Allow the enrollee to elect to continue to have the benefits provided under the plan under the same terms and conditions as would have applied to the item or service if the termination had not occurred for the course of treatment related to the enrollee’s status as a continuing care patient beginning on the date on which the notice under subd. 1. is provided and ending 90 days after the date on which the notice under subd. 1. is provided or the date on which the enrollee is no longer a continuing care patient, whichever is earlier.

(9) RULE MAKING. The commissioner may promulgate any rules necessary to implement this section, including specifying the independent dispute resolution process. The commissioner may promulgate rules to modify the list of those items and services for which a provider may not balance bill under sub. (5) (c).

**SECTION 3027.** 765.001 (2) of the statutes is amended to read:

> 765.001 (2) INTENT. It is the intent of chs. 765 to 768 to promote the stability and best interests of marriage and the family. It is the intent of the legislature to recognize the valuable contributions of both spouses during the marriage and at termination of the marriage by dissolution or death. Marriage is the institution that is the foundation of the family and of society. Its stability is basic to morality and civilization, and of vital interest to society and the state. The consequences of the marriage contract are more significant to society than those of other contracts, and the public interest must be taken into account always. The seriousness of marriage makes adequate premarital counseling and education for family living highly desirable and courses thereon are urged upon all persons contemplating marriage. The impairment or dissolution of the marriage relation generally results in injury to the public wholly apart from the effect upon the parties immediately concerned. Under the laws of this state, marriage is a legal relationship between 2 equal persons, a husband and wife, who owe to each other mutual responsibility and support. Each spouse has an equal obligation in accordance with his or her ability to contribute money or services or both which are necessary for the adequate support
and maintenance of his or her minor children and of the other spouse. No spouse may be presumed primarily liable for support expenses under this subsection.

SECTION 3028. 765.01 of the statutes is amended to read:

765.01 A civil contract. Marriage, so far as its validity at law is concerned, is a civil contract, to which the consent of the parties capable in law of contracting is essential, and which creates the legal status of husband and wife spouse to each other.

SECTION 3029. 765.02 (3) of the statutes is created to read:

765.02 (3) Marriage may be contracted between persons of the same sex or different sexes.

SECTION 3030. 765.03 (1) of the statutes is amended to read:

765.03 (1) No marriage shall be contracted while either of the parties has a husband or wife spouse living, nor between persons who are nearer of kin than 2nd cousins except that marriage may be contracted between first cousins where the female has attained the age of 55 years or where if either party, at the time of application for a marriage license, submits an affidavit signed by a physician stating that either party is permanently sterile or that the 2 parties are otherwise permanently biologically incapable of producing a child together. Relationship under this section shall be computed by the rule of the civil law, whether the parties to the marriage are of the half or of the whole blood. A marriage may not be contracted if either party has such want of understanding as renders him or her incapable of assenting to marriage.

SECTION 3031. 765.16 (1m) (intro.) of the statutes is amended to read:

765.16 (1m) (intro.) Marriage may be validly solemnized and contracted in this state only after a marriage license has been issued therefor, and only by the mutual
declarations of the 2 parties to be joined in marriage that they take each takes the
other as husband and wife his or her spouse, made before an authorized officiating
person and in the presence of at least 2 competent adult witnesses other than the
officiating person. The following are authorized to be officiating persons:

SECTION 3032. 765.16 (1m) (c) of the statutes is amended to read:

765.16 (1m) (c) The 2 parties themselves, by mutual declarations that they
take each takes the other as husband and wife his or her spouse, in accordance with
the customs, rules, and regulations of any religious society, denomination, or sect to
which either of the parties may belong.

SECTION 3033. 765.23 of the statutes is amended to read:

765.23 Immaterial irregularities otherwise. No marriage hereafter
contracted shall be void either by reason of the marriage license having been issued
by a county clerk not having jurisdiction to issue the same; or by reason of any
informality or irregularity of form in the application for the marriage license or in
the marriage license itself, or the incompetency of the witnesses to such marriage;
or because the marriage may have been solemnized in a county other than the county
prescribed in s. 765.12, or more than 30 days after the date of the marriage license,
if the marriage is in other respects lawful and is consummated with the full belief
on the part of the persons so married, or either of them, that they have been lawfully
joined in marriage. Where a marriage has been celebrated in one of the forms
provided for in s. 765.16 (1m), and the parties thereto have immediately thereafter
assumed the habit and repute of husband and wife a married couple, and having
continued the same uninterruptedly thereafter for the period of one year, or until the
death of either of them, it shall be deemed that a marriage license has been issued
as required by ss. 765.05 to 765.24 and 767.803.
SECTION 3034. 765.24 of the statutes is amended to read:

765.24 Removal of impediments to subsequent marriage. If a person during the lifetime of a husband or wife spouse with whom the marriage is in force, enters into a subsequent marriage contract in accordance with s. 765.16, and the parties thereto live together thereafter as husband and wife a married couple, and such subsequent marriage contract was entered into by one of the parties in good faith, in the full belief that the former husband or wife spouse was dead, or that the former marriage had been annulled, or dissolved by a divorce, or without knowledge of such former marriage, they the parties shall, after the impediment to their marriage has been removed by the death or divorce of the other party to such former marriage, if they continue to live together as husband and wife a married couple in good faith on the part of one of them, be held to have been legally married from and after the removal of such impediment and the issue of any children born during such subsequent marriage shall be considered as the marital issue children of both parents parties.

SECTION 3035. 765.30 (3) (a) of the statutes is amended to read:

765.30 (3) (a) Penalty for unlawful solemnization of marriage. Any officiating person who solemnizes a marriage unless the contracting parties have first obtained a proper marriage license as heretofore provided; or unless the parties to such marriage declare that they take each takes the other as husband and wife his or her spouse; or without the presence of 2 competent adult witnesses; or solemnizes a marriage knowing of any legal impediment thereto; or solemnizes a marriage more than 30 days after the date of the marriage license; or falsely certifies to the date of a marriage solemnized by the officiating person; or solemnizes a marriage in a county other than the county prescribed in s. 765.12.

that issued the order under par. (a) a receipt from the sheriff or firearms dealer
indicating that the respondent surrendered the firearms.

relevant to the surrender of firearms.

issued at a hearing to surrender firearms, or a law enforcement officer has probable
cause to believe that the respondent possesses a firearm, the law enforcement officer
shall request a search warrant to seize the firearms and may use information
contained in the petition to establish probable cause.

The legislature intends that by amending the statutes relating to marriage and the determination of parentage with respect to married couples to use gender neutral language where appropriate so as to clarify that the same statutory rights and responsibilities apply between married persons of the same sex as between married persons of different sexes and to extend some of the presumptions of paternity to either parent, the Wisconsin statutes will be better aligned with the holding of the U.S. Supreme Court in Obergefell v. Hodges, 135 S. Ct. 2584, 192 L. Ed. 2d 609 (2015), which recognizes that same-sex couples have a fundamental constitutional right to marriage.
