AN ACT to create 238.18 of the statutes; relating to: rural economic development programs administered by the Wisconsin Economic Development Corporation and farm support grants.

Analysis by the Legislative Reference Bureau
This bill requires the governor to allocate $50,000,000 of the funds accepted under the federal American Rescue Plan Act of 2021 (ARPA) for the Wisconsin Economic Development Corporation to do all of the following:

1. Expend moneys for any economic development program WEDC is administering as of the date on which the bill becomes law if the expenditure assists economic development in a rural county.

2. Expend moneys for any economic development program WEDC begins administering after the date on which the bill becomes law if the expenditure assists economic development in a rural county. The bill requires passive review by the Joint Committee on Finance before WEDC first expends moneys allocated under the bill on each such program and requires WEDC to adopt policies and procedures establishing, to the extent feasible, matching requirements for any such expenditure.

3. Subject to passive review by JCF, award grants to state agencies, including other authorities, if WEDC determines that a state agency’s expenditure of the grant moneys will assist economic development in a rural county.

4. Award onetime grants to certain county and regional economic development organizations serving rural counties for the purpose of creating or expanding...
revolving loan funds that promote economic development and entrepreneurial start-ups in rural counties. The bill additionally authorizes WEDC to award limited onetime grants to such organizations for the organizations’ program operations and marketing in rural counties.

With respect to WEDC’s administration of all of the programs described above, the bill requires WEDC to make every effort to ensure that underserved communities in rural counties are prioritized. Additionally, under the bill, WEDC must submit a report to JCF no later than June 30 of each fiscal year in which WEDC expends moneys allocated under the bill that describes in detail WEDC’s use of those moneys in that fiscal year.

The bill also requires the governor to allocate $50,000,000 of the funds accepted under ARPA for the Department of Revenue to provide grants to farmers. Under the bill, a farmer is eligible for a grant if the farmer’s gross sales of farm products for 2019 exceeds $35,000 but not does exceed $5,000,000 and the farmer has experienced financial hardship as a result of the COVID-19 pandemic. The bill directs DOR to consult with the Department of Agriculture, Trade and Consumer Protection in providing the grants.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
