Analysis by the Legislative Reference Bureau

Under current law, a motor vehicle dealer must be licensed by the Department of Transportation. Also under current law, a manufacturer of motor vehicles may not operate or control a motor vehicle dealership. Under this bill, a manufacturer of electric motor vehicles may engage in the business of a motor vehicle dealer with regard to the electric motor vehicles it manufactures.

Also under current law, with several exceptions, a manufacturer, importer, or distributor may not perform warranty service or delivery and preparation work on a motor vehicle that it does not own or authorize or permit a person to perform warranty service or delivery and preparation work on a motor vehicle unless the person is a motor vehicle dealer with whom the manufacturer, importer, or distributor has entered into a franchise agreement for the sale and service of the manufacturer’s, importer’s, or distributor’s motor vehicles. Under the bill, this prohibition does not apply to a manufacturer of electric motor vehicles with regard to the electric motor vehicles it manufactures.
For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
