AN ACT to create 601.31 (1) (nw) and 632.864 of the statutes; relating to:

pharmacy services administrative organizations.

Analysis by the Legislative Reference Bureau

This bill requires that pharmacy services administrative organizations (PSAOs) be licensed by the Office of the Commissioner of Insurance. Under the bill, a PSAO is an entity operating in Wisconsin that does all of the following:

1. Contracts with an independent pharmacy to conduct business on the pharmacy’s behalf with a third-party payer.

2. Provides at least one administrative service to an independent pharmacy and negotiates and enters into a contract with a third-party payer or pharmacy benefit manager on the pharmacy’s behalf.

The bill defines “independent pharmacy” to mean a licensed pharmacy operating in Wisconsin that is under common ownership with no more than two other pharmacies. “Administrative service” is defined to mean assisting with claims or audits, providing centralized payment, performing certification in a specialized care program, providing compliance support, setting flat fees for generic drugs, assisting with store layout, managing inventory, providing marketing support, providing management and analysis of payment and drug dispensing data, or providing resources for retail cash cards. The bill defines “third-party payer” to mean an entity operating in Wisconsin that pays or insures health, medical, or prescription drug expenses on behalf of beneficiaries. The bill uses the current law definition of “pharmacy benefit manager,” which is an entity doing business in Wisconsin that contracts to administer or manage prescription drug benefits on behalf of an insurer or other entity that provides prescription drug benefits to state residents.
To obtain the license required by the bill, a person must apply to OCI and provide the contact information for the applicant and a contact person, evidence of financial responsibility of at least $1,000,000, and any other information required by the commissioner. Under the bill, the license fee is set by the commissioner and the term of a license is two years.

The bill also requires that a PSAO disclose to OCI the extent of any ownership or control by an entity that provides pharmacy services; provides prescription drug or device services; or manufactures, sells, or distributes prescription drugs, biologicals, or medical devices. The PSAO must notify OCI within five days of any material change in its ownership or control related to such an entity.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
