2021 SENATE BILL 675

AN ACT to repeal 46.245, 253.095, 253.10, 253.105, 441.07 (1g) (f), 457.26 (2) (gm), 632.8985, 940.04 and 940.15 (5); to amend 48.375 (4) (a) 1., 69.186 (1) (hf), 69.186 (1) (k), 253.107 (1) (b), 448.02 (3) (a), 939.75 (2) (b) 1. and 968.26 (1b) (a) 2. a.; and to create 253.094 of the statutes; relating to: right to choose an abortion and elimination of certain abortion-related regulations.

Analysis by the Legislative Reference Bureau

The bill specifies that every individual has the fundamental right to choose to obtain a safe and legal abortion. Under the bill, the state may prohibit an individual from obtaining an abortion after viability unless the individual’s life or health is endangered. Also under the bill, a law or rule of this state that restricts an individual’s access to abortion is unenforceable if the law or rule does not confer any legitimate health benefit. Any person that is or may be aggrieved by the enforcement of a law or rule passed or promulgated after the effective date of the bill that would be unenforceable under the bill may bring an action in state or federal court for injunctive relief or damages against a state or local official who enforces or attempts to enforce such a law or rule.

In addition, the bill repeals various abortion-related laws, including all of the following:

1. The bill eliminates requirements for voluntary and informed consent before the performance of an abortion. Current law requires that a woman upon whom an abortion is to be performed or induced must give voluntary and informed written

consent to an abortion. Except in a medical emergency, a woman’s consent to an abortion is considered informed only if, before the abortion is performed or induced at a time specified in current law, the physician or an assistant has, in person, orally provided the woman with certain information and given to the woman certain written materials.

2. This bill eliminates the prohibition on giving a woman an abortion-inducing drug unless the physician who provided the drug for the woman performs a physical exam on the woman and is physically present in the room when the drug is given to the woman.

3. The bill eliminates the prohibition on coverage of abortions by qualified health plans offered through an exchange in this state.

4. The bill eliminates the prohibition on performing abortions by a physician who does not have admitting privileges in a hospital within 30 miles of the location where the abortion is to be performed. Under a federal appellate court ruling, the requirement to have admitting privileges currently may not be enforced.

5. Under current law, any person, other than the mother, who intentionally destroys the life of an unborn child may be fined not more than $10,000, imprisoned for not more than six years, or both. Any person, other than the mother, who intentionally destroys the life of an unborn child or causes the mother’s death by an act done with intent to destroy the life of an unborn child may be fined not more than $50,000, imprisoned for not more than 15 years, or both. None of these penalties apply to a therapeutic abortion that is performed by a physician; that is necessary, or advised by two other physicians as necessary, to save the life of the mother; and that is performed, except on an emergency basis, in a licensed maternity hospital. These provisions were cited, along with other provisions not affected by this bill that prohibit performing an abortion generally, in Roe v. Wade, 410 U.S. 113 (1973), as substantially similar to a Texas statute that was held to violate the due process clause of the 14th Amendment to the U.S. Constitution. The bill repeals these provisions. The bill also repeals the criminal penalty on a person who is not a physician and who intentionally performs an abortion. The bill, however, does not affect any other criminal prohibition or limitation on abortion in current law, such as the prohibition on performing an abortion after the fetus or unborn child has reached viability, or any other homicide prohibition. The bill also does not affect a separate provision in current law that prohibits prosecution of and imposing or enforcing a fine or imprisonment against a woman who obtains an abortion or otherwise violates any abortion law with respect to her unborn child or fetus.
