AN ACT to amend 71.07 (9) (b) 5.; and to create 71.07 (9) (be) and 71.07 (9) (g) of the statutes; relating to: increasing the school property tax credit due to virtual instruction during the 2021-22 school year.

Analysis by the Legislative Reference Bureau

This bill increases the school property tax credit for residents of school districts that are closed to in-person instruction for more than 10 days of instruction during the second half of the 2021-22 school year. For taxable year 2022, the credit is increased by an amount equal to the claimant’s property taxes or rent constituting property taxes attributable to the period from January 1, 2022, to July 1, 2022, multiplied by the ratio of days during the period that public schools in the school district in which the claimant resides were closed to in-person instruction to the total days of instruction. The maximum increase in the credit is limited to 10 percent of the claimant’s property taxes or rent constituting property taxes attributable to the period from January 1, 2022, to July 1, 2022, which is increased to 25 percent if the claimant’s dependent attends school in the school district. The bill’s provision allowing an increased credit does not apply if the claimant’s adjusted gross income exceeds $80,000, or $150,000 in the case of a married couple filing a joint return.

Under the bill, school districts must disclose to the Department of Revenue the information about school days needed to calculate the increased credit, and DOR must publicly disclose that information on its Internet site.
For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
