**ASSEMBLY SUBSTITUTE AMENDMENT 1,  
TO SENATE BILL 1014**

February 22, 2024 - Offered by Representative EMERSON.

1 **AN ACT relating to:** funding for supplemental health care services grants.

---

***Analysis by the Legislative Reference Bureau***

This bill specifies that the Joint Committee on Finance may provide up to \$15,000,000 in funding in the 2023–25 fiscal biennium, from the JCF supplemental appropriation, for supplemental health care services grants to fund health care providers that commit to providing health care services in the Department of Health Services area administration western region, and that, in addition, agree to use any grant funds for expenditures to aid in providing health care services in that region. The bill provides that a health care provider that is no longer offering services in Eau Claire County or Chippewa County after March 22, 2024, is not eligible for a grant.

Under the bill, DHS may submit a request to JCF for this funding with a plan that identifies each health care provider requesting funding, describes the types of expenditures for which the requested funding would be used, and prioritizes grant awards to support hospital or other urgently needed health care services in Eau Claire County and Chippewa County.

The bill provides that if JCF determines that the requirements set forth in the bill are satisfied, JCF may approve the plan and request for funding, as proposed or as modified, and may provide funding, not exceeding a total of \$15,000,000, to DHS to provide supplemental health care services grants to health care providers as provided in the approved plan. The bill requires a report to JCF and the legislature that includes the amount of funding received, a detailed description of all expenditures for which the funding was used, and the impact of the funding on the

health care services of the health care providers that received a grant. The bill provides that no moneys may be appropriated for supplemental health care services grants after June 30, 2025.

Under the bill, DHS may require a health care provider who has received a grant to repay the amount of the grant to DHS if DHS determines that the health care provider has expended grant moneys for purposes that are inconsistent with the bill, including by ceasing to provide health care services in DHS area administration western region during the 2023-25 fiscal biennium.
