## ENROLLED JOINT RESOLUTION

---

**Relating to:** proclaiming April 2023 as Donate Life Month in Wisconsin.

Whereas, each year since 2003, during the month of April, we recognize the critical need for organ, eye, and tissue donation and honor those individuals who have donated life; and

Whereas, three million Wisconsinites are registered as organ, tissue, and eye donors in Wisconsin; and

Whereas, the list of people awaiting organ transplants in Wisconsin numbers 1,700 names and, nationally, 110,000 individuals are on the national organ transplant waiting list; and

Whereas, every nine minutes, another man, woman, or child is added to the national transplant waiting list; and

Whereas, in 2022, the United States reached a historic milestone of one million organ transplants, more than any other country in the world; and

Whereas, despite the success of current efforts, around 17 people die each day waiting for an organ transplant; and

Whereas, in 2021, 6,000 people died on the transplant waiting list. Around 85 percent of patients in need are waiting for a kidney; and

Whereas, nearly 29,000 units of red blood are used in the United States every day, and blood supply reserves are often low because, while someone needs blood every two seconds, less than 10 percent of the population donates blood annually; and

Whereas, a single individual's donation of heart, lungs, liver, kidneys, pancreas, and small intestine can save up to eight lives, and donation of tissue can help save or enhance the lives of as many as 75 recipients; and

Whereas, almost every individual, regardless of age, is a potential organ, tissue, bone marrow, or blood donor; and

Whereas, transplantation has become an element of mainstream medicine to prolong and enhance life; now, therefore, be it
