

Fiscal Estimate Narratives

DPI 2/19/2024

LRB Number	23-4768/1	Introduction Number	AB-1067	Estimate Type	Original
Description the filing of nomination papers by certain candidates for local elective office					

Assumptions Used in Arriving at Fiscal Estimate

This bill requires that nomination papers be filed by all candidates for election to the school board.

Under current law, school districts may, but are not required to, provide for the filing of nomination papers for the school board.

Local Fiscal Impact: Indeterminate

As proposed, the impact for school districts new to the process (or new staff fulfilling the duties) will require training and additional time dedicated to new job responsibilities. WASB provides training in the process. It is unknown how many school districts are familiar with the process and would therefore need to expend resources for staff training.

Long-Range Fiscal Implications

There are no long-range fiscal implications.
