Description
 use of artificial intelligence by state agencies and staff reduction goals

Fiscal Effect

State:

- No State Fiscal Effect
- Indeterminate
 - Increase Existing Appropriations
 - Decrease Existing Appropriations
 - Create New Appropriations
- Increase Existing Revenues
- Decrease Existing Revenues
- Increase Costs - May be possible to absorb within agency's budget
 - Yes
 - No
- Decrease Costs

Local:

- No Local Government Costs
- Indeterminate
 - 1. Increase Costs 3. Increase Revenue
 - Permissive Mandatory Permissive Mandatory
 - 2. Decrease Costs 4. Decrease Revenue
 - Permissive Mandatory Permissive Mandatory
- 5. Types of Local Government Units Affected
 - Towns Village Cities
 - Counties Others
 - School Districts WTCS Districts

Fund Sources Affected **Affected Ch. 20 Appropriations**

Description use of artificial intelligence by state agencies and staff reduction goals					

Assumptions Used in Arriving at Fiscal Estimate

Beginning in 2030, the bill requires state agencies to include a proposal to reduce the number of authorized positions with their budget request submissions to the Department of Administration.

The bill also requires beginning in 2026 that each agency submits a report in even-numbered years that identifies full-time equivalent positions within the agency whose work could be made more efficient through the use of artificial tools. The bill also requires the Legislative Audit Bureau to conduct an audit of each agency's use of artificial intelligence tools to increase efficiency and carry out the agency's functions.

Fiscal Estimate

The bill will require a one-time cost of \$3,900,690 to create an additional section within the Division of Technical Services to manage artificial intelligence software. The cost includes staff, training, and initial licensing costs.

The bill will incur an annual cost of \$3,850,090 related to the new section staff and annual artificial intelligence licensing costs.

Long-Range Fiscal Implications
