Description sending notice of changed assessment by email					

Assumptions Used in Arriving at Fiscal Estimate

The bill requires the assessor to send the notice of assessment change by email if the taxpayer's email has been filed with the assessor. The bill also requires that the assessor send the notice of assessment change 30 days prior to the meeting of the board of review or board of assessors rather than the 15 days under current law.

The bill would have an indeterminate cost to local governments. The email provision would result in costs for developing and maintaining an automated system to email property assessment notices. The bill will create timing changes to contracts between assessors and municipalities that contain dates for the notice of distribution and open book at the board of review. These changes would likely result in higher costs for local governments.

The department can absorb minimal administrative costs due to updating the notice of assessment, forms, training materials, and publications.

Long-Range Fiscal Implications
