Assumptions Used in Arriving at Fiscal Estimate

This bill requires a school board, governing body of a private school, or operator of a charter school that hosts a youth athletic activity between May 1 and September 30 to ensure that a cold-water immersion tub that complies with standards established by the Department of Health Services is available to individuals participating in the youth athletic activity.

Under the bill, a youth athletic activity is an organized athletic activity in which the participants, a majority of whom are under 19 years of age, are engaged in an athletic game or competition against another team, club, or entity, or in practice or preparation for an organized athletic game or competition against another team, club, or entity.

It is anticipated that schools will incur additional costs to purchase cold-water immersion tubs, in addition to any related maintenance and training costs. DPI does not have information regarding the number of public, private and charter schools which currently make cold-water immersion tubs available at youth athletic activities the school hosts. It is also unknown whether schools would purchase portable cold-water tubs or stationary tubs. Since tub costs vary significantly depending on the type and brand purchased, the costs would likely vary from school to school. For these reasons the costs to schools are indeterminate.

Long-Range Fiscal Implications
