Description						
designating a bridge in Pierce County as the Eisenhower Bridge of Valor						

## Assumptions Used in Arriving at Fiscal Estimate

This bill requires the Department to designate and mark the bridge on USH 63 across the Mississippi River in Pierce County as the "Eisenhower Bridge of Valor". The Department would place one sign, at the Wisconsin side of the bridge in accordance with the Wisconsin Manual of Uniform Traffic Control Devices. The sign would have white lettering on a brown background, which would match the sign that MNDOT has placed on their side of the bridge. The wording on the sign would be: Eisenhower Bridge of Valor. The cost of the sign would be estimated at \$400.00. This cost includes manufacturing and installation of the one sign. The cost can be absorbed by the Department's existing budget.

The Department must follow the requirements of the Wisconsin Manual of Uniform Traffic Control Devices for signage when marking this memorial bridge.

## Long-Range Fiscal Implications

This sign will require ongoing maintenance and replacement every 12 years. Replacement of the sign is estimated to cost \$175.00. All long-term costs assume no post-replacements, which would increase the costs.
