**Assumptions Used in Arriving at Fiscal Estimate**

This bill will have no annual fiscal effect on the Department of Transportation. It will create no new annual expenditures or revenues.

The Department has already developed informational materials on highway work zone safety, so there will be no cost to develop materials.

This will not result in changes in policy regarding how driver education schools are licensed or audited, and the Department will be determining the teaching materials, however, how the additional teaching material may financially affect programs taught by school districts or other local institutions is indeterminate due to a lack of data.
