**Assumptions Used in Arriving at Fiscal Estimate**

This bill requires the Higher Education Aids Board (HEAB) to prepare a list of Wisconsin's 50 most in-demand jobs in cooperation with the Department of Workforce Development (DWD). The proposed list includes information on each job's average starting salary and required education level. This bill is estimated to have no material fiscal impact on DWD because the department already gathers that information as a part of the agency's standard operations. DWD regularly collects labor market data on job growth, job openings, and those positions' required education level and average salaries.
