<b>Description</b> regulating trampoline parks, providing an exemption from emergency rule procedures, and granting rule-making authority					

### Assumptions Used in Arriving at Fiscal Estimate

Subject to specified exemptions, this bill prohibits a person from operating a trampoline park without an annual license issued by the Department of Safety and Professional Services.

For license issuance or renewal, the operator of a trampoline park must pay a fee specified in rules promulgated by DSPS. The operator must also submit a certificate of insurance demonstrating that the operator has liability coverage of at least \$1,000,000 in the aggregate and \$500,000 per incident to cover injuries to participants arising out of any negligence or misconduct by the operator or the trampoline park's staff in the construction, maintenance, or operation of the trampoline park. If the required insurance ever lapses, expires, or is cancelled, the operator must notify DSPS within 24 hours.

The bill creates three exemptions from the above licensing requirement. First, if a playground is an incidental amenity operated by a school, city, village, town, or county, and the operator does not primarily derive revenue from operating the playground for a fee, the bill does not apply to the playground. Second, the bill also does not apply to a nonrecreational training or rehearsal facility for gymnastics, dance, cheer, or tumbling that satisfies specified requirements. Third, the bill does not apply to an inflatable ride, an inflatable bounce house, or equipment used exclusively for exercise.

The bill imposes the duties on an operator of a trampoline park who is not subject to one of the named exemptions. The bill also imposes responsibilities on individuals who use trampoline parks, including reading and following all posted signs and warnings, avoiding bodily contact with other trampoliners or spectators, refraining from acting in a manner that may cause injury to others, and not participating in trampolining when under the influence of drugs or alcohol.

DSPS estimates a total of \$17,400 in one-time costs and \$40,600 in annual costs for staffing and an indeterminate IT impact to implement the bill. The estimated one-time staffing need for 0.2 limited term employees (LTE) is for rule promulgation and legal review, staff training, and forms and sites creation. The estimated annual staffing need for 0.4 full time employees (FTE) is to account for additional workload including inspections, responding to inquiries, investigating complaints, and prosecution of cases. The one-time and annual estimated costs cannot be absorbed in the currently appropriated agency budget.
