Fiscal Estimate Narratives

DOJ 3/27/2023

LRB Number	23-0063/1	Introduction Number	SB-0073	Estimate Type	Original
Description prostitution crime surcharge and making an appropriation					

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a \$5,000 surcharge to be imposed on persons who are convicted of patronizing prostitutes, soliciting prostitutes, pandering or keeping a place of prostitution. Half of the surcharge revenues will be deposited into an existing Department of Justice appropriation that supports criminal investigations, law enforcement activities and prosecutions targeting internet crimes against children. The revenue supports state and local law enforcement agencies participating in the statewide Internet Crimes Against Children Taskforce and investigations of internet-based child sex trafficking.

The department is unable to reasonably estimate the increase in revenue from this surcharge because accurate information on the number of convictions subject to the surcharge is not available from existing crime data sources. The state's Uniform Crime Reporting data does not break out arrests by specific statute and number of arrests that result in convictions is unknown. In addition, the percentage of the surcharge that will be eventually collected based on the amount imposed would be an estimate.

Of the additional revenue received from the surcharge, the department estimates at least one third would be passed directly through to local law enforcement affiliates based on current expenditures from the appropriation.

Long-Range Fiscal Implications
