<b>Description</b> replacing the expenditure restraint incentive program with a municipality payment program and making an appropriation					

**Assumptions Used in Arriving at Fiscal Estimate**

The bill ends payment to qualifying municipalities for the expenditure restraint incentive program (ERIP) in 2023, and it creates the municipality payment program beginning in 2024. Under the municipality payment program, a municipality qualifies based on receiving an expenditure restraint incentive payment in 2021, 2022, and 2023. Under the bill, a municipalities payment is equal to the highest expenditure restraint incentive program payment received during the period from 2021 through 2023.

Under the bill, based on the highest ERIP payments for the period of 2021 through 2023, payments for the municipal payment program are estimated at \$65.50 million, a \$7.35 million increase over the \$58.15 million in ERIP payments. 420 municipalities would receive a payment under the municipal payment program, with a median payment of \$24,400. The median payment for the top ten recipients would be \$2.11 million.

The department has \$42,600 in one-time administrative costs for computer programming changes.

**Long-Range Fiscal Implications**
